REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29eawlm

Matrimonial.

LADIES AND GENTLEMEN: If you wish to marry you can do so by addressing me. I will send you, without charge and without publicity, valuable information, that will enable you to marry happy and speedily, irrespective of age, wealth or locality. This information will cost you nothing, and if you wish to marry, I will cheerfully assist you. All letters strictly confidential. The desired information sent by return mail, and no reward asked. Please inclose postage, or stamped envelope addressed to yourself. Address,

SARAH B. LAMBERT, Greenpoint.

daw3msn Kings Co., New York.

Proclamation No. 64.

All peaceable and well disposed citizens who will purchase one bottle of PEASE'S VEGETABLE HAIR RENEWER, will find the result as follows: It will turn your Gray Hairs to their natural color; it will prevent your hair from falling off or becoming gray; it will keep your head clean and healthy; it will dress your hair beautifully; it does not smell of sulphur. Ask your druggist for Pease's Hair Renewer, and take no other. Also, PEASE'S PHILOCOME is unsurpassed as a Hair Dressing. No Lady will be without it who knows its value. *See Circulars.*

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humor from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—**$1 per Bottle.**

TEBBETTS BROS., Proprietors,
Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. sp7m6md

CLOCK'S
Excelsior Hair Restorer

is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; cause the hair to grow on BALD HEADS when fallen off by disease, and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, 2 Congress Block.

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers her

SOOTHING SYRUP
For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to you selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it that we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.
Price, Only 35 Cents per Bottle.

Local.

☞ The late mysterious poisoning raid on Dogs in this city, besides causing not a little grief and indignation among the owners of "valuable" curs, was also productive of some fun as well.

One little dog was for some time lying on the sidewalk in State, near Pleasant street, and supposed to be nearly dead; so a well-intentioned individual gave him several lusty blows, to end his misery,—and a City official passing, doggy was pitched into his wagon, to be thrown off the wharf. But on the way, he showed signs of life, and the driver of his hearse gave him more clips, enough to kill three such dogs, on which our little hero lay himself down for the last time once more; but before the wagon reached the water, he jumped out and ran off home! and if he don't "still live," he ought to.

Another gentleman, whose business parades somewhat of the artistic, and who lives in the outskirts of the city, has a dog which he prized so highly as to keep him shut up at home during the late excitement. But one day, while fondly imagining Rover safe at home, he was surprised to find him in his shop-yard, dying; and soon he was a subject for burial, and was interred "decently and in order." But on going home, and condoling with his wife over their loss, what was his new surprise and joy, when she called the dog from his safe confinement!

POLICE COURT, August 16th.—John Thompson, drunk, fine and costs $6.86.

Wm. Skea, ditto, ditto.

Michael Long, drunk for the third time, sent to the H. of C. (House of Commons) for 30 days, and pay $3.86 costs.

Wm. Stevenson, assault on Mark Spinney. Bound over in $200.

James Mates and Thomas Palmer, for asserting the superiority of the white race, by assault on a colored man, were each fined $7, and costs $2.87.

Communication.

THE FRANKLIN.—It has been stated in some of the newspapers of Boston that the steamer Franklin has recently arrived at that Yard from the Navy Yard, Portsmouth, N. H., "where she has been over thirty years in course of construction." For the purpose of correcting this statement I send you the following facts in relation to this ship:

The old sailing ship-of-the-line Franklin was towed from the Charlestown Navy Yard to the Portsmouth Navy Yard in the summer of 1851, for the purpose of testing the Floating Dry Dock at that place, then about completed, under the contract of Messrs. Gilbert & Secor. She had but a short time previous been sent from the New York Navy Yard, where she had been used as a Receiving Ship since her return in 1824 from her three years' cruise in the Pacific, under Comr. Charles Stewart. She was put in Dock, hauled up on the Railway, and put afloat by the contractors of the Floating Dry Dock during the latter part of May and the first of June, 1852. She was again docked and hauled up on the Railway in Dec., 1852, and having been found unfit for repairs, was broken up during the summer and fall of 1853.

The new steamer Franklin was commenced building in May, 1854, and work was suspended on her in April, 1857, she being then ready for caulking. Work was resumed on her in May, 1864,—caulking, &c., preparatory to launching. The ship was launched from the ship house (where her keel had been laid ten years before,) Sept. 17th, 1864. She remained at the wharf until July 18th, 1865, and was then put in dock, preparatory to being sent to the Charleston Navy Yard to receive her machinery. She left the Portsmouth Navy Yard Aug. 12th, 1865, and was towed to the Charleston Navy Yard by the steamer Vanderbilt. NAUTICUS.

☞ The great auction sale of Linens and Housekeeping Goods, by H. F. Wendell, No. 70 State street, is drawing to a close. This afternoon, at 2 1-2 o'clock, a splendid variety will be offered for sale. Ladies who are in want of fine goods, do not miss this fine opportunity of purchasing at your own prices. X.

☞ Parties and excursions down river are very common, as well as very nice; but going *up* river is still nicer, as well as much more rare. The Philharmonic Society's excursion this afternoon, advertised in another place, affords a fine opportunity for visiting Dover Point, one of the most picturesque spots in the State.

☞ The U. S. Monitor "Agamenticus," with Adm. Farragut, Sec. Fox, and quite a party on board, returned to this Navy Yard from Portland, on Tuesday. She is to go into the Dry Dock.

☞ Our city clock, unlike the coal miners, is not on a "strike," but has remained silent for some days, on account of a break in the striking apparatus.

☞ The Beer Powder advertised by Messrs. Chapin & Yeaton will be found a capital article for those who enjoy "pop."

☞ Rev. Justin Spaulding, a Methodist clergyman, formerly located in this city, died recently at Moretown, Vt.

THE OLD ALLEGHANIANS.—*A Great Musical Treat.*—The celebrated Alleghanians, Vocalists and Swiss Bell Ringers, lately returned from a tour round the world, are coming to our city. They will appear on Friday and Saturday evenings, Aug. 18th and 19th. Every one, "with music in his soul," will attend. The following is an extract from a letter written by the Rev. J. Griffith Dunn, Rector of St. Paul's Church, Trinidad, to a friend in Jamaica, West Indies:

The pieces selected were chaste, as are all the pieces performed by these artists, and the sentiments of a pure and elevating character. Above all other popular amusements, music should receive the liberal patronage of every community. Its benign influences stop not alone with amusement, but tune the mind and feelings for a higher, purer, and more lasting enjoyment. It prepares the recipient alike for religious devotion and for the more refined enjoyments of social and domestic life. In this light the Alleghanians pre-eminently command the respect and patronage of the public.

☞ Mr. E. C. Eastman, of Concord, has recently published a new and beautiful edition of his White Mountain Guide Book—which is by far the best thing of the kind issued; and the trip without it is incomplete.

— Much quarreling took place in the Democratic convention which nominated Daniel S. Fox for Mayor of Philadelpia, on Wednesday, and two delegates were so seriously stabbed that both are expected to die of their wounds.

— The extensive machine shop of the Troy and Boston railroad, in Troy, was totally destroyed by fire on Tuesday night. Three locomotives were burned. Cause, accidental; loss, $20,000. Fully insured.

— Messrs. Patten & Hamblin, on Hobson's wharf, Portland, were robbed of $22,900, in bonds, money and notes, on Tuesday evening. The safe was blown open. No clue to the robbers.

— The London Lancet advocates the practice of writing prescriptions in the venacular tongue, and asserts that it has long been the custom of many eminent physicians to do so.

— The latest returns from Kentucky indicate a pro-slavery majority of 7000, with a majority of 6 in the Senate and 14 in the House.

— Statistics show that during the rebellion our armies captured over 300,000 prisoners, besides paroling about 160,000 more of the final surrender.

— Paradoxical as it may seem, the oil wells of Barren County, Kentucky, are said to be in active operation and likely to become very profitable.

—The Charles River Trotting Park, one of the best in New England, was opened on Tuesday at Milford, Mass.

— Prentice doesn't believe that anybody really contemplated such a deed of petty larceny as the stealing of Geo. N. Sanders.

— Major General Hooker has recently been made a Major General in the regular army.

THE "PHILHARMONIC" EXCURSION AND PIC NIC, at Dover Point, will take place this (Thursday) Afternoon, Aug. 17th, at half-past four o'clock, in steamer Pioneer. Members can procure Tickets for themselves and friends at T. F Burtt's and J. H. Head's Stores; or of G. M. Goodrich, Dr. E. B. Goodall, or Geo. W. Marston, Com. Arr.

Tickets $1, admitting a gentleman and two ladies; Lady members of the Society will receive free tickets, on application to the above Com.—other ladies' tickets 50 cts. each.

Lamprey & Tompson's Quadrille Band will be in attendance. Supper at the Dover Point House at 6 o'clock, for those who secure supper tickets of the Com. at $1 extra. PicNic served on the lawn by the party at same hour. Per order.

BEHIND THOSE ROSEATE GATES, the lips of girlhood, ther should be a fragrant palace, elegantly furnished with ivory and coral. To drop metaphor—young ladies, you should keep your teeth and gums in perfect order, if you hope in after-life to enjoy the blessings of a sound set of dentals and a sweet breath.—What will enable you to do this? you ask. Fragrant Sozodont, we reply. 2

McKellar's Beer Powder,
For making all kinds of
Small Beer—Spruce, Lemon, Sarsaparilla and Cheeryberry.
PATENTED MAY 14, 1860.
Manufactured by the American Beer Powder Co., Thomaston, Me.

This new and useful article is composed of very healthful Roots and Herbs, selected with great care by the inventor, who is an experienced Beer Maker.

Beer made from this Powder is a very cheap and pleasant drink. It is also very highly esteemed for its Medicinal properties. It purifies the blood and regulates and strengthens the whole system, and as ordinary beverage and every day drink, it is unsurpassed in its agreeable and healthful qualities.

The manner of making Beer from this Powder is so easy and simple that any one can make it with a very little trouble. This Powder, if kept dry, will remain good any length of time in any climate, consequently seafaring men can carry it with them and make Beer on board their vessels whether at sea or in port.

Families and Shop-keepers can make their beer from this Powder as easily as they can a Ginger drink. Its cheapness and the easy method of its use makes it the most economical and by far the best preparation for this purpose before the public. Only a fair trial of this powder is required to convince any one of the truth of the above.

☞ **EACH BOX GUARANTEED.**

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, *and Jan.* 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

And all the work of a Family *of any size,*

AT LESS THAN

One-Third the Cost of Wood or Coal!

THIS NEW

PETROLEUM Cooking APPARATUS

Is WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in 15 minutes	
Common potatoes baked	" 20 "
Flour Biscuit baked	" 15 "

And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

No. 46 MARKET STREET.

Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to

JOHN S. HARVEY,

Je20 47 Congress st., Portsmouth.

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operating over six months, has more than 4000 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the facts, will see at once that the croakings of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

---

The Old Established Hospital,

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Years Established in this Institution exclusively.

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are unlimited in correspondence: with the most eminent Physicians of the Old World, of obtaining the latest as well as the valuable remedies for the diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubon, Ulcerated Throat, Sore Mouth, Nose, Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly cured under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of life, are warned against the ruin consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every case, of the following ills, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The sad effects of secret habits of this delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Married or the thoughtless—Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts., or two for 25 cts., under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the care of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, recommended by Dr. Hollick in Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unprecedented in the annals of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

STOVES,

KITCHEN FURNISHING GOODS,

FARMING TOOLS, &c.

THE MAGEE

COOKING STOVE.

The subscriber would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier and the oven larger than usual. The oven plates are covered with plates, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which lightens them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Nise, and others.

☞ FOR SALE BY ALL DRUGGISTS.

SPANISH ROUGE,

FOR POLISHING,

XL

Or Cleaning Gold, Silver, Silver Plated, Brittania, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For the purpose intended this article cannot be beat. Twenty-five cents investing in a package of this, will add more to the looks of a home than one hundred dollars spent in new ware. Every article of any kind of metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which causes a smile upon the faces of all. The labor of keeping every article of metal polished with the Spanish Rouge is reduced to a mere pastime and pleasure. It removes the tarnish at the touch of the hand. *It is a mineral without any composition whatever, therefore can do no harm.*

Put up in three different qualities, for the finest Gold to the coarsest Metals.

Try the Spanish Rouge, and it will become a household word and a great assistant. Every person who has a ring or car-drop, to an engine manufacturer, needs it. For sale by Druggists and Grocery Dealers everywhere.

Lt. Comd'r J. YOUNG, Commanding.

July 31st, 1865.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practice combined with the skill of experience, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the constitution, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment will find it so far from being furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has on hand, free of French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having devoted his whole practice to this office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in his profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.—*Herald.*

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1865. eod&wly

PAINT! PAINT!

Winter's Metallic Brown Paint

RECOMMENDS ITSELF.

It is a pure oxide of Iron and Manganese. It unites readily with Linseed Oil, taking two gal Oil to one gal Paint. It is durable, economical, and possesses more body than any other paint. It forms a glossy, unfading, durable *metallic coat*, protecting wood from decay, and Iron or other metals from rust or corrosion.

☞ It does not require grinding, and is warranted to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.

Daily Morning Chronicle

VOL. XXVII. PORTSMOUTH, N. H. THURSDAY, JULY 20, 1865: 198. No. 16.

The Chronicle.

A DIFFICULTY.—The Boston Herald's special Washington dispatch of Monday says:

Provisional Governor Perry, of South Carolina, arrived here suddenly to-night from that State. Serious difficulties in the matter of re-construction have already arisen in South Carolina.

So it seems.—And it will probably turn out that a good strict military officer must govern the chivalry of S. C., till they are qualified for self-government. They are utter strangers to anything like democracy, republicanism, liberty, equality and fraternity. They are to be pitied as well as blamed,—for their education has been all the wrong way.

THE DAUGHTERS OF THE F. F. V.'s, in Richmond, are now engaged in working on clothing, for the U. S. Government Bureau. Six hundred are thus employed at their own residences, earning about $5 per week. The clothing they make is intended for the colored troops in Texas. It would be a matter of some interest, to ascertain the opinion entertained of the national authorities by these feminine representatives of Virginia secession. They might be excused from indulging in a few petulant outbursts on reflecting that they earn their own raiment by manufacturing garments for men they have long trodden under foot. The colored soldier and the white female secessionist have, in many instances, changed places in a most remarkable manner.—*Trans.*

— About twenty women of Eastmanville, Mich., armed with switches, proceeded to the house of one Taylor, one evening recently, and gave him a lively thrashing for maltreating his wife, and keeping a disreputable woman as a domestic.

— The Richmond Republic says the agricultural population prefer the labor of their slaves to any other labor whatever, although at first there was a strong feeling in favor of getting rid of the negro altogether, and importing white labor.

NO DEMAND.—The buildings erected in Burlington, VT., by Bishop Hopkins, for a theological seminary, are offered for sale. There is no call for the pro-slavery religion which the Bishop teaches.

— The great difficulty of acquiring the English language which a foreigner must experience, is well illustrated by the following question: "Did you ever see a person pare an apple or pear with a pair of scissors?"

— Bishop Southgate is said to be the New York clergyman who married a New York heiress without the consent of her "cruel parients."

NEW HAMPSHIRE BIRD LAW.

AN ACT to promote the interests of Agriculture.

SEC. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob-o'-links, yellow-birds, linnets, fly-catchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shallbetween the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sel, buy, or have in possession, any of said birds,* taken or killed, whether in this State or elsewhere,—he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars;* and for other birds named above, the sum of *One Dollar;* to be recovered by complaint before any Justice of the Peace.

SEC. 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County, or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.

SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant,* and one-half to the use of the town or city where the same shall be recovered.

Approved, July 8, 1862.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages not enjoyed elsewhere, of obtaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them anywhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST EVIDENCE OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him, on any mechanical question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy,* and more capable of putting their applications in form to secure for them an early and favorable consideration at the Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has secured to me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending.* Such numerous and decisive proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications to SECOND APPEALS, EVERY ONE of which was decided in *his favor,* by the Commissioner of Patents. R. H. EDDY.
Boston, Jan. 1, 1865.—8tawly

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to safely and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 28 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines carefully put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that attends see none but the Doctor himself.
Address DR. BRISCOE, at No. 28 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. TfSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 28 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Carriages.
Persons thinking of purchasing CARRIAGES, would do well to call on or address

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JULY 20, 1865.

COPPERHEADS ON THE RAMPAGE.—At Belvidere, N. J., on the 4th inst., Rev. Mr Landon delivered a patriotic address, which was not relished by the copperheads. So as soon as the address was concluded, Judge Jacob Sharp forced himself upon the stand, excitedly proclaiming that there had been "an abolition prayer" and "a nigger political speech" made, and that there had been "no Fourth of July," winding up by inviting the *democracy* to assemble at the stand at two o'clock, to listen to able *democratic* speeches and *prayers*, in opposition to the political speech and prayers that had just been delivered. But not satisfied with this demonstration, Judge Sharp proceeded to the tables where the ladies were giving the returned soldiers a dinner, and mounting one of the tables attempted to break up the dinner, assisted by his copperhead friends. One of the rowdies began a harangue, denouncing the dinner as a Republican affair. A fight ensued, during which Judge Sharp's Southern son-in-law ran up and down the tables smashing the crockery and destroying the eatables. With much difficulty order was restored, and after some Union demonstrations the copperheads drew off their forces.

We make a broad distinction between copperheads and democrats, yet all the former claim the democratic *name*, and claim to be the directors and managers of the party, as we see in the above item. But it now seems highly probable, almost certain, that the *leaders*, who pursue such a course, will be deserted by a considerable portion of their followers, who may have been deceived by their lying talk about peace and war, but who can now see plainly it was not peace they were after, but power and plunder. Their smashing of the soldiers' dinner, will not be likely to give them many soldiers' votes.

CHARLES SUMNER, of Boston, has recently received from Savannah the following brief letter from a Committee of colored men, representatives of the Union League in Savannah:—

Sir,—We, the undersigned Committee of the Union League of Savannah, Ga., have the honor to present to you these our petitions to His Excellency Andrew Johnson, President of the United States, signed personally by the hands of some three hundred and fifty loyal citizens. We respectfully ask that you will present them to His Excellency the President, and we beg that your Honor will use all of your influence in our behalf.

To this Mr. Sumner returned the following answer, in which he speaks, not exactly by authority, perhaps, but from knowledge, and with confidence:—

Gentlemen:—Your petition, asking for the right to vote, has been forwarded to me here with the request that I would present it to the President. I regret much my absence from Washington has prevented me from doing this in person; but I have lost no time in forwarding the petition to the President, with my most earnest recommendation.

You need not ask me to use influence in your behalf. I cannot help doing so to the extent of my ability.

Allow me to add that you must not be impatient. You have borne the heavier burthens of slavery; and as these have ended, be assured that the others will end also. This enfranchised republic, setting an example to mankind, cannot continue to sanction an odious Oligarchy, whose single distinctive element is color. I have *no doubt* that you will be admitted to the privileges of citizens.

It is impossible to suppose that Congress will sanction any governments in the rebel States which are not founded on "the consent of the governed." This is the corner-stone of Republican institutions. Of course by the "governed" is meant all the loyal citizens without distinction of color. Anything else is a mockery.

Do not neglect your work; but meanwhile prepare yourselves for the duties of citizens. They are yours of right, and I do not doubt that they will be yours soon in reality. The prejudice of cast and a false interpretation of the constitution cannot prevail against justice and common sense, both of which are on your side; and I may add, the Constitution, also, which, when properly interpreted, is clearly on your side.

Accept my best wishes, and believe me, fellow citizens. Faithfully yours,

CHARLES SUMNER.

IMPORTANT LEGAL DECISION.—The Boston Post's New Orleans correspondent writes:

In the U. S. District Court the intervention suits of the Citizen's Bank and of Macuard & Co., in the confiscation of John Slidell's property, have been decided adversely. The first claim was founded on a mortgage, executed here, before the war broke out, by Mr. Slidell's agent, in favor of the Citizen's Bank for 100,000 fr.; the second on a mortgage, executed in Paris, in favor of Macuard & Co. for the advance of 290,000 fr. The decision says the mortgages were intended frauds on the United States and that the mortgagees, knowing that Mr. Slidell was a traitor, took all the risks. Dismissed at the cost of the interventors, and the confiscation proceeds.

This is right: — and much more of the same sort will undoubtedly take place.

☞ Roxbury has got her Back-up for a postmaster. His given name is John.

REV. JAMES W. HUNNICUTT.—Many of our readers remember this gentleman as an able union lecturer, who was driven from his home in Virginia because of his loyalty to the U. S. He now writes from Fredericksburg, an interesting letter, which is published in the Morning Star. He predicts a severe struggle by the original traitors and rebels to regain their political power in the nation, in which they hope to be aided by the copperheads of the North; and warns the loyal men every where, that they may be on their guard. He says:

You have discovered by the papers, no doubt, that the same old treasonable, political party, which forced war upon the country and which has brought all our national calamities upon us, is now struggling for political power again. And if affairs continue as they at present bid fair to do, in four years every one of the original slave states will have treasonable governors and legislatures, and they will again hold the balance of power, and then the condition of the original Union men, poor whites, and the negroes, will be infinitely worse than before the war. I want to warn the loyal American people of one serious fact, which is this:

The secessionists and all the disaffected to the Federal Government, in all the original slave states, will form a political combination, and this combined organization will unite with the Copperheads of the North, and will assume the name of the Democratic party, and tens of thousands who voted the Republican ticket in 1864 will go over to the so-called Democratic party, and will, unless the loyal people go diligently to work at once, and unless Heaven should interpose, elect their candidate in 1868; and then will be the beginning of our great national troubles. The greatest political struggle that has ever taken place on this continent will be during the next presidential campaign. This will *certainly* be the case. Remember what I say. And may the Lord help the loyal men of our country to gird on the whole armor and stand up for the right.

TOO LATE!—At a Union Convention, (so called,) held in North Carolina, it was:

"*Resolved*, That as slavery is indissolubly interwoven with our political and social structure, we would prefer its abolition to be gradual—running from five to ten years—thereby enabling us by wise legislation and timely police regulations to define the relative status of the two races, with a view to the amelioration of the evil resulting from its speedy overthrow, and, furthermore, giving time to each class, both white and colored, to adapt itself to the new order of things."

Twenty years ago, the above might have been something:—now it amounts to nothing, except to show the stupid obstinate folly of those who offer it. The world moves too rapidly to suit these old fogies:—and their efforts to stop it are pitiably ludicrous.

THE PRICE OF PROVISIONS.—It is said that the food crop of the United States, in 1865, will be the largest known to our history. This fact seems to be understood by everybody but the dealers in food. The latter find it as difficult to get out of the habit of charging as if they were Kilpatricks and Sheridans.—*Trans.*

Even so.—Yet the price of *labor* has something to do with the price of food, as well as of clothing and houses. Ask any man who calls for a short day's work, if he wishes to lower his *price*;—and he will say NO. Ask him if he wishes cheap sugar, butter, bread, and meat; and he says YES. But we can't very well have our say about both ends of a bargain. There always has been, and always must be, some relation between the price of labor and the price of food.

THE REBEL RAM STONEWALL has been given up by the Spanish Government to the U. S. In making the surrender, the Spanish Minister at Washington writes thus:—

With reference to security for expenses to the commander of the Stonewall of $16,000, which seems to have been considered as the sole and especial cause of the surrender of the vessel, it is to be believed that the government for the United States will not refuse to reimburse, it being understood, nevertheless, that this is not a condition for the delivery of the Stonewall, which delivery is and must be considered absolutely unconditional.

Sec. Seward replies with all due courtesy, and says he "has now the pleasure to inform Mr. Tassara that orders will be promptly given for bringing away the Stonewall from Havana and for the reimbursement of the said sum of $16,000 to the Spanish Government." This is the *finality* of the rebel piracies.

CONNECTICUT.—The Hartford Courant states that the Connecticut Legislature has under consideration a bill for taxing wholesale and retail liquor dealers. It provides that all persons who pay a wholesale liquor dealer's license under the provisions of the internal revenue law shall be deemed a wholesale dealer, and they must pay to the State a yearly tax of forty dollars; retail are to pay twenty dollars. If the sum be not paid on the 1st of December in each year a sum equal to four times its amount will be collected. The last clause of the bill reads: "Nothing contained in this act shall be so construed as to legalize in any manner the sale of liquor contrary to the provisions of an act for the suppression of intemperance, passed May session, 1854."

PITTSTON COAL, in New York Wednesday, sold by auction, Lump $6.75, Stove $7.20.

NEW HAMPSHIRE ITEMS.

—— A colored man, Thomas Brown, and his nephew, Alfred Brown, found guilty of murder by pushing a man into a well in Virginia, and by a military commission there sentence to hard labor in the N. H. State Prison during their natural lives, have arrived in Concord, and gone into their confinement and labor.

—— Three men, one white and two colored, passed through Worcester on Monday, en route for the State Prison in Concord, to which place they had been sentenced by a military court for robbery, murder, &c. While passing through Lancaster, the white man leaped from the train with his handcuffs on, and escaped from the guard.

——A correspondent of the Wolfborough News says: in Strafford and York County, grain looks well. Grass is very abundant, and of excellent quality. It is unusual to have a large yield, and a superior quality in the same season. Corn and potatoes are very promising. Apples will be scarce.—So will be other fruits. Berries plenty. There is much old hay on hand. It is thought that in the town of Durham, their are at least 500 tons. One farmer has 100 tons; another has 70 tons. They refused $35 a ton for it last winter. Now it would bring about one third of that price.

—— Samuel Jewett, Esq., of Pittston, one of the Patriarchs in that vicinity, died on Wednesday night, at the advanced age of 93 years. Mr. Jewett was a native of Hopkinton, N. H., but has resided in Pittston, or Gardner on the opposite side of the river since about eighteen hundred.

——Mr. Eli P. Noyes, a late member of the graduating class at Newton, becomes pastor of the Baptist Church, West Washington, N. H., Rev. A. Heald, the former pastor, now being settled in Warner, N. H. Three of the class, Messrs. Bunker, Noyes and Cushing are accepted missionaries of the American Baptist Missionary Union.

CRIMINALS SENTENCED.—The President has changed the place of imprisonment of Dr. Mudd, O'Laughlin, Arnold and Spangler, convicted of complicity with the assassins of President Lincoln. They were sent to the Dry Tortugas for life, instead of the Albany penitentiary.

Prof. McCullough, the alleged projector of the incendiary fires in New York, has been sent to Fort Delaware, and Gen. Harris to Libby Prison.

There are no prisoners now in the old Penitentiary.

SOUTH CAROLINA.—The N. Y. Herald's Charleston correspondence says the majority of the South Carolina planters already look upon emancipation as a benefit to them, and are inclined to the opinion that compensated labor will in the end be far more profitable to land owners generally. All the principal South Carolina crops except rice are yielding abundantly. Rice cultivation has been much neglected, owing to a change of system in labor.

Considerable ill feeling is manifested in Charleston between the soldiers and citizens, and Gen. Bennett, the post commander, has issued an order requiring all citizens to deliver up their fire-arms, refrain from assemblages and demonstrations in the street, and remain at their homes after 8 o'clock in the evening. The soldiers are also warned against perpetrating outrages or discourtesy to the people.

KENTUCKY.—Notwithstanding the extraordinary efforts being made by the opponents of the anti-slavery constitutional amendment to obtain its rejection at the coming election, the Union executive committee at Lexington issues a card, stating that the most cheering news comes from all quarters. The boasts of the opposition of heavy majorities are idle, and they appeal to all the friends of the constitutional amendment to be encouraged, and to labor diligently, as success is within the reach of earnest effort.

JEFF. D.—The N. Y. Herald's Fortress Monroe correspondence says Jeff. Davis' health is failing rapidly. He is lately much dejected, having probably learned the fate of the assassins. He reads the Bible regularly, having nothing else to read, and not being permitted to write or receive letters.

GOLD, Wednesday, 143 3-4 to 143 1-4.

— The U. S. mint coined in June nearly half a million in gold eagles.

— The order issued by Gens. Granger, Custar and others, requiring negroes to have papers from their employers, are to be revoked by the Secretary of War.

— Addington, son of the late Dr. Davenport of Pautucket, died on Sunday from the effects of a compound fracture of the arm, received while engaged in gymnastic exercises. Deceased was about 17.

— A movement is on foot in Pennsylvania to provide a home for disabled soldiers and their orphans. It contemplates the purchase of several hundred acres of land at some suitable locality for light agricultural pursuits, provided with work-shops, schoolhouse and church, where our brave defenders who have been disabled can enjoy the comforts of a home.

— An Irish correspondent of the Chicago Tribune having claimed that four-fifths of the Union army during the late war were Irishmen, that paper declares that a careful inspection of the army rolls will show that not exceeding 50,000 men of Irish nativity fought in the Union ranks:—i. e. 1 in every 300.—Of the whole 1,500,000 names on the rolls, 80 per cent. are native born.

Sunday Evening at 8 o'clock.

FARE $1.00, EACH WAY.

Portsmouth Steam Factory for Sale.

Pursuant to resolutions passed at a special meeting of the Corporation holden at Portsmouth, N. H., on the 17th inst., will be sold at Public Auction, at the Mills of the Company, at said Portsmouth, on MONDAY, the seventh day of August next, at 11 o'clock A. M.,

All the Real and Personal Property of the Corporation situate and being in said Portsmouth, comprising the following, to wit:

The steam Mill, six stories high, with two wings, each 100x30 feet, with extensive dye house and bleachery of the most approved construction, with all the machinery, fixtures, tools, furniture, materials and supplies. Much of the machinery is new and all capable of immediate production, and the Mill has a capacity equal to thirty thousand dozen of spool cotton per week.

The Sagamore Mill, so called, now under lease to the Rockingham Mill and subject thereto.

A Dwelling House on Islington street, usually occupied by the Agent of the Factory.

Also, 14 houses in the vicinity of the Mill, used as boarding houses for the operatives.

One store house on Parker street, and one on Rock street.

A schedule of property may be seen at the office on the day of the sale.

The sale will be positive on that day unless withdrawn under a provisional vote of the Corporation, of which due notice will be given by posterior to this advertisement.

Terms—Five per cent. to be paid at the time of the sale. Fifteen days allowed for examination of title and to complete the payments in cash or its equivalent on delivery of deeds. Title to be satisfactory.

For further particulars apply to the Treasurer. Per order of the Stockholders.

WM. S. EATON, Treasurer,
No. 9 Merchants' Row, Boston.

Portsmouth, N. H., July 18, 1865. W M jy20

City of Portsmouth.

In BOARD OF ALDERMEN, July 14, 1865.

Resolved, That the Mayor and Aldermen desire to signify their sense of the high worth and gentlemanly bearing of HONORE LEFAVOUR, Esq., who has for so many years filled the responsible and arduous offices of Collector and Treasurer of this City, in a manner alike creditable to himself, honorable to the City which he has served, and agreeable to those with whom his duties have brought him in contact; and to testify to him their unfeigned sorrow for the sickness with which he is prostrated, and their earnest hope that he may be again restored to health and active life.

A true copy, attest CHAS. A. WIGGIN, Sec. pro tem.

In BOARD OF ALDERMEN, July 14, 1865.

Resolved, That by the resignation of Alderman CHARLES A. WIGGIN, the Board will lose one whose genial nature has always rendered him welcome, whose gentlemanly deportment has endeared him to all, and whose counsels, while they have won him the highest esteem of each member, and have reflected great credit on himself, have ever proved most beneficial to our City; and although the tie which bonded us together may be thus temporarily sundered, we trust that the bond which shall bind him to the further service of the city will be stronger.

A true copy, attest CHAS. A. WIGGIN, Sec. pro tem.

City Tax Notice—Six per Cent.

A DISCOUNT of Six per Cent. will be made on all Tax Bills paid within Thirty Days from date, at the office of the Collector.

R. LEFAVOUR, Collector.

Portsmouth, June 20, 1865.

Special Notices.

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers her

SOOTHING SYRUP

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to your selves and Relief and Health to Your Infants.

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 30 years experience; *and a pledge our reputation, for the fulfillment of what we here declare.*

In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists througout the world.

Price, Only 35 Cents per Bottle.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Debility, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by unusual and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the receipt for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

Please inclose a stamped envelope, addressed to yourself.

Address JOSEPH T. INMAN,
Station D, Bible House,
d24sndaw New York City.

☞ A Physiological View of Marriage:—Containing nearly 300 pages, and 130 fine Plates and Engravings of the Anatomony of the Human Organs in a state of Health and Disease, with a Treatise on Early Errors, its Deplorable Consequences upon the Mind and Body, with the Author's Plan of Treatment—the only rational and successful mode of cure, as shown by the report of cases treated. A truthful adviser to the married, and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage in any address, on receipt of 25 cents, in stamps or postal currency, by addressing Dr. LA CROIX, No. 31 Maiden Lane, Albany, N. Y.

The author may be consulted upon any of the diseases upon which his book treats, either *personally* or by *mail*, and medicines sent to any part of the world. mch13—3mdawsn

"A Boon to thousands of Sufferers."

Sent, under seal, in a plain envelope, to any address, *post paid*, on receipt of six cents, or two postage stamps. by DR. J. C. KLINE, 127 Bowery, New York, P. O. box 4,586. je13 3mdaw

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Matrimonial.

LADIES AND GENTLEMEN: If you wish to marry you can do so by addressing me. I will send you, without money and without price, valuable information, that will enable you to marry happy and speedily, irrespective of age, wealth or beauty. Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. apTu.6md

CLOCK'S
Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; cause the hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, No. 2 Congress Block.

FRANK B. CLOCK, Druggist and Chemist, Proprietor, Manchester, N. H. j4

CAUTION FROM THE

AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near appoaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. Bartlett," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain cheap Lever watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je28—1m 182 Broadway, N. Y.

Duran's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1285, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spsdaw1jyny28

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

City Express.

D. L. RANDALL would inform his old customers and the public, that he has purchased a good team, and will be happy to fill any orders in his old line, as heretofore. Particular attention given to moving PIANOS, and conveyance of BAGGAGE to and from the Depots. Also to the cartage of nice articles about the city.

Stone China Dining Ware.

The Latest Styles now opening and for sale by
je20 JOHN SISE, 5 Market Sq.

Local.

☞Quite a crowd of people collected at the Eastern R. R. station in this city, Tuesday, on the arrival of the mid-day trains, to see Gen. Meade, who was promised to come here to attend the marriage of his niece; but who disappointed his friends and the public by not appearing. The wedding came off, however, by George! as will be seen by looking under the appropriate head, and was largely attended by the beauty and fashion of our city. For our lady readers' benefit, (the men don't care at all about such things, you know,) we will state that the bride was dressed in a simple travelling suit; and the happy couple held a reception at the residence of Col. Macomb, immediately after the ceremony at church.

The bride was given away by her father, Albert R. Hatch, Esq., a cousin of the groom, was master of the ceremonies. Ex-President Peirce was present, Mrs. Gov. Gilmore, Gen. Silvey, W. L. Foster, Esq., &c. Gens. Meade and Butler did not come, as expected.

☞"John Halifax," mentioning that Hon. Gilman Marston on Saturday visited the Navy Yard, says—"There are several gentlemen on either side of the Piscataqua who anxiously await the time when the General and Congressman Lynch of Portland shall sit down at the Rockingham and apportion the good places at the Navy Yard.' Also that Admiral **Farragut** is expected here shortly, when **he will be the** guest of his friend Admiral **Bailey, at the** Yard.

☞Joseph B. Upham has been re-appointed Collector of Customs at this port; and Jonathan Dearborn Naval Officer.

☞Rev. William W. Dow, a native of this city, graduate of Dartmouth College and Bangor Seminary, has received a call from the South Congregational church in Kennebunkport, Me.

☞This morning if fair weather, the Freewill Baptist Society of Concord, are coming to Portsmouth, and going by steamer to Smith's Isles, leaving Concord at half past 7, and returning in the evening. Should the weather be unfavorable the excursion will be postponed to the next fair day.

☞The alarm of fire on Monday evening, is said to have been caused by the burning of the barn of Mr. Samuel Rowe, at the Sheafe farm, on Newington road. We have no particulars.

☞The U. S. Ship Pawnee, Commander J. M. Bradford, arrived at the Navy Yard on Tuesday afternoon.

☞Don't forget Robert Heller at the Temple, Friday night. He's all sorts of a feller, we tell you.

☞Several pickpockets are supposed to have come to this city from Boston, Tuesday, to "attend" the great wedding ceremony—and a dozen or two of pockets were picked, at the depot, in the church, &c.—Two women and one man were arrested, and a pocket-handkerchief full of wallets, a watch, &c., recovered.

☞A train of three superb new Cars passed over the Eastern Road on Tuesday, (the train which did *not* bring Gen. Meade,) which are almost palatial in their fittings and appointments. But amid all the elegance, the details of which we need not give—nothing is lacking of substantial comfort, convenience and safety. They are very roomy and well ventilated; and among other new improvements, the seats are supported by cast iron legs of a new pattern, and the same casting also forms the side and arm of the seat—and for this combination a patent has been applied for by the builders.

Two of these splendid travelling parlors, were regular passenger cars; and the third is a smoking car—ugh! which, beautiful and luxurious as it is, must ever be suggestive of all that is vile and filthy. It is a shame that men who will be brutish enough to defile themselves and all about them with tobacco, should be admitted into such carriages.

These cars were built at the factory of the Road, at East Boston, at a cost of more than $4000 apiece, (so you can form some idea of the amount of the entire rolling stock of a road furnished so completely as the Eastern,) and the designing and building reflects the highest credit on Capt. John P. Somerby, the master workman, (a native of this city,) who has spared no pains or study to bring the railroad car to this stage of perfection; while the painting, graining, and general decoration is the work of Mr. George Bunting, an adept in his line of business. Mr. Somerby has been in the employ of the road for eighteen years, in this department, but these are the first cars turned out since he has had entire charge, and we congratulate him on his complete success.

To be sure, it is no new thing to have rich cars, and "the best of everything" on the Eastern Road; for it is a matter of remark with all who travel it, how vastly it has been improved in this respect as in all others, under the superintendence of Mr. Prescott and the present management.

☞There appears to have been some mistake about the arrangements for the late Editorial Excursion to Smith's Isles—a few of the craft actually being green enough to wait for Passes over the Railroad. We believe that except on special and rare occasions, it is not customary to send carriages for invited guests to a party or elsewhere, is it? but let 'em "get there" as they can

☞The scholars of the Franklin Grammar School have presented their late Teacher, Mr. Chas. A. Shannon, with an elegant silver Butter Knife and Cooler, as a farewell token of their respect and esteem.

ON THE LAKES.—We learn from Winnipiseogee that travel was never better on the Lake at this season, than it has been this summer, and it is constantly increasing. The steamer Lady of the Lake, Capt. Sanborn, is busy plying between the Weirs, Centre Harbor and Wolfboro', and her passengers are splendidly cared for.—We understand that our Cornet Band are making arrangements for an Excursion to the Lake from this city, of which due notice will be given.

— Owing to non-receipt of the amiable Secretary's invitation till the next day, we were not represented at the editorial excursion to the Shoals on Friday, from Portsmouth; but we looked to the Portsmouth Chronicle for a description, and find the editor in great excitement, as we should judge, but unable, from want of time, ostensibly, to say more about it than that "it was an immense success—the best thing of the kind we 'ever went anywhere.' Hurray for the Pioneer! Appledore forever!" We question whether water is Frank's true element.—*Boston Sat. Eve. Gaz.*

If our friend of the Gazette means to ask whether we were born on the water, we should answer no, not to the best of our recollection; but since he is so lamentably ignorant of the effect water has on a feller as a beverage, we will inform him that we do drink it sometimes—(soda water, "without any other mixture," as the apothecaries have it,)—and that it is really exhilarating. Try it, Ben.

PERSONAL.—Jos. C. Hilliard, Esq., for many years Treasurer of the Atlantic Fire Insurance Co., at Exeter, has accepted the General Agency of the Massasoit Insurance Co., at Springfield, Mass. We regret to lose Mr. Hilliard from our County, but wish him great success in his new field of labor, and congratulate the Co. upon securing the services of such an able officer.

Hon. Sam'l Hooper, of Massachusetts, passed through this city on Monday, on his way to the White Mountains:

Hon. S P. Chase, Justice of the U. S. Supreme Court, passed the Sabbath at Concord.

Hon. C. L. Woodbury was in this his native city on Tuesday.

NEW HAMPSHIRE ITEMS.

—— The 14th N. H. Regt. arrived at New York Tuesday morning from Savannah, for Concord, to be mustered out of service. The regiment left the State in September, 1862, with 973 men, and returns with 521, of which number 152 have Joined the regiment as recruits, leaving 369 of the original members to be mustered out.

—— The Exeter Manufacturing Co. commenced running steam power last week, as the supply of water at their mill has become low.

—— Rev. Quincy Blakely, of Campton, N. H., was presented by his parishioners July 4th, with a valuable horse.

—— The Adjutant Generals of the loyal States are visiting the White Mountains, by invitation of Gen. Head.

MARRIAGES.

In this city, Tuesday afternoon, 18th inst., in St. John's Church, by the Rev. Thomas F. Davies, Rector, assisted by the Rev. Dr. Eames of Concord, C. I. JOHN H. GEORGE of Concord, N. H., to Miss SALVADOR MEADE GRAHAM, daughter of Col. James Duncan Graham, U. S. A., of Washington, D. C.

In Stratham, Mr. CHARLES E. BOWLEY of Exeter, to Miss MELISSA BUTLER of Lebanon, Me.

In Rye, Mr. JOSIAH D. PRESCOTT of Kensington, to Miss LUCY S. BATCHELDER of Stratham.

In Dover, Mr. GEORGE S. JONES of Great Falls, to Mrs. LOUISA A. REDDE of Haverhill, Ms. Mr. GEORGE W. FRENCH, Jr., to Miss LIZZIE FRENCH, both of New Market.

In Salisbury, Mr. EBEN C. GARLAND of Lancaster, N. H., to Mrs. SARAH A. LITTLEFIELD of Salisbury.

DEATHS.

In this city, July 18, ELLEN LOUISE HUNTRESS, aged 1 year 8 months, only child of George M. and Martha L. Huntress.

In Exeter, Mr. JOHN VANDUZEE, aged 21 yrs. 4 months, formerly a member of Co. E, 13th N. H. Regt.

In Lowell, Mass., of consumption, ANNA M. RUNDLETT, aged 20 years, daughter of Mrs. Martha A. Rundlett, formerly of Exeter.

In Londonderry, JOHN N ANDERSON, Esq., aged 65

In Amesbury, JOSEPH R. DAY, (drowned in the Merrimac River,) aged 21 years, 7 mos

In Newburyport, Miss ELVIRA MITCHELL, aged 54 years 5 months.

In Boscawen, June 19, at the residence of his son, the principal of Elmwood Institute, JONATHAN TENNEY, Jr., aged nearly 60.

☞The Annual Exhibition of the Haven Schools will take place on Thursday afternoon at 2 o'clock.

'TIS NOT A FABLE.—The immense and universal demand for the Fragrant Sozodont, is a marvel in the annals of Dentistry. It exceeds all other dentifrices combined.—Neither acid from the stomach, nor any other corresponding element generated by indigestion, can effect a set of teeth regularly purified by this Fragrant Vegetable antiseptic and preservative. 3

VINELAND LANDS.
To all Wanting Farms.
Large and thriving settlement, mild and healthful climate, 30 miles south of Philadelphia by railroad. Rich soil, producing large crops, which can now be seen growing. Ten, twenty, and fifty acre tracts, at from $25 to $35 per acre, payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Papers giving full information will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*

From Report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.
Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; 2000 for sale. Price $40 per share; $50 per Share after August 1.

Stock fall paid, and no individual liability. Company organized under the General Law of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.

We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in gold. Any Clergyman, Insurance Agent, or Cashier of Bank is authorised to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York, R. W. H. FERRMAN, Esq., Cashier of the Atlantic Bank, 143 Broadway, or HERMAN CAMP, Esq., 25 Nassau Street.

Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion at the rate of profit of $2,000 per day, or $1,500,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SPROUL, President.
S. R. HUTCHINSON, Secretary.
Office: 80 BROADWAY, over Am. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make their 25 to 50 dollars every day. State or county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business. Will pay $5 to $20 per day. This is no patent right or musical humbug, but an article of merit, needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHINEY & SON, No. 6, Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately change the character of their secretions*—thus arresting the cause of their weakness or debility. Through its action in the Blood, it will expel all *Humors and Impurities*, that are working a slow but certain effect, invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.

Prepared by Dr. S. C. RICHARDSON, who has had thirty years' successful practice as a physician.

The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, BOSTON, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.
For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.

BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.

FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.

In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 166 Court Street, Boston.

SAVE YOUR MONEY!

Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.

Wilbor's Mocitor Hair Dye

is superseding all other. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.* Manufactured only by ALEX. B. WILBOR, Chemist, No. 166 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, and Jan. 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

And all the work of a Family *of any size,*

AT LESS THAN

One-Third the Cost of Wood or Coal!

THIS NEW

PETROLEUM Cooking APPARATUS

Is WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in 15 minutes	
Common potatoes baked	" 30 "
Flour Biscuit baked	" 15 "

And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to

JOHN S. HARVEY,
Je20 47 Congress st., Portsmouth.

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has nothing in the business of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity. They have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 400 stockholders, has delivered coal at a saving of $2 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the facts, will see at once that the croakings of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

The Old Established Hospital.

No. 3 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 3 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such that his correspondence, with the most eminent Physicians of the Old World, of obtaining the latest and well tried remedies for the worst diseases, offer inducements to the unfortunate of a quick and reliable cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Nocturnal Emissions, Seminal Weakness or Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are positively cured in the shortest time with the Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the marriage state, are cured that in consulting Dr. J. Teller, they will find a friend to counsel and a physician who has cured thousands. He strongly recommends the Medicines he applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reason of so many cures that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—startling disclosures—Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent free in a plain sealed envelope, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Science, showing how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published—Warranted to Cure Gleet in a few days. Sent sealed for 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the Celebrated Dr. Nichols Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsurpassed, and in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package. For the guidance of those at a distance, one pill, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from observation, on receipt of $1.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N.B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N.B.—No students or boys employed. Notice this, address all letters to

STOVES,

KITCHEN FURNISHING GOODS,

FARMING TOOLS, &c.

THE MAGEE

COOKING STOVE.

The subscriber would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water: also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of eating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which, instead of being wasted with the coal, thus wing at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Graves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Slee, and others.

SPANISH ROUGE,

FOR POLISHING,

XL

Or Cleaning Gold, Silver, Silver Plated, Britannia, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For the purpose intended this article cannot be beat. Twenty-five cents invested in a package of this, will add more to the looks of a house than one hundred dollars spent in new ware. Every article of any kind or metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which contributes much upon the laces of all. The labor of keeping everything all nicely polished with the Spanish Rouge is trifling and a source of pleasure. It removes the last stain from the hands of the housekeeper. *It is a material without any composition whatever, therefore it can do no harm.*

Put up in three different qualities, for the finest Gold to the coarsest Metals.

Try the Spanish Rouge, and it will become a household word and a great assistant. Every person who has a ring or earrings, or an engine and instrument, needs it. For sale by Druggists and Grocery Dealers everywhere.

Wholesale Depot, No. 95 1-2 Washington St., Boston. Sold by HEADSTREET, General Agent. For sale by

J. W. & A. STAVERS,

No. 12 MARKET STREET,

Sole Agents for Portsmouth.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, 7 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience in this peculiar class of ills, he has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a recreant and solitary habit, which ruins the health to a fearful extent. Dr. Dow has had ample opportunity to cure the unfortunate victims of this pernicious practice, and has the satisfaction of knowing that he has restored many to perfect health and happiness.

Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or 81 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, has confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, asking pledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1865. *eod&wly.

DEMOCRACY IN THE MARKET.—A party for sale; a large, venerable and highly respectable party, somewhat damaged by hard usage and unskillful doctoring, but good for two or three heats more, if well stabled and groomed; who bids? This is the true import of most of the leading articles we now read in the democratic newspapers. Where shall we go, and what shall we do, and what shall we be, are the questions the democratic leaders are asking themselves.—*Springfield Republican.*

There is too much truth in this, and it ought to shame those pretended democratic papers to which it applies. Some of us *are not* for sale.—*Manchester Union.*

☞ While a little son of Mr. Charles E. Jordan of Cape Elizabeth, Me., about five years of age, was playing in the field where a mowing machine was in operation, he came in contact with the machine and one of his legs was instantly cut off, just above the ankle, by the blades. The operation was so instantaneous that the little fellow was not aware for some time, of the injury he had sustained.

— A man lying on the track of the Eastern Railroad, just this side of Ipswich, was killed by the last down train for Newburyport, on Tuesday evening.

— The Salem Gazette states that Prof. Crosby has resigned the office of Principal of the Normal School in that city, which he has so honorably filled for some years past.

— A French chemist asserts that if tea be ground like coffee, before hot water is put upon it, it will yield double the amount of exhilarating qualities. Another writer says, "if a piece of lump sugar, the size of a walnut, is put into the tea-pot, you will make the tea infuse in one-half the time."

— The general convention of the Episcopal Church, in October next, will be one of the most important in the entire history of the American Episcopal Church. An effort will be made to introduce a new canon, intended to allow to the clergy of this church more liberal relations with those of other denominations. This movement will meet with vigorous resistance, as well as with hearty support.

— Now, when the business season is growing comparatively dull, is the real time to advertise. Dont hang on to the remnants of stocks, but shove them off. This you can always do if you advertise them. There's twice the need of this feature of business, now that buyers do not crowd in upon you. He who keeps his name and business familiar to the public eye by judicious advertising, is reaping a double harvest.

NEW HAMPSHIRE BIRD LAW.

AN ACT to promote the interests of Agriculture.

SEC. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, jarks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob-o'-links, yellow-birds, linnets, flycatchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shallbetween the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sell, buy, or have in possession, any of said birds,*taken or killed, whether in this State or elsewhere,—he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.

SEC. 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.

SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered.

Approved, July 8, 1862.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1857,
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary 61 a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which Patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.
Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Suppressions, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that ladies see none but the Doctor himself.
Address Dr. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 15, 1864. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under our care a few days, can be furnished with kind nurses. Charges moderate.

Carriages.
Persons thinking of purchasing CARRIAGES, would do well to call on or address

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JULY 21, 1865.

WASHINGTON ITEMS.—A costly pair of revolvers have been presented to Capt. Doherty, who commanded the detachment that captured Booth and Harold.

Gov. Perry, of South Carolina, accompanied by the delegation from that State, had an interview with the President. The Governor stated that the South Carolina Convention, called for September 3d, would recommend the adoption of the Constitutional Amendment abolishing slavery, and provide for a vote of the people for President, instead of by the Legislature, as under the old regime.

The Governor of Arkansas writes that the spirit of disloyalty was so evident on the 4th of July throughout that State, that he shall not recommend for the present the pardon of any citizen.

VIRGINIA NEWS.—Edward Howden was murdered near the Gosport Navy Yard last Sunday. He was the sailor who made his escape with Lieut. Cushman, after destroying the rebel ram Albermarle. One Henry Smith has been arrested on suspicion of being the murderer.

A Bremen ship has ust passed up James River.

Rev. H. Johnson, of Chesterfield, who shot and killed a soldier while robbing his garden, has been sentenced to five years imprisonment in the penitentiary. The lessees of the Spottswood House, in Richmond, have received notice that the property in their hands has been seized under the confiscation laws. Similar notices have been served on the occupants of several buildings, private residences, &c., in Richmond.

The Army of the Shenandoah is virtually disbanded. There are no troops in the Valley but one year's men. The guerillas have entirely disappeared, and the people are engaged in raising crops. In a few days there will probably be no troops in this Valley except at Winchester. Charlestown is being visited by many Northerners, who have carried off everything moveable, including stones from the field where John Brown was hung. Harper's ferry is rising rapidly from its ruins.

REPUDIATION THREATENED. — The Tribune's correspondent, writing from Augusta, lets us see what we are to expect if the rebels obtain power in Congress: "The people here are all rebels, and it must take a long time for them to work it out. It is in their bones. One rebel captain, whom I found in Savannah with no means, which is very pleasant there, said he would repay me the cost of his living as soon as he arrived. His father was a cotton factor here and well to do, but he has not called on me since to thank me. These men are to-day asking credit of the North, and will repudiate the debt at the first convenient opportunity. Two prominent men of this town yesterday, in my hearing, openly advocated the repudiation of the public debt, and said the South as soon organized must go in strong for that measure. Merchants of New York, look to your interests."

☞ Further correspondence between the French and British Governments on the cessation of the American war is published. Earl Russell says the legal opinion is that a slip belonging to the Confederate Government and not lawfully transferred to other owners before the total cessation of hostilities, may be claimed as public property by the Federal Government, if found in any British territory, and any claim must be decided in the ordinary course of law by the civil tribunals. In a dispatch to the British minister at Washington, he says an enemy's commissioned ship of war cannot, during the continuance of war, be relieved from the risk of capture and condemnation by any sale or transfer to a neutral.

☞ A letter just received from a mechanic in Norfolk, Va., says: "I can assure you on my honor that I do not know a single individual in this section who has never given encouragement to the rebellion, but what thinks a loyal black man entitled to at least as much as a disloyal white man." Testimony from other quarters is of the same character. The real Unionists at the South, who have been so from the beginning, know the necessity of the colored vote, and they are for it. The eleventh hour men, who try to wash out disloyalty by oaths of allegiance, wish to preserve the power in their own hands.

GOLD, Thursday, 142 1-2. Sales small.

— A company is now manufacturing the Weed Sewing Machines at St. John, N. B., the facilities for supplying European demand being greater there than in the United States.

— A Connecticut editor, travelling in Nevada, says that all sorts of languages are used there,—English, French, German, Spanish, Irish, Chinese, Pi Ute, etc., but he thinks none is spoken with so much fluency and freedom, and none seems to be so generally understood, as profane language.

EDITORIAL JOTTINGS.—*Concord, June 20.—Dear Chronicle:* It is a long time since your Jotter has done anything for you in his especial line; for when he is off on a time, he is rather inclined to "sink the shop." He did have—among other delights since writing you—the unbounded pleasure of attending part of the Boston Music Festival—but was so busy enjoying it, that there was no time for words without music. And he did desire (whether *you* did or not) to tell you what he saw in an hour's ramble a bout the Eastern Railroad's workshops at East Boston the other day—and in the stable, where a dog, by running round in a cage like a squirrel, cuts all the hay for 40 horses. And many other interesting items, of this, that and the other place and thing, no doubt you have lost through his "indisposition," which usually means laziness.

And by the way, before I forget it—I see that in that roll of the Smith's Isles party the other day, we omitted the names of Constructor Pook of the Navy Yard, Capt. Sanborn of the steamer Lady of the Lake, and perhaps others—and want that record complete, you know.

But here we are in Concord, at the Phenix Hotel, where you can always feel at home. Admiral Farragut was here yesterday, and goes to visit Portsmouth and the Navy Yard to-day. He is accompanied by his charming wife, and his son. He is a glorious man—as gentle and affable as he is brave, a smooth and polished gentleman, and by no means the rough old sea-dog we expected—but we regret to say, suffers terribly from neuralgia in the eyes and head. Use him tenderly, and do not abuse him with kindness—the noble old hero of the maintop—and not so old, either, as his gallant deeds picture him to the mind's eye.—He has received hosts of people here, and has a pleasant word ready for all. The Concord Band serenaded him in the evening, and on his appearance for a moment at the window, he was cheered most lustily. He is a splendid specimen of a true American Naval officer; but as he himself says, his short stature disappoints people, who expect Admirals and Generals to be tall: and then if they *are* tall and straight, like Gen. Scott, the crowd says they are proud. A gentleman whom we met last night, and who on a recent visit to Scott, expressed surprise to find him so sociable and open, was answered by the old hero, "Sir, it has been the misfortune of my life to be 6 feet 4 inches high, and to have a straight spine. Had I been round shouldered or had a hump on my back, it would have relieved the odium in the public eye."

The Admiral and his party have been to the mountains and he says he is like a turtle waddling back to the sea again—where he feels better than who einland.

Among the *on dits* here at the Capital, we hear that our gallant Adjutant General has a suck-cessor, (at home,) and that Mrs. Head is as well as could be expected. "A ittle daughter and what brought her?"

We will tell you what brought us here—and that is, our intention to attend Commencement at old Dartmouth to-day. We came up in Langley's train last night, with all that party of 500 or more Baptists who went down in steamer Pioneer yesterday, and say they had a great time too.

But we must be off for Hanover, and so good bye for now. F.

ECONOMY IN WAR.—Col. Day, who was appointed by Gov. Andrew of Massachusetts, Provost Marshal of the State, for the purpose of superintending the work of recruiting in the rebel States, has closed up his accounts and been relieved from duty. The amount deposited with the Treasurer for the object was $630,262, of which $78,000 were deposited by individuals. The Board enlisted 2418 colored men, all but 16 of whom were three years' men, and claimed no bounty. They have in nearly every instance proved themselves faithful soldiers—only four having been known to desert. They have been furnished at about half the cost of other recruits at the same time, making an aggregate saving of at least half a million dollars to the citizens of the State. Of the amount deposited with the Treasurer, $50,000 have been returned to the various towns, and more than $10,000, at Governor Andrew's suggestion, and with the consent of individuals, saved from their deposits, have been placed in the hands of Surgeon General Dale for the relief of sick and disabled soldiers.

A SELL.—The Copperheads of Thomaston attempted to get up a celebration in opposition to a loyal celebration at Rockland, and sent to Portland for a cannon. The Free Press says: "The Portlanders, on learning it was for the use of those who had very little use for them during the war, forwarded them a veritable wooden gun, as the most appropriate. It was handsomely mounted on a carriage, and bore the inscription—'Captured by Gen. Geo. B. McClellan, at Manassas!'"

— Everybody sympathizes with Barnum. Gen. Scott will help him with a contribution. His new museum will cost him $800,000, and he has mapped out his plan already.

LETTER FROM PHILADELPHIA.

Continental Hotel,
PHILADELPHIA, July 15.

If this isn't decidedly the best tavern in America, your peripatetic correspondent isn't a judge of the article. It has been his good fortune to test a good many of them east of the Mississippi, and the Continental continues as it was two years ago, the *creme de la creme*. A rich table, clean airy dining rooms, well furnished apartments, the most gentlemenly officials, and an elegance around the whole very attractive. It is a heart-rending admission for a New Yorker to make, that Philadelphia excels in anything except broad brimmed hats, but it must be done.

We left the Metropolis at midnight, and steamed forty miles an hour under a full moon, which lighted the universe of New Jersey as if day. Every object distinct, but the outlines softened by the moonlight, the pleasantest car riding one can secure. Just at peep of day we were deposited in the Quaker City, very clean, very quiet, very square. Its principal excitement just now is being the Headquarters of General Meade.

Fairmount is as beautiful as ever, fresh green and shady, with its broad hard drives, pleasant river, and cool spray fountains. A new water pump has been introduced with the horizontal turbine wheel, more compact and as forceful as the old large under-shot wheels, which revolve with such a roar. At the upper end of the park by the river, and commanding the bridge from the Lancaster pike is one of the earthworks thrown up on the rebel advance into the State. Quite a relic of the rebellion in these times of peace which have come to us with such wondrous speed, like the mystical transformation scene of some fairy play. The suspension bridge over the river below the dam looks just as quiet and graceful as we saw it in the school Geography a dozen years ago.

The Walnut Street Theatre now the property of Edwin Booth, and his brother in law J. S. Clarke, has during the summer been entirely rebuilt in the interior, and will be opened in alternate seasons by them the coming fall.

A rail is used on the street railroad line much superior to to those of New York or Boston, being broad and flat, not the deep cut, which so interfere with other vehicle travel. The railroad system is well perfected here, with frequently intersecting roads, and transfer tickets so that one can ride almost everywhere.

Gen. Grant's residence is a plain but handsome brown stone, the last in a block, an exact model, as in every other block, of its associate dozen or half dozen. This precise patterning after one another is especially noticeable of Philadelphia. To one who hasn't an idiosyncrasy for the confused dullness of rural Boston, or who can live without the true metropolitan enterprise and bustle of New York, this clean, quiet, steady going Quaker City must be quite an elysium. Philadelphia has sixty steam fire engines, drawn by horses. N.

AN EXPERIMENT.—The Tribune of New Orleans insists that the proclamations of President Johnson for the reorganization of the rebel States are only an experiment in order to exhibit to the country the impossibility of any organization on such a basis. The rebels must show themselves as they are, to satisfy the country of the danger of restoring the power into their hands. On this account the course of President Johnson is approved. "Knowing the slave masters as he does, he has not been their dupe for a quarter of an hour. But it was necessary to convince the country. He has had the happy thought of putting the rebels to the test." To this end he has given them Governors, some of whom have signed the secession ordinance, and others of whom had held office under the rebellion. In this way the friends of equality console themselves in Louisiana;—regarding the present efforts as transitory, and looking forward to the day when the rebel States will be organized on the permanent foundation of Human Rights. The appointment of Major-General Carl Schurz as an agent to visit these States, and to report to the President on the operation of the present policy of reorganization, seems to sustain the theory of our New Orleans contemporary. At all events, it shows a distrust of the present policy.

☞ Mr. James Van Blarcom, an approved Minister of the Society of Friends, and an excellent man, died last week in Portland. He was Superintendent for some years of Oak Grove Seminary at Vassalboro' and has had the superintendence of ten schools for freed people in Virginia. He was on a return visit to his relatives in Nova Scotia, when taken ill in New York; but he rallied and got as far as Portland, where he sunk rapidly, and died as above.

— The Southern Episcopalians are casting about for a Bishop to supply the place occupied by Lt. Gen. Polk.

— J. R. Thomas, the popular vocalist sails for Europe soon, being engaged as a soloist at the great Welsh musical festival.

— The Coroner's Jury at Roxbury, Ms., have found a verdict of wilful murder by some person unknown, of the Joyce girl and boy. The evidence against Stuart, the bounty jumper, is not conclusive.

— Savannah is infested with burglars and robbers, who were released from the state prison to join the rebel army. A black regiment is to garrison Fort Pulaski and other works.

— It is said Pres. Johnson determines to sustain the election laws in Tennessee; keeping illegal voters from the polls.

— Victor Emanuel is living near Florence in morganatic marriage with a brilliant court woman, who has long been his companion.

— Robinson, the Maine soldier who saved Secretary Seward's life, has been presented with a farm by Hon. O. B. Mattison.

— Ella Tuttle lately died at Jordan, N. Y., from the effects of excessive laughter.

— James L. Clark, of Natick, who died last week, left three widows, and they find a great deal of trouble in settling his affairs.

— Mr. D. U. Lee of Wisconsin has a watch, once the property of Major Andre. There are but four figures on the face—3, 6, 9, and 12—the other divisions being indicated by a little gold star. On the back, inside, are directions for winding, and the following: "Major Andre, 1764," engraved in bold letters.

Mrs. WINSLOW
An experienced Nurse and Female Physician, presents to the attention of Mothers her
SOOTHING SYRUP
For Children Teething,
which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is
Sure to Regulate the Bowels.
Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**
We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.
Sold by all Druggists throughout the world.
Price, Only 35 Cents per Bottle.

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.
Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Matrimonial.
LADIES AND GENTLEMEN! If you wish to marry you can do so by addressing me. Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. ap7m6md

CLOCK'S

Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown. It will not stain the skin or the finest linen. It will instantly arrest the hair from falling off; causes hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 15 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, No. 2 Congress Block.

FRANK B. CLOCK, Druggist and Chemist, Proprietor, Manchester, N. H. j4

CAUTION FROM THE

AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY, Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm. Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.," others "P. S. Bartley," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,

Agents for the American Watch Company,

Je28—1m **182 Broadway, N. Y.**

Durso's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1236, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spndwlymy28

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

City Express.

D. L. RANDALL would inform his old customers and the public, that he has purchased a good team, and will be happy to attend any orders in his old line, as heretofore. Particular attention given to moving PIANOS, and conveyance of BAGGAGE to and from the Depots. Also to the carriage of nice articles about the city.

Je20 JOHN SIDE, 5 Market Sq.

Local.

☞ The Boston Pickpockets made quite an excitement in this city on Tuesday. Several purses were lightened at the Eastern depot, and more in the Episcopal Church, at the wedding in the afternoon. When the morning train came in from Boston, a sister of Mr. J. P. Somerby went to meet him, and lost $20 or so; and at church, Mrs. F. W. Fernald lost about $80, Miss E. A. Philbrick about $25, Mrs. Mary Roberts about $5, and Mrs. A. B. Vennard and Mrs. Stacy purses containing money.

Mr. Robert King, the vigilant and faithful sexton at St. John's Church, was chiefly instrumental in detecting the thieves. He observed two women to pass back and forth through the wedding procession several times; and on their refusing to desist when he ordered them to, his suspicions were excited—which were confirmed when he saw one of the females pass a wallet to their male accomplice. The girls claimed to have been brought up in good circumstances, and thought it rather hard to be compelled to sleep in the lock-up, without pillows, and to dine on bread and water.

POLICE COURT, July 18.—John H. Myers, for the larceny of a coat, was sentenced to pay a fine of $5, costs $4.03, and $30, being treble value of said coat. Committed to the House of Correction. Joy be with him.

Benj. L. Tindell was ordered to pay $8 and $3.86 costs, as a penalty for being found drunk, in default of which he joined Myers' Dramatic Troupe, at the jail.

Johannah Berry, for keeping a noisy and disorderly house on Fleet street, was bound over in the sum of $100 to appear before the Supreme Judicial Court, in October.

July 19th.—Henry Brock, Ellen Gray, and Ida Clifton, were tried before the Police Court and severally held in the sum of $1000 to appear before the Supreme Judicial Court, October term, for picking pockets at the Episcopal Church in this city on the occasion of Col. George's wedding on Tuesday afternoon.

PERSONAL.—Col. Edgar F. Welles, son of the Hon. Sec. of the Navy, is in the city on a brief visit, and stopping at the Rockingham House, having arrived on the steamer Pawnee.

Dr. Urann, of Boston, whose cures are well known to our citizens, is in town, and will be at the Franklin House until this afternoon.

☞ We learn that the receipts at the late Festival by the Unitarian Ladies' Soldiers' Aid Society of this city, were $1050; of which about $640 remain for the sick soldiers, after paying expenses. Pretty well done for "The Soldiers' Aid," we think—and, in fact, haven't they *always* done "pretty and well?"

☞ The new special Saturday running arrangement of the steamer Pioneer, will afford many people the desired opportunity to spend Sunday at the Shoals—where (at Gosport) there are held regular church services, and also "occasionally" at Appledore; though some will doubtless prefer "sermons in stones."

☞Portsmouth has many representatives abroad and as the "cycle of time" rolls round, it is pleasant to note the return of old familiar faces. Capt. James M. Hill of this city, has reached home after an absence of nearly three years, during which time he has visited many portions of the world.

☞ The U. S. steamers "Dawn," "Arkansas" and "Wamsutta," and the barks "Roebuck" and "Ethan Allen," and the schooner "Henry Janes," will be sold at public auction, to-day at noon, at the Navy Yard.

☞ Messrs. Emery A. Dresser, E. Washington Brown, and Dr. Benj. W. Curtis of this city, have been appointed Justices of the Peace for the County of Rockingham.

BURGLARS abound in Boston;—and somebody has poisoned many of the best watch-dogs in Portsmouth. Whether this has been done to help the house breakers or not, we cannot say; but the effect is undoubtedly to render their work easier.

☞ A long train of a dozen or more cars, containing the 31st Maine Regiment, on their way home, passed through this city Tuesday evening.

☞ The Annual Exhibitions of the Haven Schools take place this (Thursday) afternoon at 2 o'clock.

—The friends of Mr. Wm. L. Hanscom, the skilful naval constructor, who is about to locate himself in Philadelphia, by order of the authorities in Washington, waited on him at the residence of his son-in-law, E. D. Bell, in Malden, to tender an expression of their regard and regret that they were about to separate. Gilmore's Band was in attendance. Mr. Hanscom invited the assemblage to a sumptuous and elegant repast prepared for the occasion, and speeches were made expressive of the estimation in which their host was held by his fellow townsmen.—The Courier understands a petition is being numerously signed, praying that Mr. Hanscom may be retained in the Charlestown navy yard.

MIDSUMMER DAY'S DREAM.

BY JOHN ANDREWS.

The winds blow in from Southern seas,
Fragrant with spices they have kissed,
Beneath a sapphire-tinted sky,
The flowry vales of Italy,
And all the woods stand in a soft green mist.

Across the blue the sailing clouds
Float by, like sea birds lazily,
Spreading their white wings to the breeze,
That sings of Southern lands and seas.
While all the happy day goes swiftly by.

It is a day to rest from toil;
To lie upon the grass and dream;
To bid life's beating pulses stay
Through all the hours of one bright day
Beside the murmur of the falling stream.

A day to cease from weariness,
To let the busy world go by,
And slip-like awhile to rest
Beside the clear stream's silver breast,
Lapped in the splendor of the sunlit sky.

KEENE.—The bill which passed the legislature establishing the city of Keene contains provisions entirely dissimilar from the charters of other cities. It provides for a Mayor and fifteen members of a Common council, five of whom go out of office every year, and are to receive no compensation. The election to be by general ticket. A town-clerk and moderator, and three selectmen are chosen, who are to perform many of the duties of those officers of towns; are to warn meetings, prepare check-lists, decide the qualification of voters, superintend the elections, and make and certify to returns of votes; the selectmen to be, by virtue of their office, members of the Common council. Annual municipal election to be held on the second Tuesday of September, and the municipal year to commence the first secular day in October. This charter like others hitherto granted, is not to go into effect until accepted by a majority of the legal voters. It will be seen that it dispenses with a great amount of the machinery by which present cities are operated.

☞ Our readers are generally aware that a pamphlet has recently been issued with the sanction of Mr. Jay Cooke, laying down the proposition that "Our National Debt, made permanent and rightly managed, will be a National Blessing." We regret to see that some evil disposed persons are endeavoring to create the impression that Mr. Cooke means that the Government *will not* pay its debts—and that it will alter, amend, postpone, and in any and every way refuse to fulfil its contracts with bondholders, to suit its convenience.

We hardly need say that the article in question admits of no such construction, nor can any such deduction be drawn from it, either directly or indirectly. The whole scope and tenor of the article is this—not that debts or even national debts are always blessings, but that, in the present condition of this country, our National debt, *rightly managed, can be made* a national blessing. No one now professes to believe that it cannot or will not be paid.

☞ The Savannah Daily Republican of July 12, gives a good account of an exhibition of the Bryan Free School in that city. The Bryan School is one of the two free schools established by the Colored Educational Association of Savannah, and is now held in the large hall formerly occupied as a slave mart. The whole was a very orderly assemblage of three hundred and fifty children, between the ages of seven and seventeen, neatly clad, and paying attention to their teachers, who were propounding questions in the different studies.

☞ The Manchester Union of Tuesday, reports "what purports to be a conversation that took place between the President and Senator Sumner soon after the North Carolina proclamation was issued."—But *no such conversation took place*: the piece was a mere copperhead falsehood, made to deceive the stupid, as it has done. The falsehood was exposed when it was first published.

— Madame Tepliskow, wife of the Russian general of artillery of that name, has just been burnt to death at Kief, from the accidental setting on fire of her clothing by the ashes of a cigarette which she was smoking.

— A Washington dispatch of Monday says: "The resignation of Major General Butler, which was forwarded to this city about the 1st of June, having been returned 'not accepted,' he is expected in Washington to-morrow."

DEATHS.

In Newburyport, very suddenly, Mrs. DEBORAH D. CONANT, aged 71.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

Sch Canary, Wall, old Baltimore 15th for this port.

DR. BICKNELL'S SYRUP is a very rich, pleasant and palatable medicine; simple, safe and sure, for young or old. Contains no opiates, and cures Dysentery, Diarrhea, Cholera Morbus, pain or Cramp in Stomach or Bowels. For sale in Portsmouth by THACHER.

'TIS NOT A FABLE.—The immense and universal demand for the Fragrant Sozodont, is a marvel in the annals of Dentistry. It exceeds all other dentifrices combined.—Neither acid from the stomach, nor any other corresponding element generated by indigestion, can effect a set of teeth regularly purified by this Fragrant Vegetable antiseptic and preservative. 8

VINELAND LANDS.

To all Wanting Farms.

Large and thriving settlement, mild and healthful climate, 30 miles south of Philadelphia by railroad. Rich soil, producing large crops, which can now be seen growing. Ten, twenty, and fifty acre tracts, at from $25 to $35 per acre, payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Papers giving full information will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*

From Report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,

OF NEVADA.

Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; 2000 for sale. Price $40 per share; $50 per Share after August 1.

Stock full paid, and no individual liability. Company organized under the General Law of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.

We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent on the par value of the stock per month in GOLD. Any Clergyman, Insurance Agent, or Cashier of Bank is authorized to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York, R. W. H. FREEMAN, Esq., Cashier of the Atlantic Bank, 143 Broadway, or HERMAN CARY, Esq., 35 Nassau Street.

Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion at the net profit of $2,000 per day, or $1,500,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SPROUL, President.

S. R. HUTCHINSON, Secretary.

Office: 80 BROADWAY, over Am. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make their 25 to 50 dollars *every day*. State or county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business.—Will pay $5 to $20 per day. This is no patent right or medical humbug, but an article of merit, needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WILNEY & SON, No. 5, Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,

Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD-ROOT ELIXIR a sure remedy to restore them to health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately change the character of their secretions*,—thus arresting the cause of their weakness or debility. Through its action in the Blood, it will expel all *Humors* and *Impurities*, that are worthless, or but certain effect, invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.

Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.

The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, BOSTON, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

FOR CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.

BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.

FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body; nothing can be better adapted than this preparation.

In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 100 Court Street, Boston.

SAVE YOUR MONEY!

Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.

Wilbor's Monitor Hair Dye

Is superseding all others. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.* Manufactured only by ALEX. B. WILBOR, Chemist, No. 100 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, and Jan. 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

And all the work of a Family *of any size,*

AT LESS THAN

One-Third the Cost of Wood or Coal!

OF

THIS NEW

PETROLEUM Cooking APPARATUS

Is WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in	15 minutes
Common potatoes baked	" 30 "
Flour Biscuit baked	" 15 "
And three good-sized Flat Irons heated in	15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to

JOHN S. HARVEY,
Je29 47 Congress st., Portsmouth.

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 4000 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the facts, will see at once that the croakings of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, which have defied the Regular Doctors. No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the World,) of obtaining the latest and most approved medicines, and the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargements of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their manhood, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all the blessings of life derivable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Step by. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets which never should be published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in female health.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail, to any lady in any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 10 A.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

---

Pleasure Sailing.

The fine Schooner Yacht PILGRIM, about twelve tons, will run from Portsmouth, to accommodate Parties in the Harbor, or for the Shoals or other point, by the hour, day or week. The Pilgrim is a staunch boat and fast sailer, and well found in every particular, and will well accommodate 30 or 40 ladies and gentlemen. Apply on board the Yacht, at the Pier foot of State St., Portsmouth, or at Mr. PHILBRICK'S Stone Works.

☞ Lovers of a fine craft, and the public generally, are invited to call and examine the "Pilgrim." Capt. JOHN DIXON.
EDWARD SMITH,
Portsmouth, June 7, 1865. Proprietors.

Pleasure Sailing.

The elegant Sloop Yacht ECLIPSE, will run daily between RYE BEACH and the Shoals, leaving the Ocean and Atlantic Houses at 10 o'clock; and returning, leave the Shoals at 4 o'clock. The "Eclipse" has first class accommodations for Ladies and Gentlemen; and passengers will please to remember that there is no tide to interfere on this route.

☞ Sailing Parties accommodated to any other point. HENRY L. VARRELL,
Rye, July 10, 1866. Proprietor.

New England Screw Steamship Co.

SEMI-WEEKLY LINE.

PORTLAND TO NEW YORK.

THE splendid and fast Steamships CHESAPEAKE, Capt. Sherwood, and FRANCONIA, Capt. SHERWOOD, will until further notice, run as follows:

LEAVE Brown's Wharf, Portland, every WEDNESDAY and SATURDAY at 4 P. M., and leave Pier 9 North River, New York, every WEDNESDAY and SATURDAY, at 3 P. M.

These vessels are fitted up with fine accommodations for passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine. Passage, with State Room, $6. Cabin passage, $5. Meals extra. Goods forwarded by Steamer to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John.

Shippers are requested to send their freight to the steamers as early as 3 P. M. on the day that they leave Portland. For freight or passage apply to EMERY & FOX, Brown's Wharf, Portland; H. B. CROMWELL & CO., No. 88 West Street, New York. je20

PAINT! PAINT!

Winter's Metallic Brown Paint

RECOMMENDS ITSELF.

It is a pure oxide of Iron and Manganese. It takes readily with linseed oil, mixed in the gal lons, less per 100 lbs. than any mineral, and possesses more body than any other paint. It forms a glossy, unfading, durable *metallic coat*, protecting wood from decay, and iron or other metals from rust or corrosion.

☞ It does not require grinding, and is warranted to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.

STOVES,

KITCHEN FURNISHING GOODS,

FARMING TOOLS, &c.

THE MAGEE

COOKING STOVE.

The subscriber would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room; and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes —of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

SPANISH ROUGE,

FOR POLISHING,

Or Cleaning Gold, Silver, Silver Plated, Brittania Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For the purpose intended this article cannot be beat. Twenty-five cents invested in a package will yield more to the looks of a home than one hundred dollars spent in new ware. Every article of any kind of metal about the house can be kept in good like new. How much pleasanter all are when everything looks bright and clean, which causes a smile upon the face of the housewife. Keeping every article of metal polished with the Spanish Rouge is reduced to a mere pastime and pleasure. It removes the tarnish at the touch of the hand. *It is a mineral without any composition whatever, therefore can do no harm.*

Put up in three different qualities, for the finest Gold to the coarsest Metals.

Try the Spanish Rouge, and it will become a household word and a great assistant, to every person who has a ring or ear-drop, to an engine manufacturer, needs it. For sale by Druggists and Grocery dealers everywhere.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all Diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has the gratification of presenting the unfortunate with remedies, which the Physician, in his first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary vice which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to consult Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Chemical Pills, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience of the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1846, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Portsmouth Steam Factory for Sale.

Pursuant to resolutions passed at a special meeting of the Corporation holden at Portsmouth, N. H., on the 17th inst., will be sold at Public Auction, at the Mills of the Company, at said Portsmouth, on MONDAY, the seventh day of August next, at 11 o'clock A. M.

All the Real and Personal Property of the Corporation situate and being in said Portsmouth, comprising the following, to wit:

The Steam Mill, 300x40, six stories high with two wings, each 100x30 feet, with extensive dye house and bleachery of the most approved construction, with all the machinery, fixtures, tools, furniture, materials and supplies. Much of the machinery is new and all capable of immediate production, and the Mill has a capacity equal to thirty thousand dozen of spool cotton per week.

The Sagamore Mill, so called, now under lease to the Rockingham Mill and subject thereto.

A Dwelling House on Islington street, usually occupied by the Agent of the Factory.

Also, 14 houses in the vicinity of the Mill, used as boarding houses for the operatives.

One store house on Parker street, and one on Rock street.

A schedule of property may be seen at the office on the day of the sale.

The sale will be positive on that day unless withdrawn under a provisional vote of the Corporation, of which due notice will be given by posterior to this advertisement.

Terms—Five per cent. to be paid at the time of the sale. Fifteen days allowed for examination of title and to complete the payments in cash or its equivalent on delivery of deeds. Title to be satisfactory.

For further particulars apply to the Treasurer.

For order of the Committee of Stockholders.

Proposals for Wood.

SEALED PROPOSALS will be received at the City Clerk's Office until TUESDAY, Aug. 15, 1865, for supplying the Overseers of the Poor of the City of Portsmouth with Three Hundred Cords of merchantable HARD WOOD, to be delivered at a Railroad Station, or at some wharf in this city previous to Dec. 1, 1865.

The Overseers of the Poor reserve the right to reject any proposal.

By order of the Overseers.

MARCELLUS BUFFORD, Clerk.
City of Portsmouth, July 10, 1865.

NEW HAMPSHIRE BIRD LAW.

AN ACT to promote the interests of Agriculture.

SEC. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob-o'-links, yellow-birds, linnets, fly-catchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shallbetween the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sell, ship, offer for sale, have in possession, any of said birds*, taken or killed, whether in this State or elsewhere,—he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.

SEC 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County, or by posting notices in public places, and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.

SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered

Approved, July 8, 1862.

DR. SIMEON SWETT'S
FAMILY MEDICINES
Need only be known to be universally esteemed.
FAMILY PILLS.—The Pills are wholly Vegetable, and although active, are an easy and safe physic for the most feeble constitutions, and have proved effectual for the following Diseases: Headache, Dysentery, Piles, Pain in the Side, Stomach and Bowels, Jaundice, Liver and Spinal Complaints, and all kinds of Bilious Disorders.
N. B.—Every one who buys and uses these Pills, shall have all the pay refunded, if he finds them not worth all they cost.
DR. SWETT'S PANACEA, for Cancers, Leprosy, Salt Rheum or King's Evil, Erysipelas or St. Anthony's Fire, Canker in the Throat or Mouth, Rising in the Head, Sore Eyes, and Consumptive Complaints.
VEGETABLE ANTI-DYSPEPTIC BITTERS.
VEGETABLE CATHARTIC CONSERVE, for Piles, Dyspeptic Complaints, and Costiveness. It is a pleasant, easy, sure, and highly-recommended Physic for Children.
HUMOR WASH.—This preparation speedily cures sores and pimples of the face. Its immediate efficacy is its recommendation.
COMPOUND CORDIAL OF DANDELION, SPIKENARD AND BONESET—a remedy unsurpassed for Liver Complaints, such as Costiveness, Dimness and pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
NERVE LINIMENT, highly recommended for Rheumatism, Pain in the Head, Breast, Back or Joints, Stiff Neck, Sore Throat, Croup, the Piles, Sprains, &c.
☞ The above, with other valuable Preparations, for sale by DR. S. SWETT, No. 7 High St., PORTSMOUTH. Orders by mail or express, promptly filled. my8

which will be sold very low at No. 12 Market St.
J. W. & A. STAVERS.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Research can be made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast amount of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full access to all patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which the patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.
Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT
TO
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incidental to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, Spinal and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing their case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments so that patients see none but the Doctor himself.
Address DR. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. TthSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may be to you a life of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with aiad nurses. Charges moderate.

Carriages.
Persons thinking of purchasing CARRIAGES, would do well to call and examine or address

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JULY 22, 1865.

ELECTION IN RICHMOND.—Richmond correspondence says at the election there on Tuesday the secession candidates were elected, and the voting was done principally by paroled soldiers from Lee's army.

JEFF. DAVIS.—The Tribune's Washington special despatch says a prominent Senator asserts that it is positively determined to try Jeff. Davis by a military commission.

The Times' special despatch says no official information has been received by the authorities announcing a decline in the health of Jeff. Davis.

NEW JERSEY.—The Union State Convention nominated Marcus L. Ward of Newark, for Governor.

The Convention was large and harmonious, and was presided over by Gen. Kilpatrick. A resolution relative to the rights of the colored man was laid on the table.

AT SAN FRANCISCO, July 3, Billy Mulligan, who was expatriated by the Vigilance Committee of San Francisco, in 1856, and who afterwards raised a volunteer regiment, which he was not allowed to lead to war, shot and killed two men while in a fit of delirium tremens, and was about to fire again, when a policeman shot and killed him.

GOLD, Friday, 142 1-2. A steamer for Havre took $77,000 from New York.

EGYPT.—A letter from Alexandria dated June 28, furnishes details regarding the cholera, &c. It says the existence of the cholera was officially declared on the 11th of June, on which day three deaths occurred. By the end of the first week the deaths increased to about 100 per day; by the end of the second week they reached about 200 per day, and on the 27th the number was 250. There was much alarm and about 30,000 people had left the city. Business was generally suspended, but Mr. Hale, the United States Consul General, remained at his post, and the business of the Consulate was transacted as usual. No cases of cholera had occurred among the American residents, or on American vessels.

— Reports of Northeners travelling in the South represent the existence of immense mineral resources, which have been kept from public knowledge.

—The Savannah Republican says that the health of that city, thanks to the sanitary vigilance of Gen. Grover, is excellent. The deaths for the month of June numbered only 74, out of a population of 25,000.

— Gen. Santa Anna is now living at St. Thomas, W. I. He is said to be in excellent health, and at seventy years of age walks erect, and manages his cork leg with skill.

— The speech of Gov. Perry of South Carolina, at Greenville, Ga., causes a great deal of feeling at Washington. The President has been urged to remove him, — and will no doubt have occasion to do so before long.

— Private despatches from San Francisco state that Bishop Alonzo Potter, formerly of St. Paul's Church, Boston, died in San Francisco on the 4th inst.

— The Essex Hat Co. of Newburyport, ran their works twenty-four hours per day. They make hats at the rate of 150 dozen a day, but cannot meet the demand.

— It is calculated that one third of all the cotton weavers in this country have died, been married, or otherwise passed out of the business since the war begun, and the factories have ceased teaching others.

— The Indians having massacred 8 or 10 persons in Sanpete Valley, U. T., the Supt. of Indian Affairs has left Salt Lake City to have a "talk" with them.

— Manager Ford has issued a suit against Secretary Stanton for illegally holding his theatre. Eminent counsel have been engaged to prosecute it.

— General Hardie of the War Dopartment has issued a statement virtually contradicting the statements made by Father Walter, relative to the latter's being denied admittance to Mrs. Surratt by the Secretary of War.

— Newburyport, with a population of 12,978, has 15 churches and 20 schoolhouses.

—They are to have a billiard tournament at Augusta, beginning Sept. 4th, for the championship of Maine. Among the professionals to be present are Phelan, Carme, Foster, Wilmarth and Tobin.

—A Hilton Head negro, who had learned to read, wishing to give some of his acquaintances who had never seen a book an idea of it, said: "Reading is the power of hearing with the eyes."

☞ We have received from Messrs. Ticknor & Fields the 3d of their illustrated series of "Companion Poets for the People." This number is devoted to National Lyrics by John G. Whittier. Conveniently and tastefully gotten up, this series is sold at 50 cents per volume.

EDITORIAL JOTTINGS.

HANOVER, July 21.

Dear Chronicle:—An extra train from Manchester up, Thursday morning, took a large number of people to Commencement, among whom were Gov. Smyth and suite; Col. Harriman, Sec. State; Hon. E. H. Rollins; Councellors H. D. Walker and Chase, Speaker Pike, Hon. Onslow Stearns, Col. Tappan, and many other prominent citizens of the State. The weather was perfect as the loveliest blue day June ever saw, and the scenery along the Northern route is charming, though much of the country is rough indeed. The company was large, and we never saw so lively and social a general party. Everybody had a cheerful word and congratulation for everybody else—and it is a noticeable fact, that Concord people *are* always among the most sociable to be found anywhere.

The Commencement exercises were held in the Church, as usual, which was crowded—ladies above, and gentlemen below. On the platform, besides the faculty, trustees, &c., of old Dartmouth, were many distinguished invited guests, most of them included in the alumni,—among them Chief Justice Chase, Gen. Shepley, &c. Mr. Bissell, who has just given the institution $15,000 to build a gymnasium, was of course one of the lions—and we hope the corporation will not, as some of our Portsmouth institutions do, forget to honor their benefactors. Mr. Bissell was a graduate several years ago, and has made his pile since at the South, and it seems knows enough to do some good with his money.

The exercises were certainly fully up to the average on such occasions, and one or two specimens very able, particularly a discussion of the Monroe doctrine, which excited deep interest and much applause. Gilmore's Band furnished the music—and, strange to say, there was no singing. The lady favorites of the candidates for fame, severally threw bouquets to their friends or sweethearts, from the gallery; most of the speakers receiving one, several two, and one favored youth collected four, amid hearty applause of the house. But all these sweet tributes were received only with a cold bow towards the fair ones, and not even the Poet of the day, or the essayist on the fine arts, had the grace and chivalry to press the floral gift to his lips.

The graduating class numbers 43 receiving diplomas, besides half a dozen in the Scientific department—and is pronounced to be a class of much ability.

The Alumni Dinner, in the great hall of the Dartmouth Hotel, was spread for 300 or 400, and every plate taken care of—and a good dinner too. After the baser feast, at which Hon. Daniel Clark presided; speeches were made by Rev. Dr. Massey of of England, who urged for peace and love between the two countries, and insisted that a majority of the people and the government of England have always opposed the rebellion!

Gov. Smyth was next called upon, and regretted that he had not enjoyed the advantages of a liberal education. He said that he was only indebted to Dartmouth for a night's lodging years ago—that when a boy, he had walked to Commencement, and considered it an honor to be allowed to sleep on the floor of one of the College buildings. He suggested that the students cultivate and adorn the grounds with fruits and flowers, and that the taste of our young men and inhabitants generally of the State, needs developing and improving.

A proposition was introduced, to increase the $1100 to $1800 salaries of the Faculty, which will be done. Also to raise $50,000 to erect a monument to the memory of the 210 students of Dartmouth who have fallen in the war; and this will be achieved in the shape of a useful as well as elegant building.

Richard B. Kimball, esq., of New York, the writer, spoke pithily and rather sharply, in reply to Rev. Dr. Massey and condemned England's "neutrality." Gen. Shepley spoke eloquently, and referred to ex-Sec. Chase in glowing terms. This called up the now Chief Justice, who at some length expressed himself and the policy of the Government as decidedly in favor of negro suffrage. Mr. Turner of Richmond, a northern man who had been a teacher there for 23 years, and all through the war, for which purpose he was exempted and detailed, also expressed himself decidedly in favor of the blacks voting. Hon. E. S. Tobey of Boston, the new Trustee, and Col. Harriman, closed the exercises—which have been more largely attended than for years before. Among the guests were Gen. Marston, and other military men.

In the evening, the usual public Levee to the students, by the Trustees,—which was largely attended and brilliant and gay, closed what has been a very interesting Commencement week.

This afternoon, yours truly proposes to take a flying trip to the Profile House, and round through the Mountains, of which perhaps a word anon. F.

——The contract to build the cotton machinery for the new mill now being erected at Salmon Falls has been secured by the Water Power Machine Shop at Biddeford.

LETTER FROM NEW ZEALAND.

PORT CHALMERS, OTAGO, N. Z., March 23d, 1865.

Dear Chronicle:—The news from the States arrived yesterday, and (as usual,) upset all the "latest telegrams" by way of the Red Sea, received by the last mail.—Our latest accounts had Sherman before Savannah, badly provided with stores and munitions of war, and pressed by Hardee, and Thomas disastrously defeated, with the loss of 9000 prisoners, his baggage and his entire artillery. Presto, change! Savannah is taken, and Hood instead of Thomas has been very much annoyed by his opponents. There are but two American vessels in this harbor, the "A. W. Stevens," of Newburyport, Brown, master, and the "Lubra," of Boston, Capt. Homes,—but these two made a big show of bunting within a half-hour of the arrival of the mail steamer, and still wear their gay looks, notwithstanding a wet gale that set in at daylight. What the "Times" will say I can't say, as I have not seen the paper this morning, but I'll send it to you, and you can prig the editorials, pass them off for original, and thereby benefit the country, by conclusively proving that the North cannot carry on the war much longer, and inducing Washington to bend the knee to Richmond while there is still a hope of forgiveness.

Our townsman, Mr. Geo. L. Sise, is in business in Dunedin, and I believe prospering. He's very well spoken of, I know—but I've never called upon him yet. I think I will do so, however, though the innate bashfulness of the Americans is still strong within me, though I have been so long in British Colonies—but I'm good tempered since I heard of our great successes in the field, and want some one to rejoice with me, so retiring timidity wont keep me back any longer—I'll make his acquaintance right straight off.

For the last week, speculation as to the American disturbances has been forgotten, and even the great Maori war has been thrown in the back-ground, by a trial for murder. A Capt. Jarvey is the defendant, and stands charged with the murder of his wife, by strychnine poisoning. The trial commenced on the 15th inst., and was not concluded last evening, but is expected to terminate to-day. The great length of the trial has been owing to the very searching cross-examination of the scientific witnesses for the prosecution, by the prisoner's counsel. We are promised a full report of the trial in pamphlet form, as soon as possible after the conclusion of the trial. I'll send you one to put in your library—very interesting.

There have been but two books published in Dunedin, that I know of—an Almanac, in which the time of high water is just two hours too late to be correct—and a "Pamphlet on the American War," by Mr. Halliwell, Head Master of the Middle District School, in which he upholds the North, and goes in strong for the war—he's an Englishman, too! I'll get you one, if I can—and I'll give you my Almanac, too, if you want it, for it's of no earthly use to me—if I were to go by it, my proceedings would be more irregular than they ever have been yet.

The "Shenandoah" left Melbourne harbor last month, with about seventy good British subjects on board, (at least, so the papers say,) which brings her complement up to 150 men. She's gone to parts unknown, to do daring deeds in the kill, burn and destroy line—you'll probably have heard of her before you get this note.—Send some third-class gunboat out to sink her.

We have a new rush to the Western coast of the Islands, and the gold mining population of this island is fast becoming small. "Hard times" has been the cry among the lower classes for the last year, but 'tis "more wages or less work," now—men are getting scarce, and large employers of labor don't insist on their employees touching their hats when they speak.—Storekeepers are failing in every direction, from the loss of custom and the depreciation of property,—and the Times has a Jeremiad on the fading glory of Otago, for when the lower classes leave the nobility may collapse as soon as they like.

All the coastal steamers, and they're not few, are engaged in transferring our population to Canterbury Province, and any old lighter or punt that is laid on is filled up directly. Two small boats of 4 or 5 tons each have gone,—both of them taking passengers, though the distance is over 700 miles and the coast very tempestuous, and with but few harbors. I hope they may get there in safety, but I don't believe they will.

April 3d.—I have had so much written for two weeks, but I don't see it growing any, so I will write a little more. Capt. Jarvey's trial ended, after lasting for ten days, in a divided jury,—ten being for conviction, and two for acquittal. The principal point in the defence was that the strychnine which was found in the deceased's stomach was *quinine* when it was administered, and was turned to the former drug during the process of decomposition in the body, after burial. Very likely story! The local papers blow up the Judge, (who certainly hopelessly confused, in his summing up, evidence already as clear as mud,) and compliment the prisoner's counsel, evidently thinking that 'tis due to his defence alone that the Jury got perplexed, the Judge got lost in a fog, and a precious scoundrel got another chance for his life.—We have had lots more of murder since the trial—one man chopped off his mate's head with an axe, another one (a "middle-class" man,) threw his wife out of a third-story window,—two young women have been taken up for child-murder, and a German was picked up in the street a day or two ago with his head beaten to pieces, and a Maori butcher killed his partner with a cleaver. Pretty well for a new country.

The Maori war still continues, but there is not much fighting done, the most of it having been between some "Friendlies" and a body of "Pai Marires." The Pai Marire is a new religion the natives have invented, and consists (as far as I have been able to learn,) of a little Judaism, a little worship of the Virgin Mary, a little cannibalism, and a good deal of witchcraft, which latter ingredient is to be used in driving the whites into the sea. Some of fanatics lately captured two missionaries, and put one of them to death in presence of his native congregation, among whom he had labored for many years. He was first hung, and then decapitated, his heart and brains eaten by the wretches, and his body given to their dogs. The unfortunate gentleman's name was Volkner. His companion, the Rev. Mr. Grace, is still a prisoner in their hands.

These missionaries are brave fellows, and no mistake. They go all over the islands, without any protection save their prayers and their faith in the righteousness of their cause, and though many of them have laid down their lives, sacrificed to pagan rage, it makes no difference to the survivors—they keep on as if it were the most agreeable thing in the world to be a Maori missionary. It's all very well to be brave when you are able to fight, for when you are very anxious to kill somebody you don't stop to consider that he may very likely kill you; but to go, as these preachers do, among a lot of half (or whole) mad savages unarmed, and beyond hope of assistance in case of treachery, is a species of courage compared to which the fighting man's daring is all bosh.

April 15th.—I don't hear much more news to tell you, so I'll finish this brilliant epistle at once, and add a P. S. if need be. I am glad to be able to inform you that the Rev. Mr. Grace has been rescued from the savages by a man-o'-war's boat, none the worse for his captivity. A Roman Catholic priest, the Rev. Mr. Grainger, is missing, however, and though every exertion has been and is being made to find his whereabouts, no tidings have been heard of him yet, and it is much feared that he has been murdered by the Pai Marires.

The Boston schooner "Lubra" sailed from this port for Sydney last week, with part of her original cargo on board. The evening of the same day a brilliant light was observed by the pilots at the heads, in the direction the vessel took; and as a schooner reports having signalized the Sheandoah in Cook's Straits, and a cattle transport (the Hydra) reported having furnished her with fourteen bullocks in Foveaux Straits a few days previous, it is supposed the pirate has captured and burned the Boston vessel. I don't believe it myself, for I conversed with several Hydra's crew, and they made no mention of seeing the cruiser; but her agents in Dunedin after the vessel sailed, made the affair public, and prophesied that both the Lubra and the A. W. Stevens would get burned. If I hear anything either denying or confirming the story, I'll add the promised P. S.; but if not, you'll get this note as it is.

Yours, ICE.

Local.

☞ The Court Street Christian Society held their annual picnic on Friday, in the beautiful grove at Sagamore Creek owned by Mr. Davis.

☞ BENJ. M. PARKER, esq. of this city has been commissioned as Justice of the Peace and Quorum, for the County of Rockingham.

☞ A grand chance to spend a day at the Shoals is offered by the excursion of the Pioneer this evening. See advertisement.

☞ The iron-clad Agamenticus is still lying in Portland harbor, where it is supposed she will remain until Monday. It is understood that the vessel has proved satisfactory during the cruise, with the exception of the steering apparatus, which defect has not yet been entirely obviated in the monitors.

☞ We learn that a valuable horse belonging to Mr. Joseph Odiorne of Rye was maimed for life a day or two since by running away and coming in contact with another team, the shafts of which penetrating the thigh of the animal, caused him to bleed profusely, at the same time severing the cords of the leg. The accident occurred on Sagamore Road near the Cemetery.

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 30 years experience, *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

CAUTION FROM THE
AMERICAN WATCH COM'Y.
It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.
We manufacture four styles of Watches.
The FIRST has the name
"AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.
The SECOND has the name
"APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.
The THIRD has the name
"P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.
All the above styles have the name American Watch Co. painted on the dial, and are warrant ed in every respect.
The FOURTH has the name "WM. ELLERY, Boston, Mass.," engraved on the inside plate, and is not named on the dial.
All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.
It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. BARTLEY," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.
We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.
A little attention from buyers will protect them from gross imposition.
ROBBINS & APPLETON,
Agents for the American Watch Company,
je28—1m **182 Broadway, N. Y.**

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently injured by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical faculty have awarded it testimonials and premiums.
Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.
At Wholesale by DEMAS BARNES & CO., New York. sp28eowlym28

To Die in a Bad Cause
as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand
Dyeing for a Good Cause,
as those who are wise and prudent enough to remedy the defects of nature with
CRISTADORO'S HAIR DYE
are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 5 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je20

City Express.
D. L. RANDALL would inform his old customers and the public, that he has purchased a good team, and will be happy to fill any orders in his old line, as heretofore. Particular attention given to moving PIANOS, and conveyance of BAGGAGE to and from the Depots. Also to the cartage of nice articles about the city.
Order Slate at Mr. COBB'S Music Store, 29 Market Street. je21

Stone China Dining Ware.
The Latest Styles now opening and for sale by
je20 JOHN SISE, 3 Market Sq.

Local.

☞ Vice Admiral Farragut and family arrived in this city on Thursday from the White Mountains, and proceeded to the Yard, where he was received by Admiral Bailey and escorted to the Commandant's residence. There the party were saluted by the Marines under command of Lieut. Bishop, whose company acquitted themselves finely. A salute of 15 guns was also fired in honor of the "old hero." We learn that he will spend a few days at the Yard, being in the meantime the guest of Admiral Bailey.

☞ Heller's entertainment at the Temple to-night will be first-class in every respect. A rare thing it is to find men who do a variety of things do any of them well, but Heller is said to excel in *all* his performances. To listen to his playing will amply repay attendance. Those who fail to hear him deprive themselves of a treat.

SALE OF U. S. SHIPS.—Five vessels were sold by Auction at the Navy Yard on Thursday, which was attended by a large number of the "heavy business" from New York, Boston, Portland, and smaller cities. The sale took place at twelve o'clock, by U. S. Marshal Clark, of Portland, and resulted as fol ows:

Bark Ethan Allen, 570 tons, purchased by E. Snow, of Cohassett, Mass., for $20,000.

Bark Roebuck, 456 tons, purchased by M. Bartlett, of Boston, for $14,100.

Schooner Henry Jaynes, 260 tons, purchased by George Burnham, jr., of Portland, for $10,000.

Steamer Dawn, 391 tons—no sale.

" Wamsutta, 270 tons, O. Seabury, New Bedford, $14,500.

Steamer Arkansas, 970, Geo. S. Leach, of Portsmouth, $40,100.

Bidding was quite brisk on the sailing vessels,—opening moderate on steamers, and closing dull.

☞ The yacht Calypso, of New York, now in our harbor, is one of the most ele gant pieces of marine architecture that has visited our waters for many a day.

☞ We trust that all who can will avail themselves of an opportunity of learning to write while we have in our midst so good a Professor of the art of chirography as Hinman. He has opened a school at Fort Constitution, and we learn is meeting with excellent success in that direction. His manner of instruction is novel, and cannot fail of success in any case, if his directions are adhered to. He will soon leave this city, and we advise those who wish to improve their handwriting to give him a call at Academy Hall where he will be found every evening except Sunday evenings until further notice.

RAILROAD CASUALTY.—Monday evening as the last train for Portsmouth was between Salisbury and Seabrook a man was seen sitting near the track. As it was on a curve the headway of the train could not be checked and the iron step to the tender struck him just below the shoulder, knocking him down the embankment. The train was stopped, and on going back the man was seen creeping up the bank, and a medical examination could not discover that he was injured. The most singular circumstance is that he was struck with such force by the iron step as to break it off short where the iron was nearly three quarters of an inch in diameter, and where the closest examination could not detect the slightest flaw. His name is Peleg Small, of Seabrook, and his escape is probably owing to the preserving effects of some Newburyport liquor. But we cannot recommend the plan to tippers who wish to live; though if they cannot keep sober they might as well have engines and cars run over them as not.—*Newburyport Herald.*

☞ We have received from the publishers, Messrs. Ticknor & Fields, of Boston, the Atlantic Monthly, for August; also, Our Young Folks, for the same month, both of which periodicals are fully up to the high standard attained by preceding numbers.

Peterson's Ladies' magazine for August is also received, with its usual variety of fashions and other matters of interest to the fair sex.

"How the Western States may become the Imperial Power in the Union," is the title of a pamphlet by Dr. Wm. Elder, which gives valuable statistics in regard to the West, and advocates development of her great resources to make her the ruling power.

☞ Mr. Tuckerman, minister at large in Portland, warns the public against a travelling beggar and liar calling himself William Briggs We warn the public against *all* travelling and *unknown* beggars. If you *know* a poor neighbor, give him what you please — but send the unknown to the city missionary or the city clerk and overseer.

— It is estimated at the Freedmen's Bureau that at least forty thousand freedmen have learned to write since the rebellion broke out.

— Work on a street railway soon begins in Halifax, N. S. A park on the plan of the New York Central Park is also projected there, to contain about 300 acres.

LOUISIANA.—A vessel sailed from New Orleans for St. Petersburg direct, with a cargo of cotton belonging to New Orleans merchants.

The Boston Post's correspondent at New Orleans writes, concerning the crops of Louisiana: "So large or rich a fruit and grain crop was never before raised in the Southern country. Wheat is particularly fine. Most of it is harvested, and new flour is abundant with the people. Indian corn waves all over the cotton belt. It is now abundant on our tables, and in the autumn will fill our corn cribs. The growing cane is healthy, but only a little was planted.—The rice fields in the lower Parishes are large and doing well. Plaquemine alone will probably produce 50,000 barrels. It has suffered somewhat from want of moisture, but will be ready for the sickle by the middle of August, a week earlier than usual. And now turning our face up the river 'coast' we find the orange orchards laden with golden treasures—Louisiana oranges—sweetest, juiciest, best of known or fabled fruit."

SOUTH CAROLINA.—The N. Y. Herald's Washington despatch says the President stated to the South Carolina delegation the policy he intended to pursue regarding State reconstruction, and gave them distinctly to understand that there are important duties which they themselves have to perform. The gentlemen assured Mr. Johnson of the readiness of the people of that State to acquiesce in the results of the war, and to amend the Constitution so as to place it more in conformity with the spirit of the National Government and age.

The Times's despatch says Governor Perry will at once issue an address to the people of South Carolina.

ALABAMA. The World's Alabama correspondence says there is a deplorable state of insecurity in the capital of that State, resulting from the lax administration by Gov. Smith. There are fears of a negro insurrection. There is a complete and terrible dissolution in the country.

We give this as we find it.—If true, there is need of a strict military governor, for the present.

RATHER POINTED. — Mr. Reese, the well-known street preacher, was accosted by a would-be-wag with the following question:

"Do you believe what the Bible says about the prodigal son and the fatted calf?"

"Certainly I do."

"Well, can you tell whether the calf that was killed was a male or a female?"

"Yes, it was a female."

"How do you know that?"

"Why, because," said Reese, looking the chap in the face, "I see the male is alive."

A FIGURE HEAD.—The Manchester Union of July 20 is embellished (?) with a "spirited likeness of Payne," the would-be murderer of Sec. Seward; and the paper announces that Atzerott and Harrold will follow in a day or two. The spirit of Payne's face is repulsive in the extreme.

—— A small wire-suspension bridge, for foot passengers, has been erected across the Androscoggin River, at Gorham, by Joseph Chandler. It is 225 feet long, 5 feet wide, and 14 feet above the river, high water mark. The idea of enlarging it to allow carriages to pass is entertained.

— Gen. Sherman says—"I always travelled with a copy of the census in my saddle bags. I could tell how many inhabitants, how many cultivated acres, how many head of cattle and horses, how many bushels of grain each county possessed at that time, and so, approximately, how many there would be now, and how long it would subsist my army."

— In the Criminal Court at Washington, July 19, the jury found a verdict of not guilty, by reason of insanity,—in the case of Miss Harris, who shot Burroughs. The The counsel on both sides, Court, and spectators, are represented as acting disgracefully. We think the Military Commission keeps the best order of any Court in Washington.

— Last summer, when the rebels made a raid on Washington, they stole a valuable bracelet from the house of Hon. Frank P. Blair. Since then, a soldier has been constantly hunting for the bracelet—valued as a memento—and a few days since he discoveaed it upon the wrist of a young lady attending church in Winchester, Va. It was immediately handed over, and is now in the posession of Miss Blair.

DR. BICKNELL'S SYRUP is a very rich, pleasant and palatable medicine; simple, safe and sure, for young or old. Contains no opiates, and cures Dysentery, Diarrhea, Cholera Morbus, pain or Cramp in Stomach or Bowels.
For sale in Portsmouth by THACHER.

'TIS NOT A FABLE.—The immense and universal demand for the Fragrant Sozodont, is a marvel in the annals of Dentistry. It exceeds all other dentifrices combined.—Neither acid from the stomach, nor any other corresponding element generated by indigestion, can effect a set of teeth regularly purified by this Fragrant Vegetable antiseptic and preservative. 3

DEATHS.

In this city, 20th inst., Capt. ROBERT LEAVOUR, aged 70 years, for many years the City Collector and Treasurer: a man deservedly held in high estimation by our citizens generally.

VINELAND LANDS.
To all Wanting Farms.
Large and thriving settlement, mild and healthful climate, 30 miles south of Philadelphia, by railroad. Rich soil, productive large crops, which can now be seen growing. Ten, twenty, and fifty acre tracts, at from $25 to $65 per acre, payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Papers giving full information will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*
From report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.
Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; 2000 for sale. Price $40 per share; $50 per Share after August 1.
Stock full paid, and no individual liability. Company organized under the General Law of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.
We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in GOLD. Any Clergyman, Insurance Agent, or Cashier of Bank is authorized to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York, R. W. G. FREEMAN, Esq., Cashier of the Atlantic Bank, 143 Broadway, or HERMAN CAMP, Esq., 25 Nassau Street.
Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion at the net profit of $3,000 per day, or $1,500,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SPROUL, President.
S. R. HUTCHINSON, Secretary.
Office: 80 BROADWAY, over Am. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make their 25 to 50 dollars every day. State or county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business.—Will pay $5 to $20 per day. This is no patent right or medical humbug, but an article of merit, needed by every body, and sold at less than the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHITNEY & SON, No. 6 Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or Fare, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately commence the character of their recuperation*, arresting the cause of their weakness or debility. Through its action in the Blood, it will expel all *Humors* and *Impurities*, that are working in slow but certain effect, invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.
Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.
The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, BOSTON, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.
For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.
BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.
FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.
In Asthma, General Debility, Emaciation, and Cough, it is a reliable remedy. Persons in all the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 166 Court Street, Boston.

SAVE YOUR MONEY!
Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.
Wilbor's Monitor Hair Dye
Is superseding all others. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.*—Manufactured only by ALEX. B. WILBOR, Chemist, No. 166 Court Street, Boston.

PETROLEUM IS KING!
THE
UNION OIL STOVES!
Patented April 11, 1864, and Jan. 17, 1865.
A COMPLETE APPARATUS
—FOR DOING THE—
COOKING
And all the work of a Family *of any size,*
AT LESS THAN
One-Third the Cost of Wood or Coal!
THIS NEW
PETROLEUM Cooking APPARATUS
IS WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the
Only Kerosene or Coal Oil Stove
that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without
Dirt, Ashes, Smoke or Odor.
The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost
ONE CENT AN HOUR
for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.
"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in 15 minutes	
Common potatoes baked	" 30 "
Flour Biscuit baked	" 15 "

And three good-sized Flat Irons heated in 15 minutes.
By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.
For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.
☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

Coal at Cost.
The Eagle Hill Mutual Coal Company.
The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to
JOHN S. HARVEY,
Je20 47 Congress st., Portsmouth.

COAL AT COST.
EAGLE HILL MUTUAL COAL COMPANY.
This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.
The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 4000 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.
Any one who will take the trouble to investigate the facts, will see at once that the croakings of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Three Thousand Patients Cured annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the most remedial for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Venereal Ulcers and Sore Nose, Pimples on the Face, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to the Secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of life, are earnestly invited to call and consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. Perhaps it of course wears that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for every body.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage — 200 pages — full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail, post paid. Sent to all parts. Understand this is one of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsurpassed, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guiding of females. On receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curious eyes or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Pleasure Sailing.
The elegant Sloop Yacht PILGRIM, about twelve tons, will run from Portsmouth, to accommodate Parties in the Harbor, or Shoals Fishing, or other point, by the hour, day or week. The Pilgrim is a staunch boat and fast sailer, and well found in every particular, and will well accommodate 30 or 40 ladies and gentlemen. At ply on board the Yacht, at Pier Wharf, foot of State St., Portsmouth, or at GILBRIDE'S Boat House.
☞ Lovers of a fine craft, and the public generally, are invited to call and examine the "Pilgrim." Capt. JOHN DIXON.
EDWARD SMITH,
Portsmouth, June 7, 1855. Proprietors.

Pleasure Sailing.
The subscriber has obtained the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without any care.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer the reader to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We invite all those in want of the very best Stove in the market, to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.
"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without any care.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer the reader to the following named gentlemen, who have them now in use:

SPANISH ROUGE,
FOR POLISHING,
XL
Or Cleaning Gold, Silver, Silver Plated, Brittania, Brass, Tin, Steel, Iron, Copper, Glass, Metal of all kinds. For the purpose intended this article cannot be beat. Twenty-five cents invested in a package of this, will go more to the looks of a home than one hundred dollars spent in new ware. Every article of any kind of metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which causes a smile upon the house-wife. Ah! she knows the value of every article of metal polished with the Spanish Rouge is reduced to a mere pastime and pleasure. It removes the tarnish at the touch of the hand. *It is a mineral without any composition, tobacco, therefore can do no harm.*
Put up in three different qualities, for the finest Gold to the coarsest Metals.
Try the Spanish Rouge, and it will become a household word and be a great assistant. Every person who has a ring or ear-drop, to an engine manufacturer, needs it. For sale by Druggists and Grocery Stores everywhere.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. Years of extensive study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate victims of those diseases, having put the first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those diseases, which are the following named baleful ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to consult Dr. Dow's treatment can in a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has now the benefit had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1846, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, and No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

END OF A LIFE OF FRAUD.—The Havana correspondence of the World has a brief notice of the death of W. H. Gardener, whose brother was the originator of the celebrated Mexican mine claims, and who committed suicide in a Washington prison. It will be remembered that the papers on which these claims were based were drawn up with so much skill as to deceive even Tom Corwin. They were prepared in Mexico by Charles Gardener, another brother of the Doctor. William H. died in a wretched garret in Havana, in circumstances of extreme poverty, on the 9th inst.

U. S. SANITARY COMMISSION
ARMY & NAVY CLAIM AGENCY.
No Charge for Services.
S. HOLMAN, Local Agent,
Office, No. 5 CONGRESS STREET (up stairs.)
The U. S. SANITARY COMMISSION desiring to relieve Soldiers, Sailors, and their families from the heavy expenses usually paid for the prosecution of such claims, have established this Agency, to collect pensions, arrears of pay, bounty and other claims against the Government, without CHARGE OR EXPENSE OF ANY KIND WHATEVER TO THE CLAIMANTS.
On application sent to this Agency, stating the name and post office address of the claimant, the name, rank, company, regiment, service, and State of the soldier on whose account the claim is made, date of discharge or death; the proper blanks will be filled out as far as possible and forwarded to the person applying. These can be executed and returned to this office, where the claim will be prosecuted to a final issue in the shortest possible time. jy7

Removal.—Hair Work.
Mrs. MORAN has removed from No. 4 Daniel Street to
CONGRESS BLOCK, CONGRESS STREET,
Room No. 4, Up Stairs,
(Next door to Wm. R. Preston's Apothecary Shop, same entrance with Salen's Photograph Rooms,)—where she will continue manufacturing Gentlemen's and Ladies' WIGS, FRIZETTS, BANDS, Plain and Curled WATER-FALLS, BOW KNOTS, BRAIDS, RINGLETS, &c. Particular attention paid to dressing and making CURLS.
Constantly on hand, a good assortment of CHIRPED HAIR ROLLS of different sizes, WATER-FALL and BOW-KNOT PADS, &c.—Old work made over to look as well as new at less than half the cost of new. Ladies by **furnishing Hair**, can have it made into Ringlets, Water-falls, &c, at less than half the price of those for sale, and orders promptly and faithfully executed. Water falls and Ringlets dressed in the best manner at short notice. jy7

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but though it invariably has advantageous securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such success argues well for great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in courts of Law and Equity, has made on contested applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents.
R. H. EDDY.
Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medicate, safely and speedily remove obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 32 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicine adapted to their disease, and forwarded to any part of the United States, with full directions for use. Drugs arranged with separate apartments, so that attendants see none but the Doctor himself.
Address DR. BRISCOE, at No. 32 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
☞ Soldiers, who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JULY 24, 1865.

FATHER WALTER, the spiritual adviser of Mrs. Surratt, appears to be a full-grown copperhead of the most venomous species; but all his blowing, with that of Mr. Brophy, will hardly convince the candid public either of her innocence, or the guilt and tyranny of our government.

Gen. Hardie, who procured the pass for Walter to visit Mrs. S., contradicts the report that Sec. Stanton imposed terms of silence on the priest; and in a letter too long for us to copy, details the case, showing what was actually said and done in the matter.

After mentioning the fact that he (Gen. Hardie) procured the pass from Sec. Stanton, and sent it to Walter, he says:

Upon Mr. Barry's (my messenger to the Rev. Mr. Walter,) return, he informed me of the violent and excited language of Father Walter, with regard to the trial and its result, which he (Father Walter) had heard after leaving the War Department. On this I went myself to see the Rev. Mr. Walter, to caution him, as a well-wisher and as a friend of the church, and in my private capacity entirely, with regard to the use of language so inflammatory as that which he had indulged in at this, a time of great public excitement. * * * * *

Mr. Walter had displayed so much excitement and temper that it was a duty of charity, on my part, in view of all the circumstances, to endeavor to induce him to pursue a more discreet course, and to caution him to be silent, as became his place, on these topics.

I asked him in a friendly and kindly way to promise me that he would desist from talking about the matter. Mr. Walter's convictions as to the innocence of the prisoner, or the use of any proper efforts, believing her to be innocent, to arrest her execution, were not made matters of objection. It was to the inflammatory character and effect of his observations at this period, when the public mind was agitated, that my attention was directed. Unnecessary, idle and angry discussions and harangues could not but be mischievous just at this moment, and, since it appeared that Mr. Walter could not approach the subject with temper and discretion, it was better that he should let it alone.

* * * After what I had said, I do not see how Mr. Walter could have understood me as being prompted by instructions in my conversation. In replying to me, the Rev. Mr. Walter was very violent and generally denunciatory. The range of his conversation was quite wide. He harangued upon the Administration and the rebellion, and dwelt with bitterness on what he called "military tyranny," etc. He said, probably, all that he is represented in the fourth paragraph as having said, and very much more than a prudent priest, a loyal citizen, or a man of common sense would have said. * * * * *

In conclusion, I distinctly aver that the Secretary of War expressly and readily assented to the visit of a Catholic clergyman to Mrs. Surratt. He made no condition as to any conviction of the clergyman as to the guilt or innocence of the prisoner, or as to anything he might say on the subject.

TEXAS AND MEXICO.—Brownsville dates of the 8th are received. The rebel Generals Kirby Smith, Magruder, Rice, Shelby, Douglas and Jackman, with four hundred men and officers, two pieces of artillery and a large wagon train, have gone to Mexico. Governors Moore and Allen of Louisiana, and Clark and Murray of Texas, are with the party.

Late reports confirm the delivery of Confederate property to Gen. Brown by order of Maximilian.

The Federals recently captured 500 bales of cotton and a large wagon train laden with quinine, saltpetre and other goods going to Texas.

The Imperialists have evacuated Camargo, falling back on Monterey, abandoning the entire country. They were much annoyed on their march by Cortinas.

The Shreveport correspondent of the Times says Duly's forces are marching to San Antonio.

GOLD AND PORK.—The N. Y. Commercial Advertiser of the 19th says:

Gold shows less strength. The bulls are embarrassed by the advance in money, and have to pay very high rates to have their heavy load of gold carried; some of them are offering to lend at 1-32 per cent., but find few borrowers. They are enabled to sell out to the regular customs demand a daily amount of their stock at about the price at which they bought; and the probability is that they will be satisfied to get out of their "corner" in that way, without attempting the difficult task of engineering a further rise. The demand for customs is very active; the speculative transactions are merely nominal.

The Express says:

A very spirited contest has been going on for some time past in the pork market, and the price has been run up to $31 for mess. The result of this has been a general failure among the bears, and all the prominent operators for a fall have gone under. The bulls have suffered considerable for months, but they reaped a rich harvest by this last movement.

It is to be hoped they may suffer again, very speedily.

☞ Late advices from Hayti show the rebels to be still in possession of Cape Haytien, but blockaded there, and could be taken by assault,—but Pres. Geffrard does not wish to destroy the city or the people therein.

EDITORIAL JOTTINGS.—*Concord*, Saturday morning.—Dear Chronicle: After putting my hand to the plow, I turned back hither, from Hanover, instead of fleeing to the Mountains, as designed; the prospective hard work of the other jaunt scared me off, for like the old man's opinion of the young blower, "three minute" horse, the distance was too great for the time I had to spare. So we all took the return train to Concord this morning, and now for a good rest at the Phenix to-night. Gov. Smyth, Chief Justice Chase and all, came down; and to Mr. Stearns' kind attentions all along the route, no little of the comfort and pleasure of the trip was due.

This morning we start for the Weirs, per B. C. & M. Railroad—where Capt. Sanborn promised to have his Lady steamer ready for a trip across the Lake to Centre Harbor and Wolf borough, and we expect to drink in our fill of beauty.

But before leaving old Dartmouth, we must offer a bit of advice to the Trustees of that institution, and perhaps we may growl a little. It is of dirt we have a word to say. Now we regard man (most men) as a very dirty animal. If you don't believe it, just look at the offices, counting-rooms, stores, workshops, and almost any premises left to his care, (especially if he use tobacco in any form,) without woman's redeeming, sanctifying oversight. Now the landlord at the Dartmouth House is no doubt a very clever fellow, but he don't know how to keep a hotel; and the Trustees of the College, and the citizen's of Hanover, generally surely ought to see to it, that a decent public house is provided there. At any rate, when the Governor of the State, and his accomplished lady, are invited to Commencement, somebody ought to see to it, that His Excellency have endurable quarters, without hunting after them in public and private houses, especially when he is known as one of the most public-spirited and hospitable men in the State, and never forgets to look out for everybody's comfort where he is responsible. It it be said that the College officers have but stinted means at their disposal, we reply that a most efficient way to increase those means, is to attend to all their little outside details.

One more count in my complaint. The library rooms of the College, where the Faculty held the Levee Thursday evening, were decorated with a most superb display of cut flowers; and when filled with beautiful women, and fine looking men, the scene was lovely indeed. But the stairs leading to them, looked as if they had not seen a broom for a year, and were covered with dust and litter to an extent that no decent man, (not to mention women) would tolerate in his barn. We speak for the interest of the College, in this matter, for personally we were shown every attention, and got along very comfortably, and have no reason to complain. But, we think a little enterprise and energy infused into the business management of the College, would enable it to occupy the position it should fill.

We found Hanover, a very small village, beautifully located in a valley completely encircled by hills, and the town is really but little else besides the seat of the College. A ramble about the College buildings and grounds, Friday morning, with an old graduate here, caused our blood to boil again, as he recited the same old stories of college pranks, which so disgrace humanity, and prove conclusively that the race of fools is not extinct. What a shame, that advantages should be wasted on idiots who don't know how to improve them, when there are so many worthy boys with brains, in the world, who *would* improve them could they but have the chance! "Boys will be boys." Well, let them be—they ought to be; but they need not be fools nor vandals.

Our ride down, over the Northern Road, along the Connecticut and Merrimac rivers, took us through much fine scenery, and in view of the beautiful little town of Franklin, and near the old Webster farm. Ascutney's sharp blue peak towered above the multitude of lesser hills, and Kearsarge's lower but grander summit was beautifully shadowed by the clouds. Now for the Lake. Yours truly, F.

MASON BROTHERS, New York, announce as in press, to be ready September 1st, a new collection of Church Music for choirs, singing schools, conventions, &c., to be entitled "The Praise of Zion." It is by two new authors—Solon Wilder and Frederic S. Davenport; and the publishers, who have had great experience in such matters, and whose judgment is rarely at fault, express great confidence that it will prove extraordinarily attractive. An important feature will be its presentation of a number of compositions from distinguished foreign authors, as Neukomm, Novello, and others, as well as from American favorites, among whom Chas. Zenner is full represented,—all of which are now first printed from the original manuscripts. Retail price $1.50. The publishers will send an advance copy of this book to any teacher or choir leader, post-paid, for one-half of the retail price.

GOLD, Saturday, 142 1-2.

DRUID, the Washington correspondent of the New York News, writes, July 18:

The belief is general here now that the idea of having Jefferson Davis tried in the civil courts, which was seriously entertained a short time since, has been abandoned, and that the trial will soon take place before a military tribunal appointed by the President. The following distinguished generals are spoken of as having been selected as members of the court: Major Gen. Dix, Major Gen. Wallace, Major Gen. Meade, Major Gen. Hooker, Major Gen. Hancock, Major Gen. Terry, and six others. The charge upon which the distinguished prisoner will be tried is said to be direct complicity in the assassination of President Lincoln. If he is acquitted, which is not anticipated, he will then be handed over to the civil courts, to be tried for treason. It might have been thought the appetite for blood had been appeased by the appalling spectacle of the 17th inst. But it does not appear to be so. I hear everywhere expressions of joy that Mr. Davis is to be tried before a military court, because it seems to be taken for granted that, if so tried, he will be condemned and executed. And I hear too, everywhere, expressions of the hope that Jefferson Davis will be hung, and hung, too, on the same gallows on which Mrs. Surratt suffered. The fact that the gallows has been left standing, just as it was used, is regarded as indicating that its work is not yet done.

We do not deem Druid the highest authority, — but we have no doubt the people of the land generally, (as he suggests,) deem Davis' crimes worthy of death, and wish him to suffer the extreme penalty of the law.

WASHINGTON ITEMS.—The Tribune's despatch says the authorities of Alexandria, Va., are tenacious as to the provisions of the old State law, excluding colored people as witnesses. A case recently occurred, in which the Freedmen's Bureau took an interest, but the Judge refused to be governed by Gen. Howard's order admitting negroes as witnesses. The military will probably be called upon to enforce the order hereafter.

The Herald's despatch says Governor Perry of South Carolina has explained his speech to the satisfaction of the President and most of the Cabinet, who express great confidence in the loyalty and patriotism (?) of the Governor, and believe that he will administer the duties of office with a loyal spirit.

THE PIRATE BURLEY — *A Singular Charge.*—The trial of Bennett G. Burley, one of the Lake Erie raiders, took place at Port Clinton, Ohio, last week, and Judge Fitch of Toledo, who presided, delivered a most singular charge to the jury, to the effect in substance that the "Confederacy" was a government *de facto*, and that if they found that Burley was a regularly commissioned officer in the "Confederate States" navy, and that he was being under orders in making the raid, he was a belligerent, and was not guilty of the alleged robbery. Notwithstanding this very remarkable charge eight jurymen favored a verdict of guilty. Four stood out, however, and after five hours deliberation the jury reported to the court that they could not agree, and were discharged.

The second trial was set for the October term of court, and Burley was admitted to bail in the sum of $3000, which he will progably obtain without trouble. The Sandusky Register says that Burley confidently expected to be acquitted.

☞ North Carolina is making active exertions to secure emigration to her territory. Col. J. M. Heck and Kemp S. Battles are in New York for the purpose of opening offices in the North to furnish information and encourage emigration. They say the people of North Carolina are anxious to have their resources developed. The feeling is very strong in favor of a new system of labor, and a large majority express gladness at the abolition of slavery. They offer to sell or lease large quantities of land, gold, iron and lead mines, and water power, and other liberal inducements to emigrants. This is the first step of the kind taken by any State.

CONSPIRACY TO MURDER AND ROB.—A young man was arrested in New London, Conn., on Wednesday, charged with conspiring with a girl to murder Mrs. Chas. Wheeler, of that city, for the purpose of robbing the house. The girl was in the employ of Mr. and Mrs. Wheeler, and confesses that the young man induced her to join with him in the proposed murder.

NEW ENGLAND CATTLE MARKETS, at Cambridge, Brighton and Medford, this week.—Abridged from the Boston Post

Sheep—Extra includes Cossets, and when these of inferior quality are thrown out of the lot.

COTTON MANUFACTURERS.—An adjourned meeting of gentlemen connected with the cotton mills of New England, was held in Boston last Wednesday, to perfect an organization, to be called the "New England Manufacturers' Association," for mutual intercourse and assistance. There were representatives from all the mills in the New England States, except Connecticut. By-laws were enacted, providing that any person of good moral character, who is or may hereafter be agent or superintendent of any cotton mill in New England, may become a member of the association, upon signing the by-laws and paying an admission fee of ten dollars, and an annual assessment of ten dollars. The following officers were elected:

President, E. A. Straw of Manchester, N. H.; Vice Presidents, A. D. Lockwood of Lewiston, Me.; W. A. Burke of Lowell; Directors, J. S. Davis of Holyoke, D. D. Crombie of Lawrence, Charles Nourse of Woonsocket, R. I., Wm. P. Haines of Biddeford, Me., Phineas Adams of Manchester, N. H., Thomas Borden of Fall River.

☞ Harper's Magazine for August is a capital number, and will lose none of the popularity this periodical has earned so richly during the past fifteen years. Two illustrated articles and instalments of the serials by Dickens and Wilkie Collins, are among the leading papers. A. Williams & Co., Boston, publishers' agents. J. F. Shores, Jr., has it in this city.

☞ Godey's Lady's Book, for August, has for a frontispiece, The Fair Haymaker; Summer Dresses for the colored fashion plate; and the Thorny Path, life-like wood cut.

— In Portland, an unknown man wearing a slouched hat and red flannel shirt, has been volunteering his services to several citizens with the following results. He goes to a house or place of business and asks for a barrel to bring shavings in. He assures the people that he is out of work and wants some employment. Says he had as lief do such a small job as not. They give him a barrel for the shavings. He forgets to return it in every instance. One firm are nine barrels "out."

— Lewis Briggs, of Boston, aged 15 years, was drowned in a pond near Greenwood Grove, Thursday. He and three other boys, all belonging to a Sunday School picnic party, were on a raft, which capsized them all into the pond. The others were saved.

Portsmouth Steam Factory for Sale.

Pursuant to resolutions passed at a special meeting of the Corporation holden at Portsmouth, N. H., on the 17th inst., will be sold at Public Auction, at the Mills of the Company, at said Portsmouth, on MONDAY, the seventh day of August next, at 11 o'clock A. M.

All the Real and Personal Property of the Corporation situate and being in said Portsmouth, comprising the following, to wit:

The steam Mill, 200x70, six stories high, with two wings, each 100x30 feet, with extensive dye house and bleachery of the most approved construction, with all the machinery, fixtures, tools, furniture, materials and supplies. Much of the machinery is new and all capable of immediate production, and the Mill has a capacity equal to thirty thousand dozen of spool cotton per week.

The Sagamore Mill, so called, now under lease to the Rockingham Mill and subject thereto.

A Dwelling House on Islington street, usually occupied by the Agent of the Factory.

Also, 14 houses in the vicinity of the Mill, used as boarding houses for the operatives.

One store house on Parker street, and one on Rock street.

A schedule of property may be seen at the office on the day of the sale.

The sale will be positive on that day unless withdrawn under a provisional vote of the Corporation, of which due notice will be given by postcript to this advertisement.

Terms—Five per cent. to be paid at the time of the sale. Fifteen days allowed for examination of title and to complete the payments in cash or its equivalent on delivery of deeds. Title to be satisfactory.

For further particulars apply to the Treasurer.

Per order of the Committee of Stockholders.

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that, the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Matrimonial.

LADIES AND GENTLEMEN: If you wish to marry you can do so by addressing me. I will send you, without money and without price, valuable information, that will enable you to marry happy and speedily, irrespective of age, wealth or beauty. This information will cost you nothing, and if you wish to marry, I will cheerfully assist you. All letters strictly confidential. The desired information sent by return mail, and no reward asked. Please inclose postage, or stamped envelope addressed to yourself. Address,

my19 SARAH B. LAMBERT, Greenpoint, dawSmos Kings Co., New York.

Proclamation No. 64.

All peaceable and well disposed citizens who will purchase one bottle of PEASE'S VEGETABLE HAIR RENEWER, will find the result as follows: It will turn your Gray Hairs to their natural color; it will prevent your hair from falling off or becoming gray; it will keep your head clean and healthy; it will dress your hair beautifully; it does not smell of sulphur. Ask your druggist for Pease's Hair Renewer, and take no other. Also, PEASE'S PHILOCOMS is unsurpassed as a Hair Dressing. No Lady will be without it who knows its value. *See Circulars.*

J. H. THACHER, Agent for Portsmouth and vicinity. my19—3mo*

☞ Save your Rags and old Papers! Every family can supply themselves with a good newspaper from the proceeds of such savings. Mr. URIAH BLAISDELL advertises to buy them.

"A thing of beauty is a joy forever."

Martha Washington Hair Restorer

is a perfect success—*It not a Dye*—Will not color the skin.—Will restore Gray and Faded hair to its former Beauty—Change Dry, Harsh and Wiry Hair to a soft and silk-like appearance—Cure all humors and diseases of the Scalp—Remove dandruff and scurf—Prevent the hair from falling off—Promote a healthy growth, and cause it to grow on bald heads, where there is life and vitality at the roots, but if these are gone there is no hope or success. **PRICE $1.00.** SIMONDS & CO., Fitzwilliam, N. H. Proprietors.

☞ Sold in Portsmouth by WM. R. PRESTON and J. H. THACHER. sp27

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

TEBBETTS BROS., Proprietors,
Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. sp7eod6md

CLOCK'S

Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; causes hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, No. 2 Congress Block.

CAUTION FROM THE

AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY, Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.," others "P. S. Bartlet," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je28—1m **182 Broadway, N. Y.**

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the dire cases arising from disordered nasal organs. Slight hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 50 cents per box. Can be sent by mail on receipt of 50 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spndaWlymy28

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

City Express.

D. L. RANDALL would inform his old customers and the public, that he has purchased a good team, and will be happy to fill any orders in his old line, as heretofore. Particular attention given to moving PIANOS, and conveyance of BAGGAGE to and from the Depots. Also to the carriage of nice articles about the city.

Local.

☞ Portsmouth is really getting to be a great place—with its drunkards, courtezans, gamblers, pickpockets, pugilists, dog poisoners and retired substitute brokers. A reluctant admission for us to make, but too true. A poor advertisement also for old Strawberry Bank, which, until the war, was celebrated for its staid and puritanical inhabitants, insomuch that it was regarded as being peopled by what were termed "old fogies" by latitudinarians. Yet we are not disposed to "write" it over to the supreme rule of the emissaries of Satan, or suggest the "folding of the hands to sleep" and allow our sons and daughters to rush unchecked into destruction's pit; for while there has been such a large influx of "roughs" into our midst, and broken the harmony of the family circle, the city is governed generally by officials of integrity and high moral worth, who can be safely trusted with its management and the correction of the evils resulting from events beyond control. Also our police are men of ability in their profession, possessing tact and energy that can cope with roughs who would grace North street, or the Five Points, as has been proven in more than one instance.

We would refer to the late pocketpicking affair of a day or two since, wherein the police—not withstanding they did not get the credit of it at the time—displayed an amount of shrewdness in the capture of those barpies that would have done credit to an M. P. of New York. And on the day following three more "knuckers" belonging to the same gang, were obliged to leave town on account of being suspected and followed closely by policeman Abbott. They were first observed by him on the street, and their demeanor immediately gave him the impression that they were suspicious characters, and acting upon this belief he watched every movement. At the hotel they announced their intention to remain in the city for a day or two, and probably had their pickets thrown out and their camping arrangements completed, when their dreaded enemy—the policeman—appeared and compelled them to break camp at five o'clock, they leaving in the half past five train for Boston altho' they purchased tickets for Newburyport. It was noticed that they intended to have made a "haul" at the depot, where there was a large crowd, the man appearing with a shawl on his arm,—a necessary appendage to the practice of their tricks it is said,—but discovering that he was closely watched by the indefatigable Abbott, gave the signal to his "pals" (another man and a female) to give up the attempt. Another suspicious character was also dogged on Thursday.

Hence we don't believe that immorality and vice, although rampant, are to dominate and triumph over us just yet, and will not, so long as the people say that upright and honest men shall rule them and execute the laws. REP.

POLICE COURT, July 21.—The careful reader of the daily police court record will doubtless remember the imbroglio of two females tarrying in our midst, named Eliza A. Ham and Lizzie Wilson, the former causing the arrest of the latter, because of a suspicion that Elizabeth had abstracted from the coffers of the said Ham the sum of $600, more or less. Miss Wilson was worsted; inasmuch as she was sent to the county jail—in default of procuring bonds—to await her trial at the Fall term of Court. Since her incarceration, some friend (male, of course,) has succeeded in obtaining the required amount of stamps that will allow her to breathe the air of freedom, which is very refreshing—at least so it is stated;—we never tried it. Now Miss Lizzie possessing the spirit of revenge common to her sex, in "taking her walks abroad" and passing the dwelling of the Ham family, insults the matron of the establishment by using opprobious language and making remarks, which appeared to be personal, and at the same time reflected upon the character of Mrs. H., who likewise being unable to suppress her indignation, resorted to a pugilistic encounter with Miss W., which resulted in the arrest of the former for an assault and a fine of $7, and $3.86. Truly, as Josh Billings says, "this world is all a fleeting circus."

GLAD TO SEE IT.—The old stone pavement on Vaughan street, near Hanover, is being relaid, under the watchful eye of Mr. Haines. In its best estate that kind of a pavement is poor enough, but for years the spot in question has been a disgrace to our city; and over it nearly all the strangers visiting the city have passed.

☞ On Friday evening the steamer Fox, on her passage to the Navy Yard with the six o'clock mail, ran down one of the Yard workmen's boats, knocking two or three of the oarsmen overboard, and injuring severely one of the boat's crew, Mr. John H. Lord. The boat, which was one of the best on the river, was badly stove on the starboard quarter.

☞ Hon. Wm. H. Rollins of Concord visited the Navy Yard on Friday for the purpose of looking after the interests of the Government in that direction.

☞ The beautiful yacht Calypso left this port on Friday for the Shoals with Capt A. Murray and wife, Chief Engineer Bartleman and others from the Navy Yard.

In the afternoon Vice Admiral Farragut and family with Admiral Bailey and family embarked for the same place on board the steamer Portfire.

☞ Two immense castings have just been made in East Boston; one a propeller weighing 17,000 pounds, for a sloop of war; the other, weighing 32,000 pounds, for the steam frigate Franklin, now at this Navy Yard.

☞ We very much incline to believe that our pocket-picking friends are "in for it" until October. They were much elated at the close of their trial, with the prospect of obtaining bail; but fortunately for the public and unfortunately for them there are no less than three more complaints to put right on them, which will doubtless draw heavy on the purses of their friends, if they feel disposed to relieve them.

DEATHS.

In this city, on Friday morning, July 20, of paralysis, MR. BENJAMIN FRANKLIN FOSTER, aged 49 years, son of the late David C. Foster. Deceased was a printer, learning his trade in the office of the Portsmouth Journal, and pursuing it in California and elsewhere, but returning home to finish his days. He was remarkably amiable, modest and kind.

In Seabrook, July 17, MARY F. SOUTHER, aged 17 years.

OBITUARY.

Died, on Thursday last, July 20, ROBERT LEFAVOUR, Esq., aged 70 years. He was one of the most worthy, efficient, honorable and honest of our citizens, and had the confidence, respect and regard of all who knew him. He was ever open, manly, independent and truthful; was a christian in principle, morals, heart, soul and life; was firm and decided in his political views and patriotic devotion to the Union and his country; was noble in his feelings, generous in his benevolence, and inflexible in his friendships. He had a loftiness of spirit that carried him with energy and perseverence through every duty, and that sustained him with patience and calmness through all his long continued and severe trials of domestic life. Our city made him its Collector and Treasurer, and he rewarded those who appointed him by the affability of his manners, and by his accuracy, faithfulness, promptness and integrity in his public duties. He was one of Nature's noblemen; and was a faithful disciple of his Redeemer in deed and in truth. The very many and noble traits of his character greatly endeared him to his fellow citizens, and have built for him an imperishable name. COM.

JOSEPH B. ADAMS, P. M.

YOU CAN'T OPEN YOUR LIPS, Ladies, without revealing whether you use the Fragrant Sozodont, or not. No occasion for words. Your teeth and breath speak for you. The lustre and purity imparted to the dental machinery by that peerless fluid, and the fragrance it gives to the mouth, cannot be realized by the use of any other article accessible to the human family. 4

DR. BICKNELL'S SYRUP is a very rich, pleasant and palatable medicine; simple, safe and sure, for young or old. Contains no opiates, and cures Dysentery, Diarrhea, Cholera Morbus, pain or Cramp in Stomach or Bowels. For sale in Portsmouth by THACHER.

'TIS NOT A FABLE.—The immense and universal demand for the Fragrant Sozodont, is a marvel in the annals of Dentistry. It exceeds all other dentifrices combined.—Neither acid from the stomach, nor any other corresponding element generated by indigestion, can effect a set of teeth regularly purified by this Fragrant Vegetable antiseptic and preservative. 3

VINELAND LANDS.
To all Wanting Farms.
Large and thriving settlement, mild and healthful climate, 30 miles south of Philadelphia by railroad. Rich soil, producing large crops, which can now be seen growing. Ten, twenty, and fifty acre tracts, at from $25 to $35 per acre, payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Papers giving full information, free. Send free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*
From Report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.
Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; 2000 for sale. Price $10 per share; [illegible] $50 per share after August 1.
Stock full paid, and no individual liability. Company organized under the General Law of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.
We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in GOLD. Any Clergyman, Insurance Agent, or Cashier of Bank is authorized to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York, R. W. G. FREEMAN, Esq., Cashier of the Atlantic Bank, 143 Broadway, or HANNAY & CO., 45 Nassau Street.
Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing one to silver bullion at the net profit of $4,000 per day, or $1,500,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SPROUL, President.
S. R. HUTCHINSON, Secretary.
Office: 89 BROADWAY, over Am National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make their 25 to 50 dollars every day. Also, some country rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED.—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business.—Will pay $5 to $20 per day. This is no patent right or medical humbug, but an article of merit, needed by every body, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHITNEY & SON, No. 6 Fremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately change the character of their constitution*,—thus arresting the cause of their weakness or debility. Through its action in the Blood, it will expel all *Humors and Impurities*, that are sucking a slow but certain effect, invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.
Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.
The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, BOSTON, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.
For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in fear of thousands that are arrested the disease in its primary stages, and restored the patient to robust health.
BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.
FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.
In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 166 Court Street, Boston.

SAVE YOUR MONEY!
Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.
Wilbor's Monitor Hair Dye
Is superseding all others. It requires no preparation, does not rent or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.*—Manufactured only by ALEX. B. WILBOR, Chemist, No. 166 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, and Jan. 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

And all the work of a Family *of any size,*

AT LESS THAN

One-Third the Cost of Wood or Coal!

THIS NEW

PETROLEUM Cooking APPARATUS

Is WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in 15 minutes	
Common potatoes baked	" 30 "
Flour Biscuit baked	" 15 "

And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal by saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to

JOHN S. HARVEY,
Je20 47 Congress st., Portsmouth.

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who take no over been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most competitors. It has been operation over six months, has more than 4000 stockholders, has delivered coal at a saving of $2 to $4 per ton lower than market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the facts, will see at once that the combinings of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

DR. J. TELLER'S SPECIFIC

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has acquired renown, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life joyous and happy. Such will do well to come aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and Married Ring pr. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Ladies requiring medicine in certain delicate situations should avoid their use. For reasons see directions which accompany each package. For the sake of the unfortunate. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 7 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

—DEALER IN—

STOVES,

KITCHEN FURNISHING GOODS,

FARMING TOOLS, &c.

THE MAGEE

COOKING STOVE.

The subscriber would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable,—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some purporting to be but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat desired, and will keep the fire in for the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 2 Endicott Street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and extensive practice in the Hospitals of Europe, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first entered the profession, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the mind and unfits the young for the arduous individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $3 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 2 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should call on him a call

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1855. eod&wly

VOL. XXVII. PORTSMOUTH, N. H. TUESDAY, JULY 25, 1865 : 203. No. 20.

The Chronicle.

WAIFS FROM AN ESTRAY.—*Wood Island, Portsmouth Lower Harbor.*—Can you good Mr. Chronicle, to whom all sorts of questions are propounded, can you tell me if this island be named in derision, or if, in the same manner that we say we are about to dust a room, when we intend to remove the dust from it; or pare an apple, when we mean to take off its paring;—we say Wood Island to indicate the total absence of that useful material.

But if wood be scarce, vegetation upon this pile of surf-washed rocks is quite luxuriant, and nature has given of her beautiful with a bounteous hand. Here I have found the evening primrose, its delicate yellow contrasting finely with the blue of the modest sandwort and the gaudy purples of the more pretentious beachpea; wild parsley and clover bloom side by side, and the gorgeous autumnal coloring of the woodbine has the effect of a rich mosaic upon the pebbles; but chiefest of all, far excelling in richness of color and redundancy of blossoming any we have seen upon the main and, are the wild roses of Wood Island.

Piled one upon another, worn by the ceaseless importunities of the waves, seams crossing seams in every direction, no doubt a geologist might find much to study in the rocks of which this island is formed, but to the uninitiated it is simply a confirmation of the theory of the Sage of Appledore, (whose house we see farther out at sea,) that "Portsmouth was the last place made at creation, and that the islands in its vicinity are composed of the *rocks that are left.*

An outlay that need not be extravagant would construct a good breakwater at the southerly portion of this island, improving our harbor and removing all danger from outlying ledges on that side which are covered at high water.

Gently blew the winds, darkly blue the waters, the boats sped gracefully over the one, under the influence of the other; the cuners appreciated your correspondent, and every time he "dropped them a line" they would envelope it and furnish him with a tail in return. ION.

— A number of whales have been seen near Marshfield, Mass.

— It is said that cotton manufacturing is better at present than it has been for a long time.

— Commercial Hotel, in Paris, Canada West, was destroyed by fire Friday night, and three young maid-servants perished in the flames.

— A woman, a deck passenger, was lost overboard from the steamer Commonwealth, on Thursday night, just before 12 o'clock when nearing Groton, Conn. The woman, supposed a foreigner, took passage at New York, and walked or fell from the open gangway.

U. S. SANITARY COMMISSION
ARMY & NAVY CLAIM AGENCY.
No Charge for Services.
S. HOLMAN, Local Agent,
Office, No. 5 CONGRESS STREET (up stairs.)
The U. S. SANITARY COMMISSION desiring to relieve Soldiers, Sailors, and their Families from the heavy expenses usually paid for the prosecution of such claims, have established this Agency, to collect pensions, arrears of pay, bounty and other claims against the Government, WITHOUT CHARGE OR EXPENSE OF ANY KIND WHATEVER TO THE CLAIMANT.
On application sent to this Agency, stating the name and post office address of the claimant, the name, rank, company, regiment, service, and State of the soldier on whose account the claim is made, date of discharge or death; the proper blanks will be filled out and forwarded as soon as possible and forwarded to the person applying. These can be executed and returned to this office, where the claim will be prosecuted to a final issue in the shortest possible time. Jy7

Established in 1846.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign records, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service as moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN CAGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.
Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppression of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicine carefully put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that attendance none but the Doctor himself.
Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. TtSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Those who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Carriages.
Persons thinking of purchasing CARRIAGES, would do well to call on or address

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JULY 25, 1865.

WASHINGTON ITEMS. — It is said the elections in Virginia have gone so strongly in favor of secessionists that even guerilla Mosby is encouraged to become a candidate for Congress.

No more five cent postage stamp currency is to be issued.

The Agricultural Bureau is in receipt of gratifying reports of the condition of crops of every description.

The Government took possession Monday of Ford's theatre at a fixed rent.

The rebel Secretary of State, Benjamin, is in Paris.

Mason and the other rebel agents to Europe have recrossed the Atlantic and are now residing in Canada.

VIRGINIA COURT.—Perley writes to the Boston Journal as follows:

A case occurred in a Justice's Court in Alexandria, this week, which shows the kind of legal Justice the loyal black population throughout the Southernust expect as soon as the strong arm of the War Department is withdrawn from their protection. A well-to-do colored man was sued for a claim of seventy-five dollars; the evidence of the white plaintiff was taken; that of various colored men offered by the defendant was refused; the officer in charge of the Freedmen's Bureau at that place appeared and cited the orders of that bureau of the War Department, to show that the Justice had no jurisdiction in the case; the magistrate proceeded, gave judgment in full for the plaintiff, and issued an execution; the Superintendent of Freedmen placed a guard around the property levied on, and reported the case to General Howard who has written a letter to the Mayor of Alexandria, requesting that all cases arising between colored and white men, may be turned over to the military tribunals. If the request is not complied with the military authorities will be called upon to enforce the orders of the Department. At present freedmen have no chance at all before the local courts of Alexandria. The Mayor and other magistrates declare boldly that they will adhere to the old Virginia law, and that whenever any law compels them to receive the testimony of a negro they will at once resign.

To this latter threat, the proper answer is, the sooner they *resign*, the better.

NEW ORLEANS.—During the progress of the proceedings in New Orleans for confiscation of the rebel Slidell's property, claims were put in by French parties for 390,000 francs, but the Judge decided that as Slidell was a notorious enemy of the country his property belonged to the government and the claims could not be allowed.

ALABAMA.—The Selma (Alabama) correspondent states that considerable quantities of cotton are awaiting transportation to ship-board. Many of the planters are offering their plantations at very low figures, being dissatisfied with the free labor system, while others wish northern emigration. A regular system of thieving in cotton is carried on, by which the government is defrauded heavily. The frauds are being perpetrated in many cases with the knowledge of the military authorities.

SUPPOSED PIRATE. — The Hawaiian schooner Piel arrived at Honolulu on the 22d June, from Moconesian Island, reported that on March 30th, lat. about 4 north, lon. 167 west, a vessel bore across the schooner's bows. The stranger was a bark-rigged propeller, showing English colors. Her boat boarded the schooner with two officers and a large crew armed with cutlasses and revolvers. The boarding officer said his ship was the English ship Miami, but that he had not been in port lately. After leaving the schooner he sailed in the direction of Strong's Island, 400 miles distant. The boarding officers were Americans. There is little doubt this was the Shenandoah. She was on the track of the whale ships returning from the southern seas, bound north to the Arctic, and of sperm whale cruisers. Were she to proceed thence to the Arctic she would make terrible havoc among the sixty or seventy whalers congregated there.

☞ In consequence of the great number of aged and decripit colored people thrown upon the Government by their former masters in Maryland, a circular has been issued by General Howard, Superintendent of the Bureau of Freedmen's Affairs, directing that unless such masters in St. Mary's County, Maryland, take care of their infirm servants, the authorities will take possession of their plantations for the support of the colored people thus turned out from home.

☞ The Papal Ministers having declined to attend the banquet at the Mexican Embassy, it is reported that the Embassy will shortly be withdrawn from Rome.

It is reported that a private telegram announces that the Pope has excommunicated Maximilian.

UP TO CONCERT PITCH.—The Second Presbyterian Church in St. Louis last Sunday excommunicated one of its members because he had refused to acknowledge that he had sinned in joining the rebel army.

GEN. KILPATRICK.—At the Union State Convention held at Trenton, N. J., last week Gen. Kilpatrick, while occupying the chair as temporary president, made a brief speech in which he expressed his opinion of Northern sympathizers with the rebellion in the following emphatic language:

You have assembled here to-day, my friends, under no ordinary circumstances, and I trust with good promise of success in redeeming the fame of our State. I tell you, wherever I go—to New York, Philadelphia, Washington, while travelling in the cars—everywhere I hear language in reference to New Jersey, which fills my soul with disgust and hatred to those who have disgraced my native State; and how it is possible for any of its citizens to join hands with traitors is beyond my comprehension. Fellow citizens, I have deviated from the course of military men in taking the stand I have, but I have been more excited since I have been in New Jersey over what I have heard than I was during any of the scenes through which I have passed during the war. Do you know that I have heard men say it would have been better to let the South go; that they believe in State rights; that the martyred President was a tyrant! that his successor, Andrew Johnson, is a second Nero! There are men in Sussex, with much zeal but very little brains, who rejoice that they voted for John C. Breckinridge once, and say "by thunder they would do it again if they had an opportunity!" Not satisfied with sacrifices, expenses and all the calamities of the war, they now tell you that Johnson is a murderer for approving the execution of the assassins of the President. The copperhead editors were equally guilty with Southern rebels. He thought the whole batch of such traitors should be hung on the same tree with Jeff. Davis.

AN INTERESTING STATEMENT.—In his remarks preceeding the presentation of the diplomas at the Abbott Female Academy last week, Prof. Park stated that in the same month and also upon the very same day of the month on which he was born, another man was born. Thirty-nine years ago, when he took his Latin diploma, that man had not learned to read. To-day he was the humble President of Abbott Female Academy, and that man was President of the United States. This was said in illustration of woman's influence, it being well understood that Mr. Johnson was indebted in no small degree for his education to his wife. He never attended school a day in his life.

RETRIBUTION.—Capt. Henry Wirz, late prison keeper at Andersonville, is shortly to be put on trial for the cruelty and barbarity practiced by him upon our prisoners confined in that place. The military Commission sitting in Washington, of which Brigadier Gen. A. B. Underwood is President, Col. N. P. Chapman, of the War Department, is Judge Advocate, has been directed to try the case. The charges embrace a list of atrocities that are almost fiendish, and will arouse the indignation of the civilized world. The Government is now engaged in collecting testimony preparatory to the trial. Let the soldiers who have survived their imprisonment at this prison put Col. Chapman in possession of any essential facts.

—Out of sixteen hundred male clerks, messengers and others at present in the Treasury Department six hundred are disabled officers and soldiers. The five hundred lady clerks are chiefly Union refugees from the South, and relatives of disabled and deceased soldiers.

— The members of the 60th New York regiment made a raid on the bar rooms of Philadelphia on Thursday, demanding liquor, cigars, and tobacco, for which they refused to pay, stabbing one bar keeper badly, and beating off the policemen sent to arrest them.

—According to the Internal Revenue returns, the theatres and other leading places of amusement in New York city received nearly two million dollars (1,895,651) from their patrons last year. This sum, however is much below the amount spent for amusement, as there are scores of minor places of entertainment where a great deal of money is expended.

— Choistopher Page of Prescott, Mass., now in his 80th year, has mowed in the hayfield every summer for 67 years, and is at it this year, easily keeping up with sons and grandsons.

—All the cotton mills in Woonsocket are now in operation, but most of them run only a part of their machinery. The difficulty is to get sufficient "help." Many of the manufacturers are *importing* French Canadians in large numbers.

—The Providence Press says: "There is a man of our acquaintance living in this city who has been married thirty-four years and has still his wedding suit, which he has worn every Sunday since, and it is still in good condition for Sunday wear."

—An old building in Taunton, known as the "Wilmarth" house, has an authentic record of one hundred and twenty-three years, and is memorable as having been the residence of Robert Treat Paine, one of the signers of the Declaration of Independence. It is being demolished.

—In France the consumption of snails has become so great, that it is said a special market is about to be opened for them.

NEW HAMPSHIRE ITEMS.

—— Rev. Rowland Connor was installed as pastor of the Universalist Church in Concord, on Thursday evening. Invocation by Rev. E. Fitzgerald; Scripture Reading by Rev. F. Magwire; Sermon by Rev. E. Fisher, D.D.; Installing Prayer by Rev. J. J. Twiss; Charge and Delivery of Scriptures by Rev. G. T. Flanders; Right Hand of Fellowship by Rev. H. C. DeLong; Address to the Society by Rev. A. J. Patterson; Benediction by the Pastor.

—— James W. Coggswell, Esq., son of Hon. Thomas Coggswell of Gilmanton, was kicked by an ox a few days ago, and his left leg broken in two places below the knee.

—— J. Augustus Roberts, Esq., of Farmington Village, was riding on the 17th inst., when his horse became frightened and threw him from the carriage upon some rocks, and broke his leg in three places.

—— Mr. Geo. N. French, of North Sandwich, received an appointment as a First Class Clerk in the Treasury Department, 2d Auditor's Bureau, on the 5th inst. Mr. French was formerly a member of the 14th N. H. Vols., but was recently discharged by order of the Secretary of War, to accept the appointment.

—— The Advent Camp Meeting, at Alton Bay, commences on the 27th prox., and continues over two Sabbaths.

—— In Enfield there is a single field of rye, containing 125 acres, of which the Shakers own 100. It is estimated it will yield over 3000 bushels.

—— J. A. Roberts, Esq., of Farmington, had his leg broken in three places, by being thrown from his carriage, on the 17th inst.

—— The Peterboro' Band has recently been revived, and is in practice. The citizens of the town subscribed nearly $500 towards the purchase of a new set of instruments.

——Luther Hayes of Milton has been appointed Sheriff for Strafford county, and George W. Holbrook of Surry for Cheshire county.

——On the 4th inst., a large steam cylinder in Mr. Cheney's paper mill at West Henniker, exploded, scalding three boys considerbly.— Chas. French, Frank Brady, and Charles Dow.

——A young lady in Seabrook bottoms daily ten pair of ladies' boots known as run rounds, receiving therefor two dollars and fifty cents.

☞ The celebrated Drew horse is no more. He was found a few mornings since in his stall with one of his fore legs broken in two places. The manner in which it was done is still a mystery to the person who had him in charge, Mr. Gilford, of Fairfield Corner, Me., where he had been sent by his owner, Hiram Drew, of Levant, to stand this season. A writer in the Waterville Mail says:

"Probably no horse in this country has produced so many fine horses as this one, and it will be a long time before his equal can or will be found. He was 26 years old and I believe has been always in the possession of his present owner, who also owned the famous horse 'Hiram Drew,' now in the possession of Mr. McKay, of East Boston, and who proved himself the fastest horse on the road last winter.

We had been led to expect that the old horse would be exhibited at our Agricultural Fair, along with his numerous progeny, as he would have made the show of 'Drew stock' complete.

THE BARQUE DAHOMEY.—The barque Dahomey, seized at Brooklyn, on the charge of being a slaver, was last from Cuba, and sails under Portuguese colors. Part of her cargo was sold on arrival, but the balance was kept in the vessel. Part of the cargo consists of timber, rice, rum and other articles used by slaves. It is alleged that the vessel intended to sail for the coast of Africa for a cargo of slaves.

☞ Ten skeletons were found a few days ago in an excavation made in one of the streets of Quebec. They were at first supposed to be remains of Indians buried there a long time ago. Now, however, some of the older inhabitants recollect that when Dr. Marcuil, called the Indian Doctor, was hanged forty years ago for the murder of the pedlar Francis Guilmet, he stated on the scaffold that he had killed ten other persons, and this, with the fact that the Doctor had lived on the very spot where the bodies have just been found, would seem to point to these as the remains of his victims.

— Owing to the numerous applications of rebel General officers to take the oath of allegiance and be released from prison, the President has issued a general order released from prison, the President has issued a general order releasing on parole all who will take the oath. There are only about two hundred above the rank of Major still in prison.

— Gen. Howard has established an intelligence office at the corner of Thirteenth and M Streets, Washington. A record will be kept of all freedmen wishing for employment.

— A Fortress Monroe letter says the U. S. steamer Quinnebaug was wrecked on the bar off Morehead City on the 21st.—About thirty persons are reported as lost or missing.

☞ A complaint comes from Charleston that a copperhead regiment called Zouaves, in concert with ex-rebels there, are wantonly cruel to the blacks. The writer says:

I am impressed that the copperheads are determined to create dissatisfaction among the colored people against the government. These cruelties being performed by U. S. troops, they say to many: "See how your Northern friends treat you. Is it not better for you to be slaves? Your freedom won't do much good for your people. Your supposed friends intend to treat you worse than your masters. They wish to get you out of the country." But it don't take. The colored people called a mass meeting at Zion's Church, on Monday, 10th inst., and passed this resolution:

Resolved, That we, the colored citizens of South Carolina, residing in the city of Charleston, deem it right and proper that we should know from the commander of this district what may be the cause of our molestation by those whom the government has placed here for the protection of all loyal citizens. We are quite sure of our peaceful conduct in the community, and if we cannot obtain proper information from the authorities, and be redressed, we will appeal to the government at Washington. We are determined not to permit further intrusions upon our rights as loyal citizens, nor infractions upon the Government of the United States.

Late accounts say the Zouaves have been disarmed and sent to Fort Sumter. The men were mutinous, and their officers not wise.

GIVING A REASON.—A firm in Pennsylvania stopped its subscription to a New York paper a few days ago, because it favored negro suffrage. In their letter they say:

We see enough of the bad effects of ignorance voting in this country, and we would sooner see the franchise taken from all persons, both black and white, that can't as much as read and *wright*.

Spelling and grammar not regarded, we suppose.

☞ The Newburyport Herald of Monday says:

Quite a number of liquor sellers in this city closed their business last week. They could not afford to pay fines and were not prepared to go to prison.—Others will follow their example this week.

This is the effect of a little effort in the line of enforcing laws that have been styled a dead letter.—In Boston, and other New England cities, this year, the authorities and the property-holders have become *alarmed* at the frightful increase of intemperance, uncleanness, robbery, and murder.

What temperance men told them ten years ago, they would not believe; what they advised, they would not follow. But the increase of crime exactly in proportion of the increase of tippling places, has set them to work, and every blow tells.

DROUGHT IN EUROPE. — Letters from Americans travelling in Germany state that the fields are parched by drought, and groups of persons are everywhere seen in which clergymen and people are imploring heaven to refresh the suffering earth with copious rains.—*Trans.*

— The ship Mercury, at Havre, from New York, picked up on the 28th of June thirty passengers from a boat of the ship William Nelson and five others from pieces of floating wreck. There was a bark in the vicinity at the time which was expected to pick up more.

—The ministers of Richmond still take a defiant attitude, as though the rest of the world were of small consequence in comparison with Virginia.

— The 7-30s are about all gone from the U. S. treasury. Some of them are for sale by banks and in other hands. They may soon bear a premium.

— Eight discharged soldiers, and one other passenger, lost their lives by a collision on the Central Ohio railroad, last Friday.

— The English convict, Dr. Pritchard, has confessed that he poisoned his wife.

GOLD, Monday, 142 1-2.

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers her

SOOTHING SYRUP

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing, and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*

Please inclose a stamped envelope, addressed to yourself.

Address JOSEPH T. INMAN,

Station D, Bible House,

d24sndaw New York City.

☞ **A Physiological View of Marriage**:—Containing nearly 300 pages, and 130 fine Plates and Engravings of the Anatomony of the Human Organs in a State of Health and Disease, with a Treatise on Early Errors, its Deplorable Consequences upon the Mind and Body, with the Author's Plan of Treatment—the only rational and successful mode of cure, as shown by the report of cases treated. A truthful adviser to the married and those contemping marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of 25 cents, in stamps or postal currency, by addressing Dr. LA CROIX, No. 31 Maiden Lane, Albany, N. Y.

The author may be consulted upon any of the diseases upon which his book treats, either *personally* or by *mail*, and medicines sent to any part of the world. mch19—6mdawsn

By REV. J. CULVERWELL, M. D., author of the *Green Book*, &c.

"A boon to thousands of Sufferers."

Sent, under seal, in a plain envelope, to any address, *post paid*, on receipt of six cents, or two postage stamps, by DR. J. C. KLINE, 127 Bowery, New York, P. O. box 4,586. je13 3mdaw

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, envelloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

CAUTION FROM THE

AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted to every respect.

The FOURTH has the name "WM. ELLERY, Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.," others "P. S. BARTLEY," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je28—1m 182 Broadway, N. Y.

Burnes's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. BURNO, P. O. Box 1285, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spu&w1yny28

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je20

Local.

POLICE COURT, July 22.—Joseph Somers, drunk, fined $3 and costs $3.86.

Lizzie Snow, proprietress of a house of ill-fame, which means in this case the most infamous kind of a hell, was arrested as such, and bound over in the sum of $300 to appear at the October Court. Not being able to procure the bonds she was committed to jail, altho' she can comfort herself with the hope that she may not long remain in durance vile as there are plenty of nice young men about who are unfortunate enough to have a sufficient amount of greenbacks, and will use them as a remedial in the case referred to.

Susan Gray was arraigned, charged with being a common prostitute, found guilty and sent to the House of Correction for three months. Miss Gray is a native.

Three brazen-faced, unwashed and wretched specimens of the feminine species, named Minnie Plummer, Lizzie Lee and Jennie Davis, were arrested as lewd characters and allowed the privilege of leaving the city within 48 hours and never return or go to jail. Of course they promised to leave.

☞ The other day we noticed four little boys, in one of our streets, the eldest of whom could hardly have attained the venerable age of six years; the quartet being engaged in smoking an equal number of clay pipes. Don't do it, boys! don't force your stomachs to do penance in the acquisition of a habit that ere you have mastered it, will be likely to become your master. Poetry and prose may praise the Virginia weed's allurements, and counterblasts may be fulminated against it, but you will rarely find an intelligent person who uses tobacco who will recommend its adoption by a young friend. Advice costs little to the giver, but a boy can do worse than profit by that of an OLD SMOKER.

☞ U. S. Senator Daniel Clarke, of Manchester, was in the city on Saturday.—Mr. C. was looking well and is in excellent health. An item in Saturday's paper made us say that the Hon. Wm. H. Rollins was in the city, on business connected with the Government at the Navy Yard. It should have read the Hon. Edward H. Rollins, Member of Congress from the 2d District

☞ A man by the name of Benjamin Franklin Littlefield, of Wells, Me., lost his right eye on Saturday at the Navy Yard. He was driving a tree-nail, when a piece of it flew off and penetrated the eye in such a manner as to cause it to drop entirely from the socket. He was immediately attended by Dr. Mark Wentworth. Mr. Littlefield is a returned soldier, having served three years in a Maine regiment.

☞ Charles Gray, a graduate of the State Prison was severely stabbed in the back on Friday night by the keeper of a house of ill-fame on Water Street named Lizzie Snow, while in a drunken row in said house. His injuries are not considered fatal. We are glad to learn that the police have succeeded in breaking up the above named den of infamy, even if it is re-inhabited in twenty-four hours, as it would be refreshing to those who have occasion to pass that way to witness the house cleared of prostitutes. It has long been a resort of the lowest and vilest kind.

☞ Dame Rumor has it that in conjunction with the abolishing of the office of Navy Agent, the offices of Master Workmen at the Navy Yard are to be filled by Naval officers corresponding with the same rank in mechanism.

☞ We observe by shipping news of Saturday last, that ship Silver Craig, Cohn, arrived at Batavia May 29, having picked up at sea in lat. 10 S, lon. 98 E, the master and two of the crew of the ship A One, Potter, from Akyab for Falmouth, with rice. These three had been floating about on planks for seven days. The remainder of the crew were lost with the vessel; and it is said that N. Currier Varrel of this city was first mate of the lost ship. If so, he is probably lost.

—On Custom House Wharf, in this city, Mr. Walter Brown, of Portsmouth, has in an advanced stage of construction, a six oared shell boat, that for beauty, strength and lightness, will rival any boat in the country. She is being built for a crew residing in Eliot in this State, a part of whom are known here as the "Portsmouth crew." The crew average in weight about 155 pounds each, and it is intended that when finished it shall weigh 150 pounds—less than one sixth of the weight of her crew. The following are the dimensions of the boat: Length, 44 feet; width, 26 inches; depth, 12 inches; depth from gunwale, 7 inches; weight, 150 pounds.—*Portland Argus.*

RE-APPOINTED.—Hon. Jacob H. Ela, of Rochester, has been re appointed U. S. Marshal for this District, and Hon. Charles W. Rand has also been re-appointed U. S. District Attorney. Both of these gentlemen have filled these offices for the past four years with ability, and reap the reward which follows.

—Col. Jesse C. Little, formerly of Peterboro', is City Marshal of Great Salt Lake City, Utah.

NEW HAMPSHIRE ITEMS.

—Peter Curns, a transient person, aided three girls to escape from the House of Correction at Manchester, a few days ago. For this offence, Curns is sentenced to six months' imprisonment in the House of Correction.

—At Manchester, Wednesday night, Rufus H. Orcutt, Co. A, 1st N. H. Cavalry, met with an accident by which both bones of the left leg were broken, and he was considerably bruised. He went to bed in the third story, when, having occasion to get up about midnight, he went down one flight of stairs, and, the window being open, he stepped out upon the portico, and to the sidewalk below, twelve or fourteen feet.

—Col. JOHN L. THOMPSON of the N. H. Cavalry, issued his farewell address to his command, July 21st. On this occasion he received from them the valuable present of a beautiful silver service, comprising a full Breakfast and Tea set with Salver and Pitcher.

—B. R. Emerson, a son of B. F. Emson, Esq., of Nashua, graduated at Amherst College last week, and delivered the Valedictory at Commencement.

—The Exeter Ballot says that during one day and night last week a fox killed over one hundred chickens belonging to Nath'l Woodman of that town.

—An accident occurred at the Eureka Powder Works, at New Durham, on Wednesday the 12th inst., resulting in the loss of the life of Charles H. Staunton, of Dover. The mill had just started, hardly making one revolution, when the powder (then nothing more than charcoal, brimstone and salt petre) took fire, and the building was burned to the ground. Mr. Stanton, one of the mixers, not having time to escape, was burned so badly that he expired the next day.

WEBSTER HOSPITAL, MANCHESTER.—The Mirror of Thursday, says:

Major A. T. Watson, the Surgeon in charge of the Webster Hospital in this city, yesterday received a telegraphic dispatch from U. S. Surgeon General Barnes at Washington, ordering him to close the Hospital forthwith and send all the patients remaining to the Hospital at Concord.

This action of the Surgeon General is surprising to many of our citizens. Only a few weeks ago, Gov. Smyth requested him to transfer the sick and wounded soldiers belonging to New Hampshire regiments, from the Hospital in Washington and Hospital in other Other States, to Webster Hospital, and he received a dispatch from the Surgeon General to the effect that the exchange should be made.

On being informed of the order to Surgeon Watson, Gov. Smyth immediately sent the Surgeon General the following dispatch:

Manchester, N. H., July 19, 1865.

Surg. Gen. A. K. Barnes, at Washington:

I beg of you to countermand your order to Surgeon Watson, in charge of the U. S. Hospital in Manchester, N. H., to close the same, until I can communicate to you reasons why this should not be done. Great injury and injustice will be done our wounded soldiers if the order is executed.

FREDERICK SMYTH,
Governor of New Hampshire.

Since the above was written the Governor has sent another dispatch inquiring of the Surgeon General why his promise to transfer the New Hampshire wounded soldiers to this Hospital has not been fulfilled.

CHARGE OF SWINDLING.—A New York dispatch of Saturday says,—

A case was brought before the Police Court yesterday in which Chas. J. Anthony, a wealthy citizen of Worcester, Mass., is charged with false pretences and swindling Ex-Gov. Gilmore of N. H. out of $15,000, which the latter's agent was induced by Mr. Anthony as alleged, to invest in an enterprise called the Moorehead gold property, represented to be located in Halifax county, Nova Scotia. The case was adjourned to the 31st inst., and Mr. Anthony was held in $15,000 bail. He says the charge is brought to defraud him.

—The Government officials at Nashville have succeeded in saving enough property from the ruins of the late fire to reduce the total loss to $1,250,000.

—The Democrats of York County, Me., are to hold their convention at Alfred on the 22d of August.

MARRIAGES.

In Dover, 20th inst., Mr. GEO. A. P. WADLEIGH of Exeter, to MISS FRANCES GORDON of West Epping—17th inst., MR. JOHN WATSON of Exeter, to MRS. CLARA A. CARLTON of Durham.

DEATHS.

In Dover, 15th inst., PATRICK H. BURNS, Esq., aged 43 years 7 mos. Mr. Burns was Postmaster of Dover during Mr. Buchanan's administration.

Why suffer from Dysentery, Diarrhea, Pain or Cramp in the Stomach or Bowels, or let your children and friends suffer, when they can be relieved in a few minutes and cured in a few hours, by DR. BICKNELL'S SYRUP.

For sale in Portsmouth by THACHER.

YOU CAN'T OPEN YOUR LIPS, Ladies, without revealing whether you use the Fragrant Sozodont, or not. No occasion for words. Your teeth and breath speak for you. The lustre and purity imparted to the dental machinery by that peerless fluid, and the fragrance it gives to the mouth, cannot be realized by the use of any other article accessible to the human family. 4

'TIS NOT A FABLE.—The immense and universal demand for the Fragrant Sozodont, is a marvel in the annals of Dentistry. It exceeds all other dentifrices combined.—Neither acid from the stomach, nor any other corresponding element generated by indigestion, can effect a set of teeth regularly purified by this Fragrant Vegetable antiseptic and preservative. 3

Samples and circulars sent free by mail for 25 cents. WHITNEY & SON, No. 5 Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or the hardships of a military life, will find Dr. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately change the character of their secretions*,—thus arresting the cause of their weakness and debility. Through its action in the Blood, it will expel all *Humors* and *Impurities*, that are working a slow but certain effect, invariably leading to the *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.

Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.

The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, Boston, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.
For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.

BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.

FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.

In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 166 Court Street, Boston.

SAVE YOUR MONEY!

Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.

Wilbor's Monitor Hair Dye

is superseding all of its. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.*—Manufactured only by ALEX B. WILBOR, Chemist, No. 166 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, and Jan. 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

And all the work of a Family *of any size,*

AT LESS THAN

One-Third the Cost of Wood or Coal!

THIS NEW

PETROLEUM Cooking APPARATUS

Is WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in	15	minutes
Common potatoes baked	30	"
Flour Biscuit baked	15	"

And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

From the Portsmouth Journal

The *London Inquirer* thinks Payne "ought *not* to have been punished," and, (not willing that *any* should suffer *extremely*) calls for "mercy," (which it calls "Christian wisdom and forbearance,") in the case of Jeff. Davis; and of course all the leaders of rebellion. It goes on to say, "we do not denounce Davis for trying to found an independent nation"—"O no"—but "his crime in our eyes, was the maintenance of slavery;" and talks *religiously*, as if the "reputation of the American people" would be injured, &c. &c. The Inquirer was not troubled at all about slavery, while the hope was bright that the rebellion would result in *dividing* a power getting, as Mr. Beebuck would say, dangerous to Europe!

The New York Inquirer, of the same religious denomination, has administered a castigation, in reply, which will be long remembered. In answer to the plea that "a government is sufficiently vindicated" by asserting its authority, it says, "a government that should administer its affairs in a way like this would not exist a year, and would not deserve to exist; and the (London) Inquirer knows it." Seward did not die, but Payne was hung all the same; and the verdict will be [with some *English* exceptions] that his doom was just. Let a similar fate be awarded the man who, with equally base intent, has endeavored to take the life of the Republic."

CITY COUNCIL.

In Board of Aldermen, Thursday Evening, July 20th.—The following petition signed by 64 persons was received:

The undersigned, citizens of Portsmouth, believing that a proportion of the places where liquor is sold are kept open on the Sabbath, would respectfully request your honorable board to cause the strict enforcement of the City Ordinance entitled "An Ordinance for the observance of the Sabbath"—that thereby during at least one day in seven, our city may be saved from the tide of intemperance that threatens to overwhelm it.

The petition was accepted, and it was *Voted*, That the Marshal be directed strictly to enforce the Sabbath Ordinance; and to notify all venders of liquor, before next Sunday, that they will be prosecuted if they violate the same.

Naval.—The U. S. sloop-of-war Pawnee arrived at Portsmouth on Tuesday, from Charleston, S. C., via Washington.

The Pawnee has been in commission since 1861, and has rendered excellent service in the North and South Atlantic Squadrons, her light draft and heavy battery peculiarly fitting her for operations on our coast. She was one of the first vessels to run the rebel blockade of the Potomac, and several shots received at that time, and subsequently at Fort Royal, under Dupont, and at Charleston, under Dahlgren, can still be seen imbedded in her hull.

The Pawnee left Charleston, June 17, bearing the flag of Rear Admiral Dahlgren, proceeding direct to Washington, where she was visited by the President and Cabinet. She will go out of commission at Portsmouth for a thorough overhauling. The following is a list of her officers:

Lieut. Commander—J. M. Bradford (late Chief of Staff, South Atlantic Squadron); Lieut.—Wm. Whitehead; Asst. Surgeon—J. H. Culver; Asst. Paymaster—Chas. S. Farley; Acting Masters—Wm. Chapman, Wm. Thomas; Acting Ensigns—N. W. Wait, Fred. J. Locke, Geo. H. Rexford; Engineers, 1st Asst.—Geo. R. Bennett; 2d Asstn. Albert W. Morley, C. F. Hollingworth; 3d Asst. Robert Crawford; Mate—Jacob Kemp; Boatswain—James Brown; Gunner—James Hayes.

The New Military Departments.—An order of the War Department, dated June 27, defined the limits of the new military divisions and departments into which the entire country is now divided and subdivided, and specifies their respective commanders. The following are the grand divisions, with their military chiefs:

First—The Military Division of the Atlantic, Major General George G. Meade, with headquarters at Philadelphia.

Second—The Military Division of the Mississippi; Major General W. T. Sherman, with headquarters at St. Louis.

Third—The Military Division of the Gulf, Major General Philip H. Sheridan, with headquarters at New Orleans.

Fourth—The Military Division of Tennessee, Major General George H. Thomas, with headquarters at Nashville.

Fifth—The Military Division of the Pacific, Major General E. R. S. Halleck, with headquarters at San Francisco.

These divisions are severally subdivided into eighteen military departments, each with a special commander. Of the latter, New England, New York and New Jersey constitute the first of the Department of the East, under Major Gen. Hooker, headquarters at New York city. Gen. Hancock commands the Second Department, having his headquarters at Baltimore. Gen. Augur continues at Washington, Gen. Terry at Richmond, Gen. Schofield in North Carolina, Gen. Gilmore in South Carolina, Gen. Canby at New Orleans, and Gen. Reynolds in Arkansas.

Venerable Parish Clerk.—John W. Fernald, Esq. who was 76 years of age on the 19th of this month, in 1813, on the death of Matthew Marsh, Esq. was elected Clerk of St. John's Church in this city. This office he has ever since held, and now holds. He was confirmed more than sixty years ago, and has been the occupant of the same pew fifty-two years—from which he has been absent on no Sabbath when services have been performed, and his health would permit him to attend. As men of his regular habits rarely suffering from sickness, his absences have been few.

A butcher at Lyons has just been fined 16f. and costs, for weighing with a piece of meat the paper in which it was to be enveloped. Some traders have sold reams of wrapping paper in this way at six cents per sheet, when tea was worth a dollar and a half a pound. We always liked the conscientious way of our late venerable citizen, Stephen Pearse, who, when he had occasion to weigh an article in an envelop would place a like sheet of paper in the opposite scale.

Mackerel.—The Portland Argus of Wednesday says that mackerel were never more plenty than at present. A vessel went out last Thursday and secured 110 barrels, returned to Portland, discharged and was off again on Saturday. On the latter day she secured 120 barrels. They were caught by seining, and the top of the water is said to be literally covered with the fish.

Fatal Accident at New Durham.—An accident occurred at the Eureka Powder Works, at New Durham, on Wednesday, 12th inst., resulting in the loss of the life of Charles H. Stanton of this city. The mill had just started, hardly making one revolution, when the powder (then nothing more than charcoal, brimstone and saltpetre) took fire, and the building was burned to the ground. Mr. Stanton, one of the miners, not having time to escape, was burned so badly that he expired the next day. He was about thirty years of age, and leaves a family in this city.—*Dover Enquirer.*

Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to

JOHN S. HARVEY,
Jy26 47 Congress st., Portsmouth.

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 4000 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent. And now, if you want a safe and sure investment, or a railroad or bank stock in the market,

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, after long experience has demonstrated to the unfortunate victim, that cures, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blile Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have neither health nor happiness, unfitted for study or their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to him in the same condition, and is now rejoice in all that makes life desirable and manhappy. The reader is of course aware that the delicacy of this subject does not prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. Married and the Married Happy. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. Teller still remains the only Agency in America, for the sale of Dr. Lahoi's Italian Female Monthly Pills. Thousands of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Married ladies in certain delicate situations should avoid their use. For reasons see pamphlet which accompany each package for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 2 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.

THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those who want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire can be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

for the above and similar diseases.
MANUFACTURED ONLY BY
TARRANT & CO.,
278 Greenwich Street, New York.
FOR SALE BY ALL DRUGGISTS.

IODHΣ.

IODINE WATER. A Pure Solution of Iodine, without a Solvent. Sought for by Chemists and Physicians for the last 50 years. Discovered by Dr. H. Adams after 15 years of scientific research and experiment.

The most astonishing cures have followed its use in cases of Scrofulous Diseases, both hereditary and acquired. All kinds of Humors, Consumption Malarious Fevers, Rheumatism, Female Weakness, Dyspepsia, Mercurial Diseases, and all those distressing complaints arising from a Bad State of the Blood. Chronic Diseases, that have baffled the best skill, often yield to the subtle influence of this remarkable medicine. It is the most powerful vitalizing Agent and Restorative in the office. *Its effects are permanent.*—Pamphlets sent free. Price $1 per bottle, or 6 for $5. Sold by Druggists.

Address Dr H. ADAMS & CO., Physicians and Chemists, 482 Broadway, New York.

HANCOCK HOUSE,
Court Square, Boston Kept on the European Plan. Board by the day or week.
ROOMS FROM $1 to $2 PER DAY.
Hull & Fisher, Proprietors.

SPANISH ROUGE,
FOR POLISHING,
XL
Or Cleaning Gold, Silver, Silver Plated, Britannia, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For the purpose intended this article is unsurpassed. A Twenty-five cent ivested in a package of this, will add more to the looks of a home than one hundred dollars spent in the same. Not the least of many kind of metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which causes a smile upon the face of all. The labor of keeping every article of metal polished with the Spanish Rouge is reduced to mere pastime and pleasure. It removes the tarnish at the brush of the hand. *It is a mineral without any composition whatever, and cannot injure the article.*

Put up in three different qualities, for the finest Gold to the coarsest Metals.

The Spanish Rouge, and it will become a household word and a great assistant. Every person who has a ring or ear-drop, to an engine manufacturer, can find a use for it. Sold by Druggists and Grocery Dealers everywhere.

J. W. & A. STAVERS.
No. 12 Market Street,
Sole Agents for Portsmouth.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of restoring to health unfortunate with remedies that have never, since he first introduced them, failed to cure the most stubborn cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great share of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for the enjoyment of those joys which wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and board in his family if desirable.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow's Medicines are the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR DOW, No. 7 Endicott Street. Persons who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1865. eod&wly

NEW HAMPSHIRE BIRD LAW.

AN ACT to promote the interests of Agriculture.

Sec. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob-o'-links, yellow-birds, linnets, bay-catchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shallbetween the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sell, buy, or have in possession, any of said birds*, taken or killed, whether in this State or elsewhere,—he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.

Sec 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice to the town clerk, or by publishing in the County, or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.

Sec. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

Sec. 4. All forfeitures or penalties recovered for any violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered

Approved, July 8, 1862.

American and Foreign Patents.
E. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Research made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Guides of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largestin New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and no more, than that no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
He also has in his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. E. H. Eddy has made for my invention patent applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability, has induced me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made *eleven* rejected applications, of which TWO APPEALS, and ONE of which was decided in *his favor*, by the Commissioner of Patents. E. H. EDDY.
Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Painful Menstruations, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients can board in rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, Oct 16, 1864. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you but little, but a lifelong study may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Carriages.
Persons thinking of purchasing CARRIAGES, would do well to call on or address

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JULY 26, 1865.

—The doctrine of State Rights is deemed a great heresy when it stands in the way of the will of some men; but let them look back and ask themselves what would have become of us, if the theory that the government at Washington may impose its policy on the several States had been adopted twenty or forty years ago. Then slavery ruled and it had just as much right to impose itself upon the free States, as the free States have to impose their ideas on other States. If there had been no State Rights then, we should all have been made slaveholding. Then this hated doctrine protected us.—*Exchange.*

There is a very loose way of writing about State Rights, of which we were reminded some days ago, when a certain Andover professor made a speech about *Calvinism*, and was pleased to suggest that no one who had studied the scriptures in a certain way, could be respectable, unless he were a Calvinist. This little speech has been severely attacked, as we supposed it would be, by many writers, who fancy the professor to be a dreadful bigot, and withal a Calvinist "from rim to centre." But he is very far from being either one or the other;—and the old school men of his own denomination consider him and Andover to be hardly sound in the faith. The Professor is a Calvinist as to the *lump* of doctrines; but would probably differ from Calvin more or less on *every one* of the five points.

Just so of State Rights. Nobody doubts, we believe, that the several States in our Union have certain Rights, or to speak more properly, Powers. But when we come to describe or define these rights or powers, then we meet difference, discord, confusion of ideas, and contradiction.

It is not a *heresy* to say that *each* State, no matter how small, has the right, under the U. S. Constitution, to an *equal* representation in the Senate. It is no heresy to say, in the words of the Constitution, that "The citizens of each State shall be entitled to *all* privileges and immunities of citizens in the several States;" though this provision was utterly disregarded in most or all the Slave States.

But it *is a heresy* to say that each State is supremely sovereign, because the Constitution expressly contradicts this heresy of State sovereignty; and the people, by a terrible war and great victory, have put it down.

The head that confounds these two ideas must be either wilfully or stupidly obtuse.

U. T.

WASHINGTON ITEMS.—The "18th N. H. Battery" is to be mustered out immediately.

The trial of Captain Wirts, commandant of Andersonville prison, has been postponed, owing to the discovery of links of important evidence.

The Archbishop of Baltimore has requested Father Walter to cease his controversy relative to Mrs. Surratt's innocence.

About $50,000 worth of defaced or worn-out fractional currency is destroyed per day, and its place supplied with new, the entire amount in circulation being upwards of $21,000,000. No more three cent notes are to be issued, the act of Congress prohibiting them, and five cent notes are also to be gradually withdrawn.

A considerable proportion of the applications of widows, mothers, &c., for pensions, now coming into the Pension Bureau, state as the cause of the death of their husbands, sons, &c., exposure, starvation, or shooting by the guards of prison-pens in the South.

GEORGIA.—A private letter from a gentleman in Savannah says he is strongly of opinion that a few years will disclose a wonderful and profitable change in the condition, both temporal and spiritual, of that part of the country. Georgia resources are but beginning to be developed; not the three-hundredth part of her soil has been tilled. She has the finest yellow pine timber in the country. Her mineral wealth hardly touched. Iron and bituminous coal abound; copper, lead, and silver and gold are found. War has done much toward breaking up the supineness of a large portion of her people. Good farming can take from two to three crops off the same land the same season, with less labor than it costs to produce one in the North. Land is bought at from $5 to $25 per acre, and large tracts at lower prices. White marble, of fine quality, is abundant; slate equal to that of Wales. Many of Sherman's army, while in Georgia, expressed a determination to return and settle in it.

GOLD, Tuesday, 143.

— The remains of the Congress frigate have been raised out of the water at Hampton Roads, where she was sunk by the Merrimack.

— The President has returned from down the Chesapeake much invigorated for his hard work at Washington.

— The Tribune's despatch says a private letter from Matamoras announces that a number of officers and men of Dick Taylor's and Kirby Smith's armies are joining the forces of Maximilian.

WOLFEBOROUGH, July 23.

EDITORIAL JOTTINGS.—Dear Chronicle: Here we are spending this day of rest at the excellent Pavilion Hotel, one of the finest located and best kept public houses in the whole Mountain and Lake region—where the good ones are not few, as everybody knows. The Pavilion is sufficiently spacious to accommodate 150 guests, is well arranged, new, neat and inviting in every part; the table is all the epicure could ask, the attendants prompt and entirely satisfactory; and the beds, so far as our experience goes, vastly better than you commonly find even at the most pretentious houses; so that those who are most particular about these details, may rest assured of finding "as good as you get at home" — which ought to satisfy anybody, though we think we have often heard fault-finders growl at accommodations a good deal better than they were accustomed to at home. Mr. A. L. Howe is the landlord, the same as last year, with Mr. The. Herick for clerk, and very quiet though pleasant gentlemen they are, and know how to keep a hotel as well as almost anybody you will find; and a day or two can always be agreeably spent at the Pavilion, on the shores of Winnepesaukie, at any time from the green freshness of June to the brilliant scarlet of September—and we can hardly decide which is the more attractive and beautiful, but prefer to try both at least once a year. Besides an English "Count" of no account, we have here a Dean (Albert S. of your city,) who acts as tonsor, dancing master, &c., and is very popular with host and company.

You can get here by way of Concord, as we did this time; taking the steamer Lady at the Weirs, and calling at Centre Harbor on the way; or via Dover per B. & M. rail to Alton Bay, and thence per steamer Chocorua hither, (formerly the Dover, and a poor change of names we think too;) or per Eastern Road to Union Village, and stage to Conway and Wolfeborough. Each and every route is diversified and beautiful, and the traveller making the trip would do well to go one way and come another; but we cannot help thinking both the Eastern and B. & M. roads would be benefitted, and the public convenience enhanced, would their two branch lines aim to run to meet at Rochester, instead of being particular *not* to connect in all cases.

One little incident I must tell you. At a depot on the Northern Road, Hanover, (there is one neat man near Dartmouth, you see,) I saw a printed notice, "Gentlemen will not spit on this floor; if they do, they will quick go out of the door;" and another, "Gentlemen must not put their feet on on these seats; if they do, they will quick go out of that door." Not to criticise the poetry,—what a mistake it was for that neat depot-master, to intimate that any "gentleman" *ever* spits on the floor! As well might a police-man warn honest men not to steal. The use of tobacco is claimed to be a matter of taste, we know; and it is easy and common for all of us to "compound for sins we are inclined to, by damning those we have no mind to;" but the practice, at least where it affects and interferes with the comfort and rights of others, is also a matter of good manners and correct morals as well.

A call in Concord, at the Music Hall, (the like of which you can't find in this or any other country, we venture to say,) and the favor of Mr. Morey's fine piano-playing and Mr. Davis' beautiful singing, made up a very agreeable evening. And by favor of the same hospitable and attentive gentlemen, we drove about the city in the afternoon, and noted the great improvements going on. The enlargement of the Capitol, and the cutting through of the new street of that name, will be a vast benefit to the city, though it taxes the citizens pretty severely for a while. But it cannot fail to "pay" in the long run. Conductor Clough is erecting an elegant residence, in place of his burned a few months ago.—The new Cemetery, on the hill out of the city, is one of the wildest and most beautiful spots we ever visited, and its natural advantages are very great for making it in a short time, one of the most attractive burial places to be found anywhere. Nowhere does the beautiful bright and clear Concord Granite show to so good advantage as here.

Left Concord at half-past 10 Saturday morning; and after a pleasant ride, for the last few miles over ponds and little bodies of bright blue water innumerable, the Montreal Road brought us through Lake Village, &c., to the Weirs, and the steamer Lady of the Lake. Here we met the hearty greeting of Capt. Sanborn, and felt at home again. A charming sail, (and a capital dinner aboard the boat meantime,) brought us to Centre Harbor, where we find another old acquaintance in the person of mine host Huntress of the far-famed Senter House.

One word here as to names, which will be new to some readers we dare say.—Wolfeborough we shall always henceforth spell with the *e*, as besides being the only correct way, since the name was taken from Gen. Wolfe, every printer knows that if it is left out, the long *f* and *b* coming together (and this is the only word in which it occurs,) breaks off the *f* frequently, so that a space has to be put between. We call upon Mr. Eastman, publisher of the excellent White Mountain Guide-Book, and the editor of the "News" paper at Wolfeborough, to help establish this reform.—The Weirs are so called, from the stone dams, &c., built in the stream running into the Lake there, by the Indians, to catch the shad when coming down.—Centre Harbor is the middle of three harbors at the head of the Lake; and the Senter House was so called from Mr. John Senter its first keeper. Moultonborough was formerly owned by the paternal ancestor of Mr. Nathl. T. Moulton of Portsmouth. Tuftonborough we presume might have been named from John Tufton Mason, wasn't it?

Well, at Centre Harbor, Mr. Huntress furnished a wagon for us (self and better self,) to drive to the foot of Red Hill, say three or four miles; where we mounted two of his drove of pretty ponies—white, red and gray, piebald, ring-streaked and speckled—and crept up, up, up, to the summit. The trip out and back to the house, occupies necessarily only three hours or so, and is very pleasant to those who like mountain climbing. But for our part, we always did prefer to look at hills from below; and don't know as we should ever care to ascend even the hill of fame; very far up. And if you are going to climb for a view, the lesser eminences always give to us far the more satisfactory landscapes. Red Hill is beautifully wooded to the very top, and is now entirely carpeted with luscious blueberries. The wide view of lake and mountain, from the top, we need not describe, nor say that we enjoyed it greatly.

Leaving Senter House, and its crowds of company, and bidding good bye on the piazza to Mr. Huntress and friend W. O. H. of Portsmouth, who is spending his annual week there; we once more got on board the steamer Lady, which had just returned again from the Weirs, and came across the Lake to Wolfeborough. It was verily an enchanting sail, which needs the pen of poet or pencil of artist to describe—so we shan't attempt it. As the declining sun gradually softened the lofty and stern mountain-tops, and threw first a brown shadow adown from each peak, and then spread a mystic veil of purple across every little valley—the rich sunset tints of the western sky at the hill-tops contrasting finely with the deepening shades of twilight on the water at their bases, and the dark green of the well-wooded isles set off by the white and yellow sands or the gray rocks of their shores, and the rich blue of the clear fresh waters of the lake, (which is fancied by some to be more "deeply, darkly, beautifully blue" than the ocean, though we doubt whether anybody can discern the difference,)—the scene was one of perfect loveliness.

We landed at the wharf in Wolfborough, just at the witching hour when day is merging into night; and now as then, after several times approaching the various stopping places on the Lake, we decide that none excels, if indeed any equals Wolfeborough in attractions.

But we are to full of our subject, to give it all to you to-day; and as we are loth to leave here, but have some little business, which interferes with our pleasuring sometimes—so also we cannot easily nor willingly quit talking of our trip, but must give you the rest after we get home.

Everlastingly yours, F.

☞ Gen. Saxton has within his present district over a hundred thousand negroes. He claims that all these are now absolutely self sustaining, save those swept in the wake of Sherman's march. Even the rations issued to these are charged to them, and the thrifty negroes make all haste to quit leaning on the Government lest their debt should swell to too great proportion. Most of the older settled negroes, who were originally dependent on Government support, have already repaid the advances thus made them, and many have besides accumulated what is for them a handsome competence.

☞ The Secretary of War has ordered that to secure equal justice and the same personal liberty to the freedmen as to other citizens and inhabitants all orders issued by Post, District or other Commanders adopting any system of passes or subjecting them to any restraints or punishments not imposed on other classes are declared void.—Neither whites nor blacks will be restrained from seeking employment elsewhere when they cannot obtain it at a just compensation at their homes, and when not bound by voluntary agreements. Nor will they be hindered from travelling from place to place on proper and legitimate business.

Treason indictments against Lee and others will be called upon in Norfolk in October. It is understood that the President will direct a *nolle prosequi* to be entered in their cases and put the defendants on a long probation.

— Adelina Patti was betrothed on the 18th of June to a gentleman of Milan—mercantile not musical.

GEORGIA AND TENNESSEE. — General Thomas has issued an order suspending from office Mayor Andrews and Justice Welch, of Columbia, and ordering the arrest of Galloway and Frierson, lawyers, on account of their late prosecution of negroes.

Guerilla depredations are almost daily taking place by roving bands of robbers in Middle Tennessee.

The trial of Champ Ferguson is progressing slowly. His guards have been doubled on account of threats of soldiers to kill him.

The Macon Telegraph and Atlanta Intelligencer have articles on the probable scenes of bloodshed and massacre on the part of freedmen unless the authorities turn their attention to the matter.

WRECK AND RESCUE.—The British ship Inversauld was wrecked in May, 1864, on a desert island when eight days out from Melbourne for Callao. Six of her crew were drowned at the time and nineteen saved, including the captain. All the provisions secured were four pounds of bread and three pounds of pork. They remained on the island a year and ten days, living on shell fish and roots, one by one dying until none were left but the captain, mate and one sailor. At last the Julian, from China to Callao, stopped at the island in a leaking condition and rescued them.

☞ Only two rebel prisoners remain in Fort Warren, Boston harbor, viz. the late Vice President of the defunct Confederacy Alexander H. Stephens, and Postmaster General Reagan. Sixteen rebel officers of high rank were released from that fort on Monday.

— Two blocks of mills in Ellsworth, owned by Seth Tisdale, were destroyed by fire last week, together with about 300,000 feet of lumber. The mills contained a gang, single saws, circular saws, lathe machines, and other small machinery. The fire was probably caused by friction.

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers her

SOOTHING SYRUP

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience, *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*

Please inclose a stamped envelope, addressed to yourself.

Address JOSEPH T. INMAN,
Station D, Bible House,
d24sndaw New York City.

☞ **A Physiological View of Marriage**:—Containing nearly 300 pages, and 130 fine Plates and Engravings of the Anatomony of the Human Organs in a state of Health and Disease, with a Treatise on Early Errors, its Deplorable Consequences upon the Mind and Body, with the Author's Plan of Treatment—the only rational and successful mode of cure, as shown by the report of cases treated. A truthful adviser to the married, and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of 25 cents, in stamps or postal currency, by addressing Dr. LA CROIX, No. 31 Maiden Lane, Albany, N. Y.

The author may be consulted upon any of the diseases upon which his book treats, either *personally* or by *mail*, and medicines sent to any part of the world. mch18—3mdawsn

"A boon to thousands of Sufferers."

Sent, under seal, in a plain envelope, to any address, *post paid*, on receipt of six cents, or two postage stamps, by DR. J. C. KLINE, 127 Bowery, New York, P. O. box 4,586. je13 3mdaw

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again.' He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Matrimonial.

Also by WILLIAM R. PRESTON, Apothecary, No. 2 Congress Block.

FRANK B. CLOCK, Druggist and Chemist, Proprietor, Manchester, N. H. js

CAUTION FROM THE

AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY, Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named "the Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. BARTLEY," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je28—1m **182 Broadway, N. Y.**

Durno's Celebrated Catarrh Snuff

is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1285, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spnd&wlym28

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

City Express.

D. L. RANDALL would inform his old customers and the public, that he has purchased a good team, and will be happy to fill any orders in his old line, as heretofore. Particular attention given to moving PIANOS, and conveyance of BAGGAGE to and from the Depots. Also to the cartage of nice articles about the city.

je20 JOHN SISE, 5 Market Sq.

Local.

☞ On Monday morning, Vice Admiral Farragut and family, in company with Admiral Bailey and family, Mrs. A. Murray, Constructor Pook and others, left the Navy Yard in the steam tug Portfire for Rye Beach, where Admiral Farragut, wife and son will spend a short season. On his departure from the Yard a salute of fifteen guns was fired from the Vandalia, (in a most bungling manner, by the way, as it sounded to us) and in the Yard all the workmen congregated on the wharf to witness the departure of the greatest naval hero of the war.

Admiral Bailey introduced him to the crowd present—numbering upwards of fifteen hundred workmen—in the following manner; "Gentlemen, I take pleasure in introducing to you Vice Admiral Farragut, the hero of many hard-fought battles, and one who has done as much to crush the rebellion as any other man in the country. Gentleman, I propose three times three cheers for Admiral Farragut." This was done with a will, the effect being almost deafening.

The "hero of the Mississippi" then responded in a neat and appropriate manner as follows: "Gentlemen, I thank you for the honor you have done me on this occasion in thus assembling and by your enthusiastic cheers, testifying your esteem and well wishes toward one of your fellows. And allow me to say that while you have been constructing munitions of war at home during the last four years, you have contributed as much as those of us who have used them and tried to render them effective in crushing the late wicked rebellion. And I hope, gentlemen, that as long as the labor is performed as faithfully and as honestly as it has been done in the past, if the Government needs your services that you may continue in its employ. (Cheers) But wherever our lot may be cast let us strive to do what in us lies to further the intrests of the best and strongest government on the face of the earth. (Cheers) Gentlemen, I bid you a kind adieu." Three more cheers were given and the party embarked for Rye Beach, the workmen returning to their labor.

☞ On Saturday evening several citizens of Kittery, disgusted and annoyed with the proceedings of certain parties in a locality known as the "Shenandoah Valley," or "Shantyville," visited a house in that region inhabited by several prostitutes, and after warning the inmates to leave, and giving them time to get out of the way, with stones and other implements of destruction, "did beat, batter and destroy said dwelling;" after which they burnt the beds and numerous articles of furniture and apparel, completely demolishing the structure and its contents. It is said that this place had become so disgraceful and annoying to residents of that vicinity, that their "righteous indignation" suggested no other plan than its complete demolition.

☞ We had the pleasure of greeting our old friend Rev. Dr. R. S. Rust, formerly Principal of the Northfield Seminary, and afterwards a two years' resident among us pastor of one of our city churches, but at present Principal of the Wesleyan Female College at Cincinnati, Ohio. Time has made some inroads on his outer man, but he remains the same jovial and courteous gentleman of former years. May his shadow never be less.

☞ At the late law term of the Supreme Judicial Court for this County, in the suit of John L. Pickering v Gilbert P. Hoyt further (to recover possession of the farm of Winthrop Pickering in Newington.) The Court ordered judgment on the verdict for the defendants. Rollins and Hatch for plaintiff, Christie & Hackett for Defendants.

Mary Yeaton v Geo. H. Yeaton, Divorce decreed to Libellant. William H. Hackett for Libellant, Webster for Libellee.

Wm. C. Claggett v Wm. Claggett, adm. appeal from Probate Court. Appeal sustained & decree of Probate Court appending reversed. Goodall for appellant, Frink for appellee. [We are informed this case is to be reviewed.]

State v Garrity (disorderly house in Portsmouth) Judgment on verdict against Resbondent. Hatch for Garrity.

☞ A looker on informs us, that on Saturday a boy fell overboard from one of our wharves, into deep water, and must have been drowned, but for the humane promptness of a returned soldier, who plunged in and brought him safely out, in less time than it takes to write these lines.

☞ Surgeon Horwitz, Chief of Bureau of Medicine and Surgery, visited the Navy Yard on Monday and was saluted by eleven guns from the Vandalia.

☞ We have received from A. Williams & Co., Boston, the August number of "Hours at Home," a capital number of a popular, magazine devoted to religious and useful literature. Published by C. Scribner & Co., New York, and for sale in this city by Jos. H. Foster.

CLOSING FARO BANKS. — Lieut. Gen. Grant has lately issued a general order to his various department commanders, authorizing them to break up all the faro banks in the United States. Last week Major Gen. Palmer made a grand raid on all the banks in Kentucky. Every bank in Louisville was seized and the money confiscated. Every gambling shop of this kind in that State has been closed and the order it is said is shortly to be enforced in the other States. This descent on these gambling curses we understand to be in the interest of the soldiers who have been swindled out of thousands of dollars and left penniless by them. Do our citizens know that such institutions have an existence in Portsmouth? Perhaps it would be well for the military authorities to throw out skirmishers around here.

☞ His Excellency, Gov. Smyth was in this city on Monday, and visited the Forts &c., receiving the usual salutes. He was accompanied by Col. Pickering, of this city, of his Staff.

☞ A new and valuable book, viz: The Life and Public Services of Abraham Lincoln; by Hon. Henry J. Raymond, is in press, and will soon be published by Derby & Miller, New York.—It is to be a handsome octavo of 750 pages: price $3,50 and $4. Sold only by subscription. It is to be Impartial, Truthful, and Standard Biography and History. We doubt not the work will be equal to the prospectus. Mr. Robert M. Otis is canvassing for it, in Portsmouth.

— The ladies of England have a new costume for the croquet game, called the "lawn dress." It it very similar to the gymnastic costume, and is considered very appropriate when playing the game.

—The Chicago Tribune estimates that the illicit distillation in in the United States, and the smuggling from the British Provinces, very nearly equals the whole consumption. This is equivalent to saying that the government is being defrauded of more than two millions a year.

— At Jonesport, Me., there is a lobster factory employing 130 persons, of whom 100 are employed in catching the lobsters, the remainder being employed about the factory. Five thousand lobsters are cooked daily, and four thousand pounds of the meat are daily put in air-tight cans of one or two pounds apiece.

Ten, twenty, and fifty acre tracts, at from $25 to $35 per acre, payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Papers giving full information, will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*

From report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.
Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; $700 for sale. Price $40 per share; $50 per Share after August 1.

Stock full paid, and no individual liability. Company organized under the General Law of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.

We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in GOLD. Any Clergyman, Insurance Agent, or Cashier of Bank is authorized to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York, R. W. FREEMAN, Esq., Cashier of the Atlantic Bank, 142 Broadway, or HERMAN CAMP, Esq., 55 Nassau Street.

Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion at the rate of $2,000 per day, or $1,000,000 per annum, thus doubling our whole capital in one year. If you want get any of this stock you must subscribe quickly. THOMAS SPROUL, President.
S. R. HUTCHINSON, Secretary.
Office: 80 BROADWAY, over Am. National Bank.

WANTED. — Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make their 25 to 50 dollars every day. State or county rights for sale for thirty new and useful inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business. Will pay $5 to $20 per day. This is no patent right or medical humbug, but an article of merit, needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHITNEY & SON, No. 6 Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD ROOT ELIXIR a sure medicine to restore them to health. By its use (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately change the character of their secretions*,—thus arresting the cause of their weakness and debility. Through its action in the Blood, it will expel all *Humors* and *Impurities*, that are working a slow but certain effect, invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their homes and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.

Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.

The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 BROMFIELD STREET, Boston, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.

For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.

BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.

FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.

In Asthma, General Debility, Emaciation and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 186 Court Street, Boston.

SAVE YOUR MONEY!

Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.

Wilbor's Monitor Hair Dye

Is superseding all of *em*. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.*—Manufactured only by ALEX. B. WILBOR, Chemist, No. 186 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, *and Jan.* 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

And all the work of a Family *of any size,*

AT LESS THAN

One-Third the Cost of Wood or Coal!

THIS NEW

PETROLEUM Cooking APPARATUS

Is WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in	15 minutes
Common potatoes baked	" 30 "
Flour Biscuit baked	" 15 "

And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

THIS BEAUTIFUL LIFE.

BY MRS. L. H. SIGOURNEY.

How beautiful this earth, where God
His ceaseless bounty shows,
The dropping of autumnal fruits,
The fragrance of the rose,
And all the varied harvest wealth
That he on man bestows.

How beautiful the snowy flocks
That in green pastures feed,
The patient, plastic herds, intent
Their masters' call to heed;
And with intelligence endued,
The noble prancing steed.

How beautiful the human face,
Through whose expansive lines
Amid the dawn of infant grace,
Or where bright youth refines,
Or age in holy calmness smiles,
Creative glory shines.

How beautiful the unfolding mind,
Where Reason fills its arm,
And Knowledge stores unrusting gold,
And lights of Fancy burn,
And Memory bids the buried past
In pictured tints return.

How beautiful the immortal soul,
In heavenly birth that feels,
And looking upward to its Sire
With faith that meekly kneels,
Gains strength that heightens every joy,
And every sorrow heals.

How beautiful this life we lead,
That brightens year by year,
And bears upon its brow the hope
Of a more perfect sphere—
To it as for that world, we'll strive
To be a blessing here.

☞ An Abolition paper says:

"The degradation, misery and crime produced throughout the land by intemperance are ten-fold greater than those ever caused by slavery." Is it possible, then, that we have sacrificed a million of lives to extirpate an evil abroad when we have one ten times greater at home?—*Manchester Union.*

No; not an evil *abroad*. The Democratic party of the United States were called upon at Charleston, five years ago, to make *slavery national*, and to slay Mr. Douglas as a peace offering to the slave-oligarchy. This the majority of the party refused;—and their old masters and drivers *made war*, first, against the northern democracy and then against the Nation, to extend and perpetuate slavery. — The great majority of the people of the Union, *then*, were far from being abolitionists, — and only a few of them aimed to extirpate slavery: — but the vast majority did not choose to be themselves extirpated, or "subdued" by the slave power, as some of its champions threatened in Congress eight or ten years ago.

The men who labored twenty years ago, to extinguish slavery, were not more than *one per cent.* of the public in the Free States. But the madness of the Rhetts and Ruffins, the Wigfalls and Wises, — and and the folly of their allies North and South, brought on the revolution which was to make a slave empire, but which *has* crushed out Slavery, and converted thousands of indifferent men into active promoters of liberty secured by law. U. T.

GEN. BAKER.—The Concord Democrat says of ex Gov. Baker of New Hampshire, now the popular Adjutant General of Iowa:

"Several prominent citizens of our city gave him an entertainment at Long Pond on Tuesday last. He made a brief and patriotic speech, in course of which, referring to negro suffrage, he said he stood by the Constitution of New Hampshire, his native State, which gave to *all* male citizens the right of suffrage. That was his position. He would much rather go to the polls with a black loyal man than with a white disloyal one."

— Mr. Nathaniel Hayward, well known as an inventor and manufacturer of India rubber goods, died at Colchester, Conn., aged 57 years.

—The Fairmount Water Works in Philadelphia are to be extended; an appropriation of half a million dollars having been made for that purpose.

Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to
JOHN S. HARVEY,
jy20 47 Congress st., Portsmouth.

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as men of integrity, who have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 4000 stockholders, has delivered as great a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the facts, will see at once that the crookings of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully solicited by all persons of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such being a co-respondence with the most eminent Physicians of the Old World, of obtaining the latest as well as the latest remedies for these diseases, after frequements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cord, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their manhood depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has secured the confidence in almost every part of the United States, who applied to Dr. J. Teller, broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. J. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, included, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes stands testimony of the reputation of this remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and all obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each box, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—Students or boys employed. Notice this, address all letters to

FARMING TOOLS, &c.

THE MAGEE

COOKING STOVE.

The subscriber would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room: With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for lifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

—AND—

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass out into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Woodell, John Sise, and others.

A SURE, PLEASANT and PERMANENT CURE for the above and similar diseases.

MANUFACTURED ONLY BY
TARRANT & CO.,
278 Greenwich Street, New York.
☞ FOR SALE BY ALL DRUGGISTS.

ΙΟΔΗΣ.

IODINE WATER. A Pure Solution of Iodine, without a Solvent. Sought for by Chemists and Physicians for the last 10 years. Discovered by Dr. H. Andres after 15 years of scientific research and experiment.

The most astonishing cures have followed its use in cases of SCROFULA, both hereditary and acquired. All kinds of Humors, Consumption Malarious Fevers, Rheumatism, Female Weaknesses, Dyspepsia, Mercurial Diseases, and all those alarming complaints arising from a Bad State of the Blood. Chronic Diseases, that have baffled the best medical skill, often yield to the subtle influence of this remarkable medicine. It is the most powerful vitalizer and general restorative known. *Its effects often seem miraculous.*—Pamphlets sent free. Price $1 per bottle, or 6 for $5. Sold by Druggists.

Address Dr H. ANDERS & CO., Physicians and Chemists, 682 Broadway, New York.

Court Square, Boston. Kept on the European Plan. Board by the day or week.

ROOMS FROM $1 to $2 PER DAY.

Hull & Fisher, Proprietors.

SPANISH ROUGE,

FOR POLISHING,

XL

Or Cleaning Gold, Silver, Silver Plated, Brittania, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For the purpose intended this article cannot be beat. Twenty-five cents invested in a package of this, will add more to the looks of a dollars worth of goods than any paint in new store. Every article of any kind of metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which causes a smile upon the faces of all. The labor of keeping every article of metal polished with the parish Rouge is reduced to a mere pastime and pleasure. It removes the tarnish at the brush of the hand. *It is a mistake that any composition whatever, therefore can do no harm.*

Put up in three different qualities, for the finest Gold to the coarsest Metals.

Try the Spanish Rouge, and it will become a household word and a great assistant. Every person who has a ring or ear-drop, to an engine manufacturer, needs it. For sale by Druggists and Grocery Dealers everywhere.

VOL. XXVII. PORTSMOUTH, N. H. THURSDAY, JULY 27, 1865 : 205. No. 22.

The Chronicle.

NEAR Gittelde, in the Dukedom of Brunswick, called the Ernst August Stollen (or adit,) is the most extensive drainage tunnel in the world. It is nearly fourteen miles in length, and drains the whole country around Zellerfield, Clausthall, Wildman etc, one of the most extensive mining regions in Europe. The work was commenced on the 21st day of July, 1851, under the auspices of mining engineer Borchers, at ten different points, to wit: the main entrance and nine shafts, and was brought to completion in twelve years and eleven months—or some time in June last. The adit has a regular grade of five inches to one hundred fathoms. Its dimensions are everywhere the same. It is eight feet high and six feet wide. One side of the floor is bridged, which serves for the gangway, and the other side is for navigation. Boats made for the purpose bring out the ore, etc. To accomplish this gigantic work, there were 1,500,000 holes drilled in the rock for blasting, which, were they placed in a row, end to end, would measure 350 miles in length. The tunnel intersects some thirty or forty main working shafts. It may be added that the tunnel is walled up or arched with rock all its length.

THREE SORTS OF PEOPLE.—In a notice of a good speech by Gov. Johnson, of Georgia, one paper says:

He exhorted the men, women and clergymen to abate their hostility, and abide by what they could not possibly avert; to cultivate a spirit of friendship toward those whom they lately looked upon as enemies.

Uncle Toby deems this rather a hard joke on the clergymen.

—A cow in Troy, New York, discovered one night some weeks ago about eighteen gallons of unrectified whiskey, set out to cool by an illicit distillery. The cow was thirsty and drank it all. She has been very drunk ever since, eats nothing, cannot stand upon her legs, and is very lean. The Trojans are expecting to see the affair terminate in an exhibition of bovine delirium tremens.

—The Cunard Steamship Company is twenty-five years old this summer. A London paper, in alluding to the anniversary of the sailing of the first of the vessels of this corporation, says that during the whole of the period of its existence, not a single life or letter has been lost by any of its steamers.

— There is in Reading, Pa., a sailor, who was struck by lightning on one of the West India Islands, who is lame in one leg, blind in one eye, entirely speechless, and not a hair on his head, arms or any part of his body to be seen—all from the effects of the stroke. He had previously a long and strong beard, which entirely disappeared.

— The Brothers Davenport have mysteriously disappeared from England, and rumor says they have been taken possession of by an old East Indian Nabob, who, having plenty of money, has carried them off to a castle in France, where he has nightly *seances*, in which the spirits give him concerts, drink whiskey, and play at billiards.

☞ The boys in the stores on Main Street, Ellsworth, clubbed together and swept the street clear of all rubbish and loose dirt, and hired a man to carry off the dust heap. It was a good move, and they say they mean to repeat the operation each week.—The boys in some other places might follow suit.

— Sergeant Boston Corbet, who's sure aim put Booth beyond the pale of human court, and saved him the mortification of stretching hemp, is lying sick in a Washington hospital, with a recurring attack of the disease which came so near killing him at Andersonville.

— A movement is on foot by colored men to purchase the Charleston Mercury and publish it as an anti-slavery journal. Some progress has been made, and money is being subscribed with a good prospect of success.

— A correspondent of the Gardiner Journal says he recently spent an hour in the company of six married sisters whose united ages amount to 506 years, being an average of 84 years for each. The youngest is about 72 years, the oldest 92.

— Col. Henry Stark, formerly of New Hampshire, grandson and last representative of the revolutionary general, died at his residence in Prince George county, Md., Sunday, at the age of seventy-one.

— The Post says there is a well known resident of that city who is seventy-two years of age, and has a physician's certificate that he has not been sober for forty years.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Assistant U. S. Patent Office, Washington, under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted by the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
It is necessary, if one is going to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending, the unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.
Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT
TO
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE PILLS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He confines, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppression of all kinds, also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicine will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address DR. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and nursed by observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Carriages.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JULY 27, 1865.

SOUTH CAROLINA.—The N. Y. Herald's Charleston correspondence says the officers of the 165th N. Y. regiment, which mutinied on Morris Island and created a disturbance in Charleston, have been committed to the Charleston jail. The soldiers are confined in Fort Sumter.

Great destitution is said still to exist in the interior of the State, and an agent has been sent North to raise funds for their relief.

The mail facilities between Charleston and the interior have been much improved of late, and cars are now running to Orangeburg.

Owing to the havoc caused by Sherman's march, but little cotton of the State has been enabled to reach Charleston, but, much to the detriment of that city, is being diverted to Augusta and Savannah.

LOUISIANA.—New Orleans dates of the 19th have been received. Merritt's cavalry force are on the move from Shreveport to San Antonio. It was thought their march would not be attended with more than the ordinary inconveniences that beset cavalry going through other sections of the Union. A defalcation of $10,000 has occurred in the commissary department.—Commissary Scott lost the money by gambling, and fled from Shreveport.

One thousand bales of cotton had arrived at New Orleans from the Owachita river. A fair supply was coming in.

In the cotton market there was little inquiry; good ordinary, 36 a 38; middling, 44 a 46. No sales of sugar or molasses. Produce quiet and unchanged.

VIRGINIA.—The Richmond Whig of Monday says the State seal of Virginia has been materially altered by the new State Government. The device is the same, but words "Liberty and Union" are now above the Goddess of Liberty trampling upon the prostrate form of tyranny.

The gambling houses in Richmond were closed by the military on Saturday night.

The bust of ex-President Tyler has been removed from the Virginia State Library.

NORTH CAROLINA.—Newbern advices state that a superior quality of copper is being received there for shipment North, having been obtained from the mines near Charlotte by the defunct rebel government. Large quantities of iron, lead, coal and sulphur, are also to be shipped North. Negroes are accumulating fortunes by working the gold and silver mines. Very large quantities of Confederate cotton are also being shipped North.

The Raleigh, (N. C.) Progress says the native element, including the aristocracy, are daily growing more defiant, and threaten to hang Union men as soon as the troops are withdrawn.

WASHINGTON TERRITORY.—The people of this fine territory are anxious for a large immigration of families, and working men and women, especially young women, of which latter class there is a great scarcity; and they offer such inducements as will probably be successful with many, who will go out in a steamer from New York, Aug. 20. They have an agent in New England, Mr. A. S. Mercer, who may be addressed at Lowell, Mass., and who is authorized and prepared to make special favorable terms for widows and orphan daughters of deceased U. S. soldiers. He will give extended information by circular or otherwise, to any applicant, by letter or personally.

—The National Intelligencer, in an article on the interesting subject of the finances, refers to the assurance given by the present Secretary of the Treasury, upon his entrance into office, that as soon after the close of the war as possible, he would endeavor to reduce the superfluous currency so as to bring it to the specie basis; and adds:

It is reported on Wall street that the Secretary will find means to reduce the volume of the currency very considerably within the present year—meaning, probably the fiscal year—and this is one of the grounds upon which financial men in New York recently stated the opinion that the gold market, which has been rising, would speedily decline. This opinion is about to be verified.

It remains for the Secretary to frame a plan for a "judicious tariff," and for an improved internal revenue system. All taxes must be so laid as to produce a revenue adequate to an economical administration of the Government in the time of peace, for we have every reason to suppose that we are to be favored with a long peace, abroad and at home.

— Last year over 200,000 barrels of apples were shipped from Western New York. It is said that this year the crop will be even larger. In New Hampshire the apple crop will be very small indeed, hardly enough to make any show.

— In 1819, at a dinner to Mr. Adams, at Brown's hotel, Washington, Mr. Calhoun proposed the following sentiment: "Universal suffrage and universal education."

NEW HAMPSHIRE ITEMS.

——Henry Keyes, postmaster of Holderness, committed suicide by poison, Monday night. He was 26 years old, leaves a wife and child; had been in the U. S. army, and lost an arm.

——The grantees of the New Hampshire and Rhode Island Beater Press Co. met at the Ocean House, Rye Beach, N. H., on Friday. There were present gentlemen from Chicago, Boston and Portland. The grantees elected the following named gentlemen Directors, viz: Horace L. Hazelton Boston; Jere. Prescott, Boston; E. B. Phillips, Boston: John C. Blaisdell, Boston; E. P. Taft, Providence; Jas. N. Winslow, Portland; William H. Hackett, Portsmouth. The Directors subsequently organized, and elected William H. Hackett, Esq., President.

——In the Concord Police Court, as we learn from the Monitor, Chas. Lougee, of Loudon, about 20 years of age, was brought before Judge Dana, charged with an assault and attempt on Mary Anna Danforth, of Loudon, (18 years of age,) on the 20th of July. Miss Danforth had been berrying and was returning home when she was met by Lougee and one Napoleon Dearborn, and the assault made. He plead *guilty*, and was put under $500 bonds for appearance at October Court.

——In Concord Sunday night, the office of Lockerby, in Hill's Block, was entered and every drawer, box and bundle opened and their contents scattered about the room and set on fire, but they bid not burn so as to destroy the building.

Room No. 16, in the Phenix Hotel, was entered through a window, and a gold watch and $115 in money taken from the occupant of the room. The rooms were easily approached by a flat roof.

——In Manchester, Monday afternoon, while Paul Neow, a boy about 14 years of age, was bathing in the river, another boy who had not bathed, rifled his clothes lying upon the shore. Paul, naked as he was, ran after the other boy to protect his clothes, when he was stabbed by the latter with a jack-knife which he had stolen, within about two inches of the heart. The young ruffian who committed the outrage was not a companion of Paul, but was lurking about watching for an opportunity to steal.

BELGIAN GOSSIP.—Trouble is reported at the Belgian Court, from the determination of old King Leopold, past his three score and ten, and approaching onto death, to marry a certain Madame Myer, widow of a captain of artillery, who has had claims upon his heart and heritage for many years, and by whom he has a natural son—a man of great dignity and beauty of person, and the most accomplished gentleman at his court. Thinking to die soon, he desires to make his peace with heaven by marrying the widow, and acknowledging the son under the title of the Count d' Ardennes. Leopold first married the Princess Charlotte of England, who died, leaving him childless, but still a pensioner on the British government. Afterward he married the Princess Louise, daughter of King Philippe of France, by whom he has two sons, Duke of Brabandt and Count de Flandre, and also a daughter, the Empress of Mexico. They of course are in a great flurry about his proposed marriage to the widow mistress; but against them it is reported that he is determined, and the people of Brussels are on his side.

LOYALTY IN TEXAS.—The following letter received by a gentleman makes a practical suggestion of much value. It also shows the state of society in Texas at this time:

TEXAS, JUNE 17, 1862.

To —— —— Sir: Unless the United States Courts have jurisdiction of the black popo ation, what we have been fighting for will become nugatory. I presume it is only necessary to draw your attention to this matter to enable you to see the necessity.

Very Respectfully A.

P. S. If you desire to hear of my throat being cut, you have only to let this see the light. A.

☞ Arthur Tappan, one of the original Abolition traitors, recently died at the age of 80 years.—*Copperhead Print.*

This is a great mistake.—The "original Abolition traitors" were Hons. Tho. Jefferson, Benj. Franklin, and John Jay, in this country. And in England, were Wesley, Wilberforce and Clarkson.—Arthur Tappan, of honored memory, was only one of their humble followers, in the universal abolition of chattel slavery. If Tappan was a traitor, so was La Fayette:—and if the nameless miscreant who applies the term to such a man were not too contemptible, the public indignation would crush him. But as the system of slavery is tottering to its final fall, such feeble supporters of it are welcome to the honor of being buried in its ruins.

— Twenty-five respectable ladies of Greenfield, O., armed themselves with axes and hatchets one day last week and started out to break up the liquor establishments in that place. They broke in the windows and doors of one saloon and emptied its liquors, and then the other saloons gave up their stocks of liquors. Legal proceedings have been instituted.

FROM RYE BEACH.—*Ocean House, July 26.*—Messrs. Editors: Thinking that an item occasionally from this fashionable resort would not prove unacceptable, the writer—who has left a warmer clime, during the heated term, to enjoy the cool sea breezes here—proposes to jot down, for the benefit of the ladies, and those lesser lights who may, perhaps, be interested, a few of the sayings and doings of the company at the New Ocean House.

The first "event" of the season came off last (Tuesday) evening, in the shape of a "hop;" and it is not too much to say that a more bewitching galaxy of beauty and fashion was seldom ever seen, than that which shone so resplendent in the spacious "Rotunda" of the "Ocean." Besides the guests of the house, there was a brilliant party from Portsmouth, the ladies of which, by their grace and vivacity, fascinated all beholders. Among them were the charming Miss W., the three beautiful Misses L., the graceful Miss B., and others whose names I cannot recall, but all of whom moved thro' the mazes of the dance like ethereal beings, radiant with beauty, grace and accomplishments, and making us poor mortals who "can't get in the magic ring," imagine that we were gazing upon some fairy scene.

Among the guests here, are parties from Cincinnati, Detroit, New York, Boston and Philadelphia; and by their pleasant and cheerful demeanor, added to the bright looks and sparkling wit of the lady boarders, made everything pass off as merry as a "marriage bell." The music by Elliott's Band was everything that could be desired; and during the remainder of the season it will perform both as a string and brass band, so that those thinking of leaving the heat and dust of the city, will not find a better place to come to than this. Of other things I speak anon. Yours, R. C.

☞ A Selma letter says there is in Alabama a class of "fire-eaters," "last ditch" men, who say they cannot and will not remain in a country where the negroes are free, and who are anxious to dispose of their property to obtain the means of leaving. Quite a number of these in the States of South Carolina, Georgia and Alabama are discussing the subject of organizing a company of the "first families of the South," and emigrating to Brazil, where they can once more own negroes and live in a slave government. Others talk of going to Cuba for the same purpose, and are selling their lands at a sacrifice. Most of these people are embraced in that class who are continually barping upon the helplessness of the freedmen, and the impossibility of raising cotton by free labor. In other words, a pack of fools, which the community can spare as well as not, are making all this bubbub. But most of them will not go, after all; but like some of the old Jamaica planters, will stay and grumble as long as they live.

☞ The Otago (New Zealand) Daily Times says:—

The Confederate cruiser Shenandoah was very recently on this coast. On the 30th of March the ship Hydra, bound from Newcastle to Port Chalmers, with a cargo of cattle, was boarded by a boat from the Shenandoah, off West Cape It was subsequently surmised, from some appearances at sea, that the three-masted schooner Lubra, on the day of leaving this port, had been overhauled by the cruiser and destroyed, but there are no good grounds for assuming that this was the case.

— The N. Y. Evening Post says that the public schools in that city have been in actual danger of being closed for want of money to carry them on. One million eight hundred thousand dollars was voted for their maintenance, but there was no money to pay it, and the money could not be borrowed. The teachers are now suffering for the sum of $250,000 due them in February. There must be a screw loose somewhere.

— Mary E. Surratt was a South American woman, who was brought to the United States when a child. She kept a resort for rebels and persons engaged in blockade-running. She was not only a rabel spy of the most dangerous type, but has been in conspiracies of one sort and another all her life. She has long borne the reputation of a very dangerous as well as a very bad woman. She wielded a wonderful power over dissolute young men.

There are many complaints of the frauds upon the whiskey trade at the West. It is claimed that the revenue should be $180,000,000, and instead, it does not exceed one-tenth that sum. It is just the same in the manufacture of rum in this section of the country, where the tax is two dollars per gallon, the cost of molasses 27 cents, and cost of manufacturing ten cents; the rum sells for two dollars, exactly the amount of tax, and the dishonest distillers get rich at that, while the honest men in the trade are obliged to suspend.—*Newburyport Herald.*

☞ Collector Goodrich, and Naval Officer Tuck, of the Boston Custom House, have been re-appointed and commissioned for four years.

GOLD, Wednesday, 143.

— Spanish steamer Isla de Cuba, from Cadiz, had her powder magazine blown up just before she arrived at Havana. No lives lost.

—During the war a number of insane men were enlisted as seamen in the United States service, their bounties secured by *sharpers*, and themselves left without anything. The most prolific source of supply was from Canada, where the able bodied of several lunatic asylums were sent over the border when high bounties were paid.—Some sixteen of this class have been sent from different ships to the United States Marine Hospital in Brooklyn, N. Y., and some of them, of late, are proving themselves very troublesome customers.

Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Centsper Bottle.

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this suffocation and having a stiff knee for life, eventoped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Matrimonial.

CAUTION FROM THE

AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY, Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. Bartley," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertized in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je28—1m 182 Broadway, N. Y.

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. The effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1526, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spnbewlymy28

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

City Express.

Local.

POLICE COURT.—Brock, Gray and Goodwin, the pickpockets, were brought before Judge Odell on Monday, on another complaint, when they waived examination, and were bound over in the sum of one thousand dollars each. The two women were then bailed out, by depositing the sum of four thousand dollars for their appearance at the Court in October! It is expected that Brock will soon obtain bail. Two other complaints were held against them, but they were allowed twenty-four hours to leave, in consideration that the bail was sufficient. They immediately left town on the Boston train. Should they return to Court, the other complaints will be good.

POLICE COURT, July 25.—Charles H. Golder, a medium for the distillation of bad whiskey, while under spirit influence on Monday evening, discoursed harsh music on the public street, and aroused a spectre in the form of a warrant for his arrest for what they term in this grovelling world, "brawl and tumult." Unlike nearly all sensation stories, this tale ends badly. Bad for Charles, but much worse for the House of Correction, where he is sent in default of the payment of his three dollars and three-eighty six.

Now comes a batch of violators of the Sunday ordinance in relation to keeping open shop on that day. And to the City marshal and his assistants belongs great credit for the faithful manner in which they have thus far discharged their duties in this direction.

R—— M——, keeping open shop on Sunday in violation of Sunday ordinance, fined $5, and costs $4,80.

John McDonald, same offence, same fine and costs.

John Grimshaw, same offence, $5, and costs $3,86.

Dennis McGraw, same offence, $5,00: costs $4,63.

Wm. Alton, same offence, only a second repetition, fined $10, costs $4,97.

George W. Bradford, same offence, fined $10, costs $3,86.

Stephen Murphy, same offence, fined $5, costs $4,63.

☞ Mayor Bailey has broken ground for a new residence, on his fine lot on Middle street, opposite Cabot, next Mr. Jas. N. Tarleton's. That part of the city is coming to be the "Court End" pretty fast.

☞ What a fuss is kicked up because a few dogs are poisoned, isn't there? Well, without excusing *that* outrage a bit; are not our young men, aye and young women, of much more value than all the dogs? And yet, who raises hand or voice to stay *their* sure and fatal poisoning, by the dramhouses and the brothels all over the city? Who?

☞ One of the female pickpockets who came to grief here recently, is said to be the wife of a substitute broker in Boston; and by means of their united skill and *industrie*, they are said to be rich.

☞ The unknown man who was killed on the Boston and Maine Railroad, near East Kingston depot, several days ago, is ascertained to be Daniel Pickering, a deaf and insane man who left Portsmouth Alms House the day before. The Keeper of the House, seeing the description in the papers, visited East Kingston, and fully identified the man by his clothing and other articles. It is worthy of mention that Mr. Pickering was struck by a train of cars about 14 years ago, by which he had one leg broken, and lost the sight one eye,—also his hearing and the use of his reason by the injury of his head. His age at the time of his death was 57.

NEW HAMPSHIRE ITEMS.

—— George M. Perkins, of Exeter, was last week appointed Deputy Sheriff of Rockingham County.

—— Rev. Thomas G. Valpey, of St Paul's School, Concord, has received and accepted a call to officiate at St. Philip's Church in Epping, and entered upon his duties the first of July.

—— The Exeter News Letter says beef is falling, and some stores there now sell good corned beef at 11c per lb.

—— Adm. Farragut is at the Atlantic House, Rye Beach.

—— The Amoskeag Co. has declared a dividend of $20 per share, payable Aug. 1.

—— In Manchester, a returned soldier of the 1st N. H. Cavalry lost upwards of three hundred dollars, last Saturday. He was found lying unconscious in a back street about five o'clock Saturday morning, and the money which was in his pocket the evening before was gone. He thinks he was drugged with liquor and then robbed. If the returned soldier were wise enough to let liquor alone, the *druggers* could not harm him in that way.

—— The 6th N. H. Regt. arrived in Concord Monday, and were "received" in good style by the State authorities.

—— Arthur Tappan, one of the early abolitionists, died at New Haven, Conn., on Sunday, in the 80th year of his age.

AFTER THE WAR.

[From Harper's Magazine for August, with an illustration on wood, representing a farmer calling upon a son of Vulcan to get his horse shod, and finding him with a sword upon his anvil, which he is beating into a ploughshare.]

THE FARMER.

Ho! blacksmith, are you busy?
My horse has cast a shoe,
Long road have I to travel,
You must fit us out anew.

THE BLACKSMITH.

Look round my forge, good farmer,
And tell me what you see;
Am I busy? am I idle?
Ask the anvil at my knee.

THE FARMER.

I see around your work-shop
Stark implements of war—
Can it be that you are forging
Some new-born quarrel for.

THE BLACKSMITH.

Not so, my jovial farmer,
The weapons that I forge,
No manly limbs shall sever,
Draw no gore drops, cut no gorge:

Sword I'm turning into plow-share,
Into reaping-hook the gun,
Here are bayonets by the bushel—
Shall I shoe your horse with one?

Or, if a broken fetter
From the South his hoof will fit,
Lead in your horse, good farmer,
And I'll iron him with it!

CENTRAL AND SOUTH AMERICA, are rather restless.—At Guaqui, Equador, the president seized an English mail steamer, armed her, and by seizing and recapture of vessels, broke up the rebel squadron: he then returned her to her captain, and paid him £20,000 for the detention of his vessel three days.

The rebellion in Peru seems to gain; as they were lately victorious in a battle. A mutiny broke out on board the flag ship Amazonas which was blockading Aria. The mutineers gained possession of the ship under the direction of an officer. The Admiral, Gen. Panizo, was shot in the cabin, and afterwards hung from the yard arm. The mutineers afterward decoyed the captain of the America on board and captured his vessel. This is the ship recently sent from England. They afterwards captured the Nimbes, leaving the Government with only two vessels of real service.

From Central America we hear of the capture of ex-President Barrios, of Salvador, who left Panama recently in a small vessel, expecting to find the party successful that revolted in his favor in Salvador. On reaching Fonsica, however, he found his party beaten and dispersed, and endeavored to return; but a stroke of lightning happening to shiver the masts of his vessel, he was obliged to run into Realego, where the vessel was confiscated and all on board made prisoners. Barrios will probably be handed over to the Salvadorian government and summarily shot.

JOHN STEWART, who was arrested for the murder of the Joice children at Roxbury, and who was discharged from custody, was taken back to his old quarters in Fort Independence. It seems quite clear that he was *not* the murderer.

— In Lawrence last week a woman was fined $25 and costs—the smallest fine that could be imposed in the case—for assuring the assessors that there was no one at her house, save her "old man," liable to be taxed, when in fact she had several male boarders.

Why suffer from Dysentery, Diarrhœa, Pain or Cramp in the Stomach or Bowels, or let your children and friends suffer, when they can be relieved in a few minutes and cured in a few hours, by DR. BICKNELL'S SYRUP.

For sale in Portsmouth by THACHER.

YOU CAN'T OPEN YOUR LIPS, Ladies, without revealing whether you use the Fragrant Sozodont, or not. No occasion for words. Your teeth and breath speak for you. The lustre and purity imparted to the dental machinery by that peerless fluid, and the fragrance it gives to the mouth, cannot be realized by the use of any other article accessible to the human family. 4

A GENTLEMAN cured of Nervous Debility, Premature Decay, and the effects of youthful indiscretion, will be happy to furnish others with the means of cure, (*free of charge*). This remedy is simple, safe, and certain.

For full particulars, by return mail, please address JOHN B. OGDEN.
o3msn-my24 60 Nassau St., New York

BEHIND THOSE ROSEATE GATES, the lips of girlhood, ther should be a fragrant palace, elegantly furnished with ivory and coral. To drop metaphor—young ladies, you should keep your teeth and gums in perfect order, if you hope in after-life to enjoy the blessings of a sound set of dentals and a sweet breath.—What will enable you to do this? you ask. Fragrant Sozodont, we reply. 2

VINELAND LANDS.
To all Wanting Farms.

Large and thriving settlement, mild and healthful climate, 30 miles south of Philadelphia by railroad. Rich soil, producing large crops, which can now be seen growing. Ten, twenty, and fifty acre tracts, at from $25 to $35 per acre, payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Papers giving full information will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*

From Report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.

Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; 2000 for sale. Price $40 per share; $60 per share after August 1.

Stock full paid, and no individual liability. Company organized under the General Law of the State of New York, with a board of trustees of honorable, Christian business men, by whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.

We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in GOLD. Any Clergyman, Insurance Agent, or Cashier of Bank is authorized to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Office, 144, New York, R. W. FREEMAN, Esq., Cashier of the Atlantic Bank, 142 Broadway, or HERMAN CAMP, Esq., 25 Nassau Street.

Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion at the net profit of $3,000 per day, or $1,000,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SPROUL, President.
S. R. HUTCHINSON, Secretary.
Office: 80 BROADWAY, over Am. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make their 25 to 50 dollars every day. State or county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business.—Will pay $3 to $20 per day. This is no humbug nor right or medical humbug, but an article of merit, needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHITNEY & SON, No. 5 Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,

Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately change the character of their secretions*,—thus arresting the cause of their sickness or debility. Through its action in the Blood, it will expel all *Humors* and *Impurities*, that are working a slow but certain effect. Invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For Costiveness and the *Piles*, it is the best remedy ever discovered.

Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.

The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, BOSTON, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.

For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stage, and restored the patient to robust health.

BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.

FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.

In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 166 Court Street, Boston.

SAVE YOUR MONEY!

Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.

Wilbor's Monitor Hair Dye

Is supersoding all of ours. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.*—Manufactured only by ALEX. B. WILBOR, Chemist, No. 166 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, *and Jan.* 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

And all the work of a Family *of any size*,

AT LESS THAN

One-Third the Cost of Wood or Coal!

THIS NEW

PETROLEUM Cooking APPARATUS

IS WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in 15 minutes
Common potatoes baked " 30 "
Flour Biscuit baked " 15 "
And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

Portsmouth Steam Factory for Sale.

Pursuant to resolutions passed at a special meeting of the Corporation holden at Portsmouth, N. H., on the 12th inst., will be sold at Public Auction, at the Mills of the Company, at said Portsmouth, on MONDAY, the seventh day of August next, at 11 o'clock A. M.

All the Real and Personal Property of the Corporation situate and being in said Portsmouth, comprising the following, to wit:

The Steam Mill, 200x70, six stories high, with two wings, each 100x30 feet, with extensive dye house and boilers, all of the most approved construction, with all the machinery, fixtures, tools, furniture, materials and supplies. Much of the machinery is new and all capable of immediate production, and the Mill has a capacity equal to thirty thousand dozen of spool cotton per week.

The Sagamore Mill, so called, now under lease to the Rockingham Mill and subject thereto.

A Dwelling House on Islington street, usually occupied by the Agent of the Factory.

Also, 14 houses in the vicinity of the Mill, used as boarding houses for the operatives.

One store house on Parker street, and one on Rock street.

A schedule of property may be seen at the office on the day of the sale.

The sale will be positive on that day unless withdrawn under a provisional vote of the Corporation, of which due notice will be given by posterior to this advertisement.

Terms—Five per cent. to be paid at the time of the sale. Fifteen days allowed for examination of title and to complete the payments in cash or its equivalent on delivery of deeds. Title to be satisfactory.

For further particulars apply to the Treasurer.

Per order of the Committee of Stockholders.

Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to

JOHN S. HARVEY,
47 Congress st., Portsmouth.

Je29

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. The officers are amongst the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, production a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 4000 stockholders, has delivered coal at a cost of $3 to $4 per ton from regular market prices, and has paid much dividends of 1 per cent.

Any one who will take the trouble to investigate the facts, will see at once that the croakings of coal monopolists have no implication to this company, and that it is as safe and sure as any railroad or bank stock in the market.

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURE! LOW PRICES!

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at the old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the World), to obtain the latest remedies as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all Impurities of the Blood, system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has treated thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the terrible disease of the

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—125 engravings—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The simple Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed in a letter, secures a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as the best remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and all other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions for use, accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 9 P.M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—Not students or boys employed. Notice this, address all letters to

STEAMER PIONEER,

FOR THE SHOALS.

The new and superior steamer PIONEER, Capt. AMAZEEN, will commence her regular Daily Trips to the Shoals, June 15th, leaving Railroad Wharf, Portsmouth, daily at 10:15 A. M., (Sundays excepted,) and return in season to connect with the afternoon trains.

Portsmouth, N. H., June 5, 1865.

Boston & Portsmouth Packets.

The Schooners LIZZIE M. STEWART, Capt. JOHN STEWART, and MARY WILLOUGHBY, Capt. ROBERT SPENNY, will leave the South side Long Wharf, Boston, for Portsmouth, regularly every SATURDAY. ☞ For Freight apply to the Captains on board, and to GEO. TOMPSON, No. 24 Row Street, Portsmouth, N. H. je24—1m

Pleasure Sailing.

The fine Schooner Yacht PILGRIM, about twelve tons, will run from Portsmouth, to accommodate Parties in the vicinity for the Shoals or other point, by the hour, day or week. The Pilgrim is a staunch boat and fast sailer, and well fitted in every particular, and will well accommodate 30 or 40 ladies and gentlemen. Apply on board the Yacht, at Pier Wharf, foot of State St., Portsmouth, or at Mr. CHILDRICK's Stone Works.

☞ Lovers of a fine craft, and the public generally, are invited to call and examine the "Pilgrim." Capt. JOHN DIXON,

EDWARD SMITH,
Portsmouth, June 7, 1865. Proprietors.

Pleasure Sailing.

The Fast Schooner Yacht ECLIPSE, will run daily between RYE BEACH and the Shoals: leaving the Ocean and Atlantic Houses at 10 o'clock; and returning, leave the Shoals at 4 o'clock. The "Eclipse" has first class accommodations for Ladies and Gentlemen; and parties will please to remember that there is no tide to interfere on this route.

☞ Sailing Parties accommodated to any other point. HENRY L. VARNEY,

Rye, July 10, 1865. Proprietor.

New England Screw Steamship Co.

SEMI-WEEKLY LINE.

PORTLAND TO NEW YORK.

The splendid and fast Steamships CITY OF PORTLAND, Capt. SCOTT, and FRANCONIA, Capt. SHERWOOD, will until further notice, run as follows:

LEAVE Brown's Wharf, Portland, every WEDNESDAY and SATURDAY at 4 P. M., and leave Pier 9 North River, New York, every WEDNESDAY and SATURDAY, at 12 M.

These vessels are fitted up with fine accommodations for passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine. Passage, with State Room, $6. Cabin passage, $5. Meals extra. Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John.

Shippers are requested to send their freight to the steamers as early as 3 P. M. on the day that they leave Portland. For freight or passage apply to HERSEY & FOX, Brown's Wharf, Portland. H. H. CROMWELL & CO., No. 33 West Street, New York. je20

PAINT! PAINT!

Winter's Metallic Brown Paint

RECOMMENDS itself.

It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, taking two gallons less per 100 lbs. than any other mixed paint, preserves more body than any other paint. It forms a glossy, satisfying, durable metallic coat, protecting wood from decay, and iron or other metals from rust or corrosion.

☞ It does not require grinding, and is warranted to give satisfaction for painting Railroad Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.

STOVES,

KITCHEN FURNISHING GOODS,

FARMING TOOLS, &c.

THE MAGEE

COOKING STOVE.

The subscriber would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Nise, and others.

SPANISH ROUGE,

FOR POLISHING,

XL

Or Cleaning Gold, Silver, Silver Plated, Britannia, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For the purpose intended this article cannot be beat. Twenty-five cents invested in a package of this, will add more to the looks of a home than one hundred dollars spent in new furniture. Every article of any kind about the house can be kept to look like new. How much pleasanter will are when everything looks bright and clean, which cannot fail upon the faces of all. The labor of keeping every article of metal polished with the Spanish Rouge is reduced to a mere pastime and pleasure. It removes the tarnish at the brush of the hand. *It is a mineral without any composition whatever, and can do no harm.*

Put up in three different qualities, for the finest Gold to the coarsest Metals.

Try the Spanish Rouge once, and it will become a household word and a great assistant. Every person who has a ring or ear-drop, to an engine or locomotive, needs it. For sale by Druggists and Grocery Dealers everywhere.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 17 BEACH STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of the unlimited Patent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he has introduced them, failed to give the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the health, renders life a burden, and unfits the individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be provided with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. He has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

The Chronicle.

☞ Last Friday, at Chicago, some soldiers of the 9th Iowa regiment went into a liquor store. Soon the report of a revolver was heard and one soldier was shot dead. The soldiers demolished the front of the building, smashed the furniture and threw it into the street. The saloon-keeper was dragged into the street, the soldiers pounding him and swearing they would hang him. The police arrived and rescued the saloon-keeper. The soldiers then vented their rage on the building, gutting it, and with difficulty were prevented from firing it. The dead body of their comrade was brought into the street by the soldiers, and taken to the railroad station. The soldiers went to the police station, where the saloon keeper was supposed to be, surrounded it, and a squad entered it with bayonets fixed and revolvers in hand. The furniture was demolished and the police barely escaped with their lives. An officer appeared and ordered the soldiers to the depot. They obeyed and left the city on the train which was ready to start. The evidence before the Coroner's jury showed that the soldier was shot by one of his comrades who fired at the saloon keeper. Moral: soldiers had better keep out of liquor saloons.

WAGES OF LABOR.—The Newburyport Herald makes the following statements in regard to labor and wages:

We are informed by one interested in cotton manufacturing, that we stated the wages of operatives altogether too low. In any department of the work skilled hands can earn a dollar, and many of them get a dollar and a half a day. Certainly there should be no complaint with such wages for females; and we should suppose the mills would fill up at once. Thirty years ago, when mechanics worked from two to four hours a day longer than they do now, the wages of men were only a dollar a day, and of women only a dollar a week, board included, and they could not always find employment at that. Now everybody can have work—every man, woman and child that will work; and even children can earn more than men then did who had large families to support. We do not complain that labor is paid more than it should be; it is not always paid as much as it should be; but the simple statement we made, comparing the past and the present, shows how little means the talk we sometimes hear of the good old times! To be sure it costs something more to live now than it did then; but the same kind of living has not advanced in cost as much as wages have risen.

NO DISTINCTION ON ACCOUNT OF COLOR.—The City Marshal of Salem visited Newburyport one evening last week, and arrested the agent of the Heller troupe who were exhibiting there that evening, for refusing to allow "persons of color" to attend the exhibition while performing in Salem. The complaint on which the agent was arrested was drawn on the act passed at the last Massachusetts legislature, forbidding unjust discrimination on account of color or race. The agent settled the matter before the Salem Police Court by payment of $35.

WATER-FALLS ARE TO BE ABOLISHED. A Paris correspondent writes that "frizzles, short curls and 'rats' are likely to reign pre-eminent, but the fiat of the Empress abolishes waterfalls; naughty scandal says because she is getting a little—a very little—bald, and to conceal it rushes to the extremity of having the back hair to do duty by being brought up and over to the front. If such is really the truth, the capeless and crownless bonnets with which the young and fair demoiselles are so desperately in love, must perforce be resigned to accommodate the new *coiffure*."

— In an English court lately a man who was called upon to appear as a witness could not be found. On the judge asking where he was, an elderly gentleman rose up and with much emphasis said, "Your Lordship, he's gone!" "Gone! gone!" said the judge, "where's he gone?" "That I cannot inform you," replied the communicative gentleman, "but he is dead." This is considered the best guarded answer on record.

CATTLE DISEASE. — In the Arkansas and Mississippi bottoms the disease among the cattle, horses and hogs has been broken up. It has been raging some time, the victims dying in from 24 to 48 hours after being attacked. The supposed cause is poison from black knats, which were very thick some time ago. There has been great loss of stock. Men were attacked with the same disease from doctoring cattle.

— The schooner Forest Oak, from Boston for Yarmouth, N. S., on a late trip ran against a whale with such force as to knock the fore-foot nearly off. She passed over the whale, which must have been killed by the shock, and a mass of oil immediately appeared on the surface.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Assignee of U. S. Patent Office, Washington, under the Act of 1837,
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed, Dr. if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a great collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full acquaintance with all granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**
Boston, Jan. 1, 1865.—6awly

HIGHLY IMPORTANT
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 33 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. Briscoe, at No. 33 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and cured by strictly private treatment.
Office hours from 9 A. M. to 9 P. M.
Boston, July 15, 1864. 1TuSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 33 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may be worth years of suffering.
F. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Carriages.
Persons thinking of purchasing CARRIAGES, would do well to call at

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JULY 28, 1865.

GEN. SHERMAN'S VIEW.—At Indianapolis, July 26, Gen. Sherman's banquet was a grand affair. It was given by officers and ex-officers of the army, at a cost of at least $2,000. Gen. Sherman, responding to a toast, made a lengthy speech in which he said his ancestors, being in the sea-faring line, contributed largely to the importation of African slaves, and he felt it his duty, as far as possible, to atone for the sins of his ancestors. He considered the slaves freed by the action of the secessionists. It was the duty of the government to protect and educate them.

They might be colonized in Florida, and admitted to representation in Congress. He opposed negro suffrage and indiscriminate intercourse with the whites. His observations in Mexico and South America led him to this conclusion. He believed the whites must have the governing power, and that Omnipotence had organized this rebellion to break down the legal hedge which has so long protected slavery from the indignation of the civilized world. He thought plenty of the Southern States would vote to ratify the constitutional amendment. As to the subject of the military power, he did not feel that there was any usurpation; it was the natural law of self-preservation but when the necessity was passed he hoped the civil power would resume its sway.

MUTINY AT SEA.—A French ship, the Foeden's Arca, sailed from Cette for Vera Cruz, in June, 1864, with a cargo of spirits. The crew mutinied against the mate and killed him, seized the captain and threw him overboard, the cook jumped overboard and the cabin boy shared the captain's fate The crew bound themselves to secrecy, and abandoning their vessel, were picked up at sea, giving out that the ship had foundered with her officers while the latter were below to look for their papers. The men scattered to their several homes, but one of them, named Chicot, living at Nantes, being greatly depressed, his mother drew from him the whole story. The unerring and far-seeing French police have already arrested six of them, in widely separated localities, and hope soon to get the rest.

THE ALABAMA CASE.—The London correspondent of the New York Times says that the demand for the surrender of the officers and crew of the Alabama, which has been so pointedly refused by Earl Russell, has been renewed by Mr. Adams in terms so decided that the Palmerston government is sorely perplexed.

GOLD, Thursday, 143 1-2.

COUNTERFEIT GREENBACKS. — New photographic counterfeits of the one dollar greenbacks, well executed, made their appearance in New York on Saturday.

— A correspondent tells of a little girl who attended Sabbath school for the first time, and being asked if she loved the Lord, replied: "Don't know, thir; I hamt got nothin' agin him."

— A well known stock broker in Philadelphia has been arrested on a charge of conspiracy with the late paying teller of the Commercial National Bank to defraud that institution of $50,000.

—The ground heretofore occupied by Barnum's Museum, New York, has been purchased by James Gordon Bennett, for $450,000, Barnum receiving $250,000, other parties the balance. The former owner was Mrs. H. W. Sargeant of Fishkill.

LECTURING TO SOME PROFIT.—John B. Gough, the lecturer, returns an income to the Internal Revenue officers of $9000 a year.

— John S. Wallace, a merchant of Chicago, was arrested recently for using revenue stamps two or three times over on his warehouse receipts. He confesses to have saved about thirty-five dollars, which will probably cost him about $35,000, the penalty for each offence being $1000, with the addition of imprisonment. Wallace offered $5,000 to the man who arrested him if he would let him off.

—Bishop Andrews has issued a call to the Methodist E. Church, to hold Annual Conferences this Autumn, and send delegates to General Conference.

— The Newburyport Herald says that the black tongue has again appeared in Byfield. Nearly all the children have a touch of it. It is very seldom that it proves fatal.

— A Boston smuggler named Adams, who had been arrested at Island Pond, slipped away from the officer having him in charge at Derby line, the other day, and took a running start for Canada. The officer followed close behind, but the smuggler crossed the Canada line ahead of him, and so gained his liberty.

— James L. Orr, of South Carolina, says that the Southern people unite in condemnation of Jeff. Davis, and agree if it had not been for him the war would have ceased two years ago.

OUR "JOTTER" AT HOME, July 27.—We left Wolfeborough (unwillingly enough) Monday morning at quarter before 6 o'clock; we were about to say, "*early* Monday morning," but we (and on this trip, "we" means us dually, and not merely we editorially,) had been "up" for more than hour, hunting in the cupola of the Pavilion for the sunrise which didn't come at all,—and we don't consider daylight "early" at any time of year, seeing that we rise hours before, much of the time. The Lady steamer took us on such a sail as we never enjoyed before. First to Centre Harbor, then to the Weirs, to Wolfeborough again, thence to Centre Harbor once more, and back to the Weirs—where time being up, we were obliged to quit gliding over this lovely inland sea, and descend to car-riding. The mercury didn't "descend" a bit, however, on our entering the cars; for you remember it was "higher than ninety" that day.

But can anybody imagine a more charming voyage than that—85 miles or so, through such picturesque scenes as Winnipisaukee everywhere affords; into and out of bays—between mountains, or hills which would be mountains but for bigger hills beyond—and on all sides, above and below, nature at her loveliest. Capt. Sanborn, of the steamer Lady of the Lake, is an old sailor—a regular "salt" at first, but for near a score of years has sailed this Lake. He was commander of the first steamer there, the old "Belknap"; but after she had got used up, the business being but small in those days of stages, navigation was suspended until the opening of the Railroads, when the "Dover" was put in his command; and years after, when he thought he was done with "navigation," he last season took an interest in the Lady. Of his efficiency and fitness for the place, we need only remark that in all his years of sailing, he has never met an accident of any kind, nor injured a passenger, nor touched bottom with his boat, (when he was aboard) nor missed a train of cars! For pilot, he has Mr. Moses Warren, formerly of the Portsmouth steamer Grace Darling; and a Mr. Wadleigh for Clerk—both of whom know their duties, and are up to them.

We found Capt. Sanborn a very agreeable man to spend the day with—his "premises" are very fine—and he "lives well" too, (that is an attraction to some folks in visiting, you know—and such can rest assured that somebody aboard that boat "knows how to keep a hotel.") One little incident amused us, or would if it hadn't made us so "mad." A "dirty," though otherwise clean-*looking* fellow, kept squirting his tobacco juice on the well-washed deck, very near the wheel-house, for a long time, till pilot Warren could stand it no longer, and took up a spittoon and "shoved it in the man's face," that is, placed it on the defiled spot for his use. We should have liked to see the nasty critter thrown overboard and towed behind till he was cleaned, but for dirtying the water and disgusting the fishes.

But all things must come to an end—(all pleasant things, though it seems as if disagreeable ones never *would*, sometimes, don't it?) and so did that sail. And we must bid Capt. Sanborn and his "Lady" good bye and good luck till the scarlet Autumn.

Then for a ride down to Concord again, and home in Conductor 'Kenrick's charge, on the C. & P. Road—who sets so highly by our company, that he kept us as long as he could, and we began to think never *would* let us go. But that ride did have two ends, and so must these notes, being drawn on short time.

Hurriedly yours, F.

NEW HAMPSHIRE ITEMS.

—— In the Concord Police Court Geo. Brown, belonging to the 6th N. H. Regiment of Volunteers, was brought before Judge Dana, charged with stealing a pair of pantaloons from F. S. Peck & Co. He plead not guilty. He was fined $10 and three times the worth of the article stolen, and cost, amounting to over $30.

—— The Portsmouth correspondent of the Traveller says:

Wm. Robinson, late of Augusta, Ga., left for the founding of a Female Seminary at Exeter, $150,000, on condition that the town of Exeter procure suitable buildings, and a certain number of orphans be admitted every year. It is designed to make it one of the first class Seminaries of the country. It is feared that the heirs-at-law will contest the will on the ground that the magistrate before whom the business was done, being a rebel, renders it void.

—— The Manchester Mirror says, Walter Norris, son of the late Hon. Moses Norris, returned to Manchester Tuesday evening, after an absence of about six years. For the last four years he has been in the rebel army, and was among the prisoners in Lee's army who were paroled by Gen. Grant after the capture of Richmond. He has also taken the oath of allegiance.

—The iron Monitor Wassuc was launched at Portland on Tuesday.

—Tennyson is rapidly declining.

—The collection of coins at New Haven, belonging to the Yale College, has been considerably increased within a few months, valuable Syrian and Egyptian coins being among the recent accessions.

WAIFS FROM AN ESTRAY.—*Nanny's Island, Great Bay.*—This is rather out of the latitude of pleasure seekers from your city, but for all that, the delights of a sail hither are none the less. Most of your readers are familiar with the route by water as far as Dover Point or Piscataqua Bridge, and most of them travel it but seldom, on account of the dreaded passage under Portsmouth Bridge and past Boiling Rock—the Scylla and Charybdis of our up-river navigation, in consquence of which more people have lost their lives in imagination than in reality.

That many persons avail themselves of of the fine scenery afforded by an up river trip, as far as the site of the old bridge, is evident from the great number of names cut upon the bark of the grove of beeches upon the easterly end of Goat Island. The tall naked chimneys where the hotel on the island was burned; and the toll-house, with its chimneys pushed over, windows destroyed and walls battered, offer another example of that destructiveness which seems inherent in the nature of man. No wonder soldiers destroy property in an enemy's country, when most people are so ready to do so wantonly at home. I think this trait an infectious disease, for what pleasure there can be in simply destroying another's property is above my comprehension, though I must confess to having once launched a crowbar through a pile of about fifty glazed window-sashes, imagining that I felt somewhat similar sensations to the man who has harpooned a whale, and till this day have no doubt that had the owner of the sashes caught me there I should have experienced the exact sensations of whaling.

Perhaps you think I am drifting away from my subject. Well, then, after the pleasant sail up to Piscataqua Bridge, new pleasures await those who push onward to this spot. Leaving Broad Cove and rounding the point, we enter Little Bay and thence pass into Great Bay, new beauties opening to view with each change of position. The scenery is pleasing, rather than grand or wild: small rivers, affording a narrow vista between their wooded banks; gently sloping peninsulars, whose closely shaven surface, instead of the sere, brown aspect usual at this season, presents a field of living green; the beautiful sheets of water, the distant hills and the almost entire silence of the vicinity, are among its chief charms.

Whence this island derived its name I am unable to say, though I have instituted inquiries in various directions. To the tradition that a sheep being once kept there gave it name, I replied "Ba!" as the top of the island is not much larger than your counting room.

Composed of drift, with underlying rocks of a slaty nature, which look as if composed of petrified strawboard or pasteboard; a few granite boulders along the foot of the bank; its chief botanical productions a solitary oak and a few bushes; this island has to the sportsman a great value as being one of the most eligible shooting covers for waterfowl in our vicinity. Just off the shore, in deep water, oysters of a size that is uncommon at the North, grow naturally, and some enterprising visitor has fished up a dozen or so and left the huge shells upon the beach to tantalize all who come after.

Off this island, nearly fifty years ago, a promising young man was drowned, and the boat was still visible at the bottom of the bay a few years since.

This would be a good place for my friend Pea to visit, as he will not go on the beach Sunday for fear of being thought to countenance Sabbath breakers.

The following item I find in a paper of the current week:

A submarine company is at work on the Varuna, sunk at the time of the passage of Forts Phillip and Jackson, below New Orleans. They have succeeded in clearing away 3000 tons of mud, which has formed quite a bar in the river, and 300 tons of coal. Muskets, cutlasses, ammunition, mess stores and many other things have been brought up in good condition.

If that be true, the waters of the Mississippi must have a very singular effect upon articles submerged in its turbid current, for nearly three years since I made many visits to the Varuna, and the articles brought to light by the submarine company then at work upon her were in anything but good condition. ION.

NEW ENGLAND CATTLE MARKETS, at Cambridge, Brighton and Medford, this week.—Abridged from the Boston Post

From Maine 22 Cattle, 250 Sheep. New Hampshire 140 Cattle, 471 Sheep. Vermont 763 Cattle, 3590 Sheep.

PRICES.—*Market Beef.* [Which includes the Hide and Tallow at same price.]

Extra, $12 00 to 12 50; first quality, $10 00 to 11 50; second quality, $9 00 to 9 50; third quality $7 50 to 8 00.

Working Oxen, per pair, from $— to —.

Milch Cows and Calves, from $30, to 80.

Yearlings, none. Two years old, $20 to 35.

Three years old, $37 to 40.

Western Cattle there, —c to —.

Dressed, — to —c per lb.

Stores, wholesale, 11 to 12c; retail, 15 to 16.

Northern Dressed Swine, — to —c per lb.

Sheep and Lambs

In lots, $2 50, and 3 50 per head.

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to you ourselves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure,* when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PEKKINS, New York, is on the outside wrapper.

Sold by all Druggists througout the world.

Price, Only 35 Cents per Bottle.

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the leg and knee should be encased in a plaster of Farr bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

FRANK B. CLOCK, Druggist and Chemist, Proprietor, Manchester, N. H. j4

CAUTION FROM THE

AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY! Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. BARTLEY," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Jc28—1m **182 Broadway, N. Y.**

Burno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the disease arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. BURNO, P. O. Box 1236, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spnbwkiymy22

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

City Express.

D. L. RANDALL would inform his old customers and the public, that he has purchased a good team, and will be happy to fill his orders in his old line, as heretofore. Particular attention given to moving PIANOS, and conveyance of BAGGAGE to and from the Depots. Also to the cartage of nice articles about the city.

Local.

☞ We are gratified in being able to state that Admiral Farragut will visit this city at the invitation of the City Authorities, on Friday of this week, and our citizens will have opportunity to pay their respects to the old hero (old in deeds, not years,) at the Rockingham House. The Admiral, with his family, are stopping at the Atlantic House, Rye Beach, for a few days.

☞ A spicy Portsmouth correspondent says, the splendid steam frigate Franklin, built at the Navy Yard, near this city, is to be towed to Boston, where she will receive her boilers and engines. By the contract with the builders of her machinery, it was to be delivered at the Navy Yard here, but as they make our "Uncle" a liberal discount if he will tow his ship to Boston, and receive it on board at the place of construction there, the programme is changed. After this we shall expect that Boston mechanics will claim to share with Portsmouth the honor of constructing the "pride of our Navy." Speaking of constructing, reminds me that our distinguish naval constructor at this station, Samuel M. Pook, has a national reputation as a builder of public ships, for he framed the "United States," afterwards "amended the Constitution," and at this yard constructed the "Congress." Few naval architects can boast of such a record as this.

POLICE COURT, July 26.—Daniel Leary is a man whom we deem really, unqualifiedly and emphatically eccentric, inasmuch as he will not get drunk and subject himself to an arraignment before a court of justice with any of his plebeian friends, and as no aristocrat or gentlemen of "good blood" ever gets drunk, he goes solitary and alone before His Honor the Police Magistrate, and with a stoic's glance and a sardonic smile playing about his grim visage, he receives his sentence of $3 and $3.86. O Daniel! O shades of your fathers! you were designed for something more ennobling than getting drunk—shovelling dirt for instance,—and as many of your Celtic brethen are engaged in this honorable avocation, our advice to you is "go and do likewise."

YACHT CALYPSO.—We were favored on Friday by the arrival in our harbor of the yacht "Calypso," owned by J. H. Bache, Esq., of New York,—a member of the New York Yacht Club,—under the flag of which the "Calypso" sails.

The "Calypso" is a schooner yacht of one hundred and thirty tons by the old measurement, and of fifty-three by the new, and is a perfect model of speed and beauty. Her interior is superior to anything we have ever seen, and shows that care, wealth and good taste have been used lavishly. Her cabin, which is large enough to seat at least thirty, is elegantly fitted with dark cushions and carpets, matching finely with the sides and top, which are panelled in ash and black walnut. The two large staterooms are also finished with the same woods, and fitted with every comfort and elegance. Forward of these are the pantry and kitchen, which are models of neatness and convenience; and beyond are the sailors quarters. On deck everything shows the greatest skill and care. There is no iron about the yacht which is liable to rust, everything which is not of brass or copper, being galvanized

The polished metal would, in reflection, if possible, have made more lovely the faces of the ladies who graced the beautiful vessel. The gaw carriages are of solid mahogany, while the guns themselves shone like burnished gold.

The "Calypso" is one of the fastest yachts afloat, and would probably have taken the first prize in the recent race of the club had she not been becalmed, when smaller yachts were able to take the lead.

She remained but half a day, sailing on Saturday for Portsmouth, N. H.—*Portland Press.*

The "Calypso" arrived at Portsmouth from her Portland trip, and with her precious freight of delighted fairies, some of whom had made very familiar *over*-tures to Neptune, but all in love with the beautiful yacht. The generous hospitality of her gentlemanly owner and commander, and the delicate, untiring kindness of their fair hostess, will long be remembered by the gay party. The hilarity on board must have astonished the goddess of silence, and perhaps awakened the jealousy of the lovely craft, lest Ulysses should fall an easy prey to the attraction of voices too musical ever to be silent.

☞ S. O. Wheeler's "Great International Circus" is advertised in this city for Aug. 2d.

CURIOUS WILL.—In investigating a title to some real estate recently, which was devised in 1835 by the owner in trust, we found the following curious provision: "But it is my will, and the foregoing provisions and trusts are made and created, and the foregoing legacies given to my said daughters severally, and for their several benefit, upon the express condition that neitherof them shall marry —— of ——, attorney at law, and in case either of said daughters shall marry said ——, then and after such marriage, such daughter, so marrying said ——, shall cease to receive any part or portion of my estate, or of the rents, income, interest, or profit thereof" There were four daughters, none of whom broke the conditions, but on the contrary, one married a Unitarian minister, one an Orthodox Congregational minister, and the other a Baptist minister. What ever the legal profession lost, the clergy gained by this clause in the will.—*Lowell News.*

☞ Some busybody has told, in a Boston paper, within a few days, a romantic story of Admiral Farragut's marriage with two sisters, one of whom was born on the day of the other's wedding. It is a great pity to spoil such a nice item; but we learn from the best authority that there is not a word of truth in it; and moreover, the laws of Virginia forbid such marriages.

MRS. SURRATT'S MONUMENT. — The friends of Mrs. Surratt contemplate placing over her remains, when the government is through with them, a stone, with her last words on the scaffold, "I am innocent; but God's will be done."

— Wallace W. Whittlesey, a former clerk in the Treasury department, has been arrested for stealing unfinished U. S. bonds. He has confessed his guilt.

—The Navy Department has paid into the Treasury one million dollars as proceeds from the sales of vessels since the end of the rebellion.

—In England, a half holiday on Saturday afternoon is almost universal among business men and manufacturers. Few factories or stores are open, and the principle is even extending into the public offices.

—The Pope declined to bless the coffin of Marshal Magnan, as it was decorated with Masonic emblems.

MARRIAGES.

In this city, July 26th, by Charles A. Wiggin, Esq., Mr. CHARLES H. ALLEN to Miss LUCY A. KNIGHT, both of Portland, Me.

In this city, July 19th, by Rev. A. J. Patterson, Mr. GEORGE T. CRANE of Hampton, to Miss ANNIE A. GERALD of Concord.

In this city, July 25th, at the residence of the bride's father, by Rev. I. F. Waterhouse, assisted by Rev. G. M. Adams, Mr. JAMES MOSES to Miss LOUISE A. FULLBROOK, daughter of Mr. Daniel Philbrook, all of this city.

DEATHS.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make their 25 to 50 dollars every day. State rights and rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, quiet, and profitable and permanent business.—Will pay $5 to $30 per day. This is no patent right or medical humbug, but an article of merit, needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHITNEY & SON, No. 6 Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,

Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately change the character of the secretions*, arresting the cause of their weakness or debility. Through its action in the Blood, it will expel all *Humors and Impurities*, that are working a flow but certain effect, invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. *For Costiveness* and the *Piles*, it is the best remedy ever discovered.

Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.

The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, BOSTON, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.

For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.

BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.

FEMALE DEBILITY. To nurses and nursing mothers, it will give strength and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.

In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 168 Court Street, Boston.

SAVE YOUR MONEY!

Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, and a better Dye, for the same money.

Wilbor's Monitor Hair Dye

Is superseding all of ers. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.*—Manufactured only by ALEX. B. WILBOR, Chemist, No. 168 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, *and Jan.* 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

And all the work of a Family *of any size,*

AT LESS THAN

One-Third the Cost of Wood or Coal!

THIS NEW

PETROLEUM Cooking APPARATUS

Is WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?", is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in 15 minutes	
Common potatoes baked	" 30 "
Flour Biscuit baked	" 15 "

And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

STATE LAWS. June Session, 1865.

STATE OF NEW-HAMPSHIRE.

In the year of our Lord one thousand eight hundred and sixty-five.

AN ACT to provide for the payment of the obligations of the State, funding the debts, and providing for the assessment and collection of a State tax.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. For the purpose of funding the present debt of the State and for meeting the war expenses of the Government, not otherwise provided for, the Treasurer of this State is hereby authorized, under the direction of the Governor, with the advice and consent of the Council, to issue the bonds or certificates of indebtedness in the name and in behalf of this State, to an amount not exceeding one million of dollars, in such sums and for such time, not less than one nor more than five years, and at such rate per cent per annum, payable semi-annually, as the Governor, with the advice and consent of the Council shall determine. All such bonds or certificates of indebtedness shall have interest warrant or coupons attached thereto, signed by the Treasurer of the State, and made payable at such place or places as the Governor and Council shall determine.

SEC. 2. Said bonds or certificates of indebtedness shall be countersigned by the Governor of the State, and shall be deemed a pledge of the faith and credit of the State.—The Treasurer and Auditor shall each respectively keep a book of records of all the bonds or certificates of indebtedness, and of all matters relating to said bonds, in the same way and manner as is prescribed by chapter 4[illegible] of the Pamphlet Laws of this State, passed August session, 1864. The Treasurer may, from time to time, under the direction of the Governor and Council in writing, sell such amount of said bonds or certificates as the public exigency requires, provided that no pledge, loan or hypothecation of such bonds or certificates shall be any validity whatever.

SEC. 3. That the sum of seven hundred thirty-six thousand dollars be raised by taxation for the use of the State, and shall be assessed, collected and paid into the State treasury, on or before the first day of December in the year of our Lord one thousand eight hundred and sixty-six; and the State Treasurer is hereby directed seasonably to issue his warrants to the selectmen of the several towns and places, and to the assessors of the several cities in this State, according to the apportionment of public taxes made June session, 1864; and the selectmen of such towns and places, and the assessors of such cities, are hereby required to assess the sums specified in said warrants, and cause the same to be paid to said Treasurer on or before the first day of December, in the year of our Lord one thousand eight hundred and sixty-six; and said State Treasurer is hereby authorized to issue his extents for all taxes which shall then remain unpaid.

SEC. 4. There shall, on the first day of January, 1867, be set apart from the money so raised under the provisions of section three in this chapter, the sum of one hundred and fifty thousand dollars, and from the amount raised by taxation from year to year there shall be set apart annually thereafter, in this chapter, a proportional sum, being part of the balance of said one million dollars, provided for by the first section of this act, as shall at the end of five years be sufficient to liquidate all the bonds and certificates of indebtedness sold and outstanding against the State, and authorized under this act. The trustees under the act of August session, 1864, chapter 4[illegible] of the Pamphlet Laws of this state, are hereby appointed trustees under this act, with the same powers, duties and compensation as is prescribed relating to them as trustees under said act of August session, 1864. And said trustees are hereby authorized to invest said sums of money accruing under either of said acts, and to set apart, in purchasing any of the bonds issued or issuable under any law of the State; and they shall not use so set apart under the provisions of this act, with the interest annually therefrom, shall constitute a sinking fund for the payment of the principal of the bonds or acts issued and sold in accordance with the provisions of this act; and the faith of the State is hereby pledged to the setting apart and application, from time to time, of the sinking fund so derived from said taxation, for the redemption of said bonds or scrip under this act as they shall become due. If, in the opinion of the Treasurer, under the advice and consent in writing of the Governor and Council, such purchase may be expedient.

SEC. 5. This act shall be in force from and after its passage, and all acts and parts of acts inconsistent with this act are hereby repealed.

AUSTIN F. PIKE, *Speaker House of Rep.*
EZEKIEL A STRAW, *President Senate.*
Approved June 30, 1865.
FREDERICK SMYTH, *Governor.*

AN ACT to provide for a Temporary Loan.

Be it enacted, &c.

SECTION 1. The Treasurer of the State, under the advice and consent of the Governor and Council, is hereby authorized to borrow, for the temporary use of the State, the sum of one million and five hundred thousand dollars, upon the best terms and conditions possible, in such sum or sums and at such time or times as the necessities of the State may require; *provided*, however, that the time of the payment of such loan, or any part thereof, shall not extend beyond one year.

SEC. 2. Every loan, or transaction in regard to the loan authorized by this act, shall be made a matter of record by the State Treasurer and Auditor, and the books in which the records are made shall be always open to public inspection.

SEC. 3. This act shall take effect upon its passage.
Approved June 21, 1865.

AN ACT providing for the Taxation of Incomes.

Be it enacted, &c.

SECTION 1. Every person shall be taxed in the town in which he is an inhabitant or resident, on the first day of April, on the amount of all incomes received by him during the year previous, derived from bank notes, bonds or any other securities whatsoever, not otherwise taxed under the laws of this State, the sum of twenty-five per cent; and the amount of taxes arising under the provisions of this act shall be deemed to be an amount in addition to the amount of taxes required to be raised by law, and for town charges.

SEC. 2. Every person liable to be taxed in any town, shall exhibit to the selectmen, at the time and place appointed by them to receive an account of the polls and taxable property of such town, or to any one of the assessors of the selectmen, or either of them, an account of the amount of his income accruing from notes, bonds, or any other security which may be taxable by the laws of this State, under oath, which oath either of the selectmen may administer.

SEC. 3. If any person shall neglect or refuse, after due notice, or when called upon by any selectman, to give such account, the selectmen shall set down to such person an income such sum as they judge just and equitable, upon which they shall assess the tax, and shall give notice of the action of this act, which shall be conclusive in all cases, unless the party shall show, by his statement under oath, that it was not just; and he shall be entitled to exhibit such statement at the time; that he is ready to make such statement and does make it; in which case the amount of such assessment shall be corrected and made to correspond with such statement.

SEC. 4. If any person, in giving to the selectmen such account, shall wilfully omit any part of his income, as provided in this act, the selectmen shall, upon satisfactory proof of the fraud, assess such person for that year four times as much as such income, so omitted, if given in, would be taxed.

Approved July 1, 1865.

AN ACT in amendment of an act passed June session, 1865, entitled an act to facilitate the raising of troops.

Be it enacted, &c.

SECTION 1. The Governor, with the advice and consent of the Council, is authorized and empowered to issue his proclamations, from time to time, calling for men in not exceeding one hundred dollars for one year's men, two hundred dollars for two years' men, three hundred dollars for three years' men, and in the same proportion for any other term of service, to each person who shall be mustered into the military, naval or marine service of the United States, to fill up the quota of this State under the call of the President such person shall have voluntarily enlisted or volunteered as a substitute for a drafted or enrolled man, or a representative substitute for a drafted or enrolled man, not exceeding two hundred dollars to each drafted man for one year, who shall be mustered into said service to fill said quota during said war; provided, that no person mustered into the military, naval or marine service of the United States since the first day of June, 1864, and credited upon the quota of any town or city in this State, shall receive, or he shall have voluntarily enlisted or volunteered as a substitute, for a drafted or enrolled man, or as a representative substitute for any drafted or enrolled man, shall receive the State bounties authorized in this section.

SEC. 2. This act shall take effect on its passage, and section 3, chapter 4[illegible]25 of the Pamphlet Laws, is hereby repealed. Approved July 1, 1865.

AN ACT to amend the existing military law of the State, passed June session, 1862, being chapter 2579, Pamphlet Laws.

Be it enacted, &c.

SECTION 1. The numerical force of the active militia shall not exceed, on a peace footing, fifteen hundred, officers and men, who shall be uniformed, armed, and equipped by the State, through the Quartermaster-General.

SEC. 2. Light batteries, or sections thereof, may be raised and attached, at the Commander-in-chief with consent of Council, may direct. Cities and towns are hereby authorized to raise and appropriate money to aid in sustaining any military organization existing within their own limits. Independent military organizations already existing, whose officers hold commissions under the State, if at any time are ordered out by the Commander-in-chief for military duty, shall receive the same compensation as now allowed to the volunteer militia.

SEC. 3. The officers and soldiers of the volunteer militia shall receive dollar and a half per day for attendance and performance of duty at the May training, and the same sum for the training required by law prior to the annual encampment.

SEC. 4. In case the full number of officers and men shall not be attained by volunteering, His Excellency, the Commander-in-chief, in accordance with law, shall cause a draft to be made to fill such deficiencies, in such number, at such times, and in such localities as His Excellency, with advice of Council, shall deem expedient.

SEC. 5. So much of such act of 1862 as conflicts with the provisions of this act, is hereby repealed; and the Adjutant General shall secure an immediate compilation of the law, as intended, for distribution, furnishing the officers all needed blanks.

SEC. 6. This act shall take effect and be in force from and after its passage. Approved June 30, 1865.

Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to

JOHN S. HARVEY,
Je30 47 Congress st., Portsmouth.

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the fearful risks of the speculative movements of the day. Its offices are among the solid men of Boston, and are known as gentlemen of integrity, who have never been connected with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 4000 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the facts, will see a most decided line cropping of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

JOHN S. HARVEY, 47 Congress St.,

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Bowels, Coxes Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscess, Blotches, Impotence, Sexual Debility, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their manhood, or contracting themselves at the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and assist them in their misfortunes, as thousands in almost every part of the United States, who applied to Dr. J. broken down in health, now enjoy in all that makes life desirable, and are happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—250 pages—full plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Hear Pity. A Lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, pages—full plates—price 25 cts. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will procure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

Perfect Safety Guaranteed.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Lichoh's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions in each box. Accompany each package for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 9 A. M. to 8 P. M., and on Sundays from 3 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We invite all those in want of the very best Stove in the market, to examine the
MAGEE COOK,
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason of this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

VOL. XXVII. PORTSMOUTH, N. H. SATURDAY, JULY 29, 1865 : 207. No. 24.

The Chronicle.

SLAVERY AND "INDEPENDENCE."—There was a veteran editor in New York, recently deceased, who made it a rule not to have the word "slave" or "slavery" printed in his paper at all. If he found one of them in a communication, he would invariably strike it out, and insert "serf," "bondman," or some similar word. How long is it since the mere accidental presence of a copy of a republican paper in a store was something more to be dreaded than a mad dog? How long is it since a church of Yankee merchants in ——— said plainly to their minister; "Take your choice, stop writing for the Independent or resign." These gentlemen, in explaining the reasons of their course, were perfectly frank. They said: "Southern merchants will not deal with men who attend the church of a clergyman who is known to write for the Independent." The clergyman did not resign.—*N. Y. Weekly Review.*

— A sect, numbering over 40,000 has sprung up in the Mohammedan church, who disavow polygamy, drink (no,) wine, disregard the feast of Ramazan, acknowledge the sacredness of the Old and New Testaments, demand that the Koran shall be printed in Turkish without note or comment, and claim that no man ought to be considered an infidel, or be persecuted for his religious faith.

— The Boston Courier, in an item speaking of the catching of a sheep's head weighing 9 1-2 pounds, asks "what is a sheep's head?" If that query is put for information we answer: a large fish (*Sparus ovis*) with very nice flesh, so called probably from a fancied resemblance in its mouth and teeth to that of a sheep. If the question be only in banter, we give him Maxwell's definition—"a dunce."

— The long talked of International bridge at Buffalo seems about to be realized. Two millions five hundred thousand dollars have been pledged for the work, which will consist of a durable and elegant iron bridge to span the Niagara at that point, as well as for the construction of a grand union depot building, and the seven miles of railway around the city to connect the eastern lines with the bridge.

John Randolph, of Roanoke, says thirty years make sad changes in a man. As an instance of the truth of this remark, we would state the fact that thirty years ago a tailor in Greenville, Tenn., made the first coat our eldest brother ever wore, and now that same tailor is President of the United States. Surely, tall oaks from little acorns grow!—*Jefferson (Texas) Bulletin.*

Established in 1846.

"THE HORTICULTURIST," and Journal of Rural Art and Rural Taste. Twentieth Annual Volume, 1865. U. S. SANITARY COMMISSION
ARMY & NAVY CLAIM AGENCY.
No Charge for Services.
S. HOLMAN, Local Agent,
Office, No. 5 CONGRESS STREET, (up stairs.)
The U. S. SANITARY COMMISSION desiring to relieve Soldiers, Sailors, and their families from the heavy expenses usually paid for the prosecution of such claims, have established this Agency, to collect pensions, arrears of pay, bounty and other claims against the Government, WITHOUT CHARGE OR EXPENSE OF ANY KIND WHATEVER TO THE CLAIMANTS.
On application sent to this Agency, stating the name and post office address of the claimant, the name, rank, company, regiment, service, and State of the soldier on whose account the claim is made, and if discharge or death; the proper blanks will be filled out as far as possible and forwarded to the person applying. These can be executed and returned to this office, where the claim will be prosecuted to a final issue in the shortest possible time. jy7

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837,
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents issued in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

HIGHLY IMPORTANT
TO
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicine will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients are none but the Doctor himself.
Address Dr. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M. ThSly
Boston, July 16, 1864.
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
Also, the sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
E. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Carriages.
Persons thinking of purchasing CARRIAGES, would do well to call on or address
J. H. R. ADDLETT, Dover, N. H.
He having bought out the Firm of MOODY & HOBBS, is prepared to offer for sale in Dover, a large Stock of Carriages, of
Better Style and Workmanship
than can be found elsewhere in the State,—consisting of Carryalls, Brownells, Sun Downs, Open Buggies, Top Buggies, Concord Wagons with one or two seats, and Express Wagons.
And any quantity of SECOND-HAND CARRIAGES, such as Buggies, Chaises, Wagons, &c.
Call or address as above, or orders may be left at the Chronicle Office. my12m

Pulmonary and Nervous Diseases.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JULY 29, 1865.

THE STATE PRISONERS. — The N. Y. Herald's Fortress Monroe correspondent says Jeff. Davis's health has failed to such an extent that he has been permitted to take out door exercise—that is, outside his casemate, but inside the fortress. Dr. Craven advised this, saying unless it was granted he could not live much longer. Clay, through his physician, has secured the same privilege. A strong guard accompanies Davis in his walks. Clay's health improves. John Mitchel begins to chafe under his imprisonment, and it would not take much pressing for him to accept a pardon now.

GOLD was excited on Thursday in New York, by a variety of rumors from Mexico, and it advanced to 147, opening at 146 Friday morning. The Mexican news, however, is conflicting and some of it absurd, particularly the story about Maximilian's proposed importation of slaves. The statements about a great arrival of *Austrian* troops in Mexico, and movements of our troops in consequence, are built on a slender foundation.

On Friday it was 146 to 145 1-2. It is said that the present *combination* in New York to sustain the high price of gold is very strong, and some have sufficient faith in the power of the men who control it as to predict the successful carrying out of the plan. If a few members of the combination should go into the hemp speculation, it might benefit the fair traders and the people generally.

☞ There was a riotous disturbance at Concord, on Wednesday night, by some soldiers. A shop-keeper accused a soldier of stealing clothes, and his comrades resented the charge, tried to destroy the shop, and went to the jail to release some more comrades.—The police resisted this manfully; being reinforced by some companies of soldiers, who kept under arms all night, prevented further mischief.—The soldiers are waiting for pay,—and are swindled by sharpers. — The Monitor speaks of the origin of the riot in this way:

A large crowd of soldiers had gathered around the clothing store of Edmunds & Co., threatening to demolish the same, in consequence, as they alleged, of sharp practice in the sale of clothing by some of the employees.

BEEF IS FALLING.—Some of the Stores in this town now sell good corned beef at 11 cts. per pound.—News Letter.

"Gentle shepherd, tell me where." We don't know what the *Stores* sell for, but the *dealers* ask 18 and 20 cents.—*Ballot.*

— A fire occurred in Boston, on Friday, by which the office of the Yankee Blade, newspaper, was damaged to the amount of $1000. Mr. J. K. Torry, job printer, lost $700 or $800. The Counting Room of the Evening Courier was somewhat damaged by water. Supposed to be the work of an incendiary.

—Capt. Walker of the U. S. Steamer Sacramento, in a despatch to the Navy Department, dated at Kingston, Ireland, on the 10th inst., gives an account of his recent pursuit of the Rebel pirate Rappahannock on her trip from Southampton to Liverpool. She managed to keep so close to the shore that he could not interfere with her without violating international law.

—A report received at the Freedmen's Bureau from the agent in Arkansas, represents the conduct and condition of the Freedmen of that State in a highly favorable light. They are generally working industriously and appear to appreciate freedom without being disposed to abuse it.

— At the Richmond election last Tuesday, N. A. Sturdivant was elected Mayor, and Marmaduke Johnson, Attorney of the Circuit Court. Sturdivant and Johnson were in the rebel army.

— Just prior to Gov. Perry leaving for South Carolina he assured Gen. Howard that he would cheerfully cooperate with his bureau for the management of freedmen, and ask instructions to enable him to carry out the intentions of the government.

— Eight whalers are said to have been burned by the pirate Shenandoah, since her master heard of Lee's surrender and the rebel catastrophe. He should be treated as a pirate when caught.

— The N. Y. Times' Washington dispatch says Jeff. Davis health is as good as for the last five years.

— During the month of June, over $288,000 in prize money was distributed. A large amount still remains for our gallant sailors.

— Two hundred gamblers, men, youth and boys, were arrested in a grove near Chicago on Sunday. The police having rendered the city an unsafe place for their operations, they converted this grove into a gambling resort.

— "Waterfalls" have about passed over. The Empress needs her black hair to disguise a glimmering of baldness.

— Gen. Grant is at Saratoga.

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TOBY.

Mathew Livermore—Independence, 1776—Raleigh and Ranger—Rev. Dr. Stiles—Gen. Whipple and Stark.

Matthew Livermore was born at Watertown, in Massachusetts, the 14th of January, 1703, and was educated at Harvard College, where he was graduated in 1722. The selectmen had applied to the officers of the College, to send them a young graduate, qualified to teach a grammar-school, who was willing to engage in that business, for ten years. They recommended Mr. Livermore, who came here in 1725, but stated to the selectmen his intention of studying law, and reserved liberty to quit the school as soon as we was qualified for admission to the bar. He continued to instruct the school seven years, and was sworn as an attorney at law, in 1731. There was at that time no regularly educated lawyer in this town, and soon after Mr. Livermore's admission, Governor Belcher appointed him Attorney-General for the province, and Advocate for the King in the Courts of Admiralty. This office was very lucrative, and Mr. Livermore stated to the Governor, that he would not accept the office of Attorney-General, which was vexatious and unprofitable, unless he could likewise be appointed Advocate. His sensibility was much excited, when in the course of his official duties, he was instrumental in procuring the capital punishment of any of his fellow creatures; and during his practice, he was three times called to discharge this painful task. He was correct in his practice, and faithful to his clients. He regarded the profession, as honorable and useful, but more exposed than many others to powerful seductions from the paths of moral rectitude. He was serious in his deportment, exemplary in his conduct, and firm in his belief of the truths of the gospel. His infirmities, both of body and mind, disqualified him from attending to any business several years before his death, which took place on the 14th of February, 1776.

The provincial Congress adopted a form of government, in which the legislative and executive powers were vested in a Council and House of Representatives. Notwithstanding they were authorized to take this step by their several constituents, a number of persons here, alarmed at this proceeding, procured a meeting to be called, and remonstrated against their establishing any government at present, lest it should be construed as a design to throw off their allegiance to Great Britain, and become independent, and they should thereby forfeit the friendship of those who had espoused the American cause in England.

The Raleigh, a frigate, pierced for 32 guns, was launched here on the 21st day of May. She was built at the North End on Rindge's wharf, under the inspection of Thomas Thompson, Esq., by Messrs. Hackett, Hill, and Paul, master builders, and her hull was completed in sixty days after her keel was laid.

On the 4th of July, Congress published the declaration of Independence; which was received in this town with lively expressions of joy, notwithstanding their former votes. It was publicly proclaimed here on the 18th July, 1776.

Since Doctor Langdon left the north parish, the desk had been supplied by various persons. In 1776 they invited the Rev. David McClure to settle with them as their pastor, but as there was considerable division in the parish, he declined accepting the invitation.

The Rev. Ezra Stiles, D. D. pastor of a church at Newport, had been obliged to leave his people, when the British troops took possession of that place. The north parish requested him to supply their desk, and carry on the work of the ministry with them, which he agreed to do for one year, unless he should be able to return to his people at Newport before the expiration of that term. He preached his first sermon here the 6th of April, 1777, and removed his family to this place in May following. The parish had procured a house for their accommodation, and received them with "kindness and hospitality."

On the 2d of June, 1777, towards the close of the day, heavy showers of rain arose, attended with thunder and lightning. Mrs. Catherine Clark, who lived at the north end of the town, went to a window, which she opened, to observe the motion of the clouds, and was struck with a flash of lightning, which instantly killed her.

July 17th, 1777, the General Court divided the whole militia of the state into two brigades; and gave the command of the first to William Whipple, and of the second to John Stark. In the month of August, Brigadier General Whipple marched with a great part of his brigade, and a large number of volunteers to the northern army, to oppose Burgoyne. He surrendered soon after their arrival in camp, and General Whipple was selected as one of the officers to guard the captive troops to Winter-hill near Boston, the place of their destination.

Major Edward Sherburne, Aid de Camp to General Sullivan, was killed in the attack made on the British army at Germantown, the 4th of October.

The Ranger, of 18 guns, was built on Langdon's Island, by order of Congress, under the direction of Colonel James Hackett.

AN ABRIDGED DICTIONARY.—*Friend Miller:* If there was ever a pre-eminently useless contrivance in this world, it is an abridged dictionary,—a dictionary that spells, pronounces and defines *walk, run, sleep* and *eat*, and omits *abattis, counterscarp, cohorn* and *shrapnell*. I have had such an one bound in with my gazeteer for twenty years, and I do not recollect once to have used it, though I use an unabridged dictionary nearly every day, and often several times in a day.

Would an abridgement be advisable that would omit the easy words? No. The New Illustrated Webster contains 114,000 words. There are not 20,000 in common universal use in all families in city and country, with seamen and landsmen, on both sides of the Atlantic and in Dixie. So your abridgement need contain at least 94,000 words: it might as well contain the rest.

But further: the same word has many distinct meanings. You may understand the word *bead*, an ornament put on the neck, but not know what a bead on a board, or on a bottle of rum, meant. So no mere count of words will show fully the impossibility of abridging the dictionary.

Still further: we may know the general meaning but not the exact meaning of a word. What is the difference between a *cam* and an *excentric*? between *coal* and *lignite*? and between an *explanation* and a *definition*?

A good dictionary is a treasure beyond price. It is the sum of all human knowledge condensed into the least possible space. And how vast is that sum! How rapidly it increases! Within a single generation the number of English words has doubled. And old ones, like *reaper, mower, monitor, train, switch* and *car*, have acquired new meanings. Many compound words that unnecessarily cumbered the olden dictionaries are dismissed, and yet the grand total is increased in five years by about 15,000 words, or almost ten words per day. But even this is not a rapid change in language, as measured by a human life time. In the Pictorial Webster that I have now dismissed, I do not recollect to have ever sought a word that I did not find. New words come with their explanation, or, like *telegram*, they explain themselves.

But the mass into which they are thrown is a life study. No man can learn it. And so it is that a trenchant artificial line divides the families of the nation into two classes—the intelligent, who make daily use of a quarto dictionary, and the large class who live equally contented without trying to understand more of what they read than they can guess at. The extensive sale of our large dictionaries shows that the former class is wonderfully large in this enlightened land. Yours ever, I. F. H.

WASHINGTON TERRITORY. — *Messrs. Editors*:—I was glad to see your notice of this great Territory. I had one half-hour's conversation with Mr. Mercer, the very intelligent and gentlemanly Agent of the Territory, who is now travelling in New England, and I was very favorably impressed with his representations of the climate and resources of the country. The territory embraces an area of 70,000 square miles, and is very rich in mineral and agricultural resources. The climate he represents as the finest in the world; there are neither extremes of heat or cold. The ground in winter never freezes more than one inch at night, and the frost generally disappears by noon of the succeeding day.

Mr. Mercer has resided in the Territory five years, has enjoyed perfect health, and expects to make it his permanent home. His present object is to secure a company of seven hundred young women, to return with him to the Territory. About five hundred of this number are already secured He proposes to leave N. Y. with this precious cargo about the 20th of August. A fine steam-ship has been furnished for this purpose; she will convey them to the Isthmus, where they will cross by rail to the Pacific coast.

Those who have the means, will pay twenty-five dollars for crossing the Isthmus. The passage on the Atlantic and Pacific side will be free. Of those who are disposed to go, and have not the 25 dollars, it will not be required. The Agent pledges to each one of these young ladies a good home with four dollars per week, besides board, payable in gold. And as the present population of the Territory is composed principally of young men without families, these young women, if disposed, might form alliances which would promote their own personal happiness and prove a great public blessing to the country. Testimonials of good moral character will be required in all cases, of those who propose to join this company.

Testimonials of good moral character will be required in all cases, of those who propose to join the company.

This agency will be continued, and other companies will follow the one now going forward; so that if any young women in this city or vicinity, who wish to emigrate to the Territory upon the above named conditions, at this or some future time, will call on the subscriber, he will be happy to furnish them such information or assistance as may be in his power.

N. MEDBERY, Minister at Large.
Portsmouth, N. H.

NEW HAMPSHIRE ITEMS.

——The Enquirer says the charter of the Dover Bank, chartered in 1823, having expired, the Bank is closing business at the Langdon Bank. By the report of the Bank Comuissioners just issued, it appears that the Bank in March last made a cash dividend of $25,000 of its capital to stockholders, and at the same time "charged off to profit and loss" $25,000 of worthless paper, thereby reducing its capital to $50,000. Of its remaining assets $16,200 are reckoned as "doubtful," including $15,000 of the Floyd acceptances.

——On Sunday the body of a poor little female child, apparently from two to four weeks old, was found in the woods near the railroad track leading to Rollinsford, in Dover, dead, and it was judged had been dead two or three days. From marks upon its person, it was evident that it came to its death by violence. It is said a child was heard to cry by some one in that vicinity Friday, but as people are frequently strolling through the woods with children, it attracted no attention. No clue yet obtained of its unnatural parents.

Proposals for Building.

SEALED PROPOSALS will be received at the City Clerk's Office until 6 P. M. Thursday, August 3d, for the erection of an ADDITION to the Cabot Street SCHOOL HOUSE, in accordance with specifications to be seen at the office.

The Aldermen reserve the right not to accept any of the proposals if not deemed advisable so to do. JOSEPH H. FOSTER,
LUTHER E. MARTIN,
Committee of Aldermen.

Special Notices.

A FEW REASONS WHY THE
AMERICAN WATCH
IS THE BEST.

It is made on the best principle, while the f sign watch is generally made on no principle all. The foreign watch is mostly made by wo en and boys, BY HAND. While their labor cheap, their work is dear at any price. St watches are made without plan, and sold with guarantee. They are irregular in constructi and quite as irregular in movement. They designed only to sell, and the buyer is the pa most thoroughly sold. Those who have k "anores," "lepines," and "Swiss levers," in p fessed repair for a few years, will appreciate truth of our statement.

THE PLAN OF THE AMERICAN WATC Instead of being made of several hundred lit pieces, screwed together, the body of the Ame can Watch is formed of SOLID PLATES. I jar interferes with the harmony of its workin and no sudden shock can throw its machine out of year. In riding or any business purso it is all held together as firmly as a single pie of metal. It is just what all machinery shou be—

1st. ACCURATE. 2d. SIMPLE. 3d. STRON 4th ECONOMICAL.

We not only secure CHEAPNESS by our sy tem, but QUALITY. We do not pretend th our Watch can be bought for less money than t foreign *make-believes*, but that for its real value is sold for one half the price.

OUR SOLDIER'S WATCH (named Wm. S lery) is what its name indicates—Solid, Substa tial, and always Reliable—warranted to sta any amount of Marching, Riding or Fighting.

OUR NEXT HIGHER QUALITY OF WATC (named D. S. Bartlett) is similar in size and ge eral appearance, but has more jewels, and more elaborate finish.

OUR LADIES' WATCH, recently brought ou is put up in a great variety of patterns, many of them of rare beauty and workmanship, is qui small, but warranted to *keep time.*

THE PROOF of the merits of our Watch ma be found in the fact that we now employ ov seven hundred workmen in our factories, an that we are still unable to supply the constantl increasing demand.

OUR THREE-QUARTER PLATE WATCH thinner and lighter than the others we have de scribed. Its fine chronometer balance is del cately adjusted to correct the variation cause by changes of temperature. These watches ar the fruits of the latest experiments in chronome try, and are made by our best workmen, in a se arate department of our factory. For the fine time-keeping qualities they challenge compari son with the best works of the most famous Eng lish and Swiss makers.

Agents for the American Watch Company,
Jy28—1m 182 Broadway, N. Y.

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLAS TERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life! A case which might have been of this kind ha just been brought to our notice. A gentleman from putting the heel of his boot on a piece o orange peel, was suddenly thrown down, and vi olently sprained his knee. He was six month confined to the house, though he had the bes medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, envel oped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Bracketts House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Proclamation No. 64.

All peaceable and well disposed citizens who will purchase one bottle of PEASE'S VEGETABLE HAIR RENEWER, will find the result as follows: It will turn your Gray Hairs to their natural color; it will prevent your hair from falling off or becoming gray; it will keep your head clean and healthy; it will dress your hair beautifully; it does not smell of sulphur. Ask your druggist for Pease's Hair Renewer, and take no other. Also, PEASE'S PHILOCEME is unsurpassed as a Hair Dressing. No Lady will be without it who knows its value. *See Circulars.*

J. H. THACHER, Agent for Portsmouth and vicinity. my19—3mo*

Hair Dye! Hair Dye!
BATCHELOR'S Celebrated Hair Dye
Is the Best in the World!
The only Harmless, True and Reliable Dye Known.

This splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a Glossy *Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. Factory is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY STREET, N. Y. **Batchelor's New Toilet Cream** for Dressing the Hair. Jy9—1yduw

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spuds4lymy28

Pulmonary and Nervous Diseases.

They *increase the nerve or vital energy*, relieve Cough, check Night Sweats, diminish Expectoration, improve the Appetite, arrest Diarrhœa, promote refreshing sleep, and create NEW AND HEALTHY BLOOD. Let no sufferer fail to try this remedy. CIRCULARS FREE.

PRICES:—In 7 oz. and 16 oz. bottles, $1.00 and $2.00 each. 6 small or 3 large bottles for $5.00, by express. Sold by all respectable Druggists, and at the sole general depot, wholesale and retail, by J. WINCHESTER, 36 John St.,
12ponceoow6m* New York.

☞ Save your Rags and old Papers! Every family can supply themselves with a good newspaper from the proceeds of such savings. Mr. URIAH BLAISDELL advertises to buy them.

Special Notices.

IT IS COUNTERFEITED.

Be sure and see that the name of J. & R. DUNSTER, London, is on the bottle, and you will then obtain the best London Dock Gin to be had. 7

A FEW REASONS WHY THE

AMERICAN WATCH

IS THE BEST.

It is made on the best principle, while the foreign watch is generally made on no principle at all. The foreign watch is mostly made by women and boys, AT HARD. While their labor is cheap, their work is dear at any price. Such watches are made without plan, and sold without guarantee. They are irregular in construction, and quite as irregular in movement. They are designed only to sell, and the buyer is the party most thoroughly sold. Those who have kept "anores," "lepines," and "Swiss levers," in professed repair for a few years, will appreciate the truth of our statement.

THE PLAN OF THE AMERICAN WATCH Instead of being made of several hundred little pieces, screwed together, the body of the American Watch is formed of SOLID PLATES. No Jar interferes with the harmony of its working, and no sudden shock can throw its machinery out of gear. In riding or any business pursuit, it is all held together as firmly as a single piece of metal. It is just what all machinery should be—

1st. ACCURATE. 2d. SIMPLE. 3d. STRONG. 4th ECONOMICAL.

We not only secure CHEAPNESS by our system, but QUALITY. We do not pretend that our Watch can be bought for less money than the foreign *make-believes*, but that for its real value it is sold for one half the price.

OUR SOLDIER'S WATCH (named Wm. Ellery) is what its name indicates—Solid, Substantial, and always Reliable—warranted to stand any amount of Marching, Riding or Fighting.

OUR NEXT HIGHER QUALITY OF WATCH (named D. S. Bartlett) is similar in size and general appearance, but has more jewels, and a more elaborate finish.

OUR LADIES' WATCH, recently brought out, is put up in a great variety of patterns, many of them of rare beauty and workmanship, is quite small, but warranted to *keep time*.

THE PROOF of the merits of our Watch may be found in the fact that we now employ over seven hundred workmen in our factories, and that we are still unable to supply the constantly increasing demand.

OUR THREE-QUARTER PLATE WATCH is thinner and lighter than the others we have described. Its fine chronometer balance is delicately adjusted to correct the variation caused by changes of temperature. These watches are the fruits of the latest experiments in chronometry, and are made by our best workmen, in a separate department of our factory. For the finest time-keeping qualities they challenge comparison with the best works of the most famous English and Swiss makers.

CLOCK'S
Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; cause hair to grow on bald heads, when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

Stone China Dining Ware.

The Latest Styles now opening. For sale by
je20 JOHN SISE, 5 Market Sq

Local.

☞ Subscribers will confer a favor, and facilitate the prompt delivery of their papers, by *immediately* informing us of any deficiency or irregularity of our Carriers. All papers should be delivered before 7 o'clock—and all subscribers should furnish a secure place of deposit for their papers. We will give $10 reward for evidence to convict any person of stealing a copy of the Chronicle. Our Carriers are not allowed to sell copies of the paper.

☞ Vice Admiral Farragut is coming up from Rye Beach to-day, in the U. S. steamer Portfire, to be the guest of the City of Portsmouth, and will receive his friends at the Rockingham House about 3 o'clock.—Of course our citizens generally will gladly embrace this opportunity to pay their respects to one of the most gallant Naval Officers of the war,—one of the savers of our country. Ladies and gentlemen will find a person in attendance at the Rockingham who will be happy to present them to the gallant Admiral.

☞ Poisoning would be to good for the cowardly sneaks who are now dealing out this painful sort of death to our canine population, and we hope they will be ferreted out and severely dealt with. "Love me, love my dog," contains a deal of truth, and the more ill-favored and ungainly the cur, the love of its owner is generally the stronger. If the slaughter were confined to dogs running in the street, we might not be so severe upon its authors, though their method is the most cruel that could be devised; but dogs that are kept in the yards of their owners also fall victims to this mania, and we have no doubt that if the practice be continued we shall hear of some child being poisoned in the same manner. When a man pays a tax upon his dog and keeps him upon his premises, it really seems as if he were property and entitled to protection.

FORESTALLING.—Mr. Editor—It is high time our citizens were awake to the importance of having a market where the consumer comes directly in contact with the producer as in time past. We are now obliged to pay immense profits to the forestaller, who grows rich at the expense of the public. Butter, Berries, Eggs and provisions of all kinds are caught up upon their arrival in town, and we are obliged to pay the extortioners their prices or go without them. We need a large market free to all who have produce for sale, and a hall over it. We have no place to accommodate a large audience, and now is the time to agitate the subject, as the war is over. CITIZEN.

☞ The steamer Pioneer is unanimously voted, by all unprejudiced persons, one of our greatest summer institutions. Our up-country friends who like salt-water sailing, can't do better than to try her; as in fact they seem all bound to *do*, either in parties or scattering.

☞ The new Ocean House at Rye Beach has "oceans" of company. They are to have a telegraph from Greenland to the great hotel, right off. The Atlantic House is also full, and all the boarding houses. At the Atlantic, Admiral Farragut is the "lion," of course,—as he would be almost anywhere.

☞ Mr. Emery advertises the fixtures for the beautiful and healthful game of Croquet, which is becoming so popular among the ladies.

☞ We learn that a man named Frith was robbed of $300 at the Picnic held at Sagamore Grove on Wednesday under the patronage of the Irish. Three young bucks knocked him down, took the money from his person, and then jumped into a carriage which they had near by, and drove off. It is said that several cases of a similar character have occurred within the past two weeks. There are evidently some big scamps in our midst, and it behooves respectable people to be careful what places they visit, and under what circumstances they visit them.

POLICE COURT, July 27.—Wm. H. DeRochemont and George E. Coleman of Newington were arrested and brought before the Court for an assault upon the person of Elias Frink of Newington. They waived examination and gave bonds in the sum of $1000 for their appearance at the October term of Court. This was one result of a quarrel about Mr. Frink's closing up a passage which defendants claim a right to.

☞ Quite an improvement to that part of State street,—and to outward appearances one of the most successful fittings-up of an old house we ever saw—is the renovation of Mr. Thos. Tredick's residence in the wooden block nearly opposite "the Rockingham." Mr. B. F. Webster, on the corner above, has also done much to improve the looks as well as increase values in that vicinity. But what an absurdity it is, isn't it? to build blocks to live in, in a little town like ours, where unoccupied land is so plenty; and especially when an acre and plenty of air, a little out of town, costs less than a pent-up "house-lot" in "the city," with a chance only to shove your house in among a lot of barns, &c., somewhere.

☞ The past and present pupils of Miss Clara Isabella Ham's private school in this city, with other friends, to the number of a hundred or two, held a Pic Nic at the new and beautiful residence of Mr. A. J. Penhallow, on the Eliot shore of the river, on Wednesday; and all report a grand social time,—to which we (although not numbered among her pupils except on this occasion) regret *other* duties prevented our accepting, or rather fulfilling the invitation.

☞ Our thanks to Mr. John S. Harvey, for a liberal basket of fine black and white Cherries, several days since. Mr. Harvey has probably given the Chronicle as much business as any other man, and has also bestowed numerous courtesies on the proprietor. May his shadow never be less, but rather increase.

☞ A bifalutin orator, on a certain occasion, getting excited, shouted, "Let the American Eagle soar!" To which a country bumpkin in the crowd replied, "What made him sore?" Now the splendid gilt spread Eagle which Dr. Preston has recently mounted over his door, forms a spirited and elegant sign, but don't look as if he was sore at all. But the "Dr." has some new advertisements worthy the attention of our readers, this morning.

☞ The Methodist Meeting House on Portsmouth Avenue, Exeter, a brick structure which the Ballot says cost the builders some $3000 thirty years ago, was sold at auction by Maj. Blake on Saturday last for $410. Mr. Nelson Currier was the purchaser.

Thousands who have tested DR. BICKNELL'S SYRUP, for Dysentery, Diarrhea, Cholera Morbus, Pain or Cramp in the Stomach or Bowels, unite in their testimony that there is nothing equal to it. Safe and sure for old or young. Try it, and your report will be likewise.

For sale in Portsmouth by THACHER.

BEHIND THOSE ROSEATE GATES, the lips of girlhood, ther should be a fragrant palace, elegantly furnished with ivory and coral. To drop metaphor—young ladies, you should keep your teeth and gums in perfect order, if you hope in after-life to enjoy the blessings of a sound set of dentals and a sweet breath.—What will enable you to do this? you ask. Fragrant Sozodont, we reply. 2

It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Papers giving full information will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*

From Report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.
Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; 2000 for sale. Price $40 per share; $10 per Share on first August 1.

Stock full paid, and no individual liability. Company organized under the General Law of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.

We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in GOLD. Any Clergyman, Insurance Agent, or Cashier of Bank is authorized to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York, R. W. G. FREEMAN, Esq., Cashier of the Atlantic Bank, 143 Broadway, or HIRAM CAMP, Esq., 25 Nassau Street.

Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion in the net profit of $2,000 per day, or $1,500,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SPROUL, President.
S. R. HUTCHINSON, Secretary.
Office: 80 BROADWAY, over Am. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can obtain safe investments, with small, or large capital, by which they can surely make their 25 to 50 dollars every day. State or county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED.—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business.—Will pay $5 to $20 per day. This is no patent right or medical humbug, but an article of merit, needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHITNEY & SON, No. 6 Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,

Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use, from a teaspoonful to a tablespoonful, it will act in connection with their food, and *immediately change the character of their secretions*,—thus arresting the cause of their sickness and debility. Through its action in the Blood, it will expel all *Humors* and *Impurities*, that are working a slow but certain effect, invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.

Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.

The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, Boston, and sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME,

For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.

BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.

FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.

In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 166 Court Street, Boston.

SAVE YOUR MONEY!

Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.

Wilbor's Monitor Hair Dye

Is superseding all other. It requires no preparation, does not stain or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.* Manufactured only by ALEX. B. WILBOR, Chemist, No. 166 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, *and Jan.* 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

And all the work of a Family *of any size,*

AT LESS THAN

One-Third the Cost of Wood or Coal!

THIS NEW

PETROLEUM Cooking APPARATUS

IS WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in 15 minutes
Common potatoes baked " 30 "
Flour Biscuit baked " 15 "
And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

AN ACT providing for the appointment of a Board of Commissioners for the purpose of ascertaining and allowing the war expenditures of the several towns and cities in the State, with a view to an assumption of the same by the State and General Government.

Be it enacted, &c.

SECTION 1. The Governor, with the advice of the Council, shall appoint three persons, who when so appointed, shall constitute a board of commissioners, whose duty it shall be to investigate the accounts of the expenditures of the several towns and cities in the State, made for the purpose of suppressing the late rebellion, including their accounts of the necessary expenses incurred in making said expenditures, whether in addition or otherwise, with a view to the assumption and payment of the same by the State and General Government of the United States, and report how much of such expenditure by each of said towns and cities should be allowed, and on whose account, in case such payment be made.

Sec. 2. Said commissioners shall keep a record of all their proceedings, with a copy in full of the account of each town and city; which, together with all of the material evidence relating to them in support of such account, or any part thereof, shall be submitted with their report, which report shall be made to the Governor and Council on or before the first Wednesday of June, A. D. 1866.

SEC. 3. In order that said commissioners shall be enabled to promptly and efficiently discharge their said duty, they shall have power to make and establish all such reasonable orders, rules and regulations in relation thereto as they shall deem proper; and any town or city which shall refuse or neglect to appear before said commissioners for the purpose aforesaid, shall be forfeit all claims for which they may or might hereafter have upon the State for reimbursement of such expenditures.

SEC. 4. The Council shall make such compensation to said commissioners as to them shall seem reasonable; and the Governor is hereby authorized to draw his warrant on the treasury for the payment of the same.

SEC. 5. This act shall be in force from and after its passage. Approved July 1, 1865.

AN ACT to enable the Governor to cancel certain State Bonds.

Be it enacted, &c.

SECTION 1. That the Governor, in presence of the Council and of the Treasurer, be, and he is hereby, authorized and empowered to cancel all bonds of this State which are in excess of the amount authorized by law to be issued, excepting bonds to the amount of ten thousand dollars, which shall be retained by the Treasurer to make good that amount of bonds which have been accidentally mutilated. Approved July 1, 1865.

AN ACT to further extend an act entitled An act relating to the suspension of specie payments by banks.

Be it enacted, &c.

SECTION 1. That an act relating to the suspension of specie payments by banks, approved July 2, A. D. 1862, be and the same is hereby continued in force, and further extended for the term of one year from the first day of August, A. D. 1865.

SEC. 2. All acts and parts of acts inconsistent with this act are hereby repealed.

SEC. 3. This act shall take effect and be in force from and after its passage. Approved June, 1865.

AN ACT in amendment of an act entitled an Act in relation to the taxing of deposits in savings banks, approved August 19, 1864.

Be it enacted, &c.

SECTION 1. It shall be the duty of the treasurers of all savings banks in this State, in making out the return to the Secretary of State required by the act to which this is an amendment, in their statements, to return to the Secretary of State the amount of deposits and accumulations due from such banks to the whole number of depositors to such town and city in this State, and the amount due to depositors not resident in the State.

SEC. 2. So much of the act to which this is an amendment, and all acts or parts of acts inconsistent with this, are hereby repealed. Approved June 30, 1865.

AN ACT to authorize towns to devote the proceeds of funds to their original purposes.

Be it enacted &c.

SECTION 1. Whenever any city or town shall be in possession of funds, the proceeds whether directly or indirectly, of property or funds originally set apart for the purposes of education, or the support of the ministry, it shall be lawful for such city or town, at any legal meeting duly notified and holden for that purpose, to set apart and devote such funds to the purposes of their original destination, and to provide for their investment and management by trustees appointed for that purpose, and for the application of the income of such funds to aid the cause of education, or in support of the ministry, in such just and equal manner as said city or town may determine.

SEC. 2. This act shall take effect on its passage.

Approved June 29, 1865.

AN ACT in amendment of an act entitled an act in amendment of An act relating to the competency of witnesses, passed June 25, 1858.

Be it enacted, &c.

SECTION 1. Neither party in a cause shall be allowed to testify, nor shall the deposition of such party be used, as of right, where the adverse party is an executor or administrator, unless such executor or administrator shall elect to testify himself as a witness; and in such case both parties may testify; *provided*, however, that the court or tribunal trying the cause may, in its discretion, allow either party to testify, or the deposition of such party to be used. Such discretion only to be exercised when it is clearly made to appear from the evidence that actual injustice or fraud will otherwise be done; and such discretion shall be subject to the review of the full bench.

SEC. 2. All acts and parts of acts inconsistent with the provisions of this act, are hereby repealed.

SEC. 3. This act shall take effect on its passage.

Approved June 30, 1865.

AN ACT in addition to chapter 206 of the Revised Statutes, relating to tenants.

Be it enacted, &c.

SECTION 1. That the provisions of chapter 206 of the Revised Statutes shall be held to be in no way applicable of real estate which has been sold, and the purchaser shall have all the rights under said statute which its grantor had.

SEC. 2. That so much of the provisions of landlords under this statute shall extend to all cases in which the tenancy was a tenancy at will under the common law.

SEC. 3. This act shall take effect from and after its passage. Approved June 29, 1865.

AN ACT in amendment of an act entitled An act defining the right of owners and occupants of lands adjoining railroads, approved June 27, 1862.

Be it enacted, &c.

SECTION 1. If any railroad in this State has taken or shall take into its enclosure any land belonging to any individual or any other corporation, and within the limits of such railroad, as laid out and established, or if any such railroad has erected or shall erect any building upon, or has constructed or shall construct, for the purpose of operating said railroad, or otherwise, any land belonging to any individual or to any other corporation without the limits of such railroad as laid out and established, as aforesaid, no continuance of such inclosure or building, or length of such occupancy, shall create in or give to such railroad any right or interest in the land adjoining said railroad, inclosed or occupied as aforesaid.

SEC. 2. This act shall take effect on its passage.

Approved June 29, 1865.

AN ACT in amendment of chapter 220 of the Revised Statutes, relating to lottery tickets.

Be it enacted, &c.

SECTION 1. If any person shall knowingly deposit or cause to be deposited in any post-office of the United States, within this State, any ticket for multiple or any whole or fractional ticket in any lottery or pretended lottery, or any scheme of any such lottery, he shall be fined not exceeding one hundred dollars nor less than twenty-five dollars.

SEC. 2. This act shall take effect upon its passage.

Approved June 29, 1865.

AN ACT in amendment of chapter 2719 of the Pamphlet Laws, relating to the support of persons committed to the House of Reformation.

Be it enacted, &c.

SECTION 1. The city or town from which any boy or female shall be committed to the House of Reformation by any justice of the peace or police court, shall pay the board of such boy or female at said institution in the town where said boy or female shall have a settlement, and shall cause the same to be paid to said House of Reformation by any justice of the peace or police court, shall neglect or refuse to pay the board of any such boy or female as determined by the trustees, as provided for in the first section of the act to which this is in amendment, upon demand, said trustees may sue for and recover the same in an action of assumpsit in any court of competent jurisdiction.

SEC. 2. This act shall take effect upon its passage, and so much of the act to which the same is in amendment as is inconsistent with this act is hereby repealed.

Approved June 29, 1865.

AN ACT in amendment of an act in addition to chapter one hundred and seventy-one of the Revised Statutes, passed June session, A. D. 1845.

Be it enacted, &c.

SECTION 1. When any bill in equity shall be filed under the provisions of the act to which this is an amendment, the plaintiff shall cause a copy of such bill to be filed in the office of the clerk of the town in which the defendant resides, and the clerk of such town shall enter the same upon the index of attachments required to be kept by him, and the filing such copy and service of such bill on the defendants shall constitute a lien on the property and estate mentioned in said act.

SEC. 2. The supreme judicial court, or any justice thereof, in vacation, may modify or discharge such lien upon the defendant's giving such security as said court or justice may order, or upon such other terms and conditions as justice may require.

SEC. 3. This act shall take effect on its passage.

Approved June 29, 1865.

Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to

JOHN S. HARVEY,
Je20 47 Congress st., Portsmouth.

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative companies of the day. Its officers are men of the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the country, and produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operating over six months, has more than 4000 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the facts, will see at once that the croakings of such monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

JOHN S. HARVEY, 47 Congress St.,
jy18tf Agent for Portsmouth.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Years Established. Patients treated privately!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver street, Albany, N. Y. Twelve years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for the diseases he offer indictments to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

IN Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Nodes, Pains in the Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of life, should avoid the parties and consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, is almost every part of the United States, and applied to Dr. T. broken-down in health, now rejoice in all that makes life desirable and man happy. The evil consequences of the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. DR. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price, 25 cts. Sent to all parts under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichon's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsurpassed, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the proper use of the contents. One box of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.

THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

ΙΟΔΗΣ.

IODINE WATER. A Pure Solution of Iodine, without a Solvent. Sought for by Chemists and Physicians for the last 50 years. Discovered by Dr. B. Andres after 15 years of scientific research and experiment.

The most astonishing cures have followed its use in cases of SCROFULA, both hereditary and acquired. All kinds of Humors, Consumption Mercurial Fevers, Rheumatism, Female Weaknesses, Dyspepsia, Mercurial Diseases, and all those distressing complaints arising from a Bad State of the Blood, Chronic Diseases, that have baffled the best medical skill, often yield to the subtle influence of this remarkable medicine. It is the most powerful vitalizing Agent and Restorative known. *Its effects often seem miraculous.*—Pamphlets sent free. Price $1 per bottle, or 6 for $5. Sold by Druggists.

Address Dr. B. ANDERS & CO., Physicians and Chemists, 482 Broadway, New York.

HANCOCK HOUSE,
Court Square, Boston. Kept on the European Plan. Board by the day or week.
ROOMS FROM $1 to $2 PER DAY.
Hull & Fisher, Proprietors.

SPANISH ROUGE,
FOR POLISHING,

XL

Or Cleaning Gold, Silver, Silver Plated, Brittania, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. Ladies will find this article one that will prove invested in a package of this, will add more to the looks of a tastefully furnished dwelling than a dozen new ware. Every article of any kind of metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which causes a smile upon the faces of all. The labor of keeping every article of metal polished with the Spanish Rouge is reduced to a mere pastime and pleasure. It removes the tarnish at the brush of the hand. *It is a mineral without any composition whatever, therefore can do no harm.*

Put up in three different qualities, for the finest Gold to the coarsest Metals.

Try the Spanish Rouge, and it will become a household word and a great assistant. Every person who has a tinsmith, coppersmith, or any manufacturer, needs it. For sale by Druggists and Grocery Dealers everywhere.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. He has a long course of study and practical experience of a peculiar character; Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, rendering the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail, inclosing a $1 bill or stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to his office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET, Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1865. eod&wly

The Chronicle.

RE-VISITED.

By JOHN G. WHITTIER.

Read at the "Laureate," on the Merrimac, June, 1865

The roll of drums and the bugle's wailing
Vex the air of our vales no more;
The spear is beaten to hooks of pruning,
The share is the sword the soldiers wore!

Sing soft, sing low, our lowland river,
Under the banks of laurel bloom,
Softly and sweet, as the hour beseemeth,
Sing us the songs of peace and home.

Let all the tenderer voices of nature
Temper the triumph and chasten mirth,
Full of the light and love and piety
For fallen martyr and darkened hearth.

But to him who gives us beauty for ashes,
And the oil of joy for mourning long,
Let thy hills give thanks, and all thy waters
Break into jubilant waves of song!

Bring us the airs of hills and forests,
The sweet aroms of birch and pine,
Give us a waft of north wind, laden
With sweet-brier odors and breath of kine!

Bring us the purple of mountain sunsets,
Shadows of clouds that rake the hills,
The green repose of thy Plymouth meadows,
The gleam and ripple of Campton rills.

Lead us away in shadow and sunshine,
Slaves of fancy, through all thy miles,
The winding ways of Pemigewasset,
And Winnipesaukee's hundred isles.

Shatter in sunshine over thy ledges,
Laugh in thy plunges from fall to fall;
Play with thy fringes of elms, and darken
Under the shade of the mountain wall.

The cradle song of thy hill-side fountains
Here in thy glory and strength repeat;
Give us a taste of the upland music,
Show us the dance of thy silver feet.

Into thy dutiful life of uses
Pour the music and weave the flowers;
Let the song of birds and the bloom of meadows
Lighten and gladden thy heart and hours.

Sing on! bring down, thy lowland river,
They of the hills to the waiting sea;
The wealth of the vales, the pomp of mountains,
The breath of the woodlands bear with thee.

Here in the calm of thy seaward valley,
Mirth and labor shall hold thy truce;
Dance of water and mill of grinding,
Both are beauty and both are use.

Type of the North-land's strength and glory,
Pride and hope of our home and race,—
Freedom lending to strength its graces,
Tints of beauty and lines of grace.

Once again, O beautiful river,
Hear our greetings and take our thanks;
Hither we come, as Eastern pilgrims
Throng to the Jordan's sacred banks.

For though by the Master's feet untrodden,
Though never the leper has stilled thy waves,
Well for us may thy shores be holy,
With Christian altars and saintly graves.

And well may we own thy hint and token
Of heavenly love and strength to us,
Where the rivers of God are full of water,
And full of sap are his healing trees!

American and Foreign Patents.

E. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, under the Act of 1837.

76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the Claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given to show some of the SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the facilities for professional assistance so ample.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a great collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT

—TO—

UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, Menstrual Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address Dr. BRISCOE, No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secresy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1864. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of *friendly* advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with good nurses. Charges moderate.

Carriages.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JULY 31, 1865.

IMPORTANT ORDER.—At Washington July 27, Maj. Gen. Auger, in a general order says the civil courts in that portion of Virginia within the limits of the Department of Washington having declined to receive the testimony of colored persons, a Provost Court is established in Alexandria to have exclusive jurisdiction in all cases involving the rights of person or property of colored persons, residents of the district aforesaid. This Court will receive the testimony of colored people, exactly as other testimony.

The Provost Marshal General of the defences South of the Potomac is charged with the execution of this order, and it will remain in force until the Virginia courts have brought their practice more into harmony with the existing state of affairs.—Capt. M. P. Fisher, of the 2d District of Columbia Volunteers, is appointed Provost Judge of said Court.

A similar order has been issued in one case in Mississippi; and from these items we infer that Pres. Johnson means to administer impartial justice.

THE NATIONAL BANKS.—The Boston Journal says business men and travellers begin to appreciate the great advantages of a uniform national currency. In Boston or in St. Louis, at Ogdensburg or at New Orleans, the promise of the Government, or that of the banks it guaranties, is held good. But this benefit, which we can see even where business has long run in established courses, is doubly valuable in those new States and Territories formerly at the mercy of every bogus banker, wild cat speculator, or broken down swindler whose mission had come to an untimely end in communities where he was better known.

The question is now attracting attention on the Pacific shore, and the great gold region will one day repudiate the foolish decision against the reception of United States notes as legal tender. We are told that the people of California pay to-day from fifty to an hundred per cent. more in gold for every article they use, than do the people of other States in paper. The existing condition of California ought to be an argument, if some theories are true, in favor of an exclusive metallic currency, but we do not learn that such is the fact. Complaints are frequent of the ease with which monopolists control all large operations in coin, and the absence of a convenient circulating medium is the alleged cause of depression and stagnation in nearly all the legitimate departments of business. The banks of California are peculiarly liable to all the evils attendant on the Western system. They are not held under rigid accountability, submit to no annual inspection of their affairs, and are liable to fail like other irresponsible concerns, to the ruin of their depositors and stockholders. What, therefore, neither a gold currency nor private banks can supply, it is quite probable the good sense of California will soon adopt in the National Banking system.

TEXAS.—Our troops reached their destination along the Rio Grande on the 12th. The line of posts extends from the mouth of the river above Brownsville. The cavalry columns, under Merritt and Custar, are to reach Texas early in August.

The rebel merchants of Brownsville have left, after making fortunes in cotton speculations.

Twelve hundred French troops had landed at Tampico, and it was expected that 12,000 were coming.

KIRBY SMITH CAPTURED IN MEXICO. A Brownsville letter of the 13th inst., to the New Orleans Times, states that Gen. Kirby Smith and his entire party were captured July 4, at Piedras Negras, by the Governor of Saltillo, together with four pieces of artillery, 900 new rifles, and 75 wagons laden with ammunition and provisions. The officers and men were paroled.

FROM NORTH CAROLINA.—The Standard says rebel papers are springing up in all parts of the State, which openly denounce the Government and promulgate treason. These cannot be suppressed by act of Congress,—but they are worse than yellow fever, and the military hand may reach them.

Most of the Federal appointments in the State are unable to qualify, not being in a position to take the oath prescribed by Congress; among the number is District Judge Dick.

GOLD, Saturday, 145 1-2 to 145. Only $3000 in gold went from N. Y. to Europe; but the steamers took out U. S. 5-20s to the amount of $2,500,000 or $3,000,000.

— In the Boston Police Court, Saturday, Edward W. Denny, hack-driver, was sent to prison to be tried for killing a little boy of 3 1-2 years, by striking his whip round his neck.

— The Oregon Statesman says thousands of acres of wild strawberries are now wasting in Willamette Valley.

A TUMBLE DOWN HOUSE.—On Wednesday morning at 9 o'clock, in New York city, a terrible catastrophe occurred in Furman street, involving the loss of three lives, and the destruction of a building just erected and nearly ready for occupancy.

The building was fifty feet front by fifty feet deep, and divided into two compartments. It was of brick, and three stories in hight. The roof of this, as well as other buildings under the Hights, is nearly on a level with Columbia street, and are used as gardens, many of them being planted with shrubbery, and ornamented with grape arbors, etc. The soil on the top of these roofs is from six to eight feet in depth, and they consequently are burdened with a great weight.

On the 4th of April last the building occupying the site of the present ruins was found to be on fire. The interior was burned out. A number of firemen were on the roof, when, all at once, it gave way, and five men fell down into the fiery mass beneath, and some were roasted and others crushed to death. The bodies of the unfortunate victims were exhumed in about 18 hours after the sad occurrence, on the removal of heaps of debris to the depth of 15 to 20 feet.

The buildings since then have been replaced, and erected in an apparently substantial manner. The dividing wall was sixteen inches in thickness. The arches supporting the roof were eighteen inch span and twelve inches thick, with a center arch, the ends of which rested upon the center of the two main arches. To all appearances it looked strong enough, but the fact of piling earth upon it caused such a pressure that the weakest portion gave way, and then the whole came down with a tremendous crash.

THE LONDON INDEX.—The statement that this organ of the Confederates in London was suspended some weeks since was an error, for the number of July 15 has come to hand, and it contains no allusion to a contemplated suspension. No journal has been so slow in coming to a full appreciation of what was decided when the rebel armies capitulated; but it has come to that point at last. In the leader of July 15 it says:

"The South accepts the issue of the war as decisive, and with all classes of its population 'State Rights' and Negro Slavery are felt to be questions of an irrevocable past, the right or wrong of which can never again give rise to political discussions, or the arguments of force. We speake advisedly, and after taking much pains to arrive at this important truth, that there is not one Confederate of position or influence, either at home or abroad, and whatever his conscientious convictions may be, who harbors a thought of ever attempting to reverse the decision which the fiat of arms and God's all wise Providence have given in these respects.'

☞ In Portland, on Thursday morning, George Robbins, Wm. Smith, John Kelley and Ed. Briggs, regular roughs, not belonging in P., were arrested for robbing two men of 20th regiment named Walker and Wiswell, after drugging them with chloroform. The scamps enticed the soldiers out of town, and after putting them in an insensible state, robbed them of $110 in money and a silver watch. About $125 was found upon the robbers after their arrest. The bottle of chloroform used by them was found, and the case (says the Press,) is so strong against them that it will go to the grand jury, now in session, without an examination in the lower court.

TEMPERANCE CONVENTION.—A Convention of friends of the temperance cause, to which all temperance organizations and all Christian churches have been invited to send delegates, is to be held at Saratoga Springs on Tuesday, the 1st day of August.

GEN. GRANT'S MODE OF LIVING.—Borleigh, in writing of Gen. Grant says: "A freind dining with him not long ago, and observing that he was a very spare eater said to him: "General, you are not so much of a trencher man as I supposed you was." To which the General replied: "I am a huge sleeper. To keep me in good working order I need nine good hours sleep out of the twenty-four. I can dispose of more, but nine I must have. When I was out West I could command but about seven, and I nearly broke down. Give me my quantum of sleep and I can meet any amount of exposure and labor."

SPAIN AND THE SLAVE TRADE.—In the Madrid Senate, on the 7th instant, Marshall O'Donnell, in reply to a question put by the Marquis of Manzanedo on the subject of the slave trade in Cuba, said;

"The government have determined that the slave trade shall cease, since this is a matter affecting the honor of the Spanish nation and the tranquility of the colony: and if the present law be insufficient, another bill will, in due time, be submitted to the legislative body to attain the end in view. This I believe to be a duty of the Spanish nation as well as a guaranty for the tranquility of the colony, and we thus remove a cause of possible difficulties which might result in a case of international misunderstanding."

— Father O'Reiley, Catholic priest at Newport, has denounced the Fenian Brothhood in the severest terms, and threatened any of his flock with excomunication and deprivation of the right of Christian burial who join it.

NEW HAMPSHIRE ITEMS.

—— It appears from the Concord papers that the returning soldiers, not yet paid off, have been *accommodated* with new clothes by certain dealers, who take orders on a paymaster, and depost them with a clerk—at prices which leave a large margin of profit for somebody,—and that this practice has been stopped, because of abuses.

—— At Concord, Thursday, a Frenchman named Joseph Durab, was drowned about noon, in Long Pond, while getting logs from the pond into the mill. He could not swim. The body was recovered. He recently returned with the First N. H. Cavalry.

—— Capt. John L. Kelly, U. S. Quartermaster and Master of Transportation at Hilton Head, has arrived at his home in Manchester, and states that that the Third and Seventh Regiments are on their way home, and will arrive in a few days. Gen. J. C. Abbott comes with them. The 4th will not be discharged at present.

—— Moses B. Aldridge, belonging in Northfield, has been arrested in New York for an attempt to murder Mrs. Douglas, formerly his wife, but divorced from him after his being sentenced to the Rhode Island State Prison for burglary, and married to a Mr. Douglas.

—— John F. Harding and Harris W. Kennison, of this State, were arrested near Saco, Me., last week, for passing counterfeit fractional currency, and put under bonds. On their persons were concealed about $75 in counterfeit fifty cent scrip, also bills of other denominations. [This does not look well for New Hampshire:—but men who really belong in the State commonly belong in some *town*. These men probably belong *all around*.]

—— A woman "confined" for some alleged offence in the jail in Manchester, gave birth to a child there.

—— The Third N. H. regiment, Col. John Bedell, about 350 strong, arrived in Concord Friday.

—— One James Johnson has gone to jail in Concord, for lack of $4500 bail. He is charged with entering the room of Robert Heller, in Concord, and stealing a watch and $115 in money; entering the office of Dr. Lockerby, and stealing] silver instruments, pistols, &c.:—and with trying to burn the building. In Boston he offered the stolen watch, &c., for a sum much below their real value. On his person was found the watch, identified by Heller as his, and one of the pistols identified by Dr. Lockerby as his own, and $119 in money, which could not be so easily identified. Dumas & Thompson identified the prisoner as a guest at their house last week. Johnson is a small, light built Irishman, apparently twenty-five years of age, and claims to have been in the naval service. He will probably be in the State's service shortly.

☞ The Third Parish in Portland (formerly Dr. Payson's) have made a second attempt to have Rev. J. E. Walton installed by a Council, as their pastor, the first attempt being a year ago. After having him a whole year, acting as pastor, they called a council, which sat on Thursday, and after a long hearing and discussion, a motion to Instal was negatived, 11 to 13. Of pastors, 5 voted for him and 4 against: of delegates, 6 voted for, and 9 against. The Council bear testimony to Mr. Walton's christian spirit and demeanor,—and say:

We understand Mr. Walton as holding generally the doctrines received by the Congregational Churches. We also understand him as saying that he does not know but there may be another state of probation and offer of salvation after death for all to whom Christ is not personally preached; and that whilst believing in a future retribution, he says that the everlasting punishment of the impenitent may be an extinction of existence by annihilation.

It was voted that a committee be raised to confer with the 3d Church upon their situation, &c.; and that the committee consist of the settled Orthodox Congregational Pastors of Portland, and the senior Deacons of such churches as are without pastors.

It appeared Mr. W. had never preached or proclaimed the doctrine—using Scripture language when he described the doom of the impenitent. The heresy only came out on examination; and he is rejected on account of his doubts on the points stated.

— Advices from Hayti represent that the rebels were extremely bitter against President Geffrard, and say they will be buried in the ruins of the towns before they will submit to his rule. Our rebels used to talk in the same way.

— The Yale College Boat won the race at Worcester on Friday, beating the Harvard Boat by 26 seconds.

— The court of inquiry to investigate the powder magazine explosion at Mobile have been unable to determine whether it was caused by accident or design, although there is evidence of gross carelessness on the day of the explosion by the parties handling the ammunition.

— A deranged man named Stocking fired three times into a group of passengers on a steamer, not far from La Crosse, Wednesday last, killing one man and wounding another.

☞ From Fort Laramie we learn that a thousand Cheyennes, Sioux, Arrapahoes, Blackfeet, and a few Camanches, attacked Platte Bridge Station, on the telegraph road. The garrison numbered less than 250. The fight lasted two days, and resulted in a heavy loss to the Indians. The loss on our side was Lieut. Collins and one man killed, and 34 wounded. The Indians retreated to the West, tearing down the telegraph poles and destroying the wires.

— The Shenandoah continued to destroy ships after the officers had heard of the surrender of Lee and the collapse of the rebellion. The captain was not surprised at the assassination of Lincoln, *for he expected it*. We trust that he and his crew will be treated as pirates, and not as belligerents Any excuses which may have been brought forward in palliation of other privateers fail to apply in this case.

— A California copperhead editor threatened to sue for libel if anybody called him a traitor, whereupon one of his contemporaries dubbed him "Confederate patriot."

Boys Wanted.
At the Chronicle Office—one to carry papers, and one to do chores about the office—before School. The very highest pay.

Special Notices.
A FEW REASONS WHY THE
AMERICAN WATCH
IS THE BEST.
It is made on the best principle, while the foreign watch is generally made on no principle at all. The foreign watch is mostly made by women and boys, BY HAND. While their labor is cheap, their work is dear at any price. Such watches are made without plan, and sold without guarantee. They are irregular in construction, and quite as irregular in movement. They are designed only to sell, and the buyer is the party most thoroughly sold. Those who have kept "anchors," "lepines," and "Swiss levers," in professed repair for a few years, will appreciate the truth of our statement.
THE PLAN OF THE AMERICAN WATCH Instead of being made of several hundred little pieces, screwed together, the body of the American Watch is formed of SOLID PLATES. No jar interferes with the harmony of its working, and no sudden shock can throw its machinery out of gear. In riding or any business pursuit, it is all held together as firmly as a single piece of metal. It is just what all machinery should be—
1st. ACCURATE. 2d. SIMPLE. 3d. STRONG. 4th. ECONOMICAL.
We not only secure CHEAPNESS by our system, but QUALITY. We do not pretend that our Watch can be bought for less money than the foreign *make-believes*, but that for its real value it is sold for one half the price.
OUR SOLDIER'S WATCH (named Wm. Ellery) is what its name indicates—Solid, Substantial, and always Reliable—warranted to stand any amount of Marching, Riding or Fighting.
OUR NEXT HIGHER QUALITY OF WATCH (named P. S. Bartlett) is similar in size and general appearance, but has more jewels, and a more elaborate finish.
OUR LADIES' WATCH, recently brought out, is put up in a great variety of patterns, many of them of rare beauty and workmanship, is quite small, but warranted to *keep time.*
THE PROOF of the merits of our Watch may be found in the fact that we now employ over seven hundred workmen in our factories, and that we are still unable to supply the constantly increasing demand.
OUR THREE-QUARTER PLATE WATCH is thinner and lighter than the others we have described. Its fine chronometer balance is delicately adjusted to correct the variation caused by changes of temperature. These watches are the fruits of the latest experiments in chronometry, and are made by our best workmen, in a separate department of our factory. For the finest time-keeping qualities they challenge comparison with the best works of the most famous English and Swiss makers.
ROBBINS & APPLETON,
Agents for the American Watch Company,
Jy28—1m 182 Broadway, N. Y.

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, in re putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.
Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Proclamation No. 64.
All peaceable and well disposed citizens who will purchase one bottle of PEASE'S VEGETABLE HAIR RENEWER, will find the result as follows: It will turn your Gray Hairs to their natural color; it will prevent your hair from falling off or becoming gray; it will keep your head clean and healthy; it will dress your hair beautifully; it does not smell of sulphur. Ask your druggist for Pease's Hair Renewer, and take no other. Also, PEASE'S PERFUMED OIL is unsurpassed as a Hair Dressing. No Lady will be without it who knows its value. *See Circulars.*

Hair Dye! Hair Dye!
BATCHELOR'S Celebrated Hair Dye
Is the Best in the World!
The only Harmless, True and Reliable Dye Known.
This splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY STREET, N. Y. Batchelor's New Toilet Cream or Dressing the Hair. Jy9—1ydaw

Duran's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.
Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURAN, P. O. Box 1326, New York City.
At Wholesale by DEMAS BARNES & CO., New York. spnde wlymy28

Special Notices.

WHAT RYE WILL DO.

There are peculiar properties contained in the grain, that, if properly extracted, prove to be the best thing you can use for weak lungs. The Extract of Rye made by C. A. RICHARDS, Boston, is the most sure remedy yet discovered. Try it. For sale by most grocers and druggists. 6

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers the

SOOTHING SYRUP

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to yourselves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je20

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, febrile and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

TEBBETTS BROS., Proprietors,
Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. ap7ez6md

CLOCK'S
Excelsior Hair Restorer

is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; cause the hair to grow on BALD BEARDS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, 2 Congress Block.

FRANK B. CLOCK, Druggist and Chemist, Proprietor, Manchester, N. H. j4

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*

Please inclose a stamped envelope, addressed to yourself.

Address JOSEPH T. INMAN,
Station D, Bible House,

HOLMES' STEREOSCOPES plain and mount $1. For sale by JOS. H. FOSTER.

Local.

☞ Vice Admiral Farragut came up to this city from Rye Beach, in the U. S. Str. Porthre, on Friday afternoon, calling at the Navy Yard, and arriving at the wharf about 2 o'clock. He was received by the Mayor and President of the Common Council, and introduced to the small crowd awaiting his arrival, (which would have been much larger had the public known the time of his coming,) and the Admiral addressed them a few pleasant remarks, and was heartily cheered. He then took carriage, and was escorted to call on a few of our leading citizens, per invitation; and afterwards dined at the Rockingham House as the guest of the City, and received many of our citizens there in the afternoon. In the evening he again proceeded to the Beach in a carriage.

☞ We hear that a complimentary Levee is to be given to Admiral Farragut, on Monday evening next, at the Rye Beach Atlantic House, where he is stopping with his family, by the guests at the Hotel. The arrangements are in the hands of a committee of gentlemen who will not fail to render it the brilliant and successful affair it should be. Everybody who gets the chance, is happy to pay their respects to the Admiral. The Atlantic House is gaily decorated with flags, and serenades and presentations are the order of the day.

☞ We are requested by Mr. John Donovan and Mr. Hennessey to state that the man named Frith, who lost $300, was *not* robbed at the Irish Pic Nic at Sagamore. And this man himself corroborates this statement, in our office. But if this be so, why did he complain to the City Marshal, in accordance with the statement we gave yesterday, and request that officer to arrest certain parties? The place designated should have been Langdon's Grove, on Lafayette Road, and not Sagamore Grove.

☞ The rooms for the new Mechanics Reading Room and Exchange, opposite the Post Office, have been very nicely and conveniently fitted up by Mr. J. C. Carr, proprietor of the building; and the fixtures for the accomodation of thirty or more daily and weekly papers, &c., are being put in by the Committee of the Association. It is expected the "Exchange" will be thrown open to the public use, early in August.

☞ We understand Mr. Isaiah Wilson is soon to commence the building of a new house on the pile of rocks on Pleasant Street, known as "Brimstone Hill," which was formerly leased for the building and occupancy of a Sandemanian Meeting-House, (from whose doctrine probably the sulphurous name was derived,) and which house was afterwards used by the Universalists. The site is a fine one on many accounts, and the foundation we should judge will be firm. Messrs Wilson and Jas. Moses purchased this promising lot a few years ago, at a price we believe reported at the time about $1100 or $1200.

☞ "Buggins" of the Ballot, says that "Maj. Hackett, the President of the Beater Hay Press Co. intends to put up one of these presses at the North Hampton depot. The machine is now in use in Maine and Vermont, and compresses hay into bales 22 by 30 inches at the ends, and 40 inches long, which weigh 400 to 500 lbs, and are in the shape of a brick. As in rail-road transportation freight is charged by the carload, or if by the ton according to bulk, there will be a great advantage in using the Beater press in lieu of the old fashioned kind, and allow farmers at a distance from market to get their hay transported at rates far below the present terms of carriage. We are assured by our friend Hackett that he is actuated by purely patriotic motives in his efforts to introduce the Beater press—his only object being to pay off our national debt by exporting immense quantities of pressed hay, which has not hitherto been a great article of export on account of its bulk. In short, the company intend to depose King Cotton and make him play second fiddle to King Hay."

☞ We are indebted to Dr. Bancroft, Superintendent of the N. H. Insane Asylum, for a copy of the Annual Report of that institution—a very able, interesting and valuable document, which ought to be read by every man in the State. We presume copies may be procured on application to the Superintendent, at Concord; or to the President, Rev. Dr. Burroughs, in this city.

☞ "William Shakespeare, by His Eminence Cardinal Wiseman"—a lecture delivered before the Royal Institution of Great Britain,—is published in book form by Patrick Donahoe, Boston, and for sale by J. H. Foster in this city.

Communication.

☞ A large party of ladies and gentlemen from this city participated in a very agreeable picnic in the beautiful grove at Kittery Point on Friday. The projectors thereof deserve especial credit for the satisfactory manner in which it was carried out. Those who were there will need no reminder from us of their pleasant time, and 'twould be cruel to tantalize absentees with a rehearsal of what they lost; but we bespeak an "invite" when the same party goes again. COM.

☞ Mr. Wm. Conant, the veteran Newburyport expressman, formerly of Portsmouth, who has long been confined to his house by erysipelas in his foot, suffered amputation of the limb on Tuesday forenoon. He is now doing well and may fully recover his health.

☞ Subscribers will confer a favor, and facilitate the prompt delivery of their papers, by *immediately* informing us of any deficiency or irregularity of our Carriers. All papers should be delivered before 7 o'clock—and all subscribers should furnish a secure place of deposit for their papers. We will give $10 reward for evidence to convict any person of stealing a copy of the Chronicle. Our Carriers are not allowed to sell copies of the paper.

Thousands who have tested DR. BICKNELL'S SYRUP, for Dysentery, Diarrhea, Cholera Morbus, Pain or Cramp in the Stomach or Bowels, unite in their testimony that there is nothing equal to it. Safe and sure for old or young. Try it, and your report will be likewise.

For sale in Portsmouth by THACHER.

BEHIND THOSE ROSEATE GATES, the lips of girlhood, ther should be a fragrant palace, elegantly furnished with ivory and coral. To drop metaphor—young ladies, you should keep your teeth and gums in perfect order, if you hope in after-life to enjoy the blessings of a sound set of dentals and a sweet breath.—What will enable you to do this? you ask. Fragrant Sozodont, we reply. 2

VINELAND LANDS.
To all Wanting Farms.
Large and thriving settlement, mild and healthful climate, 30 miles south of Philadelphia by railroad. Rich soil, producing large crops, which can now be seen growing. Ten, twenty, and fifty acre tracts, at from $25 to $35 per acre, payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Papers giving full information will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*
From Report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.
Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; $200 for sale. Price $40 per share; $50 per share after August 1.
Stock full paid, and no individual liability. Company organized under the General Law of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investors safe and profit large.
We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in GOLD. Any Clergyman, Insurance Agent, or Cashier of Bank is authorized to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of the $40. Stock for sale at the Atlantic Bank, New York, R. W. H. FREEMAN, Esq., Cashier of the Atlantic Bank, 143 Broadway, or HERMAN CAMP, Esq., 25 Nassau Street.
Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion at the net profit of $2,000 per day, or $1,000,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SPROUL, President.
S. B. HUTCHINSON, Secretary.
Office: 80 BROADWAY, over Am. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make their 25 to 50 dollars every day. State or county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business.—Will pay $5 to $20 per day. Articles in great right or medical humbug, but an article of merit, needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHITNEY & SON, No 6 Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use, from a teaspoonful to a table spoonful, it will act in connection with their food, and *immediately change the character of their secretions*,—thus arresting the cause of their wretchedness. Through its action in the Blood, it will expel all *Humors* and *Impurities*, that are working a slow but certain effect, inverting by terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.
Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.
The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, BOSTON, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.
For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.
BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.
FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.
In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 165 Court Street, Boston.

SAVE YOUR MONEY!
Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.
Wilbor's Montor Hair Dye
Is superseding all of ours. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.*—Manufactured only by ALEX. B. WILBOR, Chemist, No. 165 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, *and Jan.* 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

And all the work of a Family *of any size,*

AT LESS THAN

One-Third the Cost of Wood or Coal!

THIS NEW

PETROLEUM Cooking APPARATUS

IS WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in 15 minutes		
Common potatoes baked	" 30	"
Flour Biscuit baked	" 15	"

And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

Morning Chronicle.

— Information from good authority, now in Washington, points out a steady colored movement to the Southern States. All the Copperhead predictions that the free cities would be overrun by negroes after emancipation and the close of the war, have been falsified by facts.

— The Court of Appeals in Maryland has sustained the action of Judge Bond in the negro apprentice case, and will not entertain any appeal from his decision. Slavery cannot therefore exist under another name in that State.

— During commencement week at Dartmouth College, Edward M. Dunbar, of Springfield, a graduate of the scientific department, was robbed of a valuable gold watch and $150 in money. The articles were taken from his room in the night.

—If the wife of a Japanese don't suit him, he can send her back to her parents, and try again. That is to say, all wives are "warranted" in Japan.

THE TENTH

EXHIBITION

—OF—

AMERICAN MANUFACTURES,
New Inventions and Works of Art

Under the direction of the

—WILL COMMENCE AT—

FANEUIL AND QUINCY HALLS,

—ON—

Wednesday, September 20, 1865,

IN THE CITY OF BOSTON.

☞ Contributions from all parts of the country of whatever is new, useful and beautiful in Mechanism and Art, are solicited. Steam Motive Power will be supplied for Machinery. Honorary Awards of Gold, Silver and Bronze Medals, and Diplomas, will be given for articles deserving especial notice.

Communications from those who wish more particular information, and from those who will require large space, may be directed to the subscriber. JOHN L. BATES,

2awlw—jy19 Secretary.

Portsmouth Steam Factory for Sale.

Pursuant to resolutions passed at a special meeting of the Corporation holden at Portsmouth, N. H., on the 17th inst., will be sold at Public Auction, at the Mills of the Company, at said Portsmouth, on MONDAY, the seventh day of August next, at 11 o'clock A. M.

All the Real and Personal Property of the Corporation situate and being in said Portsmouth, comprising the following, to wit:

The Steam Mill, 60x70, six stories high, with two wings, each 100x30 feet, with extensive dye house and bleachery of the most approved construction, with all the machinery, fixtures, tools, furniture, materials and supplies. Much of the machinery is new and all capable of immediate production, and the Mill has a capacity equal to thirty thousand dozen of spool cotton per week.

The Sagamore Mill, so called, now under lease to the Rockingham Mill Company.

A Dwelling House on Islington street, usually occupied by the Agent of the Factory.

Also, 16 houses in the vicinity of the Mill, used as boarding houses for the operatives.

One store house on Parker street, and one on Rock street.

A schedule of property may be seen at the office on the day of the sale.

The sale will be positive on that day unless withdrawn under a provisional vote of the Corporation, of which due notice will be given by posting up to this advertisement.

Terms—Five per cent. to be paid at the time of the sale. Fifteen days allowed for examination of title and to complete the payments in cash or its equivalent on delivery of deeds. Title to be satisfactory.

For further particulars apply to the Treasurer. Per order of the Committee of Stockholders.

WM. S. EATON, Treasurer,
No. 9 Merchants Row, Boston.

Portsmouth, N. H., July 18, 1865. WMjy20

PAINT! PAINT!
Winter's Metallic Brown Paint
RECOMMENDS ITSELF.

It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, taking two gal lons less per 100 lbs. than any mineral, and possesses more body than any other paint. It forms a glossy, untaxing, durable *metallic coat*, protecting wood from decay, and iron or other metals from rust or corrosion.

☞ It does not require grinding, and is warranted to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.

Order Slate at Mr. COBB'S Music Store, 29 Market Street. je24

Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to

JOHN S. HARVEY,
Je20 47 Congress st., Portsmouth.

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operating over six months, has more than 4000 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid a dividend of 4 per cent.

Any one who will take the trouble to investigate the facts, will see at once that the croakings of coal monopolists have no application to this company, which is as safe and sure as any railroad or bank stock in the market.

JOHN S. HARVEY, 47 Congress St.,
Jy18tf Agent for Portsmouth.

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK, CERTAIN AND SAFE RELIEF.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at the Old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World) as to defy the skill of the sanest as well as the latest remedies for these diseases, after inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargements of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Bliles, Ulcers, Abscesses, and all other impurities of the system, he is perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with the utmost success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and relieve them from hundreds and thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all the blessings of Health and Happiness. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this important class.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married or the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. Teller's Female Monthly Agency in America, for the sale of Dr. Michol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes both its reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours *from* 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to *Dr. J. Teller*, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

The fine Schooner Yacht PILGRIM, about twelve tons, will run from Portsmouth, to accommodate Parties in the Harbor, or for the Shoals or other point, by the hour, day or week. The Pilgrim is a staunch boat and fast sailer, and well found in every particular, and will well accommodate 30 or 40 ladies and gentlemen. Apply on board the Yacht, at Pier Wharf, foot of State St., Portsmouth, or at Mr. PRINCE'S Stone Works.

☞ Lovers of a fine craft, and the public generally, are invited to call and examine the "Pilgrim." Capt. JOHN WILLEY.

EDWARD SMITH,
Portsmouth, June 7, 1865. * Proprietors.

Pleasure Sailing.

The elegant Sloop Yacht ECLIPSE, will run daily between RYE BEACH and the Islands, in the splendid and fast Steamships CHESAPEAKE, Capt. *Sherwood*, and FRANCONIA, Capt. SHERWOOD, will until further notice, run as follows:

Leave Brown's Wharf, Portland, every WEDNESDAY and SATURDAY at 4 P. M., and leave Pier 9 North River, New York, every WEDNESDAY and SATURDAY, at 3 P. M.

These vessels are fitted up with fine accommodations for passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine. Passage, with State Room, $5. Meals extra.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John.

Shippers are requested to send their freight to the steamers as early as 3 P. M. on the days they leave Portland. For freight or passage apply, EMERY & FOX, Brown's Wharf, Portland; H. B. CROMWELL & CO., No. 38 West Street, New York. je20

"SAGAMORE GROVE."

C. W. CARTER, - - - Proprietor.

Having leased the above beautiful GROVE, on Sagamore Road, Portsmouth, North of the Creek, and erected a Platform 25 by 65 ft., with Music Stand, Seats, Tables, Swings, &c., for the sale of Ice Cream and other Refreshments, &c: and having put the premises in complete order, the Subscriber is ready for Parties, Societies, Schools, Companies, &c., and the Public may be assured there will be nothing allowed on the Premises in the least objectionable.

Parties, Societies, &c., will find the above beautiful Grove, with its superior accommodations, one of the finest places in this vicinity.

☞ The IVANHOE and the new PICNIC BARGE will make Hourly Trips to and from the Grove at reasonable prices, when desired for large Picnics. For further particulars, call on

C. W. CARTER.

FARMING TOOLS, &c.

THE MAGEE

COOKING STOVE.

The subscriber would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the cast-large being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes —of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 20 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert K. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Hull & Fisher, Proprietors.

SPANISH ROUGE,

FOR POLISHING,

XL

Or Cleaning Gold, Silver, Silver Plated, Britannia, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For the purpose intended this article cannot be equalled. Twenty-five cents invested in a package of this, will add more to the looks of a home than one hundred dollars spent in new ware. Every article of any kind of metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which causes a smile upon the faces of all. The labor of keeping every article of metal polished with the Spanish Rouge is reduced to a mere trifling and pleasure. It removes the tarnish at the brush of the hand. *It is a mineral without any composition whatever, therefore can do no harm.*

Put up in three different qualities, for the finest Gold to the coarsest Metals.

Try this Spanish Rouge, and it will become a household word and a great assistant. Every person who has a ring or ear-drop, to an engine manufacturer, needs it. For sale by Druggists and Grocery Dealers everywhere.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins both body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will find a home with pleasant society and charges for board moderate—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female constitution. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

The Chronicle.

VERY KIND.—We find this item in an exchange:

It is said that letters have been received from the Bishops of the Episcopal Church in nearly all the Southern dioceses lately in rebellion against the government in favor of reunion at the next General Convention at Philadelphia, without any formality whatever.

This puts Uncle Toby in mind of Prov. 30:20,—"She eateth, and wipeth her mouth, and saith, I have done no wickedness."—But it is surely very kind for these lordly christians to condescend so far as to take seats among those vile Yankee churchmen who were so foolish as to remain under the "Lincoln Government," and never read the prayer for "Our Christian President" of the Confederate States, Jeff. Davis. Were Bishop Polk living, he would probably demand some apology from the Yankee Bishops (except Hopkins) for being loyal.

The above item about the Bishops, is only a parallel for the plea of some politicians, who would fain have the rebel States take their former places in the Union, and their Representatives take their seats in Congress, "without any formality whatever."—But the *people* have a word to say about this.

☞ The Mobile Register, after a stoppage of three months, has recommenced publication. Its inaugural says that Southern men are bound to be content with things as they now are, and advises rebels in the North to leave them alone to cultivate loyalty. It says:

"It is very well for Mr. Vallandingham to continue to talk about 'State Rights' in the presence of the mighty revolution which has just swept over the government of our fathers; but who can conceive of a practical value and vitality in State Rights, when the sword has just now bloodily proclaimed that there is no such thing as State Remedies?"

This ex-rebel shows exactly what was understood by State Rights down that way, viz. the power of slave States to do as they pleased, and especially to secede if displeased. But they have learned that the United States are a Nation and a government;—not a rope of sand, nor a confederation of independent sovereignties in which *each* member was *bigger* than the *whole* body, and in which anarchy was chronic. It would be well, that their northern allies should learn the same lesson.

ADVERTISING.—A Portland merchant informs the proprietors of the Argus that after five years advertising, with constantly increasing business, he concluded to try a year's experience without it. During the year he did not hold his own, and at the conclusion promptly resumed advertising. During the succeeding six months he expended some $600 in advertising, and found his business nearly doubled, and his profits increased over $2000. He intends hereafter to keep his name and business open to the public eye.

PRENTICE ON WADE HAMPTON.—Wade Hampton, in a long letter to the New York Day Book, dated at Columbia, S. C., June 19th, attacks Gen. Sherman's official report of his march through the Carolinas, as "misrepresenting him in the grossest and falsest manner." Wade may attack Sherman's reports, but if he had at the head of his troops attacked Gen. Sherman himself, he would have been Wade and found wanting.

☞ The Newport (R. I.) News says that Henry A. Middleton of South Carolina, who was a thorough-going rebel during the war—is still a rebel in his views, insists that the South is not conquered, and that she will have slavery back again—has come to Newport and taken possession of about $300,000 worth of property he owned there before the war, and intends to sell it. The News very properly suggests that Mr. Middleton's case comes under the confiscation law, and ought to be attended to.

— An Irish glazier was putting a pane of glass into a window, when a groom who was standing by, began joking him, telling him to mind and put in plenty of putty. The Irishman bore the banter for some time, but at last silenced his tormentor by, "Arrah, now, be off wid yees, or I'll put a pain in your head without any putty."

— Jeff. Davis and his followers got up the rebellion for the pretended purpose of rendering their property in slaves secure. And now Jeff. Davis is in prison awaiting trial for his life, and his ex-slaves are cultivating his fine plantation of two thousand acres in Mississippi for their own benefit, remarks the Louisville Journal.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office can the ratio of the charges for professional service so moderate.
The immense practice of the subscriber during twenty-five years, has established his ability to late a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unanimity is proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.
Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His services will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that no patient is seen but the Doctor himself.
Address DR. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secresy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 15, 1864. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
F. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, AUGUST 1, 1865.

WASHINGTON ITEMS.—The N. Y. Herald's Washington dispatch says since Mr. Chase has returned from the South, his friends predict, from his observations of society there, that the blacks are destined to be the ruling race throughout the late slave-holding States.

Dick Taylor, it is said, has obtained permission to visit his brother-in-law, Jeff. Davis, and that he is now Fortress Monroe.

The delay in trying the barbarian Wirtz is caused by sending for witnesses.

The Tribune's dispatch says a number of freedmen are making efforts to collect claims from their late masters from the date of the Emancipation Proclamation, Jan. 1, 1863, to the date of the occupation of Virginia by our forces.

Paymaster Walsh, one of the principal officers of the Pay Department at Washington, has been arrested, it is said, under charges of defalcation.

IS TENNESSEE UNDER MARTIAL LAW? Gov. Brownlow answers this question in his paper, the Knoxville Whig, in the following terms:

We answer yes, the State of Tennessee is still under martial law, and we wish her so to remain until her citizens learn to respect the civil authorities, and otherwise behave themselves. * * * The military authority in Tennessee, and the whole power of the Government at Washington, will sustain the State Government in carrying out the policy of the State and General Government as long as troops remain on duty in the State, and they will remain here as long as rebels and rebel sympathizers show signs of rebellion. We state this for the information of all concerned, and we speak by the card when we do speak. We have the late written assurance of Gen. Thomas to this effect; and for the information of those who have been falsely asserting on the stump, and in private, that the President is opposed to the State Government and State laws recently enacted, we append the following:

WASHINGTON, July 16th, 1865.

Governor W. G. Brownlow:—I hope you will see—and I have no doubt you will—that the laws passed by the Legislature are faithfully executed, and that all illegal parties are kept from the polls, and that the election of Members of Congress is conducted fairly. Whenever it becomes necessary for the execution of the law and the protection of the ballot-box, you will call on General Thomas for sufficient military force to sustain the civil authority of the State. I have just read your Address, (of the 12th inst.,) which I most heartily indorse.

ANDREW JOHNSON,
President of the United States.

IN TENNESSEE, Mayor Andrews of Columbia abused his office by oppressing the blacks, preventing their education, &c.—Gen. Thomas suspended his powers and the office of Mayor, by martial law. Mayor Anderson appeals to Gov. Brownlow,—and the Governor decides that the General served him right. So he did: and the military arm must rule the rebels, until they learn to be civil. Plantation manners must be laid aside, now that the laborer is deemed worthy of his hire.

EXIT BEAUREGARD.—Gen. Beauregard is expected to arrive in New York in the course of a few days, with a view to his departure for Europe. It is understood that the Government has given him permission to leave the country on condition that he will never again take up arms against it. It is supposed he will tender his services to the French army.

MEXICO.—Mexican correspondence says Gwin is at Matamoras denouncing Maximilian's empire. Gen. Stone has also left Mexico, having met with no success.

☞ The *pardoned* rebels in North Carolina are brewing mischief. Gov. Holden is not so good a magistrate for these days as parson Brownlow; and the military arm will have to be stretched out in N. C.

— Santa Anna has addressed a Proclamation to Mexicans of all parties, urging them to unite, and drive Maximilian out of the country.

— The Louisville Democrat estimates that over 60,000 slaves have passed over the Ohio river, under Gen. Palmer's passes, since the 1st of May. At this rate the whole slave population of Kentucky will "pass away" in less than one year.

— The trial of Captain Werze, the Andersonville Jailor, has again been postponed. The Judge Advocate, Colonel Chipman, is at present engaged in the preliminary examination of witnesses for the government. The trial will doubtless come off in the early part of this week.

— The Richmond correspondent of the Philadelphia Inquirer telegraphs that Gen. Terry issued an order on Friday declaring the late election in that city null and void, and prohibiting the canidates elected from assuming their offices. Richmond papers received are silent on this subject.

— The condition of George N. Sanders is said to be ghastly. He has gone into the category of Cornell Jewett; the journals refuse his cards: he is without a friend in the British provinces.

NEW HAMPSHIRE ITEMS.

—— Hiram Morrill, son of Jeremiah Morrill of Barnstead, committed suicide last week. He was about 22 years of age, and was to be married the next day. No reason is known for the suicide.

—— Charles E. Pinkam, who killed his father at Farmington, on the 4th, having been committed to the Dover jail, is suffering greatly in mind and body, and quite overcome by the enormity of his crime, which was committed while under the influence of liquor. The father is said to have been an habitual drunkard.

—— The new dome to be placed upon the enlarged state house at Concord, weighs 50 tons, but the trusses that are to support it have submitted to a strain of 200 tons, so that the legislators can sit under it without solicitude.

—— A Rattlesnake was killed in Hinsdale on the 19th, that measured 3 feet 9 inches. It had ten rattles and must have been thirteen years old.

—— Two lads named Pritchard and Felch were drowned at Hillsborough Bridge on Sunday evening, in Contocook river, a little above the stone bridge.

—— The Supreme Judicial Court have appointed John Farr, Esq., of Littleton, assignee, and Wm. A. Cummings, Esq., of Lisbon, commissioner, of the White Mountain (Lancaster) Bank. All claims against the bank and all its bills should be presented to the commissioner within six months from the first of August.

—— Rev. J. A. Hamilton, for several years the junior pastor of the First Congregational church in Keene, has asked a dismission, his labors to close on the first of September.

—— Huckleberries are wonderfully thick around Manchester.

—— Rev. George E. Sanborne, recently of Mont Vernon, was installed pastor of the Evangelical Congregational Church in Northboro', on the 21st inst.

—— At Concord, last Friday, three soldiers, named James Connor, George King and George Scott, and Oscar French, barber were brought before Judge Dana, charged with "resisting an officer and obstructing him in the performance of his duty." They were all bound over to October Court. The three men first named, being drunk obstructed the sidewalk, and annoyed passengers.—A policeman requested them to leave, and they all assaulted him. He called upon a bystander for aid, but French held him back, and so made himself a criminal.

—— Gage, Murray & Co., of Nashua have been enlarging their Card Factory and are putting in machinery for making all the varieties of fans, from the cheapest to the most elegant and ornate. This is a business not heretofore attempted in this country, except a few cheap paper fans. This company will be known as the American Fan Company.

—— The Mirror informs us that Samuel Caswell, of Barnstead, is one hundred and six years of age, and has never drank intoxicating liquors nor used tobacco in his life. He has never worn spectacles and his eyesight has been perfectly good till within a year. He has mowed grass every year since he was twelve years old till the present, and has never had a physician but three times and those lately. His wife is living, in good health, at the age of 96.

—— The Monitor says that John and Nancy Hill Beane celebrated the Fiftieth anniversary of their marriage at Fisherville, May 18th. Husband and wife were each presented with a pair of gold bowed spectacles. The parties have been blessed with thirteen children, eight sons and five daughters. Eleven children are still living. Seven children were present on the occasion. All the children lived to a mature age. All married. All made a public profession of religion, and one son has entered the ministry. Forty-one grand children are living—four great grand children. Mr. Beane is seventy-three, and his wife sixty-nine. Both are still active.

—— The Seventh Regiment, Gen. J. C. Abbott in command, arrived at Concord Sunday afternoon, 330 in number, and were received by Governor Smyth and Adjutant General Head in the State House yard.—And the 18th Regt. or battery, Col. Clough, 240 men, came on Monday.

— There is a call, in Virginia, South Carolina and Tennessee, for white settlers, and a wish and expectation expressed in the same papers, for land to be sold in small farms and at moderate rates to actual settlers.

— The people of Hartford, Conn., have voted to have Fresh Water from the Trent Brook.

— There was a short rain storm at Washington on Saturday, when the White House sprung a leak, by means of a spout being clogged up by a careless workman.

— The Farmington Chronicle announces another agricultural calamity which will not cause much weeping. It says a species of insect is threatening extermination to the Canada thistle. It envelopes the top of the plant in a web, and proves death to its growth and flowering.

A MAJORITY.—The negroes hold a majority in the States of Louisiana, Mississippi and South Caroline. In these three States they could elect negroes enough to control the Legislatures, and elect six negroes to the United States Senate, and three or four times that number of Representatives to Congress, if they possessed the right of suffrage. In all the Southern States they could send negroes to the State Legislatures, and in two hundred and forty-four counties control the local offices.—*Exch.*

This we suppose to be put forth as a reason why they should not vote. But, suppose all the above things to happen, would these Black Republicans in Congress or elsewhere be likely to vote worse or act worse than the White Traitors who were sent there before them? And what will become of the *other bugbear*, that all the negroes will vote as their old masters tell them? Will these old masters electioneer for negro candidates? If so, what *is* the world a coming to?

A GOOD MOVEMENT.—A joint resolution of the N. H. Legislature authorizes the Governor and Council to appoint one person in Concord who shall be required to receive discharged convicts from the State Prison and to assist them in obtaining places of employment. This measure will heartily commend itself to all persons who have interested themselves in the welfare of our liberated State prisoners. In altogether too many instances our discharged convicts have found the world at large apparently caring but little for them, and often, failing to get employment, have fallen back into old paths of crime, and thence again into the penitentiary. In several instances criminals upon second conviction have told the Warden that they were glad to get back, for the "old prison seemed like home to them." We are often prone to think a great deal about suffering humanity "afar off," and to neglect the appeals for sympathy and help nearer home.

GOLD, Monday, 143 1-2.

— A fire occurred in Williamsburg, N. Y., on Monday, by which 14 dwelling houses were destroyed.

— Sir E. P. Tache, Premier of the Canadian Government, died last Sunday.

— The Eastern Railroad have asked the Supreme Court to appoint Commissioners under the act authorizing that corporation to change its location in crossing the Merrimack river, from which the Newburyport Herald infers that the work on the new bridge is soon to commence.

— A few days ago, one of the 27th Mass. was bathing at Newbern, N. C., when a snake coiled itself around one of his legs and before the man could extricate himself from his ugly customer, he received a deadly bite, and lived but three hours. It was one of the moccassin species, whose bite is death.

— A person going by the name of James D. Kent has been operating in Lawrence, Mass., and representing himself as an agent of the Boston Journal to solicit subscriptions. He offered to take subscriptions at a rate (payable in advance,) less than the cost of the white paper that the Journal is printed on. He is a swindler, and has got into jail, where he ought to be.

— At Cincinnati, on the 24th, Judge Woodruff, although decidedly anti-slavery in sentiment, remanded Blind Tom, the negro musical prodigy, to the custodianship of Bethune, his former master, to whom his parents had hired him, and with whom he preferred to go.

— Quite a large number of Southerners, recently serving as officers in the rebel army, have arrived in New York, preparatory to their departure for Brazil in the steamer on the 13th prox. They propose to start a settlement somewhere in the Amazon valley, provided the Emperor of Brazil has no objections.

— A gentleman of Belfast, Ireland, who had lately come in possession of a splendid fortune, invited a few friends to a trial sail on the Lough, on board a yacht which he had lately purchased. By some means the yacht sank, and all on board were drowned.

— The farmers in the neighborhood of New York sell their milk to contractors for 2 1-2 cents per quart, the profit received from its sale in the city *only* amounts to three hundred per cent., independent of the water with which it is thinned.

— The same court and jury which declared Miss Harris not guilty of the murder of Burroughs, this week condemned Horatio Maloney to eight years' imprisonment for stabbing a faithless mistress named Florence Wilson. A Washington letter says: "If he had killed her it is understood the jury would have acquitted him."

— The watch of Col. Ulric Dahlgren, taken from his body after he was killed, has been found in the southern part of Virginia, where it was left for safe keeping by the officer who took it from his body.

— In Philadelphia, on Tuesday, during a thunder storm the lightning entered a house, knocked down a young man, and put out the fire in the kitchen range as effectually as it could have been done by a dozen buckets of water, but did no harm to the range or the house.

FESTIVAL.

The LADIES of the CONGREGATIONAL SOCIETY of GREENLAND will hold a Festival in the

Beautiful Grove back of the Academy,

—ON—

THURSDAY, August 3d, 1865,

during the Afternoon and Evening.

A FEW REASONS WHY THE

AMERICAN WATCH

IS THE BEST.

It is made on the best principle, while the foreign watch is generally made on no principle at all. The foreign watch is mostly made by women and boys, BY HAND. While their labor is cheap, their work is dear at any price. Such watches are made without plan, and sold without guarantee. They are irregular in construction, and quite as irregular in movement. They are designed only to sell, and the buyer is the party most thoroughly sold. Those who have kept "Jacres," "lepines," and "Swiss levers," in profound repair for a few years, will appreciate the truth of our statement.

THE PLAN OF THE AMERICAN WATCH. Instead of being made of several hundred little pieces, screwed together, the body of the American Watch is formed of SOLID PLATES. No jar interferes with the harmony of its working, and no sudden shock can throw its machinery out of gear. In riding or any business pursuit, it is all held together as firmly as a single piece of metal. It is just what all machinery should be—

1st. ACCURATE. 2d. SIMPLE. 3d. STRONG. 4th. ECONOMICAL.

We not only secure CHEAPNESS by our system, but QUALITY. We do not pretend that our Watch can be bought for less money than the foreign *make-believes*, but that for its real value it is sold for one half the price.

OUR SOLDIER'S WATCH (named Wm. Ellery) is what its name indicates—Solid, Substantial, and always Reliable—warranted to stand any amount of Marching, Riding or Fighting.

OUR NEXT HIGHER QUALITY OF WATCH (named P. S. Bartlett) is similar in size and general appearance, but has more jewels, and a more elaborate finish.

OUR LADIES' WATCH, recently brought out, is put up in a great variety of patterns, many of them of rare beauty and workmanship, is quite small, but warranted to *keep time*.

THE PROOF of the merits of our Watch may be found in the fact that we now employ over seven hundred workmen in our factories, and that we are still unable to supply the constantly increasing demand.

OUR THREE-QUARTER PLATE WATCH is thinner and lighter than the others we have described. Its fine chronometer balance is delicately adjusted to correct the variation caused by changes of temperature. These watches are the fruits of the latest experiments in chronometry, and are made by our best workmen, in a separate department of our factory. For the finest time-keeping qualities they challenge comparison with the best works of the most famous English and Swiss makers.

ROBBINS & APPLETON,
Agents for the American Watch Company.

Jy28—1m 182 Broadway, N. Y.

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life! A case which might have been of this kind has just been brought to our notice. A gentleman in putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Proclamation No. 64.

All peaceable and well disposed citizens who will purchase one bottle of PEASE'S VEGETABLE HAIR RENEWER, will find the result as follows: It will turn your Gray Hairs to their natural color; it will prevent your hair from falling off or becoming gray; it will keep your head clean and healthy; it will dress your hair beautifully; it does not smell of sulphur. Ask your druggist for Pease's Hair Renewer, and take no other. Also, PEASE'S PHILOCOME is unsurpassed as a hair Dressing. Lady will be without it who knows its value. *See Circulars.*

SOOTHING SYRUP

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to yourselves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

Local.

POLICE COURT, July 29.—Nellie Reed, a foolish, wayward girl, arrested for street-walking, was fined $4 and costs $4.86, and sentenced to 3 months in the House of Correction, where in that rural retreat she can reflect on her ways, if she is inclined to. Poor girl! she fails to realize the terrible truth uttered in Holy Writ that "the wages of sin is death;" death to the soul as well as to the body; and it is none the less true that many of her sex are equally thoughtless, while the staid and sober portion, affect a pious fear of contaminating themselves in endeavoring to reclaim them, and hence the erring one becomes a moral outcast shunned and despised.

Mary Hurley is an old sinner. She has evinced her depraved nature on many occasions; but more particularly on Friday evening, when she cried "murder" and did many other things which the statute laws of New Hampshire forbid, and "comes to grief" by being sentenced to one month of hard labor in the House of Correction. The worst part of this matter is that Mrs. Hurley has three little children with no one to care for them save this poor apology for a mother. We trust they will be properly looked after.

☞ The Stockholders of the PORTSMOUTH STEAM FACTORY are hereby invited to be present at a meeting, to be held at the office of Wm. H. Rollins, Esq., on this (Monday) evening, at half-past 7.

☞ A beautiful six-oared shell boat built in Portland recently by Mr. Walter Brown of this city, made its appearance on our river on Saturday morning last. She has been built for a club of young oarsmen in Eliot, and in the matter of speed, beauty and neatness of detail, will compare with anything of the kind we ever saw. Mr. Brown is certainly a first-class mechanic and an expert with the oar, if he *did* get beaten in the famous rowing match on the Piscataqua. And, by the way, it seems no other single oarsman cares to take up the gauntlet thrown down by that redoubtable crew.

LYCEUM FOR WINTER.—We learn that one of the finest courses of Lyceum lectures will be given in this city during next winter. Mr. J. H. Head, secretary of the last two Lyceum courses, is at work engaging the best talent in the country. He informs us that John B. Gough, Esq. will open the course, Oct. 23, 1865.

☞ It seems there is yet a mistake about the man Frith, who *says* he was robbed on the Rye Road, "between Portsmouth and Rye Centre," of $300. As the Irish Picnic was held on Lafayette Road, of course that could have no connection with the affair; nor does the victim locate his mishap at any "Grove."

☞ The fact that the ordinance relative to the open sale of liquor on the Sabbath is being rigidly enforced, is indicative of progress.

☞ A drove of Sheep were driven into this city Friday, from Tamworth, about 60 miles, in a day.

☞ The members of the Portsmouth Cornet Band, with a degree of perseverance and pride which is commendable, have fitted in a beautiful manner their new Hall on Court street, and almost every evening are giving free concerts to lovers of good music who nightly congregate opposite their Band Room.

☞ A man named George Pierce, of Hallowell, Me., employed as a borer on the Navy Yard, while in the performance of his duties on Friday afternoon, on the iron-clad Passaconaway, fell a distance of eighteen feet, striking on his face, injuring him badly. It is thought that no bones are broken.

☞ The Elm St., Universalist Society of Manchester, are to make a "Grand Excursion to Portsmouth, Isle of Shoals, Star Island, Rye Beach, Fort Constitution and the Navy Yard," to-morrow—with the Manchester Cornet Band.

☞ Look out for Wheeler's Circus on Wednesday.

—"Are those berries right off'n the hills?" inquired a passer of a huckster who had driven in from a neighboring town in Maine, as he examined his wares. "They're right up from Wells," was the reply.

— A young man at Winthrop, Me., named Wood, recently died from the effects of chloroform, which he had taken while having a tooth extracted.

— The Miss McFlimseys who have pretty ankles will be gratified to learn that the fashion makers are trying to introduce the Peasant Skirt, which doesn't reach the ground by several inches.

— A Catholic priest, recently passing the Portsmouth Grove hospital to minister to Catholic patients, accosted a soldier on one of the cots with, "Do you belong to the Catholic Church?" "No, sir," said the man, with a roguish twinkle in his eye, "I'm a *Sucker!*" The irreverent fellow belonged in Ohio.

HOW IT WORKS.—A recent election for town and county officers took place in Virginia. Not one of the candidates who were elected was loyal; several of them were worth over twenty thousand dollars and had not applied for or received a pardon, and all, in some form or other, had been active rebels. Where the election was held, the talk is openly of enforcing all the old laws in regard to slavery—oaths of allegiance, the proclamation, and the amendment of the Constitution to the contrary notwithstanding. The authority which gives these facts says the fighting has been in vain if this condition of affairs is allowed to continue, and is not remedied by the appointment of a military governor, and giving the negroes the right of suffrage.

THE LABOR QUESTION—EASY SETTLEMENT.—If every man in the United States would pay for a fair day's labor, all the difficulties growing out of the war and the efforts for the reorganization of the lately rebellious States would vanish in a month. Every discontented laboring man in the South would go quietly to his tasks, popular disturbances would cease and plenty and abundance would reign once more throughout the land. The question of wages of labor lies at the very foundation of American society and American politics; and until it is everywhere adjusted on a fair and equitable basis—so much money for so much toil—we may in vain hope for a perfect peace. We call the attention of all Northern mechanics and laboring men to the fact, that the effort of a class of people to compel other people to work for them for little or nothing, is the cause of all the disturbances that we have to fear.—*Christian Register.*

— An Irish woman was safely delivered of a child on Wednesday afternoon, on the last train from Fairhaven to Tremont. At the latter place she walked away, with the infant wrapped up in a shawl.

— According to the New Orleans Times of the 13th inst., Arthur W. Thompson, a native of Buckfield, Me., aged 31 years, until recently 2d Lieut. in Co. D, 1st Artillery, but at the time of his death an officer of the 4th Artillery, Regular Army of the United States, died on the night of July 12, from an overdose of laudanum, taken while under the influence of liquor.

— The Emperor Maximillian is said to be much dispirited and suffering from dysentery, a disease which proved fatal to so many of our men in the Mexican war.

Time is money, and there need be no *time* lost, or suffering from Dysentery, Diarrhœa, &c., or distress from eating, if you will keep a bottle of DR. BICKNELL'S SYRUP by you; it is a pleasant, safe and sure thing.

For sale in Portsmouth by THACHER.

☞ Subscribers will confer a favor, and facilitate the prompt delivery of their papers, by *immediately* informing us of any deficiency or irregularity of our Carriers All papers should be delivered before 7 o'clock—and all subscribers should furnish a secure place of deposit for their papers. We will give $10 reward for evidence to convict any person of stealing a copy of the Chronicle. Our Carriers are not allowed to sell copies of the paper.

Thousands who have tested DR. BICKNELL'S SYRUP, for Dysentery, Diarrhœa, Cholera Morbus, Pain or Cramp in the Stomach or Bowels, unite in their testimony that there is nothing equal to it. Safe and sure for old or young. Try it, and your report will be likewise.

For sale in Portsmouth by THACHER.

BEHIND THOSE ROSEATE GATES, the lips of girlhood, ther should be a fragrant palace, elegantly furnished with ivory and coral. To drop metaphor—young ladies, you should keep your teeth and gums in perfect order, if you hope in after-life to enjoy the blessings of a sound set of dentals and a sweet breath.—What will enable you to do this? you ask. Fragrant Sozodont, we reply. 2

VINELAND LANDS.
To all Wanting Farms.
Large and thriving settlement, mild and healthful climate, 30 miles south of Philadelphia by railroad. Rich soil, producing large crops, which can now be seen growing. Ten, twenty and fifty acre tracts, at from $35 to $65 per acre, payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Papers giving full information will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*
From Report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.
Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; 2000 for sale. Price $40 per share; $50 per Share after August 1.
Stock full paid, and no individual liability. Company incorporated under the General Law of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.
We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in GOLD. Any Clergyman, Insurance Agent, or Cashier of Bank is authorised to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York, R. W. G. FARRMAN, Esq., Cashier of the Atlantic Bank, 243 Broadway, or HERMAN CAMP, Esq., 25 Nassau Street.
Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion at the net profit of $2,000 per day, or $1,100,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SPROUL, President.
S. R. HUTCHINSON, Secretary.
Office: 80 BROADWAY, over Am. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make their 25 to 50 dollars every day. State or county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business. Will pay $5 to $20 per day. This is no patent right or medical humbug, but an article of merit, needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHITNEY & SON, No. 6 Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. For use, (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately change the character of the system*,—thus arresting the cause of their weakness or debility. Through its action in the Blood, it will expel all *Humors and Impurities*, that are working in them, but certain effect, invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.
Prepared by Dr. S. G. RICHARDSON, who has had thirty years' successful practice as a physician.
The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, BOSTON, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.
For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands, has arrested the disease in its primary stages, and restored the patient to robust health.
BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.
FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.
In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Numerous cases of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 168 Court Street, Boston.

SAVE YOUR MONEY!
Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.
Wilbor's Monitor Hair Dye
is superseding all other. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.* Manufactured only by ALEX. B. WILBOR, Chemist, No. 168 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, *and Jan.* 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

And all the work of a Family *of any size,*

AT LESS THAN

One-Third the Cost of Wood or Coal!

THIS NEW

PETROLEUM Cooking APPARATUS

IS WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in	15	minutes
Common potatoes baked	20	"
Flour Biscuit baked	15	"

And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

Portsmouth Steam Factory for Sale.
Pursuant to resolutions passed at a special meeting of the Corporation holders at, Portsmouth, N. H., on the 17th inst., will be sold at Public Auction, at the Mills of the Company, at said Portsmouth, on MONDAY, the seventh day of August next, at 11 o'clock A. M.,
All the Real and Personal Property of the Corporation situate and being in said Portsmouth, comprising the following, to wit:
The Steam Mill, 100x30, six stories high, with two wings, each 100x30 feet, with extensive dye house and bleachery of the most approved construction, with all the machinery, fixtures, tools, furniture, materials and stock in trade. Most of the machinery is new and all capable of immediate production, and the Mill has a capacity equal to thirty thousand dozen of spool cotton per week.
The Sagamore Mill, so called, now under lease to the Kockingham Mill and subject thereto.
A Dwelling House on Islington street, usually occupied by the Agent of the Factory.
Also, 14 houses in the vicinity of the Mill, used as boarding houses for the operatives.
One store house on Parker street, and one on Rock street.
A schedule of property may be seen at the office on the day of the sale.
The sale will be positive on that day unless withdrawn under a provisional vote of the Corporation, of which due notice will be given by posterior to this advertisement.
Terms—Five per cent. to be paid at the time of the sale. Fifteen days allowed for examination of title and to complete the payments in cash or its equivalent on delivery of deeds. Title to be satisfactory.
For further particulars apply to the Treasurer.
Per order of the Committee of Stockholders.

Coal at Cost.
The Eagle Hill Mutual Coal Company.
The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to
JOHN S. HARVEY.
Je20 47 Congress st., Portsmouth.

COAL AT COST.
EAGLE HILL MUTUAL COAL COMPANY.
This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.
The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 4000 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.
Any one who will take the trouble to investigate the facts, will see at once that the croakings of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to the particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being the proprietor of the most extensive Medical Institution in the Old World,) of obtaining the safest as well as the latest remedies for these diseases, after long experience has demonstrated more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. Teller they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who testified to Dr. Teller's great success, and now rejoice in all that makes life desirable and man happy. The reader is of course aware that the publication of this subject, will be a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete Guide to Married Life, containing hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of these Pills will be 50,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine for other stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid using their name. For reason see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We invite all those in want of the very best Stove in the market, to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 Endicott Street, Boston, (OLD NORTH,) on diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience, he is enabled to cure. Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has the sole right for the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
Please read the following:
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases peculiar to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to our office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

The Chronicle.

— At Randolph, Wis., on Monday of last week, farmer Windsor took a young woman, not his wife, to a circus. Straightway walked his wife to the druggist, of whom she bought some arsenic. This she inserted into a pie of which her husband was very fond. He ate it next day at dinner, and that night was past the region of flirtation. Mrs. Windsor's address is at Madison jail.

— A modest young girl having visited the Fifth Avenue Hotel very frequently with a bandbox, bringing home, as she said, bonnets to the ladies stopping there, suspicion was aroused, and her box being opened was found to contain a pair of men's boots. The mystery of many robberies from the rooms of the guests was thus explained, and the girl was arrested.

— Information received at the Freedmen's Bureau states that Mayor Collins, of Portsmouth, Va., was arrested on Thursday by the military authorities, upon complaints of his harsh treatment of colored people arraigned for trial for offences in that city. After an examination the Mayor was released with advice.

— Miss Braddon, the novelist, like Miss Evans, has her domestic dark spot. She is not the wife of Maxwell, the publisher, at whose board she sits, while Maxwell's wife is confined in a mad house. The pair live at Windsor.

— Rev. Lyndon S. French, of Franklin, Vt., had six sons in the service of government at once—five in the army and one in the navy. All escaped unharmed, except one who received a severe but not dangerous wound at Cedar Mountain.

FAMILY MEDICINES
Need only be known to be universally esteemed.
FAMILY PILLS.—The Pills are wholly Vegetable, and although effective, are an easy and safe physic for the most feeble constitutions, and have proved effectual for the following Diseases: Headache, Dysentery, Fits, Pain in the Side, Stomach and Bowels, Jaundice, Liver and Spinal Complaints, and all Kinds of Bilious Disorders.
N. B.—Every one who buys and uses these Pills, shall have all the pay refunded, if he finds them not worth all they cost.
DR. SWETT'S PANACEA, for Cancers, Leprosy, Salt Rheum or Ring's Evil, Erysipelas or St. Anthony's Fire, Canker in the Throat or Mouth, Rising in the Head, Sore Eyes, and Consumptive Complaints.
VEGETABLE ANTI-DYSPEPTIC BITTERS.
VEGETABLE CATHARTIC CONSERVE, for Piles, Dyspeptic Complaints, and Costiveness. It is a pleasant, easy, sure, and highly recommended Physic for Children.
HUMOR WASH.—This preparation speedily cures sores and pimples of the face. Its immediate efficacy is its recommendation.
COMPOUND CORDIAL OF DANDELION, SPIKENARD AND BONESET.—a remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
NERVE LINIMENT, highly recommended for Rheumatism, Pain in the Head, Breast, Back or Joints, stiff Neck, sore Throat, Croup, the Piles, Sprains, &c.
☞ The above, with other valuable Preparations, for sale by DR. S. SWETT, No. 7 High St., PORTSMOUTH. Orders by mail or express, promptly filled. my8

U. S. SANITARY COMMISSION
ARMY & NAVY CLAIM AGENCY.
No Charge for Services.
S. HOLMAN, Local Agent,
Office, No. 5 CONGRESS STREET, (up stairs.)
The U. S. SANITARY COMMISSION desiring to relieve Soldiers, Sailors, and their families from the heavy expenses usually paid for the prosecution of such claims, have established this Agency, for the collect pensions, arrears of pay, bounty and other claims against the Government, WITHOUT CHARGE OR EXPENSE OF ANY KIND to the parties claimant.
On application sent to this Agency, stating the name and post office address of the claimant, the name, rank, company, regiment, service, and State of the soldier on whose account the claim is made, date of discharge or death; the proper blanks will be filled out as far as possible and forwarded to the person applying. These can be executed and returned to this office, where the claim will be prosecuted to a final issue in the shortest possible time. jy7

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
76 State street, opposite Kilby street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full account of patents granted in the United States and Europe, render him a competent, and in the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more competent and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has secured for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN ARTICLES, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.
Boston, Jan. 1, 1865.—StawIy

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE PILLS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppression of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His services will be sent to any part of the country by express or mail; addressed to the communication stating particulars, will receive prompt attention.
Office, No. 22 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded, to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor alone.
Address Dr. Briscoe, at No. 22 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. THSly

DR. M. BRISCOE still continues his successful practice in all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may "save you much suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, AUGUST 2, 1865.

LEE'S LETTER TO MOSBY.—The following letter from Lee to Mosby was captured last Spring by one of our officers, and shows that the outrages then commited had the approval of the former:

HEADQRS. ARMY NORTHERN VIRGINIA, Sept. 19, 1864.

Lt. Col. John S. Mosby, Commanding, &c.:

COLONEL:—Your report of the operations of your command from the 1st of March to the 11th of September is received.

I am much gratified by the activity and skill you have displayed, and desire to express my thanks to yourself and the brave officers and men of your command for the valuable service to the country.

The smallness of your loss in comparison with the damage inflicted upon the enemy, is creditable to your own judgment and to the intelligence and courage of those who executed your orders. I hope you will continue to harrass the enemy's troops as much as possible, and restrain his efforts to exercise civil authority in the counties in which you are operating. I inclose copy of a letter written some time since, in case the original should not have reached you, and call you attention to the instructions it contains. Very resp'ly, your obd't serv't,

R. E. LEE, General.

This, we suppose, is a specimen of chivalry. We perceive it stated that Robert E. Lee, late Maj. Gen. in the rebel army, is sojourning at the Clifton House, Niagara Falls. It is said that C. L. Vallandigham has also gone to the same place, probably to have a conference with the noted chieftain. He had better not come back: but wherever he goes, "let him be a fugitive and a vagabond in the earth," but let no man slay him: let him live and die like Arnold and Burr.

RICHMOND, VIRGINIA.—The Richmond Whig of Saturday contains the orders of the military authorities prohibiting the recently elected members of the City Council and Aldermen from organizing, and declaring null and void the election. The members appointed a committee to inform Governor Pierpont of the prohibition. Gov. Pierpont promised to do all in his power to represent the municipal election case to the authorities at Washington, and request of them the removal of the order prohibiting the exercise of the functions required by the offices to which obnoxious gentlemen have been elected. It is further stated that a meeting of prominent citizens was held on Saturday to concert measures for new municipal officers of Richmond.

The President of the Petersburg Railroad Company has been notified by the U. S. Marshal that he has seized shares of stock of that road belonging to James A. Sheddon and thirteen others.

A FORGERY.—We had not deemed it worth while to brand as spurious a reported conversation between President Johnson and Senator Sumner, relative to the suffrage question, in connection with the appointment of a provisional Governor for North Carolina; but its reproduction in this State, in apparent good faith, by a paper professedly loyal, makes it proper to say that Mr. Sumner has not been in Washington since the early part of May, and could, therefore, not have met the President since the proclamation referred to was issued, which bears date the 29th of that month. It is proper to say that the copperhead fraud totally misrepresents the relations which exist between the President and the eminent Senator from Massachusetts. *Wash. Chron.*

☞ The New York Independent gives an account of the manner in which Mr. Horace Greeley economizes his time. He gives the early and freshest hours of each day to dictating to his secretary his History of the American Conflict. He then strolls into the Independent office, and finally, towards evening, gives his attention to the Tribune, "doing more work after dark," says the writer, "than two ordinary men all day."

— The Scientific American says that on the 15th inst. a boiler blew up in the city of New York, instantly killing one man and severely scalding the engineer, having upon it an arrangement which an intelligent engineer had offered to make safe at a cost to the owners of fifty cents, or, if they would send the part spoken of to his shop, he would fix it for nothing.

— One of the New Orleans papers, in noticing that Gen. Banks had settled in that city and gone into the practice of law, quietly remarks that there will be a vacancy in the Senate from Louisiana next year, and six representatives are to be chosen to Congress.

— Eighteen years ago there were not probably three hundred volumes of English books in California. Today it is estimated that there are within the limits of the State not less than two million volumes. Many large public and private libraries attest the progress of civilization.

— A number of freedmen in Virginia have applied to Gen. Howard to sustain their demand for compensation from their old masters, from the date of the emancipation proclamation.

— The Bartlett and Globe cotton factories in Newburyport, have raised the rate of wages, being in want of several hundred hands.

NEW HAMPSHIRE ITEMS.

—— The golden wedding of Mr. & Mrs. Samuel Carter of East Concord, was celebrated on the afternoon of the 25th. Fifty friends were present.

—— A Mr. White, recently landlord of a hotel at Stoneham, has been held in $20,000 for trial, on a charge of complicity in the robbery of the Savings Bank at Waipole, N. H., some months since. He is now in jail.

—— The survey of the railroad from Manchester to Keene has commenced.

A FUNERAL INSTEAD OF A WEDDING. A telegraphic dispatch was received in Manchester on Saturday last, announcing that Capt. Stowers died at Bucksport, Me., that day. The deceased was to have been married on the next Tuesday to Miss Mary F. Cutler, daughter of Mr. Nathan Cutler of Bedford. The prospective bride went to the funeral on Tuesday. Thus instead of being joined in wedlock to her affianced on the appointed day, she followed him on that day to the grave.

PICKPOCKETS, in Boston, were busy among the crowd who gathered round Gen. Grant. A. M. Hersey, felt a strange hand entering his pocket, and suddenly turning, seized the intruder by the collar, but the person managed to slip out of his coat and escaped, while Hersey retained the garment, and found $25 in current money in one of the pockets. Two pickpockets, William Osborn and William Pond, were arrested, and several wallets were found on Osborn, containing money in considerable sums.

A SAD TALE is told in the following few words, from the Newburyport Herald.

Died, in Byfield, July 12th, Hattie Davis, aged one year and two months; July 15, Charles Fremont, aged 5 years and 11 mos.; July 24, Alice Ann, aged 3 years and 11 months; children of John L., and Hattie M. Floyd. The above composed all the children of Mr. Floyd's family; and were all taken in a single month. Like the grass of the field they withered and were not. Mr. Floyd is a veteran soldier of Captain Noyes' company, of the 4th Heavy Atillery, and returned to his home suffering from chronic diarrhea; with the same complaint his wife was soon afflicted though likely to recover, and it extended to the children, taking one after another till none remain. To the bereaved parents it is a most sad affliction.

— The Biddeford Journal says the Pepperell Mills in that city have increased the wages of their operatives upward of 20 per cent., so that old hands (females) are making readily $1 25 per day. Female operatives are in good demand. The Company would run all their spindles if they had sufficient help.

WORKINGS OF THE NEW CONSTABULARY.—Since High Constable King commenced notifying the liquor dealers in Boston to discontinue their traffic, 203 of 400 who have received such notices have signified at headquarters their intention to acquiesce in the request.—*Herald.*

— The Jackson Mississipian says: "We learn that unbleached domestics in this city have fallen from 75 to 45 cents per yard." On which the Vicksburg Herald sagely observes: Unbleached domestics have fallen here from eighteen hundred dollars to zero per head."

☞ It is stated that the Consulship to Gaboon in Western Africa, having been tendered to J. C. Babcock of New York, that gentleman respectfully declined it, expressing a desire to be appointed bearer of dispatches this summer to the White Mountains, provided the latter office would not prejudice his application for a more favorable appointment.

— An opera troupe at Cassel in Germany, had a most serious attack of indisposition—to play—consequently opera goers found on the theatre door a placard to the following effect: "In consequence of the sudden fits of Fraulein Grün, the continued indisposition of Herr Gerso, the cold of Herr Presz, and the impossibility of finding Fraulein Hofi, the representation of the opera is postponed."

— A correspondent of a Washington paper proposes that Ford's Theatre should be converted into a free public library for the use of the citizens of Washington. This is a good suggestion, and would be a source of lasting benefit and instruction, particularly to the clerks and young men who have so many leisure hours in that city. The Congressional and Smithsonian libraries are practically closed to the public, and something of the kind is sadly needed at the Capital.

— On Monday morning, a fire in Williamsburg, N. Y., destroyed fourteen dwellings on Linden place and Sanford street, occupied by families of middle and poor classes. The firemen found in one of the buildings a quantity of counterfeit dies and plates of the fractional currency, also a box of partly printed fifty cent notes.

WASHINGTON ITEMS.—The Boston Herald's Washington correspondent states that the published story that the President has superseded the Louisiana State Government is a fiction, altho' he has been urged so to do.

THE WIFE'S VICTORY.—The Newburyport Herald tells the following story of a late battle and victory.

One rum place in this city was recently closed by a woman in a summary manner. Her husband would drink to intoxication, and the rum-seller would furnish him and encourage him to drink. A few days ago, while she was at the wash tub, she knew that her husband was drinking in a neighboring den. She sent a little girl to call him home, but he refused to go. "I will go after him myself," she said; and away she went. The rum-seller concealed the man and refused to say where he was. Being enraged, she seized a water pitcher from the bar and let the "break of day" upon his brain, felling him to the door. A second man came to the rescue, but he found himself in the like horizontal position. Then rushed in the wife of the rum-seller, cautioning her, like Mrs. Jeff. Davis, when her husband was captured, that the rum-seller was a dangerous person and she had better escape. Her reply was that he would not harm anybody when she was done with him; and as he began to move, she gave him another rap on the head. She then left and made a complaint against him for keeping a liquor nuisance, but the warrant not being served till the next morning, the officer found that the place had been closed and the keeper gone.

THE LIQUOR SELLERS.—Col. King, the Massachusetts State Constable, in the pursuance of his new duties under the laws of the State, has established three destinctions among the liquor sellers, as follows:—1st, hotel keepers and grocers; 2d, eating houses where liquor is sold; 3d, places where the traffic is in liquor alone. He should have added another class, which is composed of fancy goods stores where liquor is sold disguised under the name of patent medicines.—*Gloucester Tel.*

— Lieut. Col. G. W. Ballock, of Great Falls, has been appointed by Gen. Howard Chief Commissary and inspector of Subsistence in the Bureau of Freedmen, with his headquarters in Washington. Col. Bullock has a noble record in this war. He went into the field with the 5th regiment, as 1st Lieutenant, October, 1861.

— At the Yale College Commencement dinner Gen. Ullman said he was authorized by the Secretary of War, a few days ago, to say that there had been recently disbanded, or were now in process of disbandment, 782,542 soldiers, and that we had a million of men in the field when Lee surrendered.

— A man named Joseph Creel, who was a lad of two or three years when Washington was born, is now living in Wisconsin, aged 139. He is a great smoker, and the doctors think that but for this he might live to be old.

— Wm. L. Ford of Co. F., 30th Maine regiment, cut the throat of a colored man in Savannah named Richard, on the 31st inst. and was arrested. Richard was wounded while attempting to hinder Ford from stealing a two dollar bill.

— Ten thousand freedmen and their families are farming for themselves in the neighborhood of Vicksburg, with excellent results; doing much better than those who worked by the month for wages.

— A lady from Boston passed over the Grand Trunk road on Wednesday of last week, on a visit to friends in Buckfield; the next day her dead body passed through Portland on its way to her former home.

— The Newbern, N. C., Times of July 28 says the shipments of cotton, naval stores, &c., are larger than at any time in the history of the place.

— Many persons who invested all they had in Confederate bonds are now blowing out their brains. But it isn't thought the destruction of brains amounts to much.

— The Spiritualists have discovered that the eating of eggs by the medium causes the "spirits" to come out in greater force. It adds more phosphorus to the human body, and, consequently, to the medium. So says an item. Eggs, and spirits, and phosphorus! What will be discovered next?

BLACK TONGUE.—Our correspondent "Jon" writes us from Boston that the black tongue is alarmingly prevalent in that vicinity, but that, singular to say, the berrying is performed before the epidemic makes its appearance upon those affected.

☞ One Boston paper, in mentioning the arrival of the U. S. Monitor Agamentcus, says she was "built at *Plymouth last year!*" The Kittery people may be indignant at this; but those in Portsmouth will only smile at the error.

— But one solitary rebel prisoner remains in our hands—Capt. Wertz of Andersonville prison notoriety.

'TIS NOT A FABLE.—The immense and universal demand for the Fragrant Sozodont, is a marvel in the annals of Dentistry. It exceeds all other dentifrices combined.—Neither acid from the stomach, nor any other corresponding element generated by indigestion, can effect a set of teeth regularly purified by this Fragrant Vegetable antiseptic and preservative. au2 1wood 3

A FEW REASONS WHY THE

AMERICAN WATCH

IS THE BEST.

It is made on the best principle, while the foreign watch is generally made on no principle at all. The foreign watch is mostly made by women and boys, BY HAND. While their labor is cheap, their work is dear at any price. Such watches are made without plan, and sold without guarantee. They are irregular in construction, and quite as irregular in movement. They are designed only to sell, and the buyer is the party most thoroughly sold. Those who have kept "chores," "lepines," and "Swiss levers," in professed repair for a few years, will appreciate the truth of our statement.

THE PLAN OF THE AMERICAN WATCH. Instead of being made of several hundred little pieces, screwed together, the body of the American Watch is formed of SOLID PLATES. No Jar interferes with the harmony of its working, and no sudden shock can throw its machinery out of gear. In riding or any business pursuit, it is all held together as firmly as a single piece of metal. It is just what all machinery should be—

1st. ACCURATE. 2d. SIMPLE. 3d. STRONG. 4th ECONOMICAL.

We not only secure CHEAPNESS by our system, but QUALITY. We do not pretend that our Watch can be bought for less money than the foreign *make-believes*, but that for its real value it is sold for one half the price.

OUR SOLDIER'S WATCH (named Wm. Ellery) is what its name indicates—Solid, Substantial, and always Reliable—warranted to stand any amount of Marching, Riding or Fighting.

OUR NEXT HIGHER QUALITY OF WATCH (named D. S. Bartlett) is similar in size and general appearance, but has more jewels, and a more elaborate finish.

OUR LADIES' WATCH, recently brought out, is put up in a great variety of patterns, many of them of rare beauty and workmanship, is quite small, but warranted to *keep time.*

THE PROOF of the merits of our Watch may be found in the fact that we now employ over seven hundred workmen in our factories, and that we are still unable to supply the constantly increasing demand.

OUR THREE-QUARTER PLATE WATCH is thinner and lighter than the others we have described. Its fine chronometer balance is delicately adjusted to correct the variation caused by changes of temperature. These watches are the fruits of the latest experiments in chronometry, and are made by our best workmen, in a separate department of our factory. For the finest time-keeping qualities they challenge comparison with the best works of the most famous English and Swiss makers.

ROBBINS & APPLETON,

Agents for the American Watch Company,

Jy28—1m 182 Broadway, N. Y.

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which has been seen of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Proclamation No. 64.

All peaceable and well disposed citizens who will purchase one bottle of PEASE'S VEGETABLE HAIR RENEWER, will find the result as follows: It will turn your Gray Hairs to their natural color; it will prevent your hair from falling off or becoming gray; it will keep your head clean and healthy; it will dress your hair beautifully; it does not smell of sulphur. Ask your druggist for Pease's Hair Renewer, and take no other. Also, PEASE'S PHILOCOME is unsurpassed as a Hair Dressing. No Lady will be without it who knows its value. *See Circulars.*

This splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black* or *Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY STREET, N. Y. **Batchelor's New Toilet Cream** or Dressing the Hair. Jy9—1ydaw

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spnaw1ymy23

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers her

SOOTHING SYRUP

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

TEBBETTS BROS., Proprietors,
Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. ap7sn6md

CLOCK'S

Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; causes new hair to grow on BALD HEADS where fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be returned. It is pronounced the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, 2 Congress Block.

FRANK B. CLOCK, Druggist and Chemist, Proprietor, Manchester, N. H. j4

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Hundreds have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *free of Charge.*

Please inclose a stamped envelope, addressed to yourself.

Address JOSEPH T. INMAN,
Station D, Bible House,
d24sndaw New York City.

☞ **A Physiological View of Marriage**—Containing nearly 800 pages, and 130 fine Plates and Engravings of the Anatomony of the Human Organs in a state of Health and Disease, with a Treatise on Early Errors, its Deplorable Consequences upon the Mind and Body, with the Author's Plan of Treatment—the only rational and successful mode of cure, as shown by the report of cases treated. A treatise invaluable to the married, and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of 25 cents, in stamps or postal currency, by addressing Dr. LA CROIX, No. 31 Maiden Lane, Albany, N. Y.

The author may be consulted upon any of the diseases upon which his book treats, either *personally* or by *mail*, and medicines sent to any part of the world. mch13—3mdawsn

Manhood!

How Lost! How Restored!

Removal,

DR. PERRY has removed to **No. 8 High Street,** (East Side), fourth dwelling-house from Market Square. a7

Local.

OUR ANNIVERSARY.—It is just thirteen years to day since we issued the first number of this Daily Chronicle. And while our Prospectus in advance stated, somewhat differently and more assuredly than the usual wording of such documents—that we *should* thenceforth from the 1st of August, print a daily paper, &c., instead of, that we proposed to, or designed to do it; so also we have ever felt that our enterprise was established from the first, D. V. We don't know that we have anything new to offer respecting ourselves at this time, except to thank all who have aided us in any way. We feel that we have done as well as we could under the circumstances, and we only hope to improve with our constantly increasing patronage.

☞ The Levee given by the guests at the Atlantic House, Rye Beach, in compliment to Admiral Farragut, on Monday evening, was one of the most brilliant and successful affairs of the sort which has come off in this vicinity for a long time. While the cool weather and the bracing breeze rendered the sunset and moonlight rides delightful indeed; the large and gay company which thronged the house,—embracing, besides the numerous boarders, many of our most distinguished citizens and officers of the Navy Yard, and residents of other towns and cities who came to attend—the inspiriting music, and the presence of the gallant hero of the occasion, all went to make up a most lively and interesting scene. A superb entertainment was served by mine host Lougee, to which ample justice was done; and to the fine music of Lamprey's Quadrille Band, the young folks (and who is old on such occasions?) tripped "the light fantastic" we don't know how long, or whether they have done yet. The affair was in charge of Messrs. A. A. Marsh, C. W. Wooly and J. F. Miller of Cincinnati; A. Sigourney Bird, Joseph Dorr and F. L. Nichols of Boston; and J. E. Rider of this city—and the completeness of all arrangements speaks well for the enterprise and liberality of all concerned.

☞ His Excellency Governor Smyth and lady visited the Navy Yard on Monday, and received a salute of fifteen guns. He was entertained by Admiral Bailey and Capt. Murray in their usual courteous manner,—escorting him through the Yard, and gratifying his curiosity by showing him the various objects of interest connected therewith.—Their "Excellencies" visited Mr. March at Greenland in the afternoon, took tea at the Ocean House, and attended the Atlantic House Levee in the evening—in charge of Col. Chas. G. Pickering of *their* staff. They passed the night at the Rockingham, in this city, and took the early train for Concord this morning. Live rulers, they—a right royal couple, truly.

☞ Remember the moonlight excursion by the steamer Pioneer this evening, and also that the fare is placed at a low figure. If fresh, invigorating breezes, sparkling, swiftly-flowing waters, and beautiful, dimly-outlined scenery, combined to an indefinite extent with moonlight and romance, have any appreciable value, then you will certainly get the worth of your shillings.

☞ The firing of cannon on Monday morning about 9 o'clock, was at the Fort on Sullivan's Island, preparatory to removing them, no further use being anticipated for these weapons of war.

☞ A regular Quarterly Meeting of the Mechanic Association is to be held this (Tuesday) evening, at half-past 7, at the new "Exchange" and Reading Room, in Nowell's Building.

POLICE COURT, July 31.—A stranger who wishes his name suppressed from the public print was arrested for fast driving, and fined $3, costs $3.86. The above case comprises the business of the P. C. today, and by-and-bye it is hoped that this institution will be abolished altogether. As long as it exists, however, we feel obligated to inform the public of its doings, and cannot be intimidated or induced to desist by any threats or promises. So look out!

FATAL ACCIDENT IN RYE.—On Saturday evening Mr. John Dow, son of Capt. Albert Dow, of Rye, was fatally injured by the discharge of a gun which he was taking from a closet. The charge entered the left cheek, passing up through the brain, causing death in a few moments. His age was 17 years. An only son and child, the loss to the father is irreparable,—while his many friends who loved him for his many characteristics of goodness, feel deeply the loss. The funeral on Sabbath afternoon was very largely attended by sympathizing neighbors and friends.

☞ The Rebellion Record, part 48, contains portraits of Gens. Sheridan and Townsend. Among the documents in this number is Jeff. Davis' Message to *his Congress* in Dec., 1863, which, with its ingenious lying and crafty plans was formidable then, but is pitiably ludicrous now. It is well to preserve it. The Record is published by D. Van Nostrand, New York.

☞ On Saturday evening last as two ladies, the wives of Oliver Gerry and Sylvanus McIntire of Kittery, were crossing the Boston and Maine Railroad track near Blubber Hollow, So. Berwick, a train of cars struck the horse, killing him instantly, and threw the occupants out of the carriage, injuring them severely, although we learn that no bones are broken. It is said that the whistle was blown, but the railroad crossing running through a high embankment hid the cars from sight and prevented the sound of the whistle from reaching the ears of the ladies in the carriage. It was a very narrow escape from death.

— Jeremiah S. Putnam has been appointed Collector of the port at York.

— James T. Clark of Paris, Maine, has a four acre lot which produces three tons of hay to the acre; and last year, besides the hay, produced thirty barrels of apples.

— The Boston Post of Saturday, 29th, says B. F. Delano, naval constructor at the Brooklyn Navy Yard, has been confined to his room by sickness since the 13th inst., and at one time his life was despaired of. He is now convalescent, and if he has no drawback he may be able to resume his duties next week.

— Enoch S. Williams, a distinguished mechanic, machinist, manufacturer and merchant, died in Newburyport last Friday, aged 64.

— Mrs. Rebecca W. Clark, widow of Capt. Thomas M. Clark of Newburyport, died last week at the age of 81, in the house of her son, Rev. Rufus W. Clark, at Albany, N. Y.

— Gov. Fletcher of Missouri officially announces that the voters have adopted the ordinance for the payment of the railroad and State indebtedness of Missouri. The vote stood 39,067 in favor of the ordinance and 20,900 against it.

— It is understood the rebel ram Stonewall is now at the service of our government, but will not at present be brought to the United States for fear of the yellow fever, which is now prevalent in Havana, where she lies.

— Some old slavocrats of Alabama and Florida, find it as difficult to understand free labor, as the dunce in the village school did to spell correctly in the new school house. He "couldn't get the hang of it," and they don't.

Time is money, and there need be no *time* lost, or suffering from Dysentery, Diarrhea, &c., or distress from eating, if you will keep a bottle of DR. BICKNELL'S SYRUP by you; it is a pleasant, safe and sure thing.

For sale in Portsmouth by THACHER.

☞ Subscribers will confer a favor, and facilitate the prompt delivery of their papers, by *immediately* informing us of any deficiency or irregularity of our Carriers. All papers should be delivered before 7 o'clock—and all subscribers should furnish a secure place of deposit for their papers. We will give $10 reward for evidence to convict any person of stealing a copy of the Chronicle. Our Carriers are not allowed to sell copies of the paper.

BEHIND THOSE ROSEATE GATES, the lips of girlhood, ther should be a fragrant palace, elegantly furnished with ivory and coral. To drop metaphor—young ladies, you should keep your teeth and gums in perfect order, if you hope in after-life to enjoy the blessings of a sound set of dentals and a sweet breath. What will enable you to do this? you ask. Fragrant Sozodont, we reply. 2

VINELAND LANDS.
To all Wanting Farms.
Large and thriving settlement, mild and healthful climate, 30 miles south of Philadelphia by railroad. Rich soil, producing large crops, which can now be seen growing. Ten, twenty, and fifty acre tracts, at from $25 to $35 per acre, payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Papers giving full information will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*
From Report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.
Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; 2000 for sale. Price $20 per share; $50 per Share after August 1.
Stock full paid, and no individual liability. Company organized under the General Law of the State of New York, with a Board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.
We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in GOLD. Any Clergyman, Insurance Agent, or Cashier of Bank is authorized to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York, R. W. H. FREEMAN, Esq., Cashier of the Atlantic Bank, 143 Broadway, or BERGMAN CAMP, Esq., 25 Nassau Street.
Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion at the net profit of $2,000 per day, or $1,000,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SPROUL, President.
S. B. HUTCHINSON, Secretary.
Office: 80 BROADWAY, over Am. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make their 25 to 50 dollars every day. State or county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business.—With pay 6 to $10 per day. This is no humbug, no right or medical humbug, but an article of merit, needed by everybody, and sold at less than half the usual price, with 200 per cent profit to our agents. Samples and circulars sent free by mail for 25 cents. WHITNEY & SON, No. 6 Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or the hardship of a military life, will find DR. RICHARDSON'S BLOOD ROOT ELIXIR a sure medicine to restore them to health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately change the character of their secretions*,—thus arresting the cause of their weakness or debility. Through its action in the Blood, it will expel all *Humors and Impurities*, that are working a slow but certain effect, invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. To a *Costiveness* and the *Piles*, it is the best remedy ever discovered.
Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.
The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, BOSTON, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.
For CONSUMPTION, it is the only reliable remedy known. It has in the hands of many physicians restored patients that seemed past hope of recovery; and, in fact, thousands have arrested the disease in its primary stages, and restored the patient to robust health.
BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.
FEMALE DEBILITY. To sustain and augment the forces; to make new rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.
In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 168 Court Street, Boston.

SAVE YOUR MONEY!
Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.
Wilbor's Monitor Hair Dye
Is superseding all others. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.*—Manufactured only by ALEX. B. WILBOR, Chemist, No. 168 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, *and Jan.* 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

THIS NEW

PETROLEUM Cooking APPARATUS

IS WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in 15 minutes
Common potatoes baked " 30 "
Flour Biscuit baked " 15 "
And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

GEO. W. TUCKER,
LONG WHARF.

From the Portsmouth Journal

SCHOOLS TRAVEL.—It is said that the amount of visiting at the various watering places in this State is considerably smaller than that of last year. Of the Beaches, that at Rye, by reason of its new Ocean House and its splendid Long beach, is by far the most attractive; and every train on the Eastern Railroad brings passengers to Greenland and North Hampton depots to visit the Rye sea shore. Hampton Beach stands lone and desolate beside it, with but little transient company. The passengers eastward to the Gorham and the White Mountains are also fewer than usual. The influx of visitors from Canada was great last year in consequence of the high rate of the gold and silver coin, which were abounding on the other side of the border. This year the difference between U. S. scrip and coin being much less than last year, and the hotel and travelling charges being no less, the Canadians have to pay more dearly, and therefore do not come in so plentifully.

ROBERT HELLER.—Had Mr. Heller been better known here, he would doubtless have had a crowded Temple last Friday evening. His performances were almost entirely new to the audience, beyond doubt the best ever exhibited here, and the mysteries of his magic art were impenetrable. His musical entertainment on Stein way's grand Piano was admirable alike in the performance and the quality of the instrument. The most remarkable of all was the "second sight." Willie, blindfolded, sits on the stage with his back to the audience, and with no appearance of mesmerism, describes accurately whatever article is shown to Mr. Heller, who goes among the audience to any part of the house to look at such things as may be shown. The entertainment is well worth attending.

WAGES AT THE NAVY YARD.—We do not understand why a discrimination in the rates of wages is made between the Portsmouth and the Charlestown navy yards. Prior to the administration of Sec. Welles the difference, was never more than twenty-five cents. Now the pay at the former yard for a class of workmen is $3.00; at the latter the same class receive $4. The pay of a quarterman at Portsmouth Navy Yard is the same as that of a third class carpenter at Charlestown. We trust that when the Franklin is compared with the products of other Yards, that no particular cause can be shown why work should be cheaper here than elsewhere.

THE PICKPOCKETS.—What induced those three Boston operators to visit our city on the day of Col. George's wedding we do not know, unless they had a knowledge that he was opposed to greenbacks instead of gold, and therefore hoped for some of the gold the Col. might put in circulation. As it was, however, it proved a rather bad speculation for them. They were bound over in the sum of $2000 each. The $6000 has been placed in the hands of their bondsmen, and as this will probably be the last that will be heard of them in this section, our county treasury will probably be enriched that amount. It is probable that other pockets elsewhere will soon have to contribute to make up for their Portsmouth misfortune.

WHORTLEBERRIES.—They were never more plenty than at the present time. They are selling in York at 4 cents, and on Thursday Mr. Avery (who by the way is among the first to take down the prices) was retailing them in our city at 6 cents per quart, beer measure.

NEW DEALERS.—Messrs. Goodwin, Sweisser & Co. have opened a store in Merchants Row for the sale of Agricultural articles generally—a sort of Farmers' Warehouse—much needed.

The great English event of the 1st week in July, was the triennial Handel Festival, at Sydenham glass palace. The Orchester and Chorus numbered four thousand persons, some days entertaining twenty thousand listeners. At the close the whole twenty thousand were to sing the National anthem.

Messrs. Ticknor & Fields have just published National Lyrics by John G. Whittier, which is the third series of Companion Poets for the People. It is elegantly printed and is everyway adapted to the classes who appreciate the best when it is within their reach.

EXECUTIVE APPOINTMENTS.—Among the recent appointments of the Governor and Council are the following:—

Sheriffs—Joseph P. Morse, Portsmouth, for Rockingham; Luther Hayes, Milton, for Strafford; Charles Scott, Peterborough, for Hillsborough; George W. Holbrook, Surry, for Cheshire.

Chaplain State Prison—Samuel Cooke, Concord. Surgeon State Prison—Albert A. Moulton.

Trustees for Insane Asylum—George B. Twitchell, Joseph B. Walker, Dennison R. Burnham.

Bank Commissioners—Cornelius V. Dearborn, Peterborough; Elijah Wadleigh, Wakefield.

Insane Commissioner—Joseph Gilman, Tamworth.

Trustees House of Reformation—Richard N. Ross, Dover; Moses Humphrey, Concord.

Justices of the Peace, Rockingham County—John H. Kimball, Exeter; B. F. Clark, Stratham; Caleb Moulton, Hampstead, A. S. Smith, Pelham; Samuel G. Haynes, Deerfield; Geo. B. Webster, East Kingston; Ashahel Weeks, Chester; John P. Sanborn, Kingston; Frederick Robinson, Brentwood; Samuel L. Blaisdell, East Kingston; John D. Brown, Raymond; William F. F. Underhill, David L. Batchelder, Chester; Benjamin W. Curtis, Emery A. Dresser, Edmund W. Brown, Edward L. Currier, Portsmouth; James C. Taylor, Isaac H. Jones, Derry; Ebenezer Prescott, Raymond; George A. Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to

JOHN S. HARVEY.

Je29 47 Congress st., Portsmouth.

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day, but officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 4000 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the facts, will see at once that the crookings of coal monopolists have no application to this company, which is as safe and sure as any railroad or bank stock in the market.

JOHN S. HARVEY, 47 Congress St.,
Jy18tf Agent for Portsmouth.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully applied on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

All Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, All Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been treated by him than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have imagined their health irretrievably ruined, the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting the Doctor, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, and now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete guide to Married Life, contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases, and his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should not use these pills, unless they see directions which accompany each package, for the guidance of patients. On the receipt of $1, the price per box, these pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.
The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven of larger size than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease or management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We invite all those in want of the very best Stove in the market, to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.
"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

SPANISH ROUGE,
FOR POLISHING,
XL
Or Cleaning Gold, Silver, silver Plated, Brittania, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For the purpose intended this article cannot be equalled. Twelve cents invested in a package of this, will add more to the looks of a home than one hundred dollars spent in new ware. Every article of any kind of metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which always gives a smile upon the faces of all. The labor of keeping every article of metal polished with the Spanish Rouge is reduced to almost nothing, and pleasure. It removes the tarnish at the brush of the hand. *It is a mineral without any composition whatever, therefore can do no harm.*
Put up in three different qualities, for the finest Gold to the coarsest Metals.
Try the Spanish Rouge, and it will become a household word and a great assistant. Every person who has a ring or ear-drop, to an engine manufacturer, needs it. For sale by Druggists and Grocery Dealers everywhere.

Sole Agents for Portsmouth.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 ENDICOTT STREET, Boston, ON all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practice in diseases of unmasked extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for enjoyment, and leaves him who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charged with moderate fees. Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your case. Dr. Dow's Boston agent for the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Improved Remedies for Females
IN DISTRESS OR HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female constitution. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

DR. SIMEON SWETT'S
FAMILY MEDICINES
Need only be known to be universally esteemed.
FAMILY PILLS.—The Pills are wholly Vegetable, and although effective, are an easy and safe physic for the most feeble constitutions, and have proved effectual for the following Diseases: Headache, Dysentery, Fits, Pain in the Side, Stomach and Bowels, Jaundice, Liver and Spinal Complaints, and all kinds of Bilious Disorders.
N. B.—Every one who buys and uses these Pills, shall have all the pay refunded, if he finds them not worth all they cost.
DR. SWETT'S PANACEA, for Cancers, Leprosy, Salt Rheum or King's Evil, Erysipelas or St. Anthony's Fire, Canker in the Throat or Mouth, Rising in the Head, Sore Eyes, and Consumptive Complaints.
VEGETABLE ANTI-DYSPEPTIC BITTERS.
VEGETABLE CATHARTIC CONSERVE, for Piles, Dyspeptic Complaints, and Costiveness. It is a pleasant, easy, sure, and highly-recommended Physic for Children.
HUMOR WASH.—This preparation speedily cures sores and pimples of the face. Its immediate efficacy is its recommendation.
COMPOUND CORDIAL OF DANDELION, SPIKENARD AND BONESET—a remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
NERVE LINIMENT, highly recommended for Rheumatism, Pain in the Head, Breast, Back or Joints, Stiff Neck, Sore Throat, Croup, the Piles, Sprains, &c.
☞ The above, with other valuable Preparations, for sale by DR. S. SWETT, No. 7 High St., PORTSMOUTH. Orders by mail or express, promptly filled. my8

U. S. SANITARY COMMISSION
ARMY & NAVY CLAIM AGENCY.
No Charge for Services.
S. HOLMAN, Local Agent,
Office, No. 5 CONGRESS STREET, (up stairs.)
The U. S. SANITARY COMMISSION desiring to relieve Soldiers, Sailors, and their families from the heavy expenses usually paid for the prosecution of such claims, have established this Agency, to collect pensions, arrears of pay, bounty and other claims against the Government, WITHOUT CHARGE OR EXPENSE OF ANY KIND WHATEVER TO THE CLAIMANTS.
On application sent to this Agency, stating the name and post office address of the claimant, the name, rank, company, regiment, service, and State of the soldier on whose account the claim is made, date of discharge or death; the proper blanks will be filled out as far as possible and forwarded to the person applying. These can be executed and returned to this office, where the claim will be prosecuted to a final issue in the shortest possible time. jy7

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal and other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials herewith prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can refer to more than a hundred of the first, that the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him ably, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure patents, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has prosecuted FIFTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such facts are proof of great skill and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in court of his large practice, made on *twice* rejected applications 31 TREE APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.
Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, Spinal Weakness and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His remedies will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. BRISCOE, by letter describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use.
Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Carriages.
Persons thinking of purchasing CARRIAGES, would do well to call on or address
J. H. RANDLETT, Dover, N. H.
He having bought out the Firm of MOODY & HOBBS, is prepared to offer for sale in Dover, a large stock of Carriages, of
Better Style and Workmanship
than can be found elsewhere in the State,—consisting of Carryalls, Brownells, Sun Downs, Open Buggies, Top Buggies, Concord Wagons with one or two seats, and Express Wagons.
And any quantity of SECOND-HAND CARRIAGES, such as Buggies, Chaises, Wagons, &c.
Call or address as above, or orders may be left at the Chronicle Office. my13m

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, AUGUST 3, 1865.

SHOWING THE CLOVEN FOOT.—Tuesday's New York Evening Post contains a report of the proceedings at a private meeting of the friends of Jeff. Davis, held in New York City, Monday, professedly "to devise means for the fair and full defence of Jefferson Davis and his associates, so that whatever happens, justice may be done."

[When *justice* will be done, the miserable man will be condemned and punished.]

The meeting was held at the rooms of Mr. Carlos Butterfield, who was present. At the suggestion of Mr. Peter T. Cutter, a committee was appointed to raise funds for the object stated, and to consult with Chas. O'Connor, Esq., as counsel, and to adopt other necessary measures.

The following gentlemen were named as the committee: Mayor Gunther, Carlos Butterfield, Theodore Martine, Douglas and Clancy. The Mayor was absent, but he sent his regrets and assurances of hearty co-operation. Messrs. Surrogate, Tucker, Mr. Brown and Mr. Livingston of Mobile were among those present. Messrs. Cutter, Tucker and Livingston were the principal speakers. They regarded the failure of the rebellion as but temporary; the spirit that originated it still lives, and by the assistance of their friends at the North, it can still be successful in another way. Mr. Livingston said Alabama would be represented in Congress by men who were soul and body in favor of Southern independence; that Mrs. Surratt's execution had excited the indignation of the world, and that the Government dares not to trust Mr. Davis to a trial. He also said that any person who would regard the course of the South as treasonable would be looked upon as a madman or a fool.

[The whole company richly deserve to be stationed at the Dry Tortugas.]

WASHINGTON ITEMS.—A Washington despatch says the public hope and expectation concerning the President's health has not been verified. He is still confined to his room and no visitors are allowed.

Three hundred applications for pardon were received on Tuesday.

Paymaster Wilson has returned from the interior of South Carolina, and reports the people in that section very bitter at heart against the Union and Federal authority, a unit against negro suffrage, and retain the old prejudice against the race.

The sale of confiscated lands in Florida has been postponed to the 7th inst.

Major-General Augur has been promoted to a Brevet Brigadier General in the regular army.

OLD VIRGINIA.—A gentleman who has just returned from a tour through the counties of Stafford, Spottsylvania and Orange, reports that he found the inhabitants generally in a very destitute condition, with no money, and very little of anything aside from the present crops.

The corn crop, though not very extensive, will be unusually large in yield. It is thought that more corn will be raised in proportion to the number of acres planted than was ever before produced in that section of the State.

The common people are well pleased with the termination of the war, and the rebel soldiers who have been the longest in the field appear to to be the best satisfied with the present condition of affairs.

The preachers, editors and politicians of the old States Rights school are the only ones who still adhere to the idea of Southern independence. In many instances ex-rebel Lieuts., Captains, Majors, and Colonels are engaged in tilling the soil, who, before the war, whould have considered such work degrading.

NORTH CAROLINA.—Major Gen. Hoger, commanding the Department of North Carolina, has issued an order suspending the Daily Union Banner, published at Saulsbury, for promulgating disloyal sentiments. Several papers have appeared in different parts of the State of the same stamp, which will, doubtless, be suppressed by Gen. Huger, as they are publishing sentiments of the most dangerous character. The Fayetteville News is one of the number. It says the people of this State will stultify and degrade themselves by adopting the constitutional amendment abolishing slavery, and that the new State Convention must leave slavery where they found it, as it existed before the war. Many of the Southern tier of counties in this State, bordering on South Carolina, have instructed their delegates to the State Convention to take this position and insist to the last on the adoption of the same by that body.

These poor fools are "hollerin" before they get out of the woods;—as we see it stated that the much talked of North Carolina pardons, recommended by Governor Holden and Attorney General Speed, have not been granted by the President, who still holds them under advisement. It is almost certain the list will be reduced.

GOLD, Wednesday, 145 1-4.

NEW HAMPSHIRE ITEMS

—— The Mirror informs us that Mr. Phineas French, a farmer who resides near Bedford Centre, has been sick for some time, unable to labor upon his land. His son, who went to the war, has returned, and is also very unwell. On Monday his neighbors, to the number of forty, turned out and mowed all his grain, and put it safely into his barn. Four mowing machines and three horse-rakes were employed in the work. Such an act of kindness speaks well for the citizens of that neighborhood.

—— Robinson's Plow Manufactory, in Concord, was burnt on Tuesday night. Loss $20,000. The fire originated in an adjoining building, occupied as a carpenter's shop by Clifford & Currier. The large woodshed of the Northern Railroad was on fire at one time. The Eagle Hotel and block were in great danger, as well as railroad property, but fortunately escaped.

FEMALE SUFFRAGE.—We think it will not be long before this community will see the advantage, if not the necessity of extending the right of suffrage to females. Who believes if the women of Newburyport could vote—as educated, intelligent and patriotic as the men—that as many gaming saloons and rum holes would be kept open and in full blast, and so many loose girls allowed on the streets, all tending to demoralize, impoverish and degrade their husbands and fathers, their brothers and sons? Give them the right of suffrage, and liberty would be more secure, intelligence more diffused, order better established, and the happiness of the people, based upon morality and religion, more than a hundred fold increased.

Before we waste our time in disputing upon the extension of the franchise for different States, let us secure to the virtuous and educated females of the north the indisputable right to vote—the inalienable right of self government, and thereby bring unnumbered blessings to our open doors. We would like to have the experiment of woman's influence so far tested as to give them the supervision of the police regulations in the city for thirty days, and if they did not do more and better for us than anybody has done yet, we would no more ask the extension of suffrage to blacks or whites, males or females.

The New York News perseveres in its advocacy of colored suffrage. We go for the same as soon as the white women have been emancipated, and that relic of barbarity which prevents their equality with men has been abolished. One war at a time, was Mr. Lincoln's motto; and so we would say—one race at a time. Fix up things properly for our defrauded and oppressed females, and then we go for enfranchising all the rest of mankind.—*Newburyport Herald.*

IMPORTANT ORDER. — Gen. Gregg, commanding at Lynchburg, Va., has recently issued an order declaring that the privileges granted by the parole consequent on Lee's surrender, continue only during *good behavior*. When a paroled prisoner insults any officer of the Government which grants the parole, he forfeits all its benefits and becomes a prisoner of war liable to be confined at the will of the captor, or punished as a military commission may direct. All the paroled men in Lynchburg are required by the same order to report themselves at headquarters within 24 hours, and make known their means of living.

A PRISONER.—Quite a mystery attaches itself to a prisoner who arrived at Cairo from Memphis on Thursday night per steamer City of Alton. He was heavily ironed and under a guard consisting of a veteran officer and four men who would give no further information in relation to the prisoner, further than that his capture was the most important one made for some time. They proceeded by rail to Washington. The general belief among the passengers on the City of Alton is that the prisoner is young Surratt, one of the accomplices in the assassination of President Lincoln.

THE RIGHT MEN IN THE RIGHT PLACE.—The steamer that took the conspirators to the Dry Tortugas has returned. The prisoners were landed on the 25th ult. When informed of their destination they were quite depressed; but on finding a good sea-breeze there and the place pleasanter than anticipated, they were more resigned. Mudd was assigned to duty as assistant surgeon, Arnold a clerkship, Spangler as carpenter, and O'Laughlin was given employment at what he was fitted for. There are about 500 prisoners there.

INDIANS.—The largest and most important council of Indian tribes ever held on this continent will assemble at Fort Gibson, September 1, to settle upon their future relations with the Government. Thirty tribes will be represented and the whole number will count upwards of 75,000 strong.

GOLD, Tuesday 144 1-2. The chief operators put up one day and down another, and usually make something both ways.

— Several prominent ex-rebels who wished very much to see Pres. Johnson, have left Washington without the sight, and gone home.

— The New Jersey peach crop is very large,—but it is said some speculators in New York have bought the whole,—and therefore those who buy of them must pay high prices.

Local.

THE PRESS OR QUILL AGOG.—The Press gang of New England, many of them, —editors, publishers, reporters; with a sprinkling of Governors, Admirals, Mayors, and lesser dignitaries generally, *and* the ladies, start from Concord this morning, on their fourth Excursion for the season—to LakeMemphremagog, whatever and wherever that outlandish place may be. We take a pleasure in being appointed a representative on the occasion; but regret the absence of the "Major" down east. THE JOTTER.

P. S.—We regret to learn at the last moment, Adm. Farragut is obliged to retract his acceptance of the invitation to join the party—from continued indisposition.

POLICE COURT, August 2.—The warning record of the police court, the entreaties of friends, the pictures of miseries caused by rum, the grief stricken wife and ragged children, the dilapidated hovel, the the empty larder, the aching head and sincursed body, all are insufficient to baffle the luring temptations of Satan, who presents himself to Wm. McIntire a soldier, in the form of a glass of liquor, knowing well that should he only but succeed in inducing his victim to swallow one drink of the poison, he has him in his power. Poor William yields, gets beastly drunk, and at last comes under our notice. His fine is $3.00; costs $3,86, which he pays.

Patrick Key likewise sips from the poisoned chalice, and confronts the law, which costs him $6.86.

George Blake commits a like indiscretion, and suffers to the same extent, $6.86.

A NUISANCE TO BE ABATED.—The following communication, from a Citizen who knows whereof he affirms, is worthy the attention of the police and people.

Watch them!—If the keepers of the most notorious houses of ill-fame in the city will persist in making the sidewalk of our most frequented public square their habitual place of business, the city authorities should avail themselves of their presence at this place of resort to discover, mark and bring to punishment the numerous pick-pockets, gamblers and burglars who infest the city, and with other admirers and patrons of this gentry, congregate about them in so public a place. Our police well understand that every man and woman, who is seen to stop and hold any conversation with them, or even address them, is a bad subject, and if marked and watched will sooner or later be detected in the commission of some infamous crime. The police are respectfully requested to keep an eye on the members of this exchange of infamy. NOTA BENE.

A DISTINGUISHED VISITOR.—Col. Richard N. Batchelder, U. S A., of Maj. Gen. Meade's staff, is spending a few weeks in his native State, New Hampshire. He was in this city yesterday, and visited the Navy Yard and fortifications in the harbor. Col. Batchelder owes his promotion from the Volunteer service to the Regular Army, to his gallantry in the field, as noticed and forwarded to the Government by Lieut. Gen. Grant. The Colonel will remain a few days at Rye Beach.

Communication.

Messrs. Editors:—Allow me to say that the Third Parish in Portland, where Rev. Mr. Walton preaches, is *not* the Church of which Dr. Payson was once the pastor. Dr. P.'s church was the Second, and Dr. Nichols' the First.—Let me suggest, also, in regard to the coming back of the Southern Bishops, to the Episcopal Church, that the Southern Bishops who come will probably vote as High Churchmen, and of course against the liberty which certain Low Church ministers have used, to associate with other religious sects, in acts of worship and service. CLERICUS.

☞ A correspondent informs us that he has it from a reliable source that it was the intention of Lieut. Gen. Grant to have taken the lower route from Boston to Portland, and on his way hither to have stopped at Portsmouth and visited the Navy Yard, and had an interview with Vice Admiral Farragut—but was either by accident or design sent on his way "down east" over the Boston & Maine Road, and thus changed his programme. He is said to have expressed his regret at the mistake on his arrival in Portland.

☞ The Manchester Mirror, speaking of the Kittery women's liquor-shop riot a few day's since, said: "Portsmouth and vicinity run to riots. It is disgraceful to that or any other place. We are down on mobs or mob law. The cause never justifies such means." So we always say—but we don't see that Portsmouth runs more to riot than Manchester or any other similar places. Most of our rows are gotton up by strangers, too; some of them doubtless from the interior.

☞ William H. Hackett esq. of this city is rusticating a week in New Brunswick; and we bespeak for him the favors of our friends in St. John and elsewhere, as one of the "quill." We hope to receive a "down east" letter or two from him—but the people *there* tell about down east just as they do everywhere else.

☞ Vice Admiral Farragut is still stopping at the "Atlantic," Rye Beach; and we regret to learn, still suffers from neuralgic affection of his eyes and head.

— While Hamilton Robinson, Esq., of New York, was riding in his carriage with his family in Schoharie county, Friday, the horses took fright and ran away. Mrs. Robinson and the footman were instantly killed, the son had his collar bone broken in two places and was otherwise injured, the driver was badly hurt, and Mr. Robinson was still unconscious at last accounts.

— A correspondent of the Dunkirk Journal says that the celebrated Indian warrior Bloody Hand, of the Seneca nation of Indians, died on the Cattaraugus Reservation on the 10th inst., nearly one hundred years old. He is represented to have been terrible with the tomahawk and scalping-knife.

— The rotary steam rag bleaching boiler in Crane's paper mill at Dalton exploded on Monday afternoon with great force, jamming a costly paper making machine into a worthless mass. The entire damage cannot be less than $6000 or $7000. There was no loss of life or serious personal injury, although one man was blown through a window.

— The New Bedford Standard says that Miss Hetty Robinson, who contests the validity of the will of Miss Sylvia Ann Howland, had a million of dollars bequeathed to her by her father, and the income of several other millions. The case comes before the Probate Court in New Bedford on Friday next.

— During his absence in the army, the wife of a soldier named Cunningham made his house at Fort Wayne, Indiana, a den of iniquity and shame. On arriving at home on Saturday of last week, two lewd fellows called and attempted to force entrance, when Cunningham shot and killed them both.

— A dashing major blew out his brains in his lodgings in May Fair, London. He had invested heavily in Confederate bonds.

— Mrs. Surratt's last words are now said to have been: "You are a scoundrel," to the officer who manacled her wrists. There was some talk of putting her last words on her gravstone,—though the version was different.

— A Washington despatch says the President's health does not appear completely established, though he received much benefit from his recent excursions.

$50 Reward

Will be paid to any person who will give information who poisoned my Dog and Cat, as one of my Children came near meeting the same fate.

Special Notices.

A FEW REASONS WHY THE
AMERICAN WATCH
IS THE BEST.

It is made on the best principle, while the foreign watch is generally made on no principle at all. The foreign watch is mostly made by women and boys, BY HAND. While their labor is cheap, their work is dear at any price. Such watches are made without plan, and sold without guarantee. They are irregular in construction, and quite as irregular in movement. They are designed only to sell, and the buyer is the party most thoroughly sold. Those who have kept "anchors," "lepines," and "Swiss levers," in professed repair for a few years, will appreciate the truth of our statement.

THE PLAN OF THE AMERICAN WATCH

Instead of being made of several hundred little pieces, screwed together, the body of the American Watch is formed of SOLID PLATES. No jar interferes with the harmony of its working, and no sudden shock can throw its machinery out of gear. In riding or any business pursuit, it is all held together as firmly as a single piece of metal. It is just what all machinery should be—

1st. ACCURATE. 2d. SIMPLE. 3d. STRONG. 4th ECONOMICAL.

We not only secure CHEAPNESS by our system, but QUALITY. We do not pretend that our Watch can be bought for less money than the foreign *make-believes*, but that for its real value it is sold for one half the price.

OUR SOLDIER'S WATCH (named Wm. Eilery) is what its name indicates—Solid, Substantial, and always Reliable—warranted to stand any amount of Marching, Riding or Fighting.

OUR NEXT HIGHER QUALITY OF WATCH (named D. S. Bartlett) is similar in size and general appearance, but has more jewels, and a more elaborate finish.

OUR LADIES' WATCH, recently brought out, is put up in a great variety of patterns, many of them of rare beauty and workmanship, is quite small, but warranted to *keep time*.

THE PROOF of the merits of our Watch may be found in the fact that we now employ over seven hundred workmen in our factories, and that we are still unable to supply the constantly increasing demand.

OUR THREE-QUARTER PLATE WATCH is more small and lighter than the others we have described. Its fine chronometer balance is delicately adjusted to correct the variation caused by changes of temperature. These watches are the fruits of the latest experiments in chronometry, and are made by our best workmen, in a separate department of our factory. For the finest time-keeping qualities they challenge comparison with the best works of the most famous English and Swiss makers.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Jy28—1m 182 Broadway, N. Y.

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. jy28eowlm

Proclamation No. 64.

All peaceable and well disposed citizens who will purchase one bottle of PEASE'S VEGETABLE HAIR RENEWER, will find the result as follows: It will turn your Gray Hairs to their natural color; it will prevent your hair from falling off or becoming gray; it will keep your head clean and healthy; it will dress your hair beautifully; it does not smell of sulphur. Ask your druggist for Pease's Hair Renewer, and take no other. Also, PEASE'S PHILOCOME is unsurpassed as a hair Dressing. No lady will be without it who knows its value. *See Circulars.*

J. H. THACHER, Agent for Portsmouth and vicinity. my19—3mo*

Hair Dye! Hair Dye!

BATCHELOR'S Celebrated Hair Dye

Is the Best in the World!

The only Harmless, True and Reliable Dye Known.

This splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY STREET, N. Y. **Batchelor's New Toilet Cream** or Dressing the Hair. Jy9—1ydaw

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.

At Wholesale by DEMAS BARNES & CO., New York. eptw1yfmy23

Pulmonary and Nervous Diseases.

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers her

SOOTHING SYRUP
For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to yourselves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.
Price, Only 35 Cents per Bottle.

To Die in a Bad Cause
as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,
as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

DR. TEBBETTS'
Physiological Hair Regenerator.
The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.*

PRICE—$1 per Bottle.

TEBBETTS BROS., Proprietors,
Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. ap7sr.6md

CLOCK'S
Excelsior Hair Restorer

is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; causes hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the discovery in hair preparations of the age.

Benj. S. Goodwin to Henry Jenkins for $400. Land and buildings No. 2 Mt. Vernon St.

POLICE COURT, August 1.—Wm. Atkins, one of the many heroes who assisted in crushing the rebellion, was found drunk on Monday evening and hence he is honored by a notice in this department. William was only celebrating his liberty day, having just completed a term of service in the House of Correction, but his joy overcoming him, or rather the rum, he is just obliged to retrace his steps to the farm, to try it on again.

Bumard McCommick the inventor of the celebrated reaper for aught we know, reaped the fruits of his trangression by having wrung from him $6.86 of his hard earnings as a marine.

Edwin Green, for being intoxicated was fined $3 and costs $3.86.

James Mates, who keeps a sort of an out-of-town hell, which he or some one else has christened the "Farmer's Inn," was arrested for having this crib open on the Sabbath and very properly made to smart under a fine of $10 and costs $4.80. For the information of the curious we may state that the above-mentioned establishment curses that portion of Sagamore Grove nearly opposite Carter's temporary saloon, and thus injures the beautiful vicinity for the respectable social gatherings of any kind;—as they must necessarily be annoyed by the intrusion of those who had contaminated themselves at this den of infamy.

☞ Among the Incomes reported, and given in the Transcript, a friend finds the following for sons of Portsmouth by birth, or marriage or adoption,—now residing in or near Boston. There are probably others overlooked.

☞ Schooner Princess, D. Mahoney master, was towed into this port on Monday night, having been in collision with another vessel, whereby she sustained considerable damage.—— The Schooner Edwin, of Gloucester, with a cargo of bricks, lumber, &c., sprung a leak and sunk on the night of Monday 31st ult.,—White Island light (at the shoals) bearing N. E. about ten miles distance. The Captain and crew saved themselves in the schooner's boat, and arrived safely in this harbor during the night.

☞ The Portsmouth Cornet Band, C. H. Tompson leader, drove to Rye Beach on Monday afternoon, and serenaded Adm. Farragut, who highly complimented their fine playing.

☞ Wheeler's Great International Circus at Hale's Point this afternoon and evening. See advertisement—and also see the performers "wheel about and turn about and do just so."

☞ Mr. Sam. E. Browne, the Comedian, with a new Dramatic Company, is to appear at the Temple in this city, next week.

☞ Gen. Grant went to Portland, over the upper route, on Tuesday morning, to be the guest of that City. Mayor McClellan, with Aldermen Morgan, Robinson, Bailey and Fuller, ex-Gov. Washburn of Maine, Hon. Mr. Washburn of Illinois, Maj. Gen. Ayers, and ladies, came up to the Junction to escort the little great General down. Ex-Gov. Goodwin of this city, not having responded to his invitation of the day or two previous, to attend the City dinner at Portland,—and finding Gen. Grant was coming by way of Lowell, and that they had plenty of time; the Committee decided to "run up to Portsmouth and get Goodwin." And so they came to our city; but indisposition prevented Mr. Goodwin's attendance, and time here only allowed him a few moments to entertain his friends.

☞ The Ladies' Festival at Greenland, will afford a fine opportunity for a pleasant visit to that lovely rural town. See advertisment.

☞ A very rare chance to purchase a very excellent Watch at a very low price, may be learned by Mr. Bodge's advertisement.

FROM RYE BEACH.—*Ocean House, July 31st.* Mr. Editor:—While the denizens of the cities are suffering with the most intense heat, the fortunate sojourners at this delightful resort are enjoying themselves with cool and delicious air, and the thermometer scarcely getting above 75. At night it does not require a fan to help one to get asleep, but instead, blankets are frequently found very desirable. There is not probably another place along the whole coast, or, in fact, anywhere, that presents the attractions which Rye Beach does, to those who desire to leave for a few weeks the dust, heat, brick walls and heated pavements of the city. Such pleasant drives through thriving towns—the farms therein all looking like gardens—it would be difficult to find in any other locality. The season at the Ocean is getting to be gay. The house is filled with company to such an extent that cots had to be put up in the office; but notwithstanding there is such a crowd, the well-known energy of the Messrs. Jennes is such, that no one who comes suffers for anything while stopping at the "Ocean." The American Telegraph Co. have their line completed to the house, and the first dispatches were sent on Thursday last, since which time the operator has been kept pretty busy, sending and receiving messages. Divine service, conducted by the Rev. B. H. Atkins of Philadelphia, and participated in by nearly all the guests of the house, was held in the ladies' parlor, at five o'clock yesterday afternoon.

The next "hop" comes off Tuesday evening, Aug. 1st. Truly Yours, R. C.

☞ The Traveller says, Capt. S. W. Waldron, (well known in this city,) late Provost Marshal of the second district in Brooklyn, N. Y., who suddenly and mysteriously disappeared when he was called to trial before a military tribunal in Washington, some time since, for alleged wrong-doing in office, has been heard from by his friends. It seems that although a gallant military man himself, he dreaded a military trial, and started for the gold regions in Canada, where he is now extensively engaged in gold digging and prospecting.

State or county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business.—Will pay $5 to $20 per day. This is no patent right or medical humbug, but an article of merit, needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHITNEY & SON, No. 6 Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility* in the system, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with the Bowels, and *immediately changes the character of their secretions*,—thus arresting the cause of their weakness or debility. Through its action on the Bowels, it carries off the *Humors* and *Impurities*, that are working a slow but certain effect, invariably terminating in *Consumption of the Bowels*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For *Cutaneous* and the *Piles*, it is the best remedy ever discovered.
Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.
The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, BOSTON, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.
For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.
BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.
FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.
In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B WILBOR, Chemist, 168 Court Street, Boston.

SAVE YOUR MONEY!
Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.
Wilbor's Monitor Hair Dye
Is superseding all others. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.*—Manufactured only by ALEX. B. WILBOR, Chemist, No. 168 Court Street, Boston.

PETROLEUM IS KING!

THE
UNION OIL STOVES!

Patented April 11, 1864, *and Jan.* 17, 1865.

A COMPLETE APPARATUS
—FOR DOING THE—
COOKING
And all the work of a Family *of any size,*
AT LESS THAN
One-Third the Cost of Wood or Coal!

THIS NEW
PETROLEUM Cooking APPARATUS
Is WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the
Only Kerosene or Coal Oil Stove
that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without
Dirt, Ashes, Smoke or Odor.
The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost
ONE CENT AN HOUR
for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.
"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in 15 minutes	
Common potatoes baked	" 30 "
Flour Biscuit baked	" 15 "

And three good-sized Flat Irons heated in 15 minutes.
By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.
For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.
☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

Portsmouth Steam Factory for Sale.

Pursuant to resolutions passed at a special meeting of the Corporation holden at Portsmouth, N. H., on the 17th inst., will be sold at Public Auction, at the Mills of the Company, at said Portsmouth, on MONDAY, the seventh day of August next, at 11 o'clock A. M.

All the Real and Personal Property of the Corporation situate and being in said Portsmouth, comprising the following, to wit:

The Steam Mill, 200x70, six stories high, with two wings, each 100x30 feet, with extensive dye house and bleachery of the most approved construction, with all the machinery, fixtures, tools, furniture, materials and supplies. Much of the machinery is new and all capable of immediate production, and the Mill has a capacity equal to thirty thousand dozen of spool cotton per week.

The Sagamore Mill, so called, now under lease to the Rockingham Mill Company, and subject thereto.

A Dwelling House on Islington street, usually occupied by the Agent of the Factory.

Also, 14 houses in the vicinity of the Mill, used as boarding houses for the operatives.

One store house on Parker street, and one on Rock street.

A schedule of property may be seen at the office on the day of the sale.

The sale will be positive on that day unless withdrawn under a provisional vote of the Corporation, of which due notice will be given by posting up this advertisement.

Terms—Five per cent. to be paid at the time of the sale. Fifteen days allowed for examination of title and to complete the payments in cash or its equivalent on delivery of deeds. Title to be satisfactory.

For further particulars apply to the Treasurer. Per order of the Committee of Stockholders.

Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to

JOHN S. HARVEY,
47 Congress st., Portsmouth.

Je20

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operating over six months, has more than 4000 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the facts, will see at once that the crookings of coal speculators have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

JOHN S. HARVEY, 47 Congress St.,

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World) of obtaining the rarest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicle, Inflammation of Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other Impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN!

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thereby depriving themselves of the pleasures of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and advise, who has cured hundreds similar to their case, who has never been known to have applied to Dr. T. broken down in health, now rejoice in all the pleasures of married life and happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description than the following:

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage.—250 pages—125 full plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets never before published, or warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Nichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines entirely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

STOVES,

KITCHEN FURNISHING GOODS,

FARMING TOOLS, &c.

THE MAGEE

COOKING STOVE.

The subscriber would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be repaired so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

A SURE, PLEASANT and PERMANENT CURE for the above and similar diseases.

MANUFACTURED ONLY BY

TARRANT & CO.,

278 Greenwich Street, New York.

☞ FOR SALE BY ALL DRUGGISTS.

IODHΣ.

IODINE WATER. A Pure Solution of Iodine, without a Solvent. Sought for by Chemists and Physicians for the last 50 years. Discovered by Dr. H. Anders after 15 years of scientific research and experiment.

The most astonishing cures have followed its use in cases of SCROFULA, both hereditary and acquired. All kinds of Humors, Consumption Malarious Fevers, Rheumatism, Female Weakness, Dyspepsia, Mercurial Diseases, and all those distressing complaints arising from a Bad State of the Blood. Chronic Diseases, that have baffled the best medical skill, often yield to the subtle influence of this remarkable medicine. It is the most powerful vitalizing Agent and Restorative known. *Its effects often seem miraculous.*—Pamphlets sent free. Price $1 per bottle, or 6 for $5. Sold by Druggists.

Address Dr H. ANDERS & CO., Physicians and Chemists, 482 Broadway, New York.

HANCOCK HOUSE,

Court Square, Boston. Kept on the European Plan. Board by the day or week.

ROOMS FROM $1 to $2 PER DAY.

Hall & Fisher, Proprietors.

SPANISH ROUGE,

FOR POLISHING,

XL

Or Cleaning Gold, Silver, Silver Plated, Britannia, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For the purpose intended this article cannot be Equaled. Twenty cents invested in a package of this, will add more to the looks of a home than one hundred dollars spent in new ware. Every article of any kind of metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which brings a smile upon the faces of all. The labor of keeping every article of metal polished with the Spanish Rouge, is reduced to a mere pastime and pleasure. It removes the tarnish at the brush of the hand. *It is a mineral without any composition whatever, therefore can do no harm.*

Put up in three different qualities, for the finest Gold to the coarsest Metals.

Try the Spanish Rouge, and it will become a household word and a great assistant. Every person who has a ring or car-drop, to an engine manufacturer, needs it. For sale by Druggists and Jewelry Dealers everywhere.

Wholesale Depot, No. 951-2 Washington St., Boston. F. R. BEADSLEE, General Agent. For sale by

J. W. & A. STAVERS.

No. 12 MARKET STREET,

Sole Agents for Portsmouth.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE AND DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. knows how to treat those diseases with unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his attention to PRIVATE DISEASES, cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for the duties of married life. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board, medicine Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow also offers for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Impo ant to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has not studied his long and extensive practice of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Do Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1865. eod4y

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necess'ry of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy, or more capable of putting their applications in due form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that a most meritorious one. Such unmistakable proof of great talent and ability in his profession, leaves me no alternative but to apply to him to procure patents, as the surest way be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**
Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT
TO
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by any other remedy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country, by express or mail, with full directions, on communication stating particulars, will receive prompt attention.
Office No. 23 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicine securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that attends no more but the Doctor himself.
Address DR. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are strictly confidential.
Patients furnished with rooms and board if desired, and secresy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Carriages.
Persons thinking of purchasing CARRIAGES, would do well to call on or address

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, AUGUST 4, 1865.

WASHINGTON ITEMS, Aug. 3.—Much speculation is indulged in as to the object of Gen. Butler's visit here. His parlor was crowded this evening with friends and acquaintances calling to pay their respects to him.

One honest Georgia Postmaster has paid over to the Post Office Department, in greenbacks, the value of the postage stamps he had on hand at the breaking out of the war. This is the only case of the kind which has come to the knowledge of the Department.

The prisoner who arrived this morning is pronounced (although there is a close resemblance) not to be John H. Surratt. He represents himself as having been a captain in the Confederate service, gives his name as John G. Ryan, and says he is a resident of Texas. He has been assigned quarters at the Old Capitol.

MEXICO, HAYTI, AND HAVANA.—Judah P. Benjamin arrived at Havana on the 25th from Nassau. Kirby Smith also arrived at Havana from Vera Cruz on the 28th, with ex-Governor Thomas Reynolds, and Capt. Beauregard, late Secretary to Gwin.

The *Idea Liberal* of Puebla, Mexico, calls for a convocation of the whole people to decide either for the Empire or the Republic, and thinks by this means all risk of war with the United States will be evaded. Monterey was occupied on the 22d by the French troops under Jearmegras, who called for the delivery of all arms held by the citizens, and established stringent rules. Fifteen refugee rebel families from Texas had arrived at Monterey.

The rebels in Hayti thus far have the advantage. Geffrard has not yet taken Juarico. The rebels had offered peace to Geffrard on his signing a treaty making five years the Presidential term. News from Hayti via Havana, always to be received with a few grains of salt.

☞ A Fortress Monroe item says the schooner Elizabeth and Eleanor, from Richmond, with forty-two cannon captured from the rebels, arrived Tuesday. Some are rough, unfinished castings. Among them is the Whitworth gun that during the latter part of last summer and fall played upon Gen. Butler's signal tower on James river. The gun bears the following inscriptions:—"Whitworth Ordnance Co., Manchester, 1860;" and "Richmond Arsenal, Aug. 22, 1864."

A colored man was murdered in Eastville, Monday, by two Confederate soldiers. One was arrested, but the other escaped.

NEW ORLEANS ITEMS, Aug. 1.—The steamer Lillie, with 700 bales cotton, was burned on the river. No lives lost.

The steamer Joseph Price exploded her boiler 20 miles below Vicksburg, caught fire and burned to the water's edge. Six persons were killed and 28 wounded.

The steamer Dove was boarded by robbers on the Yazoo River, who took $20,000 and other valuables. They opened fire on the passengers, wounding the mate and one passenger. The passengers were stripped of their valuables.

Gov. Hamilton reached Hamilton on the 25th ult., en route to Austin. He was meeting with a warm reception.

The Houston Telegraph mentions the arrival of the officers of Shelby's party. Shelby was encamped near Monterey with 500 men. He sold his artillery and other plunder.

MEXICO.—Matamoras and Brownsville correspondence denies the report that Gen. Brown sent U. S. forces across the Rio Grande to assist the Mexican Republicans against the Imperialists. Up to July 18th amicable relations prevailed at Matamoras between our officers and the Imperialists. The indications are that our Government intends to maintain a permanent military establishment there.

The Tribune's Matamoras correspondent of the 14th says he has learned from good sources that some 7000 Confederates have lately crossed the Rio Grande with a view of entering the Mexican service, and that Shelby is charged with their organization. Wade Hampton, who is at Carmago with 600 men, is to form part of the force.

THE REBEL COTTON LOAN.—The price of this loan in England, it appears, is eight pounds ten shillings sterling for one hundred pounds of stock. Market not very lively. The loan amounted to twelve and a half millions of dollars. It was negotiated at sixty to ninety pounds on the hundred, to bear seven per cent. interest, and redeemable in 1883 at par, or to be paid previous to that time in cotton at sixpence per pound.

Query: Would not these northern copperheads, who talk of repudiating our own debt made by the war, like to have the U. S. shoulder the confederate debt and pay that.

GOLD, Thursday, 144 1-4.

☞ The Lewiston Journal understands that Rev. Mr. Walton's people in Portland will insist upon his remaining with them, notwithstanding his formal resignation. The Moderator of the Council, Rev. Mr. Balkam, says Mr. Walton's doubts are not in the direction of the restoration of the wicked to holiness and happiness, but in the direction of their annihilation:—Deacon Perry, of Gardiner, a member of the council, is reported as saying he "came to this council rather in favor of installing the candidate. But from this examination the candidate is on the road to Universalism. If he has been so long time in making up his mind, there little room for any hope of a change." It is a remarkable fact that five pastors and one minister besides, *six* in all, voted to instal him, and only *four* ministers voted Nay:—while the laymen stood 9 to 5, and so shut him out. Some *pleader* in the council probably influenced the delegates, as an eloquent lawyer sometimes sways a jury.

☞ The Richmond Republic prints a letter from a Virginian who professes to give the intentions of the President in regard to the State. The writer has been much in Washington of late and had interviews with the President, and he feels assured that unless the general tone of sentiment in Virginia, as evinced at the ballot box, becomes more loyal, the present government will be superseded and military government substituted. He remarks:

"If any number of disloyalists shall be elected to the new legislature or to Congress, our fate is fixed. We shall be turned over to the territorial condition and military rule."

Unless the state of things in Virginia shows a decided improvement, we trust that this writer's apprehensions may be realized.

Amesbury and Salisbury are among the most busy towns in this section, and were never doing better than now. The Salisbury and Amesbury woolen factories are running to the full extent of their power, and the bat factories of the two towns are turning out all the goods they can make to a ready market; while the carriage business is first rate. Those towns were never growing rich so fast as to-day.—*Newburyport Herald.*

☞ It has been ascertained that more than six hundred sea-going vessels belonging to citizens of the United States have been sold to subjects of Great Britain during the war. Men of other countries have also bought American ships in large numbers, and it is estimated that a thousand vessels in all, that were four years ago carrying the stars and stripes, are now sailing under foreign colors. The capacity of the vessels transferred is estimated at 500,000 tons.

☞ The Manchester Mirror says "two Concord mares, Lady Shaw, owned by W. G. Shaw, and Jennie, owned by Geo. W. Wales, both six years old, have been matched to trot at the Boston Trotting Park, on the 21st Sep., mile heats, best 3 in 5, the former to wagon and the latter to harness (sulkey) for $1000. Lady Shaw is a beautiful creature, and is the speediest representative of Honest Allen. "Jennie" is unknown to fame, but has a pedigree that proclaims a trotter that can last to the end of the road. Her dam was the well-known gray mare Lady Langley, and her sire the trotting horse Ajax, formerly owned by Henry H. Smith, who is handling her, and he is apt to bring them to the score all right. The handicapping Lady Shaw and compelling her to draw a wagon, is unfortunate for the Ethan race, especially around the short turns of a half-mile track. $500 the forfeit money, is up in the hands of John Lindsey, of the Eagle Hotel, and the friends of Ethan and Ajax will probably have a chance to draw their roll."

☞ Steamer Glasgow from New York last Sunday for Liverpool, was accidentally burnt at sea on Monday afternoon and evening. Passengers and crew, 250 in all, were saved by good boats, careful handling and the help of the bark Rosamond.—Steamer Erie bove in sight and took the passengers back to New York.

☞ The editor of the Manchester Mirror had a brood of Turkeys last year that strayed in the woods till the deep snows came, and had to shoot the entire brood to secure them. They were the best of the season. He says grasshoppers are very scarce in New England this year; a rainy season is unfavorable to them. They flourish best in dry, hot weather. We know of no animal that suffers from their scarcity save turkeys. Farmers who raise turkeys should think of this.

☞ The New Path for August contains a very instructive article on Curtains and Carpets,—or How shall we furnish our Houses?—Published by James Miller, Broadway.

— Ten miles an hour is the greatest speed now attained upon the North Carolina railroads, and as the connections are frequently broken, long and frequent delays weary the traveller's patience and deplete his pockets.

NEW HAMPSHIRE ITEMS.

—— Two boys were injured by the bursting of a gun on Saturday last at Mill Village, Wolfeborough. One a son of Elder C. Paris, was wounded quite seriously in the arm.

—— The Exeter Manufacturing Company held their annual meeting on Tuesday of last week, re-elected the old Board of Directors, declared a dividend of fifty dollars a share, and held a substantial collation.

—— A paragraph has appeared in some of the city papers stating that the will of the late William Robinson, Esq.,—by which a munificent legacy is given the town of Exeter,—is to be contested, on the ground that the will was attested before a rebel justice. The absurdity of the report is shown by the fact that the will is dated in 1855, before we had any rebellion.—*Ballot.*

—— The house and barn of John S. Walker, Esq., in Newmarket, was destroyed by fire on Monday afternoon, with most of his furniture, farming utensils, and $400 worth of hay. The cause of the fire was unknown, the family being out of the house at the time, and had used no fire for several hours. The property was partially insured.

—— A man named D. D. Hayes, formerly a member of the Mass. 14th regiment, was knocked down and robbed at ten o'clock, Tuesday night, in Concord, by two men, who had previously, carried *him* to a beer shop.

—— A writer in the Monitor says:

Let the citizens of Concord, who hold the well-being of the city at heart, and have regard for the security of their property, (which can never be safe so long as rum is permitted to excite the worst passions of the heart, prompting arson and robbery, as well as brutal fights,) go to the City Marshal, and express their desire to have the sale of liquor in this city stopped, and the fair fame of the city vindicated, and the work is done. Our word for it, their request will not be disregarded.

—— On Tuesday a son of Mr. Daniel Butler of Goffstown village, was drowned while bathing in a stream near Blaisdell's mill in that town. He was about eight years of age.

—— Among the novelties to be exhibited at New England Agricultural Society at Concord, is a locomotive steam plough, invented by a New England mechanic.

—— A young Shaker, eight years old, made his appearance in Lawrence, a few weeks ago, just escaped from Canterbury. He came down on the Manchester road, and was desirous of getting to Haverhill, where he had friends. A ticket and some dinner were furnished to the young fugitive.

— A Georgia gentleman estimates the value of the Georgia Bank Stock ($19,000,000,) as not worth more than five cents on a dollar, owing to the fact that the basis of circulation was Confederate bonds, now altogether worthless.

— The people in the interior of South Carolina are reported to be in a suffering condition—without money, food or employment. Nobody to blame but themselves.

— Tuesday, Aug. 1, being the 31st Anniversary of West India Emancipation, was celebrated in a grove near Providence by a large assembly of colored citizens, with new zeal.

— Mr. Walter, chief proprietor and manager of the London Times, has been defeated for Parliament. It is a good hit. He made an elaborate speech not long ago, in which he affirmed the unfitness of the people for an extension of the suffrage, and now the people have pronounced upon his unfitness to legislate in their behalf.

— A wood dealer, named Charles Miller, and a span of horses, were killed by lightning at Mt. Airy, near Columbus, last Friday evening. When found, he was lying back on a chain stretched across the bed of the wagon, his hat partially burnt and his boots destroyed. The lightning struck him on the left side of the head, and passed directly down the neck and body.

— The New Orleans correspondent of the Boston Post says the property of John Slidell, comprising 842 lots and squares of ground, with stores, dwelling-houses, and a banking house, were sold for $100,410.—Before the war it was estimated at $800,000. Had the war not taken place it is estimated that Mr. Slidell would have been worth $2,000,000. Poor Slidell: he has been rewarded according to his works.

— There is a family in Detroit of quite unusual composition. The father and mother have each been married three times, and have had children by each marriage, and are all living happily under one roof—six sets of children.

— The New Bedford Standard says that insurance has been effected in New York and Boston offices, by the ship owners and insurance offices of the former city, to the amount of nearly $2,000,000, upon the fleet in the Arctic Ocean and Ochotsk Sea.

— The Washington Street Baptist Church at Petersburg, was struck by lightning last Saturday night and entirely destroyed.

— The St. Albans Messenger of Tuesday says that the price of butter at that place, where large quantities of it are purchased, ranged on that day from 28 to 30 cents per pound.

SUCCESSFUL AND PUBLIC-SPIRITED.—John Purdue of Indianapolis reports an income for last year of one hundred and seven thousand dollars—the largest income in that city. Mr. Purdue was formerly a citizen of Ohio, and taught school in Plain township for ten dollars a month! When he first went into that township he was considered so poor that it was feared he might become a charge thereon, and was "warned out" of it under the provisions of a law of Ohio. Now he is the richest man in Indianapolis. A correspondent of the New York Tribune writes that Mr. Purdue was never married, and his fortune is the product of his own industry. He has always been remarkable for kindness to the poor and unfortunate, as well as for public spirit. When the Supreme Court of Indiana decided the school-tax unconstitutional, thus shutting up every school-house in the State, Mr. P. continued the public schools of Lafayette at his own expense. Early in the war he armed and equipped a military company—the Purdue Rifles—from his own private purse, a company that rendered the State some service in the Morgan raid, and was a terror to copperheads in all Northern Indiana and in parts of Illinois.

— Two counterfeiters—George A. Hartman and John Malony—were arrested on Saturday in Albany. Both were lodged in jail; but on Saturday, when the Young Men's Christian Association held a prayer meeting in jail, Malony filed out with the young Christians, and has not since returned.

— A Brownsville correspondent of the New Orleans Times says that the rumored capture of Kirby Smith and his train by the Mexican Government is a canard.

— Mayor Cranston of Providence was assaulted and badly beaten by a ruffian on the street last Monday night. His assailant was arrested.

— It is estimated that there are about one hundred thousand Americans in Europe at this time. Probably there will have been altogether not less than two hundred thousand there in the course of the summer. Paris is, of course, their chief place of resort, but they penetrate into every country of Europe.

NEW ENGLAND CATTLE MARKETS, at Cambridge, Brighton and Medford, this week.—Abridged from the Boston Post

From Maine 40 Cattle, 125 Sheep. New Hampshire 48 Cattle,—— Sheep. Vermont 185 Cattle, 2880 Sheep.

DR. LANGLEY'S ANODYNE.

A New Medicine. The Greatest Discovery of the Age.

For the safe and sure cure of CHOLERA, CHOLERA MORBUS, DYSENTERY, CHRONIC DIARRHŒA, and all SPRING and SUMMER COMPLAINTS.

The inflammation, pain and trouble in the bowels, allayed, healed, cooled and relieved in an astonishing short time. Composed of ROOTS, BARKS and HERBS, which seem to have been designed for these very dangerous complaints which are common in the Spring and Summer.

This ANODYNE is good and safe for children of all ages, for wind in the stomach and bowels, diseases incident to children. This Anodyne will have a great name, and must stand Queen of all Summer Remedies by its own merits, its great cures, and its great healing properties. Then always call for

DR. LANGLEY'S ANODYNE.

And don't be put off with any other article not so good. Full directions on the bottle. No family should be without it. aug 2m

Special Notices.

A FEW REASONS WHY THE

AMERICAN WATCH

IS THE BEST.

It is made on the best principle, while the foreign watch is generally made on no principle at all. The foreign watch is mostly made by women and boys, BY HAND. While their labor is cheap, their work is dear at any price. Such watches are made without plan, and sold without guarantee. They are irregular in construction, and quite as irregular in movement. They are designed only to sell, and the buyer is the party most thoroughly sold. Those who have kept "anchres," "lepines," and "Swiss levers," in professed repair for a few years, will appreciate the truth of our statement.

THE PLAN OF THE AMERICAN WATCH

Instead of being made of several hundred little pieces, screwed together, the body of the American Watch is formed of SOLID PLATES. No jar interferes with the harmony of its working, and no sudden shock can throw its machinery out of gear. In riding or any business pursuit, it is all held together as firmly as a single piece of metal. It is just what all machinery should be—

1st. ACCURATE. 2d. SIMPLE. 3d. STRONG. 4th. ECONOMICAL.

We not only secure CHEAPNESS by our system, but QUALITY. We do not pretend that our Watch can be bought for less money than the foreign *make-believes*, but that for its real value it is sold for one half the price.

OUR SOLDIER'S WATCH (named Wm. Ellery) is what its name indicates—Solid, Substantial, and always Reliable—warranted to stand any amount of Marching, Riding or Fighting.

OUR NEXT HIGHER QUALITY OF WATCH (named P. S. Bartlett) is similar in size and general appearance, but has more jewels, and a more elaborate finish.

OUR LADIES' WATCH, recently brought out, is put up in a great variety of patterns, many of them of rare beauty and workmanship, is quite small, but warranted to *keep time.*

THE PROOF of the merits of our Watch may be found in the fact that we now employ over seven hundred workmen in our factories, and that we are still unable to supply the constantly increasing demand.

OUR THREE-QUARTER PLATE WATCH is thinner and lighter than the others we have described. Its fine chronometer balance is delicately adjusted to correct the variation caused by changes of temperature. These watches are the fruits of the latest experiments in chronometry, and are made by our best workmen, in a separate department of our factory. For the finest time-keeping qualities they challenge comparison with the best works of the most famous English and Swiss makers.

ROBBINS & APPLETON,

Agents for the American Watch Company,

Jy28—1m **182 Broadway, N. Y.**

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—Mention many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Proclamation No. 64.

All peaceable and well disposed citizens who will purchase one bottle of PEASE'S VEGETABLE HAIR RENEWER, will find the result as follows: It will turn your Gray Hairs to their natural color; it will prevent your hair from falling off or becoming gray; it will keep your head clean and healthy; it will dress your hair beautifully; it does not smell of sulphur. Ask your druggist for Pease's Hair Renewer, and take no other. Also, PEASE'S PHILOCOME is unsurpassed as a Hair Dressing. No Lady will be without it who knows its value. *See Circulars.*

Hair Dye! Hair Dye!

BATCHELOR'S Celebrated Hair Dye

Is the Best in the World!

The only Harmless, True and Reliable Dye Known.

This splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The genuine is signed WILLIAM A. BATCHELOR; all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY STREET, N. Y. *Batchelor's New Tonic Cream* or Dressing the Hair. Jy9—1ydaw

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the disease arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 50 cents per box. Can be sent by mail on receipt of 50 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spnDawly1ny28

Pulmonary and Nervous Diseases.

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers her

SOOTHING SYRUP

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will cause a healthy growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

TEBBETTS BROS., Proprietors,
Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. ap7e6.6md

CLOCK'S
Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; cause hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and performed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, 2 Congress Block;

FRANK B. CLOCK, Druggist and Chemist, Proprietor, Manchester, N. H. j4

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this medicine, safely. ☞ The Portsmouth Steam Factory Company's Mills, and other property, are advertised to be "knocked down" to the highest bidder on the 7th inst., unless some arrangement is previously made for running it, by the present stockholders. Its stock is selling for about $3 per share. If sold, the property will hardly pay the debts; and it does seem as if some arrangement ought to be made to keep it in the hands of those who have lost on it, and to make it profitable in future. Our term of "knocking down," above, is something more than symbolic, too; for it is rumored that the Rockingham Mills managers are actually contemplating the taking down of their large new addition, and conveying it by cars to some other town for reconstruction. We do not think this would speak very well for the enterprise of our city,—which ought to have ten times as much manufacturing, instead of less.

As to the large Factory, when the change in machinery was made, from lawns to spool cotton, we thought it a great risk, on the general ground that such moves, whether in public or private affairs, are always expensive experiments; but we do not know whether the other branch would have been more successful, though it could hardly have been less so. We trust, for the interest of all concerned, that this valuable property will fall into good hands. It will be seen advertised elsewhere.

☞ A well known citizen made a purchase in this city a short time since, amounting to upwards of $4000; and when time came for the first payment, he discovered that he had lost the above amount of money, and was therefore obliged to relinquish his bargain. Shortly after, he had the identical $4000 sent him by letter, with no name attached,—a most singular circumstance, when we consider the depravity of men of the present day. COM.

☞ A Dog and Cat of Mr. Dennis McGraw, in Daniel street, this city, were poisoned to death by some dropper of poison on bread near his premises; and a little child picked up a piece of the same, and would have eaten it, but for a larger child, who said it was "dirty," and threw it out of his reach. Isn't it singular, who drops all the poison?

☞ Mr. Thos. P. Moves, of this city, who has been residing for several years in South Carolina, has recently communicated with his friends here, and is expected home in a short time.

☞ Hon. M. Bufford, City Clerk and Assoc. Police Justice of this city, is still kept from his official duties by continued sickness, though we believe convalescent.

☞ Of course the J. W. Waldron named in our paper of Wednesday, should have had *Jr.* attached to his name—for the old gentleman is liable to no such imputations as his son suffers under.

☞ Another of the Pioneer's popular moonlight Excursions to Smith's Isles, tonight. A high time, for low fare—great fun, for little money.

☞ Lovers of a pleasant ride and nice Pic Nic, should be on hand at the Greenland Festival this afternoon or evening. Adm. Farragut has promised to be there.

☞ What a good chance to "Shell out," that will be at Wendell's Auction to-morrow night, won't it?

— In his testimony before the police commissioners in New York, a horse car conductor said he considered a car was full when it had from 90 to 100 passengers in it, while there was, by his statement, only room for 24.

— The barn of E. A. Alger, Esq., of Lowell, was burned by an incendiary fire on Sunday morning. The horses and cattle were saved. The barn and contents were insured.

— One Albert Starkweather, in Manchester, Conn., is in custody, suspected of murdering his mother and sister, by cutting them with an axe, as they lay in bed, and stabbing them with a kitchen knife. His object was about $400 in money.

— Hangman Foote, now in Canada, has written a letter to his friends in Tennessee, recommending negro suffrage and equality before the law.

— Bishop Wilson of Alabama is a dismal copperhead and ex-rebel, as yet only half converted.

BIRTHS.

In this city, Aug. 1, to JAMES H. HEAD, a son.

☞ Subscribers will confer a favor, and facilitate the prompt delivery of their papers, by *immediately* informing us of any deficiency or irregularity of our Carriers. All papers should be delivered before 7 o'clock—and all subscribers should furnish a secure place of deposit for their papers. We will give $10 reward for evidence to convict any person of stealing a copy of the Chronicle. Our Carriers are not allowed to sell copies of the paper.

Have you tried DR. BICKNELL'S SYRUP? There is nothing equal to it, for Bowel Complaints, Diarrhea, Dysentery, Pain or Cramp in Stomach or Bowels. It contains no opiates, and is safe and reliable.

For sale in Portsmouth by THACHER.

'TIS NOT A FABLE.—The immense and universal demand for the Fragrant Sozodont, is a marvel in the annals of Dentistry. It exceeds all other dentifrices combined.—Neither acid from the stomach, nor any other corresponding element generated by indigestion, can effect a set of teeth regularly purified by this Fragrant Vegetable antiseptic and preservative. au2 1wod 3

VINELAND LANDS.
To all Wanting Farms.
Large new thriving settlement, mild and healthful climate, 30 miles south of Philadelphia by railroad. Rich soil, producing large crops, which can now be seen growing. Ten, twenty, and fifty acre tracts, at from $20 to $35 per acre, payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letter is warranted. Papers giving full information will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*

From Report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.
Capital, $150,000; 300 Shares, $500 each. 7000 Shares in treasury; 2000 for sale. Price $40 per share; $80 per Share after August 1.

Stock full paid, and no individual liability. Company organized under the general law of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.

We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on their par value of the stock per month in gold. Any Clergyman, Insurance Agent, or Cashier of Bank is authorized to receive money and reward it, to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York; R. W. C. FERRMAN, Esq., Cashier of the Atlantic Bank, 142 Broadway, or HERMAN CAMP, Esq., 25 Nassau Street.

Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion at the net profit of $12,000 per day, or $1,500,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SPROUL, President.
SAM. HUTCHINSON, Secretary.
Office: 80 BROADWAY, over Am. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make their 25 to 50 dollars every day. State or county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business. Will pay $5 to $20 per day. This is no patent right or medical humbug, but an article of merit, needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Sample and circulars sent free by mail for 25 cents. WHITNEY & SON, No. 6 Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general debility of the *System*, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD ELIXIR a sure medicine to restore them to health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with the food, and *immediately change the character of their constitutions*, arresting the cause of their weakness or debility. Through its agency in the blood, it will expel all *Humors* and *Impurities*, that are working a better or certain effect, invariably terminating in *Consumption of the Blood*, which has proved to be fatal to so many of our brave soldiers, after their return to their home and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.

Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.

The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 31 HANOVER STREET, Boston, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME,
FOR CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.

BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.

FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.

In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 168 Court Street, Boston.

SAVE YOUR MONEY!

Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.

Wilbor's Monitor Hair Dye

is superseding all others. It requires no preparation, does not stain or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.*—Manufactured only by ALEX. B. WILBOR, Chemist, No. 166 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, *and Jan.* 17, 1865.

A COMPLETE APPARATUS

COOKING

AT LESS THAN

One-Third the Cost of Wood or Coal!

THIS NEW

PETROLEUM Cooking APPARATUS

IS WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in	15 minutes
Common potatoes baked	" 30 "
Flour Biscuit baked	" 15 "

And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

Portsmouth Steam Factory for Sale.
Pursuant to resolutions passed at a special meeting of the Corporation holders at Portsmouth, N. H., on the fifth inst., will be sold at Public Auction, at the Mills of the Company, at said Portsmouth, on MONDAY, the seventh day of August next, at 11 o'clock A. M.,

All the Real and Personal Property of the Corporation situate and being in said Portsmouth, comprising the following, to wit:

The Steam Mill, 200x70, six stories high, with two wings, each 100x30 feet, with extensive dye house and bleachery of the most approved construction, with all the machinery, fixtures, tools, furniture, materials and supplies. Much of the machinery is new and all capable of immediate production, and the Mill has a capacity equal to thirty thousand dozen of spool cotton per week.

The Sagamore Mill, so called, now under lease to the Rockingham Mill and subject thereto.

A Dwelling House on Islington street, usually occupied by the Agent of the Factory.

Also, 14 houses in the vicinity of the Mill, used as boarding houses for the operatives.

One store house on Parker street, and one on Rock street.

A schedule of property may be seen at the office on the day of the sale.

The sale will be positive on that day unless withdrawn under a provisional vote of the Corporation, of which due notice will be given by posting up to this advertisement.

Terms—Five per cent. to be paid at the time of the sale. Fifteen days allowed for examination of title and to complete the payments in cash or its equivalent on delivery of deeds. Title to be satisfactory.

For further particulars apply to the Treasurer. Per order of the Committee of Stockholders.

Coal at Cost.
The Eagle Hill Mutual Coal Company.
The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to
JOHN S. HARVEY,
Je20 47 Congress st., Portsmouth.

COAL AT COST.
EAGLE HILL MUTUAL COAL COMPANY.
This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who have been successful with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 4000 stockholders, has delivered coal at a saving of 32 to 84 per ton from regular market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the facts, will soon be convinced that combinations of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians and Surgeons of the World) for obtaining the latest, as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick, and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, which have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to guide them to the path of health, and to save thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoicing in the blessings of a healthy and happy life. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage.—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package. Price, one dollar per box.

☞ Orders must be addressed to the Proprietor, with the money, or the money will be sent at Mr. Teller's expense, by express, or any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

SPANISH ROUGE,
FOR POLISHING,
XL
Or Cleaning Gold, Silver, Silver Plated, Brittania, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For the purpose intended this article cannot be beat. Twenty-five cents invested in a package of this, will add more to the looks of a home than one hundred dollars spent in new ware. Every article of any kind of metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which causes a smile upon the faces of all. The labor of keeping every article of metal polished with the Spanish Rouge is reduced to a mere pastime and pleasure. It removes the tarnish at the brush of the hand. *It is a mineral without any composition whatever, therefore can do no harm.*

Put up in three different qualities, for the finest Gold to the coarsest Metal.

Try the Spanish Rouge, and it will become a household word and a great assistant. Every person who has a ring or earring, or a door knob, or a manufactory, needs it. For sale by Druggists and Grocery Dealers everywhere.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 and 9 SOUTH STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and extensive experience in these diseases, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three dollars and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

DR. SIMEON SWETT'S
FAMILY MEDICINES
Need only be known to be universally esteemed.
FAMILY PILLS.—The Pills are wholly Vegetable, and although effective, are an easy and safe physic for the most feeble constitutions, and have proved effectual for the following Diseases: Headache, Dysentery, Fits, Pain in the Side, Stomach and Bowels, Jaundice, Liver and Spinal Complaints, and all kinds of Bilious Disorders.
N. B.—Every one who buys and uses these Pills, shall have all the pay refunded, if he finds them not worth all they cost.
DR. SWETT'S PANACEA, for Cancers, Leprosy, Salt Rheum or King's Evil, Erysipelas or St. Anthony's Fire, Canker in the Throat or Mouth, Rising in the Head, Sore Eyes, and Consumptive Complaints.
VEGETABLE ANTI-DYSPEPTIC BITTERS.
VEGETABLE CATHARTIC CONSERVE, for Piles, Dyspeptic Complaints, and Costiveness. It is a pleasant, easy, sure, and highly-recommended Physic for Children.
HUMOR WASH.—This preparation speedily cures sores and pimples of the face. Its immediate efficacy is its recommendation.
COMPOUND CORDIAL OF DANDELION, SPIKENARD AND BONESET—a remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
NERVE LINIMENT highly recommended for Rheumatism, Pain in the Head, Breast, Back or Joints, Stiff Neck, Sore Throat, Croup, the Piles, Sprains, &c.
☞ The above, with other valuable Preparations, for sale by DR. S. SWETT, No. 7 High St., PORTSMOUTH. Orders by mail or express, promptly filled. my8

U. S. SANITARY COMMISSION
ARMY & NAVY CLAIM AGENCY.
No Charge for Services.
S. HOLMAN, Local Agent,
Office, No. 5 CONGRESS STREET, (up stairs.)
The U. S. SANITARY COMMISSION desiring to relieve Soldiers, Sailors, and their families from the heavy expenses usually paid for the prosecution of such claims, have established this Agency, to collect pensions, arrears of pay, bounty and other claims against the Government, WITHOUT CHARGE OR EXPENSE OF ANY KIND WHATEVER TO THE CLAIMANTS.
On application sent to this Agency, stating the name and post office address of the claimant, the name, rank, company, regiment, service, and date of the soldier on whose account the claim is made, date of discharge or death; the proper blanks will be filled out as far as possible and forwarded to the person applying. These can be executed and returned to this office, where the claim will be prosecuted to a final issue in the shortest possible time. jy7

American and Foreign Patents.
E. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has made it business for life to serve, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.
Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically treat and safely remove obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed to the communication stating particulars will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicine securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secresy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also of Venereal Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
☞ Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, AUGUST 5, 1865.

"Thank Heaven the war is over," was the fervent ejaculation of a good old lady of Danville; "and may our court house never be burned down again, for that was the cause of this whole war. They wanted to tax the South to build it up again, and the South wouldn't be taxed, so they went to fighting."

This old lady's ideas were about as clear as were Pres. Buchanan's when he expounded State Rights, saying, a State has no right to secede, but the U. S. have no right to coerce a State. Just about as clear as any of that school who refuse to see that there is and must be an irrepressible conflict between right and wrong, and so look at all manner of secondary causes of strife and contention, vainly expecting to get rid of trouble by some petty expedient, instead of resolving to stand by, simply doing right.

Chief Justice Chase is in Boston.—Wherever he is we hope he will stop making political speeches while he occupies his present position.—*Exchange.*

He has a high precedent. His predecessor made a *political speech*, on the Bench, in open Court, designed and intended to make chattel slavery rational and perpetual in defiance of all sound law and true gospel.

Mr. Graham of North Carolina is reported to have said that under no consideration will he consent to the return of North Carolina to the Union, if the adoption of negro suffrage is made a condition. This is one of the logical consequences of secession. Mr. Graham must take the ground that he is a State in himself. *He* will not return to the Union unless his wishes are complied with, and will set himself up as an independent sovereign power, and claim the right to raise armies, levy war and emit bills of credit. The latter we doubt not he has already done, if he has found anybody to take them. As negro suffrage is certain to come, we advise Mr. Graham to negotiate with England and France as to their "neutrality" and his "belligerent rights."

Washington Items.—The officers who returned from their trip with the conspirators to the Dry Tortugas, say that Mudd freely admitted that he knew Booth when he came to his house on the morning after the assassination, but that he was afraid to tell of it.

Ford's Theatre has been cleared of all the theatrical furniture, scenery, &c., and the floors are being torn up. The entire interior of the building is to be remodeled under the direction of the Secretary of War, preparatory to the use of the Bureau of Rebel Archives and Relics.

"Benjamin F. Butler, Massachusetts," as he signs himself on the hotel register, is still here. He tried again to get an audience with President Johnson, but failed in consequence of the illness of the latter.—The real object of Gen. Butler's visit is to obtain the acceptance of his resignation or an order to duty.

Crops in Alabama. — The New Orleans Picayune has intelligence from Alabama that a much larger breadth of ground has been planted to cotton than generally supposed. The plant is everywhere healthy and vigorous, and no destructive insects have yet made their appearance among it. Corn is splendid, immense fields wave rich with it, and the harvest will be much larger than ever gathered before. New flour and wheat were long since in market, and the people will have plenty wherewith to drive the wolf from the door, and a surplus for market.

Tennessee.—In Nashville, the secesh candidate, Campbell, carried the city by 231 majority. It is now expected that he will carry the District by 2000 majority. Over 2000 votes were cast in that city more than were registered voters. Elsewhere, the Union candidates for Congress are said to be ahead.

Mexico, Texas, &c.—Advices received at New Orleans July 25, from Brownsville, say that Cortinas has been defeated in an engagement with Lopez, between Matamoras and Camargo. Cortinas returned to the Texas side of the river, leaving his forces in the hands of his enemy. Gen. Steele and three of his officers are sick with backbone fever. There is sickness among our troops, scurvy being the prevailing disease.

Yellow fever is developing itself at Matamoras. Many planters are bringing in their corn crop.

Five thousand colored troops occupy the coast from "Indianxula" to Victoria, many of whom are engaged in rebuilding the railroad.

A party of Kickapoo Indians recently made a raid on the Texas frontier, killing and wounding a number of persons, and stealing many horses.

The number of bales of cotton received at Mobile since the Federal occupation is 38,250.

NEW HAMPSHIRE ITEMS.

——Several prominent Unitarian clergymen of New York and Boston are to preach at different places in New Hampshire, this month, under the auspices of the Unitarian Association, who consider this State a good field for labor.

——Tuesday morning, when the fires down train from Concord was passing along below Hooksett Bridge, a man was discovered lying upon the track in a dying condition. It is supposed that while he was sitting on the rail the night before, he was struck by the engine of the express train. The man proved to be Rodney Martin, who lived at Martin's Ferry. He died Wednesday. He was about 23 years of age.

——Inquiry has been made of us concerning the coming home of the Second N. H. Regiment. Upon inquiry, we learn that the Regiment is not expected for the present, they being employed in Virginia, where their services will be required until after election.—*Monitor.*

—— Nicholas G. Dudley, who for many years has had the charge of the grist-mill, in Laconia, was found drowned in the flume under the mill last Saturday morning. A trap door opening down to the flume and machinery below the mill was open, with Mr. Dudley's hat laying on the floor near it. The facts and particulars of the case indicate that the deed was intentionally committed.

—— A son of Mr. Stillman Hutchinson, of Milford, last week fell from a scaffold on the stake of a cart, which passed entirely through his body, severing a large artery. The wound was dressed by Dr. Dearborn, and there is a prospect of his recovery.

—— On Dover "Neck," where people seldom die except of old age, lives Capt. Thomas Card, upwards of 90 years, who does his own mowing, and rows his boat to Portsmouth and back occasionally, a dozen miles or more, as smart as the youngest who were born after he had passed the line of three score and ten.

—— An Irishman by the name of Peter Keenan was drowned last Sunday while bathing in the river near Squall Point, Dover.

—— A turtle weighing thirty pounds was caught by John Hines of Laconia, near Centre Harbor last week.

The Conspirators' Stories.—Gen. Dodd, who had charge of the conspirators on the trip to the Dry Tortugas, reports that Dr. Mudd acknowledged that he knew Booth when he came to his house, but was afraid to tell of his being there, fearing that the life of himself and family would be endangered thereby. He also acknowledged that he was acquainted with Booth for some time, and was with Booth at the National Hotel on the evening referred to by Weichman; that he introduced Booth to John H. Surratt on the street, and then went to Booth's room in the National, where Surratt and Booth had a private conversation. He said the Military Commission had done their duty in his case, and the sentence was just.

O'Laughlin acknowledged that the court had done its duty; but insisted that he was only implicated in the plot to capture the President. Arnold made a similar statement, saying he believed the assassination was gotten up by Booth a few hours before executing it. Spangler insisted that he had nothing whatever to do with the assassination.

☞ The New York Citizen says, "A number of up town ladies of fashionable position and excellent heads of hair, are organizing themselves into an anti-waterfall society." We are glad of it, if true; for what a fall was there, my countrywomen, when you took it into or onto your dear heads to be "double-headers"—for we have actually seen young ladies with waterfalls as large as their heads.—And the above extract reminds us of a little incident which amused us greatly the other day. Coming through a back street, we met one of the smallest pattern of boys,—a nice miniature man,—just picking up the tail of a horse. "Hallo! says he, I've found a nice brush; nice brush, aint it?" "That,—that's a horse's tail, we told him; a horse's tail." "Yes, says bub, a horse's tail—*horsey lost it off*, didn't he?" We kept on.

— Albert L. Starkweather, the Connecticut murderer, says he killed his mother and sister for their money, that he might marry a woman who would not have him till he paid his debts. He is now suspected of other deeds of death and arson, and is likely to marry no other than "the ropemaker's daughter."

— The N. Y. Tribune is informed by one who was present, that much of the talk at the Jeff. Davis meeting in that city was treasonable. No doubt of it.

— The Lewiston Journal says the Rockomeka Factory at Livermore Falls, (lately a milk condensing factory, now a cheese factory,) is not taxed, coming under a special exemption. The probable intent of the exemption was to nurse new enterprises. Certainly milk is a very proper and useful article for nursing purposes.

Our New Zealand Correspondence.

Port Chalmers, Otago, N. Z., May 18th.

Dear Chronicle:—As I have nothing else to write about, you must excuse me for continuing my report of the great Maori war. The gigantic struggle still proceeds, and is prosecuted with unprecedented vigor and success, two men having been killed since I wrote my last letter, and two unoccupied "pahs" captured. The Maori can't stand it much longer—he's like the Northern States, on his last legs, and may be expected to give in about the same time that Abraham says to the Secesh, "Go! and sin no more."

In my last I mentioned that fears (or *hopes*) were entertained that the Boston schr. "Lubra" had been captured by the rebel pirate Shenandoah—I'm very glad to be able to tell you that she has safely arrived at Sydney. The A. W. Stevens has not been reported, as yet, but as the Shenandoah is in Port Davis, in Van Dieman's Land, making some alterations on her decks, I have no fears for her safety.

We have had a genuine rain-storm in this part of the world, if it is a part of it at all—some people think it to be the place of punishment visited by Dante in his Vision, but that he didn't describe the scenery very well. The rain commenced to fall on a Saturday evening, and between that time and Monday morning 5. 23 inches fell, according to the rain gauge at the government observatory. I never saw so much before, nor such an awful mess as it made, neither. The streets in Dunedin were washed away, and so would those of Port Chalmers have been, had they been made, which they aren't. The hills slid down and smashed houses and shops, and the water flooded stores and cellars to any amount. One hotel keeper in town had his billiard table on his lower floor, and when he found the water rising he put a lot of empty casks beneath it, and as the room filled they buoyed up the table, thereby saving it from being injured, if not destroyed, and at the same time affording a refuge for a large number of forlorn rats. Sales of damaged dry goods and provisions have been the order of the day, ever since.

But Dunedin, at the time of he rain, was in a political fix, a singular jam. The so-called city has for some years been governed by a "Town Board," elected by the rate-payers. Two of their number, named Bastings and Grey, (friends of the people) had made themselves obnoxious to the Provincial government, and that august body had passed a bill, abolishing the "Town Board," and appointing three "Commissioners," to act in their stead. But the members of the Board were patriots, and refused to be abolished—they called a meeting, appointed a Committee, caused the Town Clerk and City Engineer to skedaddle, locked, bolted, barred, nailed, and barricaded the doors and windows of the Town Offices, pocketed the keys, and laughed the Commissioners to scorn. The latter gentlemen, finding themselves stubbornly resisted, resigned, and Government was puzzled. A Brilliant Idea! Appoint Messrs. Bastings & Grey on the Commission! No sooner said than done. The "friends of the people" were named, (at a good fat salary,) the keys were produced from the pockets of the chairman of the Town Board Committee, (Mr. Bastings,) the Town Board was circumnavigated, Virtue stands triumphant, and Vice has met with its just punishment. O! ye base American place-hunters! ye venal Yankee politicians! aren't you ashamed of yourselves! Virtue dwells at your antipodes.

We've got a patriotic editor out here, too—who does all the writing for the "Saturday Review," pats the same in type, works it off, and then supplies the public, by traveling on foot around the town and adjacent country, selling his papers at sixpence the copy. He was formerly master of the high school here, but was invited out, as his politics didn't suit. He has an awful "down" on the Otago Daily Times, which respectable publication he styles the "Jew's Harp," (the editor of that paper is a Hebrew,) while he speaks of its editor as the "Wandering Jew." Mr. J. G. S. Grant (that's the patriot's name,) has been twice horse-whipped—once in the main street of Dunedin, and once in the Theatre; beside which he has been twice before the Supreme Court for libel. But such paltry persecutions totally fail to intimidate him, and his paper comes out as regularly as though such things as horse-whips and adverse verdicts were known only in history. He has plenty of room to indulge his disposition for improving government and society, for the abuses are not only glaring but innumerable: he is a scholar, and by no means a contemptible writer—'tis a great pity he's a blackguard.

But Port Chalmers, small as it is, is not lacking the patriotic leaven, which is manifested in the people's refusal to pay taxes. Headquarters having given power to the School Committee of the various districts to levy rates for the support of schools, the Port Chalmers Committee called for a tax of sixpence on the pound sterling; the rate-payers vowed they wouldn't pay; lawyers were engaged on both sides; public meetings were held, and many speeches, of the "Britons-never-will-be-slaves" order, were made; the unterrified engaged a band to play "See, the conquering hero comes," if they won the case, and the "Dead March," if they lost it; each side conclusively proved the other to be composed of rogues and vagabonds; two trials were had of the merits of the case, and then the whole affair was dismissed on account of an informality in the assessment, causing great glorification among the P. C. politicians.

All the foregoing has been written to benefit your readers, so now I am going to do good for the country at large. There can be no doubt that in case of a war taking place between England and America, the first point to which Yankee cupidity would direct its attention would be Otago. Of this I am well assured, having been informed of it by the Dunedin papers every month for the last three years. But Otago is safe! The Volunteer Naval Brigade has been presented with a long sixty-eight, and the way it gets handled, when the volunteers are going through their big gun drill, bodes ill to any unhappy man-o' war that may come within its range. You may inform the Secretary of the Navy that 'tis of no use to send anything but ironclads here, as the gun is warranted to be effective. I am personally acquainted with the carpenter who made it, and I know that he never shams his work. But we don't trust altogether to the gun. On the coming 24th of May (the Queen's birthday) we are to have a grand presentation of colors, by the ladies of the Port to the Naval Brigade, in honor of the fighting they are going to do. Our defences will then be complete. When the flag is proudly displayed over the heroic band of Naval gunners, should Jonathan send anything in the shape of a wooden ship to annoy us, her fate will be sad indeed. She must expect to be all shot away above the water line, and her surviving crew captured. Should such an occurrence take place, the unhappy prisoners will find a sincere sympathizer in your correspondent Ice.

— Great excitement took place in Newport, R. I., a few nights since, on account of a child four years of age having been missing. Search was kept up the whole night, and all hope of the child's recovery was lost, but about 7 o'clock in the morning it crawled from under its own bed, where it was asleep all night.

☞ Subscribers will confer a favor, and facilitate the prompt delivery of their papers, by *immediately* informing us of any deficiency or irregularity of our Carriers. All papers should be delivered before 7 o'clock—and all subscribers should furnish a secure place of deposit for their papers. We will give $10 reward for evidence to convict any person of stealing a copy of the Chronicle. Our Carriers are not allowed to sell copies of the paper.

Have you tried Dr. Bicknell's Syrup? There is nothing equal to it, for Bowel Complaints, Diarrhea, Dysentery, Pain or Cramp in Stomach or Bowels. It contains no opiates, and is safe and reliable.

For sale in Portsmouth by THACHER.

'Tis Not a Fable.—The immense and universal demand for the Fragrant Sozodont, is a marvel in the annals of Dentistry. It exceeds all other dentifrices combined.—Neither acid from the stomach, nor any other corresponding element generated by indigestion, can effect a set of teeth regularly purified by this Fragrant Vegetable antiseptic and preservative. an2 1weod 3

A GENTLE STIMULANT.

There are many sick persons who become tired of the use of whiskey. The Concentrated Extract of Rye contains all that is valuable in whiskey, without its hurtful ingredients. C. A. RICHARDS, Boston,

A FEW REASONS WHY THE

AMERICAN WATCH

IS THE BEST.

It is made on the best principle, while the foreign watch is generally made on no principle at all. The foreign watch is mostly made by women and boys, by hand. While their labor is cheap, their work is dear at any price. Such watches are made without plan, and sold without guarantee. They are irregular in construction, and quite as irregular in movement. They are designed only to sell, and the buyer is the party most thoroughly sold. Those who have kept "anores," "lepines," and "Swiss levers," in professed repair for a few years, will appreciate the truth of our statement.

THE PLAN OF THE AMERICAN WATCH

Instead of being made of several hundred little pieces, screwed together, the body of the American Watch is formed of SOLID PLATES. No jar interferes with the harmony of its working, and no sudden shock can throw its machinery out of gear. In riding or any business pursuit, it is all held together as firmly as a single piece of metal. It is just what all machinery should be—

1st. ACCURATE. 2d. SIMPLE. 3d. STRONG. 4th. ECONOMICAL.

We not only secure CHEAPNESS by our system, but QUALITY. We do not pretend that our Watch can be bought for less money than the foreign *make-believes*, but that for its real value it is sold for one half the price.

OUR SOLDIER'S WATCH (named Wm. Ellery) is what its name indicates—Solid, Substantial, and always Reliable—warranted to stand any amount of Marching, Riding or Fighting.

OUR NEXT HIGHER QUALITY OF WATCH (named P. S. Bartlett) is similar in size and general appearance, but has more jewels, and a more elaborate finish.

OUR LADIES' WATCH, recently brought out, is put up in a great variety of patterns, many of them of rare beauty and workmanship, is quite small, but warranted to *keep time.*

THE PROOF of the merits of our Watch may be found in the fact that we now employ over seven hundred workmen in our factories, and that we are still unable to supply the constantly increasing demand.

OUR THREE-QUARTER PLATE WATCH is thinner and lighter than the others we have described. Its fine chronometer balance is delicately adjusted to correct the variation caused by changes of temperature. These watches are the fruits of the latest experiments in chronometry, and are made by our best workmen, in a separate department of our factory. For the finest time-keeping qualities they challenge comparison with the best works of the most famous English and Swiss makers.

ROBBINS & APPLETON,

Agents for the American Watch Company,

Jy28—1m 182 Broadway, N. Y.

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. Had he not at once consulted to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all dealers in Medicines. je29dawlm

I COME AGAIN!

Portsmouth, Aug. 5, 1865.

Special Notices.

PURE OLD HOLLAND.

There are many old people and others who use a little good old Holland Gin occasionally. To all such we would recommend the celebrated Dunster's London Dock Gin. Sold by grocers and druggists almost everywhere. C. A. RICHARDS, No. 99 Washington St., Boston, Wholesale Agent. 9

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers her

SOOTHING SYRUP

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and can *say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

1eDa26dsmpu

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—**$1 per Bottle.**

TEBBETTS BROS., Proprietors, Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. ap5ed3md

CLOCK'S

Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown. It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; cause a hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 11 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, 2 Congress Block.

FRANK B. CLOCK, Druggist and Chemist, Proprietor, Manchester, N. H. ja

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*

Please inclose a stamped envelope, addressed to yourself.

Address JOSEPH T. INMAN, Station D, Bible House, d3eendaw New York City.

☞ **A Physiological View of Marriage**—Containing nearly 300 pages, and 130 fine Plates and Engravings of the Anatomy of the Human Organs in a state of Health and Disease, with a Treatise on Early Errors, its Deplorable Consequences upon the Mind and Body, with the Author's Plan of Treatment, the only rational and successful mode of cure, as shown by the results reported. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of 25 cents, in stamps or postal currency, by addressing Dr. LA CROIX, No. 31 Maiden Lane, Albany, N. Y.

The author may be consulted upon any of the diseases upon which his book treats, either *personally* or by *mail*, and medicines sent to any part of the world. mch18—3mdawsn

Manhood!

Removal,

DR. PERRY has removed to **No. 8 High Street**, (East Side), fourth dwelling-house from Market Square. a7

Local.

☞ Mr. B. Frank Foster, of this city, whose death we chronicled a few days ago, was what we call an "old" young man—that is, he had seen and suffered much for his years, and was prematurely run out. He was living in New York in 1847, and enlisted in Col. Stevenson's Regiment for the Mexican campaign; and when that officer called for volunteers to print the orders and laws of California, Mr. Foster was one of the craft who stepped from the ranks and assisted. He afterwards did considerable work for the State, and the City of San Francisco; was one of the founders of the "Alta California" newspaper, and part proprietor of other prints; and at one time had a large fortune, which he lost again in the ups and downs of that region. He was finally stricken down with paralysis, which is so fatally common in California; and partially recovered, and came home only to lay his wearied bones with his fathers, among whom,

"After life's fitful fever,
He sleeps well."

☞ Chief Justice Chase, in company with Hon. Samuel Hooper of Boston, arrived in this city on Thursday evening on the iron-clad Dictator, and was the guest of Ex-Gov. Goodwin.

☞ The iron-clads Dictator and Agamenticus and the steamer Vanderbilt are in the Lower Harbor.

POLICE COURT, August 3d.—Mary Jane Berry we are compelled to state—with all due respect to her sex—is a disgrace to the gender. She has sunk so low into the mire of wickedness that she has become part and parcel of the same, so that filth, wickedness and Mary Jane Berry are synonymous, and letters addressed to her in either of these appellations, carefully sealed with red stamp enclosed will be promptly appropriated, without doubt, altho' we are not authorized to make this statement and perhaps ought not to. But this point we will not dwell upon, as we are to show the interested reader the manner in which this offender against human law is punished.—She has a bad habit of prolonging her evening strolls to a late hour at night, and this custom gave her the title of night-walker, which was all that was requisite for an introduction to the police, and she was accordingly inducted through the various processes of law, until she arrives at the House of Correction, where she will stop about 3 months, and then pay $4.63, or continue there 3 months longer.

Here is a strong argument against the practice of eating oysters at this season of the year, or in fact at any time of the year except during those months that have an "R" in them. (Cut this out, and paste it on the cellar door or in some other conspicuous place.) Rose Cunningham and Margaret Sullivan have an irresistible relish for the bivalves, and following out their desires enter Freeman's saloon, and having discussed a number of "fancy roasts," prepared to leave; but in so doing, cast their longing eyes towards the scene of their late repast, and discovered a pepper-box, (very common articles in an institution of this kind.) Now it occurred to Rose that such an article would be convenient as a weapon of self-defence, in case the virtuous pair should be attacked on their way to their respective places of abode. Margaret urges her to pocket it, and Rose confiscates it, hides it, the proprietor of the saloon misses it, the policeman finds it, and the pepper-box, policeman, Miss Cunningham and Miss Sullivan go to the lock-up. There the latter pleads that she should be set free, as she has a dead child at home—at the same time informing the policeman that it died of the small-pox, and thus dampens the curiosity of the vigilant officer, who is not disposed to make a personal investigation of the matter, preferring to take Margaret's word. So she goes home, but her companion remains and sweltens in cell No. 5 all night and in the morning is taken before Justice Odell and is fined $3 and costs $3.86. *Moral*—never eat oysters.

James Rogers, drunk, fined $3, and costs $3.86. Committed.

Henry Whitcomb, do.

"FORCING" CHILDREN.—By this we do not mean the frequent infernal assaults reported in the papers of late; but the hardly less outrageous "cramming" of the brains of tender youth, in schools. For instance, the father of one of our carriers (a boy of good parts,) told us, recently, that his son would be obliged to leave his route, as he was crowded so hard by his studies, at school and at home, to get into the next higher school, as to get so wearied as to fall asleep at the table!

We answered him that he would do as he pleased with his own; but *our* idea was, that besides losing his $40 or $50 a year for pretty and pleasant work for a couple of hours in the morning, that course was very likely to ruin the child. It is the opinion of the best educators, that children should never see a school-book out of the school-house; and it were certainly better that a man or woman never knew how to read, write or cipher, than that their health should be injured.

☞ Lieut. Napoleon B. Harrison, formerly of the South Atlantic Blockading Squadron, has been ordered to the Portsmouth Navy Yard.

☞ The celebrated Peak family of bell-ringers are coming here next week.

☞ As we anticipated, in our list of large taxpayers in Boston who are "Sons of Portsmouth," some omissions have occurred. By the Transcript's list, we perceive the income of Geo. K. Hooper to be $15,981, a snug little sum for one who, twenty-five years ago, was a poor boy without a friend to help him; but then George is a shrewd man, and believes in advertising.

☞ A mutiny occurred on board the ship Albert Gallatin, which cleared from St. John, N. B., on the 25th ult. for Liverpool, during which Capt. Delano, her commander, was severely injured. Eleven of the mutineers had been lodged in jail, and a severe punishment meted out to them. The St. John Globe says that Capt. Delano was able to go out on Sunday.

— A confidence woman has been operating quite successfully in Fall River. She pretended to be the widow of a soldier, and the sole support of four little children and a blind mother; but she wasn't.

— The barley, wheat and hay harvest in Western New York is mostly finished, and the crops were secured in good condition. The oat harvest is now progressing; weather fine but rather dry.

☞ Subscribers will confer a favor, and facilitate the prompt delivery of their papers, by *immediately* informing us of any deficiency or irregularity of our Carriers. All papers should be delivered before 7 o'clock—and all subscribers should furnish a secure place of deposit for their papers. We will give $10 reward for evidence to convict any person of stealing a copy of the Chronicle. Our Carriers are not allowed to sell copies of the paper.

Have you tried DR. BICKNELL'S SYRUP? There is nothing equal to it, for Bowel Complaints, Diarrhea, Dysentery, Pain or Cramp in Stomach or Bowels. It contains no opiates, and is safe and reliable.

For sale in Portsmouth by THACHER.

'TIS NOT A FABLE.—The immense and universal demand for the Fragrant Sozodont, is a marvel in the annals of Dentistry. It exceeds all other dentifrices combined.—Neither acid from the stomach, nor any other corresponding element generated by indigestion, can effect a set of teeth regularly purified by this Fragrant Vegetable antiseptic and preservative. an2 1weod 3

VINELAND LANDS.
To all Wanting Farms.
Large and thriving settlement, mild and healthful climate, 30 miles south of Philadelphia by railroad. Rich soil, producing large crops, which can now be seen growing. Ten, twenty, and fifty acre tracts, at from $25 to $35 per acre, payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Pamphlets giving full information will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*
From Report of Colon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.
Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; 2000 for sale. Price $40 per share; $50 per Share after August 1.
Stock full paid, and no individual liability. Company organized under the General Law of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.
We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in GOLD. Any Clergyman, Insurance Agent, or Cashier of Bank is authorized to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York, R. W. G. FREEMAN, Esq., Cashier of the Atlantic Bank, 145 Broadway, or HERMAN CAMP, Esq., 25 Nassau Street.
Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion at the net profit of $3,000 per day, or $1,000,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock on market subscribe quickly.
THOMAS SPROUL, President.
S. S. HUTCHINSON, Secretary.
Office: 80 BROADWAY, over AM. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all officers who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make these 25 to 50 dollars every day. State and county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business.—Will pay $5 to $20 per day. This is no patent right or medical humbug, but an article of merit, needed by every body, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHITNEY & SON, No. 5 Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or Food, or the hardships of a military life, will find Dr. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately change the character of their system*—thus arresting the cause of their weakness or debility. Through its action in the blood, it will expel all *Humors and Impurities*, that are worse for slow but certain effect, invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.
Prepared by Dr. S. O. RICHARDSON, M. D., who has had thirty years' successful practice as a physician.
The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, Boston, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.
For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past the door of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.
BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.
FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.
In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 103 Court Street, Boston.

SAVE YOUR MONEY!

Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.

Wilbor's Monitor Hair Dye

Is superseding all others. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.* Manufactured only by ALEX. B. WILBOR, Chemist, No. 103 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, and Jan. 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

And all the work of a Family *of any size,*

AT LESS THAN

One-Third the Cost of Wood or Coal!

THIS NEW

PETROLEUM Cooking APPARATUS

IS WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in 15 minutes
Common potatoes baked " 30 "
Flour Biscuit baked " 15 "
And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

Portsmouth Steam Factory for Sale.

Pursuant to resolutions passed at a special meeting of the Corporation holders at Portsmouth, N. H., on the 17th inst., will be sold at Public Auction, at the Mills of the Company, at said Portsmouth, on MONDAY, the seventh day of August next, at 11 o'clock A. M.,

All the Real and Personal Property of the Corporation situate and being in said Portsmouth, comprising the following, to wit:

The Steam Mill, 200x50 feet, stories high, with two wings, each 100x30 feet, with extensive dye house and bleachery of the most approved construction, with all the machinery, fixtures, tools, furniture, materials and supplies. Much of the machinery is new and all capable of immediate production, and the Mill has a capacity equal to thirty thousand dozen of spool cotton per week.

The Sagamore Mill, so called, now under lease to the Rockingham Mill and subject thereto.

A Dwelling House on Islington street, usually occupied by the Agent of the Factory.

Also, 14 houses in the vicinity of the Mill, used as boarding houses for the operatives.

One store house on the River street, and one on Rock street.

A schedule of property may be seen at the office on the day of the sale.

The sale will be positive on that day unless withdrawn under a provisional vote of the Corporation, of which due notice will be given by posterpt to this advertisement.

Terms—Five per cent. to be paid at the time of the sale. Fifteen days allowed for examination of title and to complete the payments in cash or its equivalent on delivery of deeds. Title to be satisfactory.

For further particulars apply to the Treasurer. Per order of the Committee of Stockholders.
WM. S. EATON, Treasurer,
No. 9 Merchants' Row, Boston.

Coal at Cost.
The Eagle Hill Mutual Coal Company.
The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to
JOHN S. HARVEY,
Je20 47 Congress st., Portsmouth.

COAL AT COST.
EAGLE HILL MUTUAL COAL COMPANY.
This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its Officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and has the advantages can mine cheaper than most others. It has been operation over six months, has more than 4000 stockholders, and delivered coal at a saving of 33 to 34 per ton from regular market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the facts, will see at once that the croakings of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and including many cases (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated and Indolent Sore Throat, Sore Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of life, should at once notified them in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and happy. Young men should be made aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.
A book for everybody.—Sent free. Disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price $1 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Ichoo's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from observation or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the
MAGEE COOK.

Also on hand an assortment of the different sizes of
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection is common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

SPANISH ROUGE,
FOR POLISHING,
XL
Or Cleaning Gold, Silver, Silver Plated, Brittania Brass, Tin, Steel, Iron, Glass, Leather, or Metal of all kinds. For the purpose intended this article cannot be beat. Twenty-five cents invested in this article will go much further to the looks of a home than one hundred dollars spent in new ware. Every article of any kind of metal about the house can be brought to look like new. How much pleasanter all are when everything looks bright and clean, which causes a smile upon the face of all. The labor of keeping every article of metal polished with the Spanish Rouge is reduced to a mere pastime and pleasure. It removes the tarnish at the touch of the hand. *It is a mineral without any composition whatever, therefore can do no harm.*

Put up in three different qualities, for the finest Gold to the coarsest Metals.

Try the Spanish Rouge, and it will become a household word and a great assistant. Every person who has a ring or earring, or an engine manufacturer, needs it. For sale by Druggists and Grocery dealers everywhere.

Important to the Afflicted.
DR. DOW continues to be consulted at his offices, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate sufferer with a remedy, which he has first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases arising from self-abuse, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who prefer to come to Boston for treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Female Pills, warranted to give relief. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, of No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow has agency and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1865. eod&wly

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837,
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantage for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove this to be MORE SUCCESSFUL AT THE PATENT OFFICE than the number and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The unusual success of the Agency during the twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* in mechanical, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN LEGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents. **R. H. EDDY.**
Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT
TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to the females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 66 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicine securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address DR. BRISCOE, at No. 63 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with good nurses. Charges moderate.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, AUGUST 7, 1865.

WASHINGTON ITEMS.—According to the records of the Smithsonian Institution, the storm of last Saturday was in some respects very remarkable. The quantity of water which fell in little more than half an hour was nearly five inches, or about one-eighth part of that which falls in a year.

Captain Drayton, U. S. N., Chief of the Bureau of Navigation, is dangerously ill, with but a slight prospect of recovery.

General Thomas Francis Meagher has been appointed by the President, Secretary of the Territory of Montana—a fifteen hundred dollar appointment.

AN IMPORTANT GOOD ORDER.—Gen. Hancock, commanding the Middle Department, has issued an order, which says paroled prisoners of the late rebel armies, who have not been pardoned by the President, will, on their arrival within the limits of this Department, report their presence and residences immediately to the present Provost Marshal, and register their names.

If non-residents of this Department, and not allowed by the terms of their parole to enter the Department, especial authority must be shown and filed under which they are found there, and in order that the authority be valid, must be from an officer having power in the premises to allow the persons of the latter class to remain within limits of this department, and requires the sanction of the department commander, or of higher authority; that of another department commander is not sufficient. No person of the class named will be allowed to visit the city of Baltimore without a permit from the headquarters of higher authority.

SHERIDAN ON MEXICO.—A meeting in honor of the Mexican Republic, represented in the United States by General Ortega, was held in New York Wednesday evening. The gathering was large and enthusiastic. An extract of a letter from Gen. Sheridan was read, in which he said: "There is no use to beat around the bush in this Mexican affair. Our work in crushing the rebellion will not be done until this takes place. The advent of Maximillian was a part of the rebellion, and his fall should belong to its history. Most of the Mexican soldiers in Maximillian's army would throw down their arms the moment we crossed he Rio Grande. The French influence has governed by sheer impudence."

These words were greeted by all present with pleasure and delight.—So say the papers.

VIRGINIA.—Several wealthy Northern capitalists have agreed to furnish the capital necessary to complete the repairs on the James River and Kanawha Canal, which was nearly ruined by the repeated raids of our cavalry during the last three years. The amount required to restore it to its original condition will be several millions of dollars.

Advices received by the Freedmen's Bureau from all portions of Virginia and North Carolina are to the effect that the corn crop will be sufficient to feed the population of those States until the next harvest. The tobacco crop in Virginia will be very light this season, but very little having been planted.

The Colored Men's Convention at Alexandria, on Friday, adopted another address, setting forth why they were entitled to the privileges of freemen. In the course of the discussion Governor Pierpont was roughly censured, and accused of selling out negroes at auction when he removed the seat of his government to Richmond. An anonymous letter was received, postmarked Washington, threatening to put the leaders of the convention under the sod before the falling of the autumn leaves, if they persisted in their objects. This caused great excitement and a fierce debate. The speakers said they were not to be intimidated, and finally the subject was disposed of by throwing the letter under the table.

[Jefferson described those murderers of the President, and would-be murderers of free negroes, exactly, when he pictured the products of slavery.]

VIRGINIA LEGISLATION.—The Transcript says that Virginia legislation remains the same as before the war with respect to the rights of the negro. Every provision of the slave and free colored code is on the statute book, as well as the law obnoxious for the searching of the United States Mails by the postmasters, for seditious publications, and making every man a sheriff or police officer and judge, to arrest any person who may, in his judgment, be making anti slavery speeches.

GOLD, Saturday, 143 1-2. Only $38,000 went out to Europe.

— The British loss in men during the Revolutionary war was 24,853, and that of the Americans 9696. At Lexington the British loss was 273, and ours 84. At Bunker Hill the British lost 1054, and the Americans 453. At Bennington the English loss was 800, and ours 100.

SOMETHING THAT "SUITS" US.—The readers of the Chronicle will perhaps remember or recollect, that our Jotter, writing from Hanover at Commencement, had somewhat to say about dirt, the Dartmouth Hotel, and the landlord thereof. His precise words were:

"Now the landlord at the Dartmouth House is no doubt a very clever fellow, but he don't know how to keep a hotel; and the Trustees of the College, and the citizens of Hanover generally, surely ought to see to it, that a decent public house is provided there. At any rate, when the Governor of the State, and his accomplished lady, are invited to Commencement, somebody ought to see to it, that His Excellency have endurable quarters, without hunting after them in public and private houses," &c.

Well, this was on the 26th July; and just a week after, along comes this precious epistle; in rebound for our quiet charge:
